TERMS OF REFERENCE OF R.C.D.S. COMMITTEES

Preamble

Essenitally the Committees are the *policy-suggesting* arm of the Board. The Board of Directors may adopt, may amend, or may reject any or all recommendations of any committee. The broad terms of reference of the Executive Committee and the Discipline Committee (the Statutory Committees) are outlined in The Dentistry Act of Ontario (Section 8 (4) and Section 25 respectively). The membership of the Executive and Discipline Committees consists entirely of members of the Board of Directors. There is no requirement that the complement of the remaining committees be derived only from members of the Board of Directors. The president is an *ex officio* member of each committee. The following terms of reference of committees were approved at the November, 1963 meeting of Board.

The Statutory Committees

- (1) Discipline
- (2) Executive

1. The Discipline Committee

- 25(1) The Board shall appoint and always maintain a *Discipline Committee* of its own body for the purpose of ascertaining the facts of each case that may become the subject of inquiry.
- (2) The committee shall consist of not more than five members as the Board prescribes, three of whom constitute a quorum.

2. The Executive Committee

- 8(4) The Board shall annually appoint from among its members not more than five persons who shall constitute an *Executive Committee* to take cognizance of and action upon all such matters as are delegated to it or as require immediate action or attention between meetings of the Board, but no action taken by the Executive Committee is valid unless agreed to by at least three members of the committee nor after the next ensuing meeting of the Board unless approved by the Board at that meeting, and the Executive Committee does not have power to alter, amend or suspend any by-law of the Board.

The Standing Committees

- (1) Continuing Education
- (2) Dental Services
- (3) Finance
- (4) Government and Legislation
- (5) Property
- (6) Registration and Licensure

1. The *Continuing Education Committee* (formerly Clinics and Extension Lectures Committee) shall consist of three members.

The duties of the committee shall be:

- (1) To study the need for and development of extramural and extension lectures and effect their activation throughout the province.

- (2) To develop measures to provide the members of the College with opportunities for continuing education by such means as seminars, workshops, and, in co-operation with Faculties of Dentistry, post-graduate courses.
- (3) To prepare, at least once each year, a report to be submitted to the Board of Directors.

2. The *Dental Services Committee* shall consist of six members.

The duties of the committee shall be:

- (1) To supervise the administration of the Dental Welfare Plan contracted between the Royal College of Dental Surgeons of Ontario and the Department of Public Welfare of Ontario and administered by the Canadian Dental Service Plans Incorporated and within the Dental Welfare Plan
 - (a) to recommend the types of service to be rendered,
 - (b) to recommend the fees to be paid to the participating dentists,
 - (c) to suggest changes in the contractual agreement when necessary,
 - (d) to study dental needs of welfare recipients and make efforts to bring about appropriate changes in the Dental Welfare Plan when indicated.
- (2) To study both the need for and development of pre-payment and post-payment plans for dental care services and to recommend accordingly.
- (3) To prepare, at least once each year, a report to be submitted to the Board of Directors.

3. The *Finance Committee* shall consist of three members.

The duties of the committee shall be:

- (1) To serve in whole or in part as the fiscal agents of the Royal College of Dental Surgeons of Ontario acting through and in conjunction with the Treasurer, the Business Manager and such other auxiliary persons as may from time to time be authorized.
- (2) To recommend on the investment and disbursement of funds of the College.
- (3) To prepare an annual budget to be submitted to the Fall Meeting of the Board of Directors.
- (4) To cause all accounts of the College to be audited by a Chartered Accountant at least once a year.
- (5) To prepare, at least once each year, a report to be submitted to the Board of Directors.

4. The *Government and Legislation Committee* shall consist of three members.

The duties of the committee shall be:

- (1) To prepare By-laws or amendments to By-laws when necessary.

- (2) To provide the Board, its Secretary, or any Member or Committee of the Board assistance in the legal interpretation of The Dentistry Act of Ontario, the By-laws and Regulations effected pursuant to the Act, and any other regulation or legal document, when necessary.
- (3) To review, from time to time, The Dentistry Act of Ontario, and to recommend, when necessary, the seeking of amendment to that statute.
- (4) To review, from time to time, policies and actions of the Board and its employees to assure that such policies and actions are consistent with the Act and with the By-laws of the College.
- (5) To oppose or endeavour to modify any proposed legislation which is in conflict with The Dentistry Act of Ontario, the By-laws effected pursuant to the Act, and the existing policies of the College.
- (6) To prepare, at least once each year, a report to be submitted to the Board of Directors.

5. The *Property Committee* shall consist of three members.

The duties of the committee shall be:

- (1) To act as custodians of College property.
- (2) To ensure that the building and contents are adequately covered by insurance.
- (3) To prepare an annual budget in respect of the property.
- (4) To arrange and oversee all necessary repairs and alterations to the building and grounds.
- (5) To accept, in general, responsibility for the maintenance and improvement of the property in keeping with professional standards.
- (6) To prepare, at least once each year, a report to be submitted to the Board of Directors.

6. The *Registration and Licensure Committee* (formerly Examiners and Petitions Committee) shall consist of three members.

The duties of the committee shall be:

- (1) To study and recommend appropriate criteria for registration and licensure.
- (2) To establish and conduct appropriate examinations for candidates seeking registration and licensure.
- (3) To study standards of qualification for practice in other jurisdictions.
- (4) To co-operate with the National Dental Examining Board of Canada in the interests of establishing high *minimum* standards for registration and licensure.
- (5) To advise on educational trends in dentistry.
- (6) To prepare, at least once each year, a report to be submitted to the Board of Directors.

CANADIAN DENTAL ASSOCIATION

REPRESENTATIVES: A. H. Leckie, W. G. Bruce, O. J. Yule, E. T. Guest,
J. P. Coupland.

REPORT

FALL MEETING

1. The C.D.A. Board of Governors met in the Royal York Hotel in Toronto, May 15 to May 19, 1963.
2. President M. V. J. Keenan presided over the sessions with an admirable combination of efficiency and good humour.
3. One resolution only was submitted by the R.C.D.S. Board to the Board of Governors. This resolution endorsed the creation of a Royal College of Dentists of Canada and offered both support and financial assistance, on an equitable basis, to help assure the success of the projected College. The foregoing resolution was favourably received with the observation "We are delighted with this declaration of support."
4. An amendment to the C.D.A. Constitution (Article V) was approved whereby dentists employed by Federal Government Services were given representation on the Board of Governors. Other actions taken and Reports considered will appear in the *Transactions*. Also a summary of the Board of Governors' Meeting has been published in the *Journal of the Canadian Dental Association*, Vol. 29, #7, p. 470-475.
5. At the C.D.A. Annual Meeting held Monday, May 20, Dr. James Zimmerman, of Calgary, Alberta, was installed as President. Honorary Memberships were conferred on a former president of the R.C.D.S. and the C.D.A., Dr. Harvey W. Reid, and on Dean A. C. Lewis.
6. In conformity with established custom, the R.C.D.S. entertained Representatives to the Board of Governors' Meeting from the other provinces. Many expressions of appreciation subsequently were received.
7. The Joint C.D.A.-O.D.A. Convention which began Sunday, May 19, was an outstanding success. The scientific and social programs were enthusiastically received by a record number of registrants. The officers and the Convention Committee of the Ontario Dental Association deserve the highest possible praise.
8. Much credit for the excellence of the Convention must be given to the General Chairman and R.C.D.S. Director, Dr. J. D. Purves, who displayed a masterful talent in co-ordinating the largest dental convention ever held in Canada.

ACTION

Report adopted.

CONTINUING EDUCATION COMMITTEE
(CLINICS AND EXTENSION LECTURES COMMITTEE)

MEMBERS: J. D. Purves, Chairman; R. C. Honey, H. M. Jolley.

REPORT

FALL MEETING

1. The committee reviewed the format of the existing Extramural and Extension lecture service as to whether it was proving satisfactory or whether some change might be desirable.
2. It was felt that both pressure upon more senior staff members at the Faculty with a lack of development of the more junior members as clinicians had aggravated the supply of speakers.
3. The geographic blending of districts as a result of the accessibility of the automobile has presented a possible alteration in meeting facility at larger centres.
4. The possibility of a trend to permanent secretaries in larger centres could aid in the difficult problem of communication.
5. It was felt that the present investigation into the organization of the Dental Profession in Ontario could offer a nucleus of districts that could provide for a more favourable grouping.
6. A motion was adopted to the effect "That the Clinics and Extension Lectures Committee does recommend that the Board of Directors urge the establishment of one half day per week, or some similar arrangement, of post graduate study be made available to all members of the College at the Faculty."
7. Three requests for speakers in Dental Practice Administration have been reviewed and their acceptance has been granted. These were received from:
 - Western Ontario Study Group
 - Dr. Donald Moore
 - Dr. Robert F. Krejci
 - Ottawa Dental Study Club
 - Miss G. Archanna Morrison
8. The Terms of Reference of the committee were reviewed.

ACTION

Report adopted.

DENTAL PUBLIC HEALTH COMMITTEE — O.D.A.

MEMBERS: D. J. E. Mitchell, Chairman; K. F. Pownall, R. R. Butler, K. Davey, R. O. Fisk, M. Buchman, F. B. Burns, M. A. Charlebois, R. E. Feasby; G. T. Mitton, Field Secretary.

REPORT

ANNUAL MEETING

Students' Dinner

The Students' Dinner was an unqualified success since almost the entire Class of 6T4 was present to hear the speaker, Dr. Marcus Long. Unfortunately, a number of the Board members were unable to attend this function. It is hoped that a greater number will avail themselves of this excellent opportunity to meet the new members of the profession in 1964 (Wednesday, November 25, 1964).

Red Cross Dental Coaches

After a discussion with representative members of the Dental Trades organizations, an arrangement of mutual satisfaction has been evolved with regard to candidates for the Red Cross dental coaches. It has been agreed that every effort should be made to encourage prospective candidates for this most worthwhile and rewarding experience. Dr. Pownall has three graduates to man these units following Convocation.

Dental Health Index

The activities this year in the dental examination of a sample population of school children covered the eastern and central areas of Ontario. The sample list of schools was distributed from the Lakehead to beyond Cornwall and into the counties of the Niagara Peninsula and Haldimand county. Fifty-two schools are involved. The co-operation of local dental societies and individual members has made this task possible. About 90% of returns have been received to date.

Dental Health Day

Dental Health Day, March 11, was most successful with coverage by radio, television and the newspapers. Assistance was received from Procter and Gamble for which we are most grateful. The coverage has continued for four weeks after Dental Health Day. The public relations office of Procter and Gamble have worked very closely with our Committee and have carried out a very effective non-commercial dental health educational programme by press, radio and television during this period. A pack of dental health educational material, including a poster the Committee produced for Dental Health Day, was mailed out to all dentists in the province, with the local dental societies receiving quantities for distribution to the schools. Public Health dentists received similar quantities.

Public Relations Committee

In addition to assisting the Dental Health Day Committee, this group has been active in the re-assessment of our present stock of films and also have "screened" several new productions from the United States. A revision of dental health educational material has been made and a revised pamphlet produced for use of members of the profession. Two new sets of slides are being completed to assist dentists in presentations to lay groups.

Recruitment-Placement

With the co-operation of the dental societies of the counties of Essex, Kent, Elgin and Norfolk, the recruitment work covered the District High Schools of this part of Ontario. After dinner meetings, sponsored by each of these societies, were held with top grade students as their guests and Dr. S. A. MacGregor as the guest speaker, invitations to a select group were extended to be guests of the Dental Public Health Committee on an overnight visit to Toronto. The tour was conducted by the Field-Secretary and consisted of a visit to the dental building, Hart House and the Women's Athletic Building. Forty-five students were in the party including ten young women.

After a dinner in Hart House, the students were house-guests of Toronto dentists overnight. They were returned by charter coach the next day. All students were in grades XI, XII and XIII and were in an academic bracket of around 70% or better. This year, thirteen of the fourteen students presently in dentistry as a result of recruitment work by our Committee, were invited guests at the dinner meeting in Hart House. Our student guests were able to meet them as well.

Ontario Dental Public Health Council

A meeting was held on November 28 in the Royal York Hotel at which several names of out-of-town members were suggested as new members of the Council. The situation re recruitment and placement was discussed and also the exhibit which was shown at the O.D.A. Convention in May. The Education Sub-Committee has acted on the recommendation of the Council and has presented a skeleton outline of dental health topics to be taught in schools. The counselling of students on practice location has proceeded and such information is now being included in a series of lectures under the Department of Practice Management. The Field-Secretary has been assisted in this work by the recommendation of this Board to the Faculty Council.

Accident Hazard Prevention

This Committee has not been active in other than an advisory capacity since the materials were sent to all dentists in the province. An additional pamphlet has been suggested as a means of supplying information to teachers, nurses, etc., relating to the emergency care of dental injuries prior to arrival in the professional office.

ACTION

Report adopted.

DENTAL SERVICES COMMITTEE

MEMBERS: H. M. Jolley, Chairman; R. H. Finlayson, W. S. MacKenzie, D. B. McAdam, James Sim, P. E. Willson.

REPORT

FALL MEETING

1. Since the April meeting of the Board the Committee has held one fully attended session.

2. Welfare Plan

(a) *Welfare Plan pamphlet* — The approved amended Welfare Plan pamphlet has been distributed to the profession.

(b) *Amendment to Contract with Department of Public Welfare* — The Chairman and Secretary were given continuing authority to act for and in the name of the Committee to finalize the awaited amended contract. This is expected to be a purely administrative procedure to conform with the changes reported to the Annual Meeting in April 1963 (p. 13, *Proceedings*).

(c) Several items of correspondence were reported having to do with administration of the Welfare Plan:

(i) A complaint was received relative to

(a) the pro-ration,

(b) failure of some beneficiaries to co-operate with or appreciate the service,

(c) no provision for broken appointments or for time lost because of unmanageable children.

The reply the Secretary had sent was read and discussed and it was agreed that it expressed the views of the Committee.

(ii) All members of the Committee received copies of a letter from a dentist containing recommendations for changes and additions in procedures authorized in the Welfare Plan.

(iii) The Chairman reported on a rather extensive exchange of correspondence between himself, the Business Manager and the Secretary on the one hand, and a member of the College on the other. The latter had made inquiries as to administrative procedures as well as policy matters in the conduct of the Plan. He had also offered suggestions for improvement which were discussed by the Committee.

(d) *Administrative Procedures* — The Committee reviewed administrative procedures in the conduct of the Plan after hearing outlines from the Secretary-Treasurer of D.S.P.I., the methods employed in processing of accounts received particularly as the procedures bore upon confirmation of the validity of the accounts submitted. Also discussed were the procedures involved for assuring eligibility and the provision of authorized services.

The Committee expressed itself that all reasonable safeguards are being employed to assure the responsible expenditure of welfare funds.

(e) *Administrative Costs* — The cost of administering the Plan was reviewed. It was felt that the cost was reasonable but it was hoped that some improvements might be instituted. The following motion was carried:

That Canadian Dental Service Plans Incorporated be requested to review its administrative cost structure in respect of the Dental Welfare Plan and provide the Committee with appropriate observations and/or recommendations.

(f) *Policy Matters* — Consideration was given to suggested amendments to the list of authorized services and maximum payments for a single tooth.

The Committee decided that the most effective and responsible utilization of limited welfare funds did not always permit procedures which otherwise might be considered most worthwhile. There could, therefore, be no significant amendment in the list of authorized services. Stainless steel crowns have frequently been authorized for extraordinary conditions when the dentist has reported in writing that the condition of the tooth permitted no other conservative procedure. To clarify its stand on this matter the following statement was approved:

That a stainless steel crown be authorized at a fee of Ten Dollars (\$10.00) when in the dentist's judgment it should be employed in lieu of the normal operative procedures and that further

No amendment be made to the Dental Welfare Pamphlet as this service continues to be one which is authorized from time to time to meet unusual or extraordinary circumstances.

The Committee agreed that the present policy of a maximum authorized payment per tooth be retained.

(g) *Special Services* — The Secretary-Treasurer of D.S.P.I. presented a list of special services authorized to meet extraordinary circumstances. Payment of these amounts has been made possible by favourable interest on expended funds.

(h) *Interest on Short Term Investments* — The proper utilization of the interest obtained by wise and careful short term investment of unexpended funds provoked considerable discussion. The Committee directed that this money be employed to provide for services to meet extraordinary needs and that the administrative staff be as generous in this respect as the circumstances warrant and report in the usual way to the Committee.

(i) *Extension of Dental Welfare Plan* — The West Toronto Swansea Committee of Social Planning Council of Metropolitan Toronto, to which our Secretary is a consultant, recently, after urging by our Secretary, developed a resolution having to do with further extension of the Dental Welfare Plan for consideration of the Social Planning Council.

The Secretary was requested to attempt to obtain from the Director of Dental Services of the Ontario Department of Health a definitive outline of dental welfare services available in Ontario for all categories of welfare recipients.

3. Ontario Dental Services

The Committee learned with some dismay that the legal processes involved in forming a Dental Services Corporation were fraught with considerably greater difficulties than were anticipated. Incorporation in Ontario is based on the provisions of the Prepaid Hospital and Medical Services Act which provides that letters patent granting the charter will be issued only with the written approval of the Superintendent of Insurance.

The Superintendent would require preliminary information on:

- (1) Rates proposed to be charged.
- (2) Type of coverage proposed, particularly as to specified exclusions.
- (3) Who will exert effective control over the corporation.
- (4) From what source and to what extent any deficits in the early years of operation will be made good.
- (5) What working capital will be made available to the corporation.
- (6) What is proposed as regards the financing of its activities.

The Committee agreed that the questions were interesting, simple, and straightforward. However it did not feel at all prepared to provide any of the answers at this juncture. Attempts have been made to elicit information as to the methods employed, terms of incorporation and other experiences of other Provincial Corporations which have been rumoured to have been formed. The need for explicit, factual, helpful information, if such is available, became obvious as consideration was given to this matter.

To illustrate some of the difficulty inherent in the situation reference was made to a letter received from a representative of a large insurance company which was preparing to introduce a Group Dental Insurance Plan. The letter outlined the principles guiding the Company in formulating its Plan. These were interesting inasmuch as the various principles and provisions were in accord with the profession's previously approved principles in respect to prepayment plans. These included that the plan must provide attractive benefits and the cost must be reasonable. To meet these criteria the Plan is based on (1) a deductible, (2) co-insurance, and (3) maxima. Nevertheless the Committee felt some serious reservations as to the actual saleability of the Plan.

The Committee was also much impressed by the fact that while several insurance companies with vast financial resources, highly competent legal and actuarial staffs, great experience in other forms of insurance, have such dental insurance plans prepared, none as yet is actually in operation. The Committee is extremely dubious of its ability to develop a dental insurance plan on its own. In view of the apparent predilection of the present provincial government to operating its medical services program within the orbit of insurance companies the role of these organizations in connection with Dental Plans becomes increasingly more important.

The Committee passed the following resolution:

That the Board of Directors of the R.C.D.S. be requested to consider the advisability of establishing a sub-committee to develop terms of reference for engaging an appropriately qualified person to study and

report on the many and varied ramifications of the establishment of dental insurance plans within Ontario's legal framework and to recommend possible action by the Board.

4. Act Respecting Medical Services Insurance

The Committee were apprised of the preparation of the joint Brief authorized by the Boards of the R.C.D.S. and O.D.A. to the Committee established to consider the provisions of the Act respecting Medical Services Insurance.

ACTION

Item 3. Committee directed to study conditions under which dentists might participate in Prepaid Insurance Plans which provide dental care benefits.

Report adopted.

REPORT

ANNUAL MEETING

1. Since the November meeting of the Board the Committee has held one session.

2. Welfare Plan

(a) *Availability and Extent of Dental Welfare Services in Ontario* — At its meeting in the Fall of 1963 the Committee decided that it would be valuable to have statistical and informative data concerning the availability of Dental Welfare Services in Ontario. The Secretary therefore communicated with Dr. F. A. Kohli, Director of Dental Services, Ontario Department of Health, and elicited from him the following information relative to the extent of dental welfare services in the province. There are according to Dr. Kohli three programs:

- (i) *The Dental Welfare Plan* — supervised by this committee.
- (ii) *Immediate Dental Relief Recipients* — necessary extractions for recipients of direct relief — 80% of the cost is borne by the Province and 20% by the Municipality.
- (iii) *Rehabilitation Services* — full dental rehabilitation of those persons whose rehabilitation has been undertaken by the Rehabilitation Branch of the Ontario Department of Welfare with the entire cost being borne by the government.

The Committee felt that the information received was not sufficiently comprehensive. The Secretary was therefore instructed to pursue his inquiries to obtain from whatever source possible the information re the availability and extent of dental welfare services in Ontario.

(b) *Fees for General Anaesthesia* — A request for authorization of special fees for general anaesthesia was given careful consideration. The Committee, while in sympathy with some of the views in the letter containing the request, regretfully felt it must adhere to the adopted policy of remitting fees on the basis of the Fee Guide as if services were rendered employing local anaesthesia. The practitioner is, of course, free to employ general anaesthesia if he chooses.

(c) *D.S.P.I. Review of Administrative Costs* — Last fall a request was made of D.S.P.I. that it review the administrative cost structure of the Welfare Plan. A report was received from Mr. Jackson which revealed that the administrative cost per eligible recipient per month was 3.67 cents. In view of the extent of the services provided the Committee expressed the view that the cost was not excessive and that the administration was being performed efficiently and effectively.

The Committee agreed to instruct D.S.P.I. to

- (i) make cheques for payment for dental services negotiable at par at any branch of any chartered bank in Ontario,
- (ii) provide padded forms, with carbons, and with the fee schedule printed on the reverse side of each form,
- (iii) continue the statistical analysis of the Welfare Plan.

These services are to be provided without any additional charges to the Welfare Plan.

(d) *Report of the Welfare Plan for 1963* — This report is attached as Appendix A. Attention is especially directed to several items:

- (i) the very small excess of receipts over expenditures,
- (ii) the retention of a necessary reserve,
- (iii) the flow of numbers of recipients, there being a total of 34,834 changes during the year. This adds to the complexity of the administration, difficulty in assessing statistical information, and costs,
- (iv) the percentage of eligible beneficiaries who avail themselves of the dental services proffered remains constant at about 30%,
- (v) about 45% of the dentists practising in Ontario participated actively in the Plan in 1963,
- (vi) while figures of percentages of beneficiaries in different age groups who availed themselves of dental services are not available there is a significantly greater average cost per individual in the higher age groups, recently added, as compared with the younger groups.

With these facts in mind the Committee agreed to recommend that a presentation be made to the Minister of Public Welfare seeking:

- (1) an increase in the monthly grant of an amount of 20 cents per eligible beneficiary thus creating a per capita monthly grant of 90 cents, and

- (2) a broadening of the beneficiary groups to include
- (a) all beneficiaries under The Mothers' Allowances Act;
 - (b) beneficiaries of the Department of Public Welfare in the 65 to 69 and 70 and over age groups;
- the services to be similar to those now provided with the addition of repair to dentures.

It should be noted that the fees paid to dentists are based on the O.D.A. *Fee Guide*. Since the contract was entered into between the R.C.D.S. and the Department of Welfare there have been two upward revisions in the O.D.A. fee schedule with no change in the monthly grant from the Department. This has necessitated a reduction in the pro-ration awarded to operators. The suggested presentation to the Department differs in one important respect from that made two years ago. At that time it was suggested that beneficiaries of the Department of Public Welfare in the 65 to 69 and 70 and over age groups be entitled to the same services as that provided for the children. In addition to repairs of existing dentures, *complete dentures* should also be provided on the basis of an equal apportionment of cost between the beneficiary and the Plan. It was agreed that this was probably the only way in which such a plan could be operated with any hope of success having in mind the temptation to abuse of the privileges on the part of the beneficiary and the high unitary cost of the benefits to be supplied. On the other hand the required financial contribution from the recipient of public welfare benefits was unrealistic. It was therefore decided not to include this otherwise eminently desirable feature in the presentation to be made to the Minister.

The detailed presentation having been approved by the Committee will be offered for consideration and disposal by the Board of Directors.

(e) *Late Presentation of Welfare Accounts* — On rare occasions accounts for Welfare Services rendered have been presented an unconscionable length of time after completion of services. D.S.P.I. has been instructed to pay these accounts but the operators have been warned that in the future such outdated accounts will not be honoured.

3. Pre-Payment Plans

At its November 1963 meeting the Board of Directors passed the following motion:

"That the Dental Services Committee study conditions under which dentists might participate in pre-paid insurance plans which provide dental care benefits."

The Committee has made note of the resolution and has taken the matter under advisement.

4. Nomenclature For Fee Schedule

The Dental Services Committee of the C.D.A. has undertaken the development of a nationally acceptable nomenclature for a comprehensive fee schedule. The sub-committee responsible for the assignment developed a working outline and enlisted the assistance of the Dental Services Committee of the R.C.D.S. Each member of the Committee was supplied with a copy of the working outline and after due consideration of all of the many items contained therein a consensus was arrived at for submission to the sub-committee.

DENTAL WELFARE PLAN — 1963**Receipts and Expenditure**

Grant — Mothers Allowance	\$143,675.00

DISCIPLINE COMMITTEE

MEMBERS: A. H. Leckie, Chairman; J. D. Purves, R. C. Honey, H. M. Jolley, A. B. Sutherland.

REPORT

FALL MEETING

1. Since the Annual Meeting of the Board in April 1963 seventeen complaints have been received by the Discipline Committee. These may be classified as follows:

(1) Violations of By-law 13	2
(2) Unsatisfactory Services	11
(3) Excessive Fees	4
(4) Excessive Purchase of Narcotics	1

All of these complaints have been handled capably and amicably by our Registrar-Secretary.

2. A request was made to the five largest local societies for a report on the activities of their various mediations committees. Replies from five societies have been received:

(a) *Hamilton Academy of Dentistry*

The following complaints have been received by telephone during the period May 1963 through October 1963:

(1) Unsatisfactory Services	8
(2) Excessive Fees	12
(3) Refusal of Services	1

Practically all of these complaints are reported to be in the nature of misunderstandings.

(b) *Toronto Academy of Dentistry*

The following report is for the period November 1962 through October 1963 and includes only written complaints:

Total number of complaints received 37

Breakdown of complaints:

Prosthetics	10
Fees	12
Faulty diagnosis	5
Injury from surgery	3
Other	7

There are two dentists whose correspondence will automatically be turned over to the Royal College of Dental Surgeons from now on — in one case at the dentist's own request, and the other because the dentist has repeatedly shown disregard and contempt for the Committee's efforts in dealing with complaints against him.

Also, there is an average of thirty telephone calls a week handled in the Academy office, which although they are not necessarily complaints, are inquiries that might involve the Mediations Committee if they were not handled satisfactorily on the telephone. These involve information concerning fees, possession of radiographs, and the extent of the dentist's responsibility in providing dentures which the patient feels are unsatisfactory, as well as other miscellaneous inquiries.

(c) *Ottawa Dental Society*

Since May, 1963, there have been two complaints presented to the Chairman of the Mediations Committee. The first, which was amicably settled, involved a dispute between the parents of three children and a dentist. After changing to another dentist a very considerable amount of operative dentistry was found to be required and the parents felt that the first dentist was negligent in his care of their children.

The second instance concerns a patient unsatisfied with the quality of the prosthesis she has received. There is also some difficulty in respect of the fee.

During the year preceding May, 1963, the then chairman of the Mediations Committee had this in part to report:

"We handled ten complaints during the year. Four were in the form of a letter, one of which we were unable to dispose of satisfactorily. This problem was referred to the Registrar-Secretary to be resolved. There was one outstanding feature to all complaints and that is that the great majority were due to lack of sufficient communication between the dentist and his patient. High fee schedule was next in line as a target by the public. Here, too, I feel some complaints were fully justified. One case was due to unreasonable action on the part of the dentist. However, after a second dentist had successfully treated this person a reasonable understanding was obtained with the patient. I am of the strong opinion that this committee is serving a very useful and indispensable mission. Further, it is my opinion, that if the general public were aware of the activities of this committee that a great and very necessary public relations job could be carried out."

(d) *Brant County Dental Society*

The reply of the Corresponding Secretary of this Society in respect of mediations activities states, in part:

"During this past year there has been no serious problem brought to our attention. There was one written condemnation of Brantford standards of dental treatment processed by the Registrar-Secretary and myself.

There have been a number of complaints about fees; this was generally due to misunderstanding caused by insufficient information. It is probable that some of the complaints are legitimate."

(e) *London and District Dental Society*

The Executive Committee acts as the Mediations Committee. Official complaints are usually referred to the president. If additional discussion is necessary the matter is dealt with by the Executive.

During the past year none of the nine complaints was brought before the Executive. The complaints were as follows:

Unsatisfactory dentures	2
High fees	4
Fee for dental examination	1
Discourteous	2

ACTION

Report adopted.

REPORT

ANNUAL MEETING

1. Since the November meeting of the Board there have been 21 complaints received from the public regarding services provided by members of the College. These may be classified as follows:

- (a) Unsatisfactory Services 9 complaints
- (b) Excessive Fees 9 complaints
- (c) Violation of the By-laws 3 complaints

All have been satisfactorily brought to successful conclusion through the able and diplomatic capabilities of our secretary.

2. These complaints require a great deal of correspondence. Much time and effort on the part of our secretary and staff are required to process them.

3. Most complaints can be attributed to one or more of the following:

- (a) Neglect on the part of the dentist, when extensive treatment is to be undertaken, to adequately discuss with the patient the nature of the treatment to be performed, the amount of time necessary and the ultimate fee which will result.
- (b) Neglect on the part of the dentist, when prosthetic service is contemplated, to fully acquaint the patient with the problems involved and the inability to guarantee results; to impress upon the the patient that all the dentist can do is to utilize his professional knowledge and proficiency to the best of his ability and that the cooperation of the patient is imperative.
- (c) Failure by members of the College to acquaint themselves with the preamble to the O.D.A. *Fee Guide*.

4. The committee wishes to express appreciation to the members of Local Societies who act on the various Mediations Committees. The work of these committees is helpful and useful.

ACTION

Report adopted.

EXECUTIVE COMMITTEE

MEMBERS: J. P. Coupland, Chairman; R. C. Honey, H. M. Jolley, A. H. Leckie, J. D. Purves.

REPORT

FALL MEETING

1. The Executive Committee met for a one-day session on Sept. 11, 1963.

2. Second Dental School for Ontario

The Secretary briefly reviewed his activities as a member of an Advisory Committee to the Minister of Health to offer guidance on a location for a fifth faculty of medicine and a second faculty of dentistry.

The Committee agreed that should the remote possibility eventuate of Scarborough College becoming a multi-faculty university in which a Health Sciences Centre could be established there would be no objection to the second dental school being located there inasmuch as the McMaster site would not be available because of no medical school and the patient resources of the London area appear to be inadequate for the projected class requirements for both students of dentistry and dental hygiene. In a Health Sciences Centre it might prove desirable to have the faculty of dentistry *clinical* facilities located in the teaching hospital. There was general agreement that this might well prove to be advantageous provided there is adequate assurance of faculty of dentistry autonomy in respect of its own students. The Secretary will continue to represent the Board as the deliberations of the Advisory Committee proceed.

3. Bill 163 — An Act Respecting Medical Services Insurance

The Secretary, in a letter dated May 9, 1963, to the Minister of Health, requested that the Ontario dental profession be represented on the committee to study and hear representations on Bill 163. On May 15, 1963, a reply was received from Dr. Dymond indicating that he had forwarded the request to the Prime Minister. The 13-member committee eventually announced by Mr. Robarts did not include a dentist. It was agreed a communication be mailed to the profession outlining the exchange of correspondence. The following motion was adopted:

“That a submission in respect to Bill 163, “An Act Respecting Medical Services Insurance”, be made to the Committee established by the Government of Ontario to conduct hearings in respect of this proposed legislation, and

“That the Ontario Dental Association be invited to participate in the preparation of the appropriate brief and in its presentation to the said Committee, and

"That Dr. Robert W. Marshall be appointed as Chairman of a Steering Committee to advise on the content of the Brief, supervise the production of the document and submit it to the R.C.D.S. Board of Directors and the O.D.A. Board of Governors for final approval prior to its presentation to the said Committee, and

"That the President of the R.C.D.S. and the President of the O.D.A. each appoint one member to the Steering Committee."

4. Organizational Structure of Dentistry in Ontario

The Secretaries of the Ontario Dental Association and the Royal College of Dental Surgeons of Ontario were appointed by their respective Boards to obtain information in respect to the possible acquisition of the services of a management consultant to advise on possible alterations to the organizational structure of dentistry in Ontario. Four recognized firms were interviewed and each submitted proposals for consideration. The report of the appointed Committee provided an assessment of the interviews, an outline of the suggested procedures to be followed by each firm, estimates on duration of the study and the cost. The Executive Committee was privileged to benefit from the observations and comments of the O.D.A. President, Dr. W. W. Philp, and the Secretary, Mrs. W. C. Durham. The following motion ensued and was approved:

"That contingent upon the equal participation of the Ontario Dental Association, the Secretary be and is hereby authorized to engage the management consultant firm, Woods Gordon, to prepare for the R.C.D.S. Board of Directors and the O.D.A. Board of Governors a report on the Organizational Structure of Dentistry in Ontario, such report to be in consonance with the procedural outline as submitted by Woods Gordon, and

"That the Board of Directors be requested to effect the necessary budgetary adjustment to permit an R.C.D.S. undertaking in an amount not to exceed \$2,000.00."

5. Approval for Study Club Lecturer Withheld

The Board, in April, 1963, established a policy to require groups sponsoring programs in practice administration to supply a definitive outline of the content of the presentation to be made. One organization submitted two outlines in respect of two speakers. The Chairman of the Clinics and Extension Lectures Committee approved the outline of one presentation but rejected the other as being both vague and platitudinous. Two representatives of the Study Club met with the Executive Committee. It was explained to them that the clinician was in no way in question but his presentation outline did not permit of even reasonable assessment and the Executive Committee, therefore, agreed fully with the decision of the Chairman of the Clinics and Extension Lectures Committee. The delegation agreed to obtain the required definitive outline for re-consideration by the Clinics and Extension Lectures Committee.

Arising from the general discussion the following motion was approved:

"That the Executive Committee recommend to the Clinics and Extension Lectures Committee and to the Board of Directors that the

Faculty of Dentistry be requested to establish post-graduate courses in practice administration which could be made available for the members of the R.C.D.S. both at the Faculty, on a convenient basis, and as Extramural Lectures."

6. Group Insurance

Under the aegis of the Board two Insurance Conferences were held at Headquarters, one on May 1, 1963, the other on September 4, 1963. To these conferences were invited representatives of each dental society in Ontario participating in any way in insurance coverages for their members. The Trustees of the Canadian Dental Association's Pension and Insurance Plans were also invited. Only one society was unable to send a delegate. The following organizations were represented — Ottawa Dental Society, Brockville Dental Society, Hamilton Academy of Dentistry, Essex County Dental Association, Inter-County Dental Society, London and District Dental Society, Toronto Academy of Dentistry, and the Ontario Dental Association.

As a consequence of the May 1st Conference a statement of "Principles to Guide a Dental Organization in Providing Insurance Coverage for its Membership" was, without dissenting vote, approved and was referred to the Executive Committee where, again, the statement experienced unanimous concurrence. While this statement is attached as Appendix A it is recommended that approval of these principles be withheld pending the results of a study about to be undertaken by the special C.D.A. Committee on Commercial Insurance Plans.

Following directives issued during the May 1st Conference considerable investigation was undertaken in which some forty-two firms were invited to submit quotations on either or both of Group Life and Time Loss coverages. The September 4th Conference gave meticulous study to the proposals and addressed several recommendations for Executive Committee action which action is reflected in the following motion which was unanimously approved:

"That the Executive Committee in approving R.C.D.S. participation in a group contract to permit members and their employees to avail themselves of Group Life and Group Time Loss coverages does hereby grant authority to the Sub-Committee appointed by the Insurance Conference (Drs. Hugill, Rollaston, Glenny, Mullett, Mr. Jackson, and the Secretary) to act on behalf of the Board of Directors to enter into contracts for Group Life and Group Time Loss coverages for members and their employees with such company or companies and on the basis of such specifications as the committee deems appropriate in the light of the comprehensive investigations undertaken and directions given by the participants in the Insurance Conferences in this respect."

7. Request for Permission to Take Licensing Examinations

The Executive Committee considered a request in respect to Balraj K. Arora, B.D.S. (Lucknow), M.S. (Oral Surgery—Illinois) who has accepted a teaching post in the Faculty of Dentistry. The following motion was adopted:

"That in respect of Balraj K. Arora, B.D.S. (Lucknow '56) and M.S. (Oral Surgery — Illinois '60) the President be requested to conduct a mail vote on the following motion:

"That in respect of Balraj K. Arora, B.D.S. (Lucknow '56) and M.S. (Oral Surgery — Illinois '60) By-law 10, Section 1 (e) be waived and that the said Balraj K. Arora be granted the privilege of making application for licensing examination, and

That the Examiners and Petitions Committee be and is hereby authorized to act for and in the name of the Board in conducting whatever special examinations the said Committee deems appropriate and

That contingent upon the candidate satisfying the requirements of the Examiners and Petitions Committee, Balraj K. Arora be granted registration and licensure in the Royal College of Dental Surgeons of Ontario when all remaining requirements have been met."

8. Patient Alleges Unsatisfactory Professional Services

The Committee reviewed a complaint from a patient in which it was alleged that a dentist had not discharged his professional responsibility to a patient because the dentist failed to refer the patient to a periodontist until such time as the prognosis was so unfavourable that all remaining teeth required extraction. The Committee after reviewing all the evidence before it could see no grounds for believing that the dentist had not given reasonable care.

9. Terms of Reference of Board Committees

Although first draft copies of proposed Terms of Reference were available time did not permit of any discussion. The Chairman requested the Secretary to employ the ideas as presented, perform whatever editing was required, and place this matter on the agenda of the November 1963 meeting of the Board.

Appendix A

PRINCIPLES TO GUIDE A DENTAL ORGANIZATION IN PROVIDING INSURANCE COVERAGE FOR ITS MEMBERSHIP

1. It is within the legal capacity and purview of any properly constituted and well managed organization operationally related to the practice of a profession to concern itself with the provision of appropriate insurance coverages.
2. It is recognized and accepted as common practice for associations responsible to the membership of a profession to enter into contracts enabling their members to achieve a greater degree of economic protection through exercise of the various advantages attributable to mass purchasing.

3. There is at least some measure of responsibility falling on a dental organization for making group insurance coverages available where a need has been recognized and the proposals are capable of fulfilment unless such participation unreasonably complicates the normal day to day operation of the organization.
4. Any plans decided upon must be presented as a "service" of the association sponsor, a "facility" available to the individual practitioner for voluntary acceptance or rejection. A dental organization's prime objective is to serve the best interests of its membership and it is not to engage itself in the insurance industry.
5. The provisions of any plan should be developed to meet the specific requirements of the dental profession and its employees. After the specifications have been agreed upon, tenders should be called from a representative group of carriers in order to assure direct and precise comparison among the different companies thus enabling the selection of the most suitable carrier. From time to time specifications should be reviewed and new tenders called.
6. Insurance coverages should relate directly to the activities indigenous to the dental profession or broadly to the economic security of dentists and their employees. Plans should not be instituted for those coverages which individuals, with relative ease and for similar economies, can provide for themselves.
7. Coverages arranged for the dental profession should be provided on a true group basis. That is, there is no individual selectivity and plans cannot be individually cancelled or amended by the carrier. The organization, therefore, becomes the policyholder and each individual participating member a certificate holder.
8. The Trustees or Advisers appointed by the dental organizations should have a complete and comprehensive knowledge of the provisions of all group coverages provided by the said organization in order that they are able to communicate to their own colleagues and, when necessary, answer directly questions received from members concerning the coverages available.
9. There should be consultation among the several groups participating in the provision of group insurance plans before new plans are created and promulgated. To the extent possible plans should be provincial in nature to permit all practitioners in the province irrespective of the size of the community in which they practise to avail themselves of the benefits and economies of group participation.
10. The administrative agency (collector of premiums) of such group plans should be an agency whose policies and activities are determined by the dental profession and the members of the administrative staff should be salaried by the dental group they represent. Under no circumstances should the administrative staff be a salaried or commissioned agent of an insurance company or agency.
11. Plans which are provincial in character, e.g. Physicians' Services Incorporated, Ontario Hospital Services Commission, Blue Cross

Supplemental, etc., should be administered provincially with the appropriate provincial dental body as the sponsoring agency.

12. Direct solicitation of members by the carrier must not be permitted without the express permission of the group policyholder.

ACTION

- Item 2. Delegation consisting of the President, Dr. D. J. Ferguson, Dr. A. J. Harris, and the Secretary meet with the President of the University of Western Ontario to discuss the possibility of establishing a Faculty of Dentistry.

- Item 6. Motion adopted:

"That the President and Executive Council of the C.D.A. be thanked for their co-operation in participating in the combined meeting on November 23, 1963, and

That the undertaking of the C.D.A. President and Executive Council to establish a Committee on Commercial Insurance Plans be heartily approved, and

That this Board reaffirm its undertaking, in the meantime, not to institute plans beyond those to which it is committed already and that, in the meantime, the Board will take no action regarding any changes in administration of P.S.I., O.H.S.C., Blue Cross Supplemental, and Blue Cross Extended Health Care Plan, and

That the R.C.D.S. will gladly assist the newly-established C.D.A. Committee in providing any documents or information in its possession, and

That the R.C.D.S. will welcome another opportunity to discuss with the C.D.A. Executive Council, Insurance and other matters of mutual concern."

Report adopted.

FACULTY OF DENTISTRY

DEAN: Roy G. Ellis.

REPORT

ANNUAL MEETING

1. Introduction

The selection of topics for inclusion in the report from the Faculty of Dentistry to the Board of Directors of the Royal College of Dental Surgeons is always a matter of concern to the Dean. Some items which seem to be very familiar to this office may be overlooked in preparing this report, and yet occasionally such items are significant to dental education. At the time of writing this report, the 1964-65 budget had recently been submitted to the Comptroller of the University and the Dean and Drs. P. G. Anderson and J. A. Pedler had just returned from the 41st annual meeting of the American Association of Dental Schools in Los Angeles. Just prior to the Schools' meeting, the I.A.D.R. annual meeting was held at the same location and this Faculty was represented by Drs. K. J. Paynter, J. G. Dale and A. M. Hunt. Research reports from the Toronto staff included one by Dr. A. M. Hunt entitled "The Significance of Fallout Strontium 90 in Teeth of Children" and one by Dr. J. G. Dale entitled "An Autoradiographic Study of Cell Activity During Tooth Movement Under Hypothyroid Conditions."

Without wanting to create an impression of smugness or complacency, or to appear boastful, these meetings give one a feeling of deep satisfaction in respect to the contribution which our staff make at such meetings, and also in respect to our educational policies and programs at Toronto, in spite of a modest budget, by comparison with some of the schools across the line.

2. Full-Time Staff

In last year's report, reference was made to the need of this Faculty for additional full-time academic staff. Budget provision for 1963-64 made it possible to appoint the following to full-time status: Dr. J. Kreutzer, Professor of Preventive Dentistry; Dr. C. E. Purdy, Associate Professor of Dentistry; Dr. F. G. Kellam, Associate in Dentistry; and Dr. B. J. Arora, Clinical Instructor in Oral Surgery. These additions raised the number of full-time academic personnel from 15 to 19. Unfortunately, the appointment of a full-time department head for Oral Surgery was not found possible, even though financial provision had been made in the estimates. It is anticipated that an additional four or five full-time appointments will be made in session 1964-65.

3. Dental Students — Chairside Assistants' Training Program

Colonel C. E. Purdy, formerly Commandant of the Royal Canadian Dental Corps School at Camp Borden, was appointed to the full-time staff, to develop and guide a study designed to train undergraduate dental students in the utilization of chairside assistants. During the current session,

perhaps best referred to as a "pilot study year", the W. K. Kellogg Foundation generously provided a grant of approximately \$8,000 to finance the initial phase of this project, which commenced with actual senior student participation on November 13, 1963. By the time the Fourth Year students terminated their clinical assignments on March 13, 1964, it was possible to state that our experience thus far justifies the conclusion that the training of undergraduate dental students in the utilization of auxiliary personnel is desirable and feasible. It is also evident that the most effective method of accomplishing this training is through actual experience on the part of the students, working with the aid of highly trained auxiliaries, rather than trainees. Student reaction to this experiment was very favourable. The productivity of most students, while working with a chairside assistant, showed a substantial increase, and at the same time, the quality of the students' work was maintained while performing multiple operations. Above all, the students' appreciation of the value of a chairside assistant was greatly increased. A five-year program is now being projected to increase the amount of time available for each student in this phase of his education. It is hoped that the W. K. Kellogg Foundation may continue to support this experiment during the next five years.

4. The Dental Hygienist

The Dental Hygiene classes are now at full capacity and applications each year exceed the places available in the First Year class. An experimental program was referred to one year ago in the report from the Faculty. This study is concerned with "possible expansion of the duties generally recognized as being within the scope of the Dental Hygienist."

In a preliminary report on the results of this experiment to date, it would appear that the dental hygienist group have, on the average, measurably less initial ability to perform mechanical work, and less potential ability as predicted by the Differential Aptitude Tests and Grade XIII results. On the other hand, the factor of persistence favours the hygienists and they are equally endowed with three other personality factors, namely resourcefulness, practicality and anxiety which correlate with clinical performance. Two-thirds of the hygienist class responded so well to a small amount of instruction, that the hygienists averaged higher in the end than the female dental students.

This experiment is continuing and when the results of the tests carried out during the current session are evaluated, a final report should be available by the end of 1964.

5. Aptitude Tests for Dental Students

Approximately six years ago, a study was undertaken by Dr. R. M. Grainger of this Faculty, in collaboration with Professor R. W. B. Jackson, of the Ontario College of Education, and members of the staff at O.C.E., to develop predictors of student success in the Dental School. The significance and value of this study, as a means of improving our selection procedures, is paramount today, as the applications received number two to three times the places available in the Freshman Class. Recently (February, 1964) Drs. R. M. Grainger and J. Flowers (of O.C.E.) submitted a

final report on this study to the Council on Education of the Canadian Dental Association, which resulted in the establishment of a small committee of the Council "to study and prepare a report relative to instituting an aptitude testing program on a national basis."

The report submitted by Drs. Grainger and Flowers indicates that "previous achievement in high school or university courses has limited value on predicting dental student achievement, particularly in the clinical areas." They observe that "In addition to these marks (high school or university), the aptitude testing program must include a battery of paper and pencil tests which could be administered at selected universities or at the dental schools at specified times in the year prior to applying for the dental course." "In addition they state, a chalk carving test adds considerably to the estimate of technical skill but is much more difficult to administer and mark."

It is possible, therefore, that in the near future all applicants seeking admission to dental schools in Canada may be required to take a series of tests to determine their aptitude for dentistry as a career.

6. Detection of Cancer of the Mouth

Members of the staff have been actively engaged in a study of the use of Cytological Smear for the early detection of Cancer of the Mouth, during the past fifteen months. Early in 1963, Drs. C. H. M. Williams and J. A. Pedler initiated discussions within the Faculty, and subsequently, on a much wider basis, with the objective that ultimately, appropriate measures might be taken to make available to dental practitioners a cytological laboratory service for oral smears. To test out their ideas, it was decided to employ this technique in the Oral Diagnosis Clinic of the Faculty of Dentistry, and in the dental department of the Toronto General Hospital.

In September, 1963, this matter was submitted to the Executive Council of the Canadian Dental Association because of the national importance of the topic. An appeal to the National Cancer Institute by the Canadian Dental Association, resulted in the provision of a grant of \$1,350 to promote the study, and provide information to dentists and students on the "Oral Exfoliative Cytology Technique." Subsequently, this topic has been discussed at conferences of the Secretaries of the Provincial Dental Organizations and other groups concerned with the early detection of cancer of the mouth.

More recently, the Ontario Cancer Treatment and Research Foundation provided a grant of approximately \$7,000 a year for a clinical research project to determine "In Ontario, the Prevalence and Significance of Oral Lesions, as Established by Clinical and Cytological Smear Examinations." This three-year survey will be actively promoted by Drs. H. A. Hunter and D. L. Anderson, with Dr. D. W. Thompson, staff member, Faculty of Medicine, as consultant. Much of the credit for the very rapid and very significant development of this project is due to Drs. C. H. M. Williams and J. A. Pedler.

7. Department of Oral Surgery

At the meeting of the Senate of the University of Toronto on Friday, March 13, 1964, approval was given to change the name of the Department of Dental Oral Surgery to the Department of Oral Surgery. This simple

action reflects the marked improvement in relations between the Faculty of Dentistry and the Faculty of Medicine at the departmental level. Coinciding with this change, but not necessarily dependent on it, the long search for a full-time department head for the Department of Oral Surgery in the Faculty of Dentistry, came to a very successful conclusion. In due course, the recommendation which has been submitted in respect to this appointment, will, no doubt, be released by the University. We look forward to other significant changes in the near future relating to the provision of hospital facilities for the teaching of Oral Surgery.

8. Continuing Education

The extramural lecture program, conducted jointly by the Faculty and this Board, has been the subject for discussion on several occasions during the current session. In addition to our own concern regarding the program, we have received comments from the Faculty representative to the Board, Dr. J. D. Purves.

The extramural lectures as presently constituted have served a very useful purpose and should not be discarded lightly, but we believe consolidation of many small societies into larger regional groups would be beneficial. The reduction in the number of societies might then permit a type of Seminar-Intensive Short Refresher Course on a regional basis.

The larger group would present a greater challenge to the clinician and because fewer clinicians would be required in a session, make possible a larger honorarium. We see a great advantage to having a permanent secretary named by each society, to provide some measure of continuity to the organization. If not permanent, the secretary might be elected for a term of five years or more, which would have merit.

The Faculty is presently exploring the feasibility of setting up a short course to be presented one afternoon per week over a period of ten weeks. A wide variety of topics could be covered under a general theme, such as "Dental Progress". It is anticipated that this program would be attractive to dentists within a hundred mile radius of the Dental School. It is possible that one, two or three of these afternoon presentations might be repeated before regional societies.

While on the subject of Continuing Education, Dr. K. J. Paynter, Chairman of the Post Graduate and Graduate Studies Committee of the Faculty, attended a Workshop on this subject in Chicago, last December. In a report he said, "A complete program of continuing education was envisaged as extending over the entire lifetime of the practising dentist. It should include not only refresher study in those sciences and arts in which dentists are generally well trained, but should include opportunities to acquire knowledge in such areas as practice management and patient psychology, etc., and in the general field of the arts and humanities.

With reference to the role of dental schools in continuing education, it was recognized that while the schools have an important responsibility in the field, the schools cannot do it all. The profession itself should provide the direction of the overall program, which should include the co-ordinated activities of dental societies and study clubs, journal publications, and all other applicable communications media."

9. Varsity Fund

The Faculty of Dentistry has been awarded a grant from the Varsity Fund in the amount of \$6,000 to assist in the research project entitled "The Measurement of Strontium 90 in Teeth of Canadian Children" under the direction of Dr. A. M. Hunt. This grant will make possible the purchase of a new "low background counter" which is urgently needed because of the greatly increased number of samples being processed and the necessity for long sample counting times.

In support of the application, Dr. Hunt commented, "The broad objective of the study, which was started in 1960, was to determine the feasibility of using teeth to obtain an accurate assessment of the amounts of fallout strontium 90 deposited in human tissues and to compare the data with those from diet."

We greatly appreciate this financial assistance from the Varsity Fund, which includes contributions from the graduates of the Faculty of Dentistry.

10. Student Activities

In addition to a very successful "At Home", one of the highlights of the students' 1963-64 session was the resurrection of Dentantics. After a lapse of five years, a small group of determined young men and women produced a very creditable performance.

Another group were motivated to venture into the exacting world of publications and came through with the first issue of The University of Toronto Undergraduate Dental Journal. The new student journal contains original articles, case reports, book reviews, abstracts and editorial comments. The Editor concludes his first editorial with the hope that the new Journal will serve "as a medium for scientific knowledge and student expression as it pertains to Dentistry and its related fields, will stimulate enquiry, provoke thought, and above all, create a healthy scepticism necessary for scientific progress."

Two senior class students were awarded the University's most coveted student distinction, namely the Students' Administrative Council Honour Award. This Award is made "in recognition of their outstanding qualities of character and notable contribution to some phase of University life." The winners were Donald Cunningham, who was a leader in S.A.C. affairs, and Harold Charles Hall who, among other activities, was Captain of the Varsity Football Senior Team. A third year student, Ken Davison, was honoured by his football team mates when he was chosen the winner of the Copp Trophy for performance, character and sportsmanship.

The third year class initiated an exchange of visits with the same class at the Dental School, University of Buffalo. From all reports, this was a very useful experience for both groups of students, providing an opportunity for the exchange of ideas, and the observation of methods and procedures used in the respective dental schools.

11. National Research Council Awards

The first Dental Research Associateship awarded to this Faculty provides for the appointment of Dr. M. Goldner on a full-time basis to the staff in

the Division of Dental Research. Dr. Goldner is a biochemist and microbiologist, holding a B.A. (Queens), M.Sc. (U. of Montreal), Ph.D. (U. of Montreal). He is Special Lecturer in Microbiology at the School of Hygiene and Research Associate at the Connaught Medical Research Laboratories. He will hold the rank of Assistant Professor of Microbiology in the Faculty of Dentistry and will continue with the cross-appointment in the School of Hygiene.

Dr. R. C. Burgess, presently Research Associate, the Division of Dental Research, was awarded a Dental Research Scholarship. He will be given a University appointment as Assistant Professor of Preventive Dentistry.

The two undergraduate National Research Council Scholarships awarded annually to each Canadian dental school have been granted to Mr. P. Weitz, of the First Dental Year, and Mr. R. W. Priddy, of the Second Dental Year. These scholarships are intended to encourage students to undertake research work during the summer months. They are an important source of recruitment of future teachers and research workers.

12. Staff

Dr. Gordon Nikiforuk, Professor of Preventive Dentistry and Chairman of the Division of Dental Research since 1957, was granted sabbatical leave from the University for the period January 1 to June 30, 1964. In his absence Dr. R. M. Grainger assumed the responsibilities relinquished by Dr. Nikiforuk and we are grateful to him for undertaking the increased administrative duties. Dr. Nikiforuk is studying in Copenhagen at the Institute of Biochemistry and the School of Dentistry. It is with profound regret that we now report that he advised us on February 28 he has accepted an appointment on the staff of the new dental school at the University of California, Los Angeles, commencing July 1, 1964.

Dr. J. H. Johnson will retire from the Faculty on June 30, 1964. The excellence of the Dental Faculty Library is due mainly to his wise leadership and more recently he has made a lasting contribution in the organization of the Museum Collection.

Dr. R. L. Twible will resume the leadership of the Department of Prosthodontics on a full-time basis on July 1, 1964, after a year's leave of absence. Dr. E. P. Downton has served with distinction as Acting Head of the Department during the current session.

We observe, with mixed emotions, that Dr. W. G. McIntosh has been named to succeed Dr. D. W. Gullett as Secretary of the Canadian Dental Association. We extend sincere congratulations and best wishes to Dr. McIntosh.

13. Acknowledgements

The very harmonious and cordial relationship which this Faculty shares with the Board of Directors of the Royal College of Dental Surgeons of Ontario is a constant source of encouragement and stimulation. A review of the many grants made by the Board to the Faculty indicates the wide range of interests and the generosity of this Board. We are most grateful for your moral and material assistance.

Appreciation and thanks are extended to the many individual members of the profession who continue their support of a wide range of Faculty projects. We are also sincerely indebted to the Academy of Dentistry, the Ontario Dental Association and the Dental Alumni Association for their many and diverse contributions.

ACTION

Report adopted.

FINANCE COMMITTEE

MEMBERS: H. M. Jolley, Chairman; D. J. Ferguson, R. Michell.

REPORT

FALL MEETING

1. A plenary session of the committee was held in the interval between the annual meeting, April, 1963, and the special meeting of November, 1963. The committee benefitted from the welcome presence of the President of the Board as well as the availability of the Secretary-Treasurer and the Business Manager.

2. Organizational Structure of Dentistry in Ontario

It was agreed to recommend to the Board that:

"The previously approved budgetary provision of \$1,000 for the R.C.D.S. portion of the Woods Gordon Study be increased to \$2,000."

3. Canadian Fund for Dental Education

It was agreed:

"That the Finance Committee does recommend that an initial grant of \$500 be made to the Canadian Fund for Dental Education, and further, That further annual grants be made subject to the discretion of the Board of Directors, and further,

That the annual grant be considered a memorial tribute to the deceased members of the College and that an appropriate card be sent to the family of the deceased notifying them of the tribute."

4. Annual Fee

The Finance Committee had been directed to give consideration to a possible increase in the annual fee. While perhaps superfluous, the committee, after discussion of the suggested reasons for an increase, passed the following motion:

That the Finance Committee recommends no increase in the annual licentiate fee."

5. Terms of Reference of Committee

The Chairman had, at the request of the Board, drafted Terms of Reference for the Finance Committee for presentation to the November, 1963, meeting of the Board. There was general agreement with the statement prepared by the Chairman.

6. Budget

The Committee has prepared the Annual Budget for presentation at this November, 1963, meeting — herewith appended as Appendix A. Certain salary revisions were made and the amendments are reflected in the Budget.

The President and Chairman were asked to serve as a sub-committee to interview key personnel in connection with financial arrangements of employment and associated topics.

BUDGET — 1963 AND 1964 **STATEMENT OF REVENUE**

	Budget 1963	Budget 1964
<i>Fees:</i>		
Examination	\$ 1,000.00	\$ 1,000.00
Licence — active	180,000.00	182,000.00
Licence — graduate	3,000.00	4,000.00
Licence — inactive	200.00	200.00
Registration	7,000.00	7,000.00
Hygienists — licence	120.00	120.00
Hygienists — registration	300.00	800.00

Excess of Income over Expenditures	\$ 10,097.00	\$ 2,205.00
--	--------------	-------------

ACTION

Motion adopted:

"That in respect of the 1964 graduating students of the Faculty of Dentistry, of the University of Toronto, such students being desirous of obtaining registration and licensure in the Royal College of Dental Surgeons of Ontario, there be no change in the registration fee but the licentiate fee will be \$75, and further

That in respect of the graduate of the Faculty of Dentistry, University of Toronto from 1965 the full registration fee in the amount of \$100 be made applicable and in addition the full licentiate fee applicable at the time."

Motion adopted:

"That subsequent to the 1963-1964 Academic Session of the University of Toronto the arrangement whereby remittances are received from the office of the University's Chief Accountant in respect of Student Registration Fees be discontinued."

Report adopted.

GOVERNMENT AND LEGISLATION COMMITTEE

MEMBERS: J. P. Coupland, Chairman; D. J. Ferguson, A. H. Leckie.

REPORT

FALL MEETING

1. A meeting of the Government and Legislation Committee was held on Wednesday, October 16, 1963.

2. By-Law Amendment

The Committee reviewed By-laws Nos. 5, 6, 10, and 15.

(a) *By-law 5*

This By-law refers to student registration which in its present form is an anachronism.

Since the Committee was agreed that the graduates of the University of Toronto in dentistry should be treated no differently in respect to registration requirements from any other dental graduate of an approved school seeking registration in the R.C.D.S., deletion of this By-law is recommended.

(b) *By-law 6*

Section 1 (a) had particular applicability when the R.C.D.S. was responsible for the provision of instruction in dentistry through the School of Dentistry. The requirement for anyone desirous of obtaining a certificate of licence to matriculate in the R.C.D.S. is no longer germane. The Committee recommends its deletion.

(c) *By-law 10*

Section 1 (b) is manifestly impossible to require if Ontario intends to accept graduates from other jurisdictions. If all applicants for licence were required to obtain a qualifying certificate from the Registrar *before* beginning their dental studies then only those applicants from all approved schools who were sufficiently far-sighted to recognize this requirement and meet the stipulation would be eligible. This, obviously, is not the intent of the Board. The Committee recommends its deletion.

Section 1 (h) as it exists makes no provision for graduates of other than approved schools to qualify through any approved school of their choice. Again it is not the intention of the Board to be restrictive in this area and accordingly the Committee recommends its deletion.

(d) *By-law 15*

The Board gave intention at its Annual Meeting in April 1963 to increase the per diem remuneration of Directors to \$75.00. The proposal met the concurrence of the Finance Committee in its meeting held during the morning of October 16, 1963, and accordingly a budgetary provision is recommended to the Board by that Committee. The members of the Government and Legislation Committee agreed as well to the amendment.

3. Representation on Board of Directors

The Committee was directed to give consideration to a motion referred from the 1963 Annual Meeting of the Board to the effect that in any electoral district one member shall be elected for every 400 members or major portion thereof. The following motion was adopted:

“That no change in the basis of electing R.C.D.S. Directors be considered until the current study on the organizational structure of dentistry in Ontario has been completed.”

4. Radiation Control

The Committee was asked to consider the responsibilities of the R.C.D.S. Board on the matter of radiation hazards.

The Secretary read a letter from Dr. F. M. R. Bulmer, Director of the Industrial Hygiene Branch of the Ontario Department of Health as a reply to a question presented to the Department relative to regulations regarding radiation hazards. The Atomic Energy Control Act of Canada while covering health and safety aspects of all transactions involving radioactive substance does not extend to X-ray machines. The Ontario Public Health Amendment Act, 1959, and the Ontario Department of Labour Amendment Act, 1957, both have provisions for regulatory control of ionizing radiation. Also the Province has authority to exercise some control over the use of a source of ionizing radiation (as a dangerous material or process) under existing legislation of a general nature.

The Committee agreed that it was the Province's responsibility to enact regulations and the Board's responsibility to co-operate with provincial and federal authorities and to continue, by employing various media of communication, to bring to the attention of the profession information appropriate to this subject.

5. Business Tax

A letter was received from a member questioning the rates of business tax assessed professional persons as compared to many commercial enterprises. The Committee agreed that this matter was of interest and requested the Secretary to obtain what information he could on this matter with a view to interviewing the Chairman of the Committee of the Provincial Legislature now studying assessment matters.

6. Terms of Reference

The Committee after reviewing Terms of Reference developed by the Chairman agreed they were generally acceptable.

ACTION

Report adopted.

BY-LAW NO. 97

Enacted November 27, 1963

Being a By-law to amend By-laws No. 5, 6, 10 and 15.

Be it enacted and it is hereby enacted a By-law of the Royal College of Dental Surgeons of Ontario as follows:

That By-law No. 5 be deleted and that the following By-laws be re-numbered accordingly,

That By-law No. 6, Section 1 (a) be deleted and that the following sections be renumbered accordingly,

That By-law No. 10, Section 1 (b) be deleted and that the following sub-sections be renumbered accordingly,

That By-law No. 10, Section 1 (h) be deleted and the following substituted in place thereof:

“If graduates of other than approved schools — after satisfying evaluation of their matriculation and dental education by an approved school, and after being admitted to the said approved school, to have completed two or more years of dental education and to have passed the prescribed examinations in order to obtain an education in dentistry equivalent to that demanded for registration as a member of the College.”

That By-law No. 15, Section 1 be amended by deleting “\$45.00” in lines three and five respectively and substituting in place thereof “\$75.00.”

BY-LAW NO. 98

Enacted April 16, 1964

Being a By-law to amend By-law No. 12.

Be it enacted and it is hereby enacted a By-law of the Royal College of Dental Surgeons of Ontario as follows:

That By-law No. 12, Section 2 (b) be amended by the addition of the following:

Nothing in these By-laws contained shall be deemed to prohibit the utilization by a member of the College in connection with the practice of his profession of the services of a radiological technician duly registered under the provisions of the Radiological Technicians' Act, provided such services involve only the performance of the technical or mechanical aspects of dental radiology.

REPORT

ANNUAL MEETING

The following is respectfully submitted concerning investigations for the period January 1, 1963, to December 31, 1963.

1. Investigations

Complaint was received regarding an unregistered person extracting teeth in Toronto with subsequent claim for payment to a provincial government agency. Inquiries revealed a tooth was extracted as an emergency treatment only on one occasion. The individual had been a licensed dentist in Europe and had been approached here by a friend in an emergency after an accident, when no dentist was available. Payment was not received or the claim pursued further and no action was taken by the agency concerned. There was no evidence of illegal practice on any other occasion. The individual was warned and claimed he had no intention of violating provisions of The Dentistry Act, but that he had cleansed the mouth and extracted the tooth as an emergency first aid measure.

Complaint was received regarding an unregistered person apparently seeking to establish a dental practice in a northern Ontario town. On inquiry it was established that this individual's communications must have been misunderstood as he fully appreciated he did not have a registrable qualification.

2. Signs, Announcement Cards, Newspaper Announcements — Contrary to By-laws

Twelve such complaints were received and in all instances corrective action was readily taken by the dentists concerned on request.

3. Unhygienic Premises

One complaint proved to be warranted on inspection. The dentist concerned has taken steps to improve the situation and periodic inspections are continuing. Two other such complaints were not substantiated by inspection of the premises concerned.

4. General

Among complaints of suspected illegal practice of dentistry received here, several on inquiry were found to be baseless. Two proved to have taken place prior to the six months' limitation of action period and therefore no charges could be proceeded with. A few complaints were by name only without information of any complaints, modus operandi or other

particulars upon which to base an inquiry. It has been found that with the active co-operation of local society members most such complaints can be successfully dealt with and such co-operation and active interest are respectfully solicited.

Several cases of suspected illegal practice in various sectors of the province are under active investigation at this time and developments are awaited.

ACTION

Report adopted.

REPORT

ANNUAL MEETING

1. I am pleased to report a most successful year of operation for the Library. Circulation during the year showed a gratifying increase and is the highest in ten years, reaching a total of 17,207. These circulation figures include 103 items loaned to 62 borrowers from out of town. There were twenty-one inter-library loans. Two hundred and sixteen books were added to the shelves during the year. Six new subscriptions were instituted and there are fifty-six orders now outstanding.

2. Donations of books, journals, and museum material are gratefully acknowledged from the following: American College of Dentists; American Dental Association; Brooks Air Force Base, Texas; Canadian Medical Association; Crown and Bridge Study Club; Columbia University School of Dental and Oral Surgery; Dr. W. J. Dunn; Dr. Wallace W. Baxter (Hamilton); Dr. R. G. Ellis; Dr. R. J. Godfrey; Dr. G. C. Hare; Dr. E. Hooks; Dr. H. A. Hunter; Dr. J. H. Johnson; Dr. Marjorie Jackson; Dr. A. W. Lindsay; Dr. Norman Levine; Dr. G. T. Mitton; Dr. Peter Peloso; Dr. D. Teskey; Northwestern University Dental Library; International Academy of Oral Pathology; Nihon University, Tokyo; Institute of Dentistry, University of Helsinki; Osaka Dental College, Japan; Dr. H. G. Learoyd (Sutton); Dr. E. C. Veitch; Mrs. T. W. Warner (Kingston); Dr. Walton-Ball; Royal Dental School, Malmo, Sweden, and West Virginia University School of Dentistry. The donation of an 1886 dental catalogue by Dr. Baxter, of Hamilton, is particularly appreciated as it fills an important gap in our historical records.

3. During the year, several volumes were donated anonymously in memory and appreciation of deceased members of the staff or their families. Your Committee is studying the design of a bookplate which could be appropriately inserted in such donations, all of which have been received with deep appreciation.

4. This year a translation service was inaugurated in order to provide undergraduate translators from within the building who would be willing to help with the translation of foreign documents, books and periodicals. We now have translators in the following languages: German, Swedish, Norwegian, Danish, Italian, French, Russian, Bulgarian, and Spanish. We hope eventually to have people who could help us in Japanese and Chinese. This year, our undergraduate students began publication of their new journal, the "University of Toronto Dental Journal", and have made

exchange copies available to the Library to be used on an exchange basis with other University publications. In this way, subscription prices have been waived.

5. We have received the first letter book of the R.C.D.S. Secretary, containing the duplicate copies of the Board correspondence commencing April 23, 1868, through Dr. W. J. Dunn on behalf of the R.C.D.S. They have been specially bound and are a valued addition to our historical records.

6. An attractive display case has been installed in the Library for the purpose of displaying interesting books from our collection. It has been placed in a prominent position in the Library where our students may view them without a possibility of damage. It is proposed to maintain a rotating display in this case to acquaint both students and staff with our older books, some of which date back to the seventeenth century.

7. We were pleased to have been able to supply missing issues of periodicals to the University of Montreal's Faculty of Dental Surgery Library, and that of the University of California. Also, we hope to be able to supply the World University Service with duplicate material for use in less fortunate countries, especially the Libraries in Algiers University and Skopje University in Yugoslavia.

8. The Secretary of the Faculty has made an extensive survey of the Library hours and methods of all the other departmental libraries within the University. This survey is currently being studied by the Library Committee. Requests have been received from both our graduate and undergraduate students for extending our own Library hours.

This presents serious problems, as to open our Library in the evening would mean opening the entrance door to the building which would immediately give access to anyone to many parts of the building containing expensive apparatus which could readily be stolen. No library on the campus is so seriously involved in this respect. Nevertheless, it is my personal opinion that our Library hours should be lengthened in order to provide the best possible library service. To do so would involve either a monitor to check admission at the entrance or some form of grills which could be locked to prevent access and possible theft by intruders in vital areas. It would also require additional library staff for service during any additional hours. This requirement could be partially met through the employment of adequately trained graduate students. Budgetary provisions for the necessary staff are a prerequisite to any extension of Library hours.

9. Grateful appreciation is expressed to the Library staff and the Library Committee for their loyalty and co-operation throughout the year. It has been of the highest order and is correspondingly appreciated. This report is respectfully submitted with the recommendation that the customary grants be continued for the ensuing year. Circulation figures for the past five years are herewith appended as Appendix A and the financial statement of the Harry R. Abbott fund as Appendix B.

CIRCULATION FOR THE LAST FIVE YEARS

Year	Faculty	Students	Graduates	Periodicals	Totals
1960-61	809	7,340	1,207	1,886	11,442
1961-62	689	8,493	1,149	2,270	12,602
1962-63	763	9,182	1,289	2,735	13,969
1963-64	1,184	9,205	1,810	2,037	14,306*
Reading Room Circulations:					2,991
Total 1963-64:					17,297

*Over the last five years, the increase in circulation has been almost 40%

FINANCIAL STATEMENT: HARRY R. ABBOTT FUND

Allotment as of July 1, 1963	\$528.08
Amount committed for material on order	99.50
Balance	\$428.58

ACTION

Motion adopted:

“That the appreciation of the Board of Directors and Members of the R.C.D.S. be extended to Dr. J. H. Johnson for his invaluable contributions for many years and for the added responsibilities he so capably discharged in creating the Library facility and the Museum in the new School.”

Report adopted.

REPORT

FALL MEETING

1. The Annual Meeting of the N.D.E.B. was held in Ottawa on June 27, 1963.
2. The report of the Committee of Examiners and a distribution chart of candidates is appended as Appendix A.
3. It has been found advisable to regroup the written examinations. The re-grouping will be as follows:
 - (a) Oral Diagnosis, Radiology, and Treatment Planning.
 - (b) Operative Dentistry (Inclusive of fixed partial prosthesis).
 - (c) Prosthodontics.
 - (d) Orthodontics and Preventive Dentistry.
 - (e) Oral Surgery, Anaesthesia and Endodontics.
 - (f) Oral Medicine, Pathology and Periodontics.

An oral examination of one hour will henceforth include Ethics, Jurisprudence and Practice Management.

The pass mark for the oral examination will be 60% and the aggregate pass mark inclusive of the oral examination will be 65%.

4. With the participation of all graduates within the Province of Quebec in the N.D.E.B. examinations, problems of earlier timing of the examinations to allow for sufficient time to mark and to process the results have arisen.

5. A study of an objective question type examination as at present employed in the United States by the National Board of Dental Examiners, is underway.

6. The use of conjoint examinations continues to meet with disfavour with most members of the Board, with only three provinces at present favouring such a move. Authorization has been given for an appointee from outside the dental field to investigate all phases of this proposal.

7. The brief presented to the N.D.E.B. by the R.C.D.S. Secretary in June, 1962, has received no action. It would appear that inasmuch as the philosophies of the N.D.E.B. and the R.C.D.S. appear to be incompatible as to the main objective in a licensing examination, little seems to be accomplished by your representative at this "once a year" meeting.

8. The following officers were elected for the ensuing two years:

Past President	— Dr. Walter Hancock
President	— Dr. Reginald Ball
Vice-President	— Dr. A. G. Racey
Executive	— Dr. T. J. Cooke
	— Dr. R. B. DeWare
	— Dr. M. J. T. Dohan

Item 7. Motion adopted:

"That the Examiners and Petitions Committee develop a set of Principles to be employed as the basis for determining qualifications for a national certificate attesting to competence to engage in practice, such set of Principles to be presented for consideration at the April 1964 meeting of the Board."

Motion adopted:

"That the Examiners and Petitions Committee, employing as a basis the motion adopted at the October 1963 meeting of the said Committee and approved by the adoption of the Report of the Examiners and Petitions Committee, develop an appropriate resolution for referral to the Canadian Dental Association."

Report adopted.

PRESIDENT

WILLIAM G. BRUCE

REPORT

ANNUAL MEETING

1. One year of my term as President of the Board of Directors of the R.C.D.S. has passed. I deeply appreciate this honour and wish to express the sincere hope that my efforts will merit your approval. The willing co-operation and diligence of the members of the Board in the performance of their duties has been most commendable. I wish also to extend thanks to the many members of the College who respond so whole-heartedly when requests are made of them for service or assistance.
2. Due to the changes which occur in the elected personnel, the task of maintaining co-ordination and continuity in Board proceedings rests to a great degree with the Registrar-Secretary, whose patience, understanding, and loyalty provide an excellent example to the Board. I would like to express my thanks to Dr. Dunn and the entire headquarters staff—they have helped greatly in keeping my term a pleasant one.
3. The various committee reports and business transacted by the Board appear on the other pages of the *Proceedings*, hence I will deal only briefly in summarizing highlights which occurred during the year.
4. This Board's participation in the joint O.D.A.-R.C.D.S. presentation of a Brief to the Committee of Enquiry relative to Bill 163, An Act Respecting Medical Services Insurance was ably conducted by Dr. Coupland and Dr. Dunn. One of the most objectionable factors of the Bill concerning our profession is the stipulation that only medical practitioners may receive remuneration for services residing in the competence of dentistry, particularly in the area of Oral Surgery.
5. In the *Newsletter* following the last annual meeting of the Board it was stated that consideration would be given to examining the need for increasing the licentiate fee. The Finance Committee reported to the November meeting of the Board that our current financial status indicated it would be unnecessary to institute any increase at this time.
6. One of the major projects of our Board this year was the joint undertaking with the O.D.A. to engage the management consultant firm of Woods, Gordon, and Company to assess the organization of Dentistry in Ontario, and to suggest measures which they consider could provide a basis for suitable reorganization of those bodies serving or governing the profession.

This report was submitted in its entirety to all members of the College by publication in the April 1964 issue of the *Journal of the Ontario Dental Association*. These recommendations affect both the R.C.D.S. and the O.D.A. to such a degree that I urge every dentist in the province to make an intensive study of the report. We look forward to comments on your assessment of this document.

We must constantly keep before us the terms of the purpose for which the R.C.D.S. was formed. It is equally important that we do not lose sight of the manner in which the O.D.A. is intended to serve dentistry. Due to their specific spheres of importance in our profession, it is essential that there exist the highest degree of liaison and interchange of information between these two bodies. At the same time, each must be permitted to fulfil its own function in strict observance of the terms under which it was created.

7. Change is inevitable, but care must be taken in efforts to guide it in serving the best purpose possible. In recent years there has become apparent an increasing awareness among members of our profession that we are living in an era of accelerating change. Increasing numbers of communications are being received by the Board from individuals and groups expressing their attitudes toward many of the problems confronting us. It is desirable that this interest and awareness should be encouraged. It is equally desirable that these gestures on behalf of the well-being of the College be suitably assessed and co-ordinated. In many instances, it is found that the end result is very similar in thoughts produced by both factions, although the method of expression occasionally differs to a degree that similar purposes appear to become opposing ones.

8. It is necessary that these variations of opinion and purpose be viewed objectively, and that they be offered and received without rancour. In no other way can unity be achieved. Without unity we, as a profession, will have no strength to meet the challenges confronting us in the realm of policy and legislation.

9. We must not fear change but let us exercise continuing care that in the process of change we preserve our freedom, and in no way inhibit the advancement, stature, and respect of our profession.

ACTION

Report adopted.

PROPERTY COMMITTEE

Members: R. C. Honey, Chairman; W. G. Woods, V. A. Herron.

REPORT

FALL MEETING

1. The Committee met at Headquarters on October 16, 1963. The Secretary reported that all maintenance and renovation procedures authorized at the March 20 meeting had been completed. A complete inspection of the building was then carried out paying particular attention to the recent maintenance work.

2. Maintenance Procedures to be Undertaken

The Committee authorized the following maintenance procedures:

- (a) Painting the exterior woodwork of the building following adequate preparation for same.
- (b) Repair stucco around the south bay window on second floor.
- (c) Pointing of the brickwork around the south-west corner near ground level, the west entrance, and the north-west corner second floor.
- (d) Repair the downpipe at the north-east corner of the building.
- (e) Replanting of shrubbery in the front beds in accordance with a nurseryman's advice.
- (f) Repair of back porch roof.
- (g) Plaster repair in Academy office.
- (h) Replace bumper moulding in basement.

3. Inspection of Grounds

The Committee considered it unwise to proceed with any repair work on the driveway or surfacing of the parking area at the present time.

4. Terms of Reference of Committee

The Committee reviewed the Terms of Reference as suggested by the Chairman and offered a number of alterations which will be outlined in the Secretary's presentation of the Terms of Reference of all committees to the November meeting of the Board.

5. Property Budget

The Committee approved the following budget for 1964:

Caretaking	\$ 750.00
Equipment	150.00
Maintenance	2,500.00
Renovation	1,500.00
Taxes	1,700.00
Total	<u>\$6,600.00</u>

6. Following the detailed inspection of the building, the Committee was very much impressed with the standard of cleanliness and neatness and requested the Secretary to convey its sincere commendation to the caretaking staff.

ACTION

Report adopted.

PUBLIC RELATIONS COMMITTEE

MEMBERS: A. B. Sutherland, Chairman; R. C. Honey.

REPORT

FALL MEETING

1. The Public Relations Committee met on October 16, 1963, in the office of the Registrar-Secretary.
2. The Committee undertook a review of a report submitted by the Chairman of June 15, 1963 (Appendix "A"), being an assessment of the role and functioning of "public relations" in the affairs of the Board.
3. Out of these considerations and further discussion of the Board's concern with "public relations" the following resolution was prepared for the consideration of the Board:

"Whereas the intended function of the Public Relations Committee of the R.C.D.S. Board has been the exchange of information to and from Licentiates and related Boards and Associations within organized dentistry in this province as well as the dissemination of information to the general public, and

Whereas the central office of this Board has proven to be most effective in the discharge of these very functions,

Therefore be it resolved

That the Public Relations Committee of the Royal College of Dental Surgeons of Ontario be dissolved."

Appendix A

At some earlier date it has been decided that public relations operating through a committee could in some way assist the Board of the R.C.D.S. in the discharge of its responsibilities. Our assignment is to describe terms of reference for such a committee.

We begin with a consideration of "public relations" — What is it? To quote a recognized expert (1) "Since public relations is a relatively young profession it is hard to define. It bears family resemblance to journalism and teaching for it aims to inform to the law, in that it often counsels and advises clients on public attitudes." Another authority, Stephenson (2), states that public relations has spread from industry into education, philanthropy and other social and economic institutions. He states that in practice, public relations undertakes three steps:

To attract attention

To win belief

To impart understanding.

And this for the purpose of convincing people that they should adopt a certain attitude or pursue a certain course of action. To perform this feat public relations must find the answers to three questions. To paraphrase:

What is the message the R.C.D.S. Board wants to impart?

To whom?

How?

Through these questions a fourth and most important question is implied:

What is the purpose?

It is stated further that too many managements (Boards?) incautiously decide — “Let’s have some public relations, everyone else is doing it.” He continues — that without knowing what, whom, how and why, a public relations program has no purpose. In public relations terms — the R.C.D.S. Board stands for management — the persons responsible for management. Managing is the art of conducting an enterprise or program in the interests of the public and in accord with policy. Policy — is the plan by which management sets out to accomplish its objectives.

In the absence of any statement of policy it is difficult for us at this time to divine the intentions of the originators of the Public Relations Committee. We do not however suggest for a moment that this action was lacking in purpose. In the broadest sense, the purposes of a public relations committee would be to assist the Board in the discharge of its responsibilities.

Of a certainty the Dentistry Act and By-laws impose great public responsibility upon the Board yet the fulfilment of these obligations requires but limited direct contact or association with the public. To put it another way, the Board has a number of “publics” (related Boards, Associations or Organizations) any one of which may from time to time, in the opinion of the Board, stand in need of persuasion to a certain “attitude or course of action.” But in our understanding, these “publics” are not the ones of reference within the meaning of the term public relations. We understand this public to be, the people outside organized dentistry who are or may be concerned with dentistry.

In the light of the foregoing we pose the question — Is the title Public Relations Committee a misnomer? This is a suspicion which we have harboured for some time and it has been heightened recently in perusing some past R.C.D.S. public relations reports. If there is some misunderstanding — if we have succeeded in getting our “publics” mixed up this is not altogether surprising. In this connection, I believe the most significant action taken by the Board at the last annual meeting was the move to review the organization of Dentistry in Ontario. If indeed it is or has been the aim of the Board to establish communications (through a committee on relations) or to extend and improve communication with its “other” publics — (related boards and associations of people *inside* organized dentistry), then we believe this can be greatly facilitated by the projected research because we look for this study to clear up some existing anomalies in organization.

Returning to the "purists" view of public relations, it is our opinion that present practices and procedures are quite adequate to the need. A great deal of the work of the Board is carried on through committees. Policies and procedures are developed in committee for approval of the Board. The Board also accepts reports from C.D.A., Dental Public Health Committee, the Faculty, the Inspector, the Librarian, and the Workmen's Compensation Board Consultant. In this way the Board establishes authority and gives direction for the actions which are required to be taken by the Registrar-Secretary.

Many of the Board's actions are matters of public concern, require public co-operation or may be simply of public interest. I submit that in this connection we are enjoying the services of a very efficient public information bureau operating through the offices of the Registrar-Secretary. This is so because the Registrar-Secretary has proven himself most competent in (a) interpreting policies and procedures to the public, and (b) utilizing the various vehicles of communication available to him for this purpose.

In the absence of any previously stated policy on public relations we believe the Board (P.R. Committee?) might well adopt that as expressed by a large industrial corporation. "Our public relations policy is to treat people right, heed public opinion and keep them informed. Adoption of such a policy imposes a responsibility upon each Board member to endeavour to assess public opinion and attitudes in the course of his daily contacts. Such an awareness will bear upon each member's thinking and thus influence committee and Board decisions. Public opinion is not a one way street. Good public relations stems from a reciprocal flow of information. The idea that the R.C.D.S. should function as an independent "image merchant" is to be deprecated.

Acceptance of our definition of public relations and our assessment of its present functioning in Board affairs raises the question of the usefulness of a special committee on public relations.

A broadening of terms to include other relationships is also a matter for Board decision.

ACTION

Item 3. Motion adopted:

"That the Secretary be empowered to act as an officer of public information for the Board of the Royal College of Dental Surgeons of Ontario."

Report adopted.

REPORT

ANNUAL MEETING

It is a privilege to present my eighth annual report for the consideration of the Board.

1. Organizational Structure of Dentistry in Ontario

Considerable efforts have been expended in respect to a review of the organizational structure of dentistry in Ontario. Following the agreement of the R.C.D.S. and O.D.A. Boards in respect to the retention of the services of Woods, Gordon and Company, management consultants, a comprehensive report was received. The report, following review by both Boards, was agreed to in principle but considerable concern was expressed relative to methods of implementation.

As requested the R.C.D.S.-O.D.A. Liaison Committee has undertaken the assignment of proposing to both Boards a means of implementation. Accordingly an initial meeting was held on Wednesday, March 25, to develop an agenda for an all-day session including all members of the committee. It was decided to consider implementation, initially, under six main headings:

- (1) Personnel requirements.
- (2) Physical accommodation.
- (3) Relationship with Canadian Dental Association.
- (4) Relationship with Canadian Dental Service Plans Incorporated.
- (5) Finances.
- (6) Local society participation requirements.

The all-day session of the committee has been scheduled for Friday, May 1, 1964.

The Liaison Committee, as a result of its initial considerations, feels it mandatory to emphasize the complexities of the problems being undertaken. The proposed changes will not, significantly, reduce the personnel requirements and physical accommodation for the R.C.D.S. To develop, however, a provincial voluntary association along the lines proposed will greatly increase the requirements for additional personnel, physical accommodation, and financial support. It is also apparent that without the virtually unanimous concurrence of the local dental societies of the province the new proposals cannot be effectuated. The dentists of Ontario are, perforce, going to be required to decide whether or not they are prepared to provide the not insignificant increased financial underwriting which will be necessary. It would seem to be appropriate that early efforts be made with a representative group of local societies to place the essential proposals before them and seek the reaction of their membership.

The Woods, Gordon report has been made available to each dentist in Ontario within the April 1964 issue of the *Journal of The Ontario Dental Association* and is, therefore, not included as an appendix to this report.

2. A Second Dental School for Ontario

Continuing efforts have been maintained to encourage the establishment of a second dental school in Ontario.

The Secretary accepted appointment to an Advisory Committee to the Minister of Health such committee being established to advise the Minister on the matter of creating a fifth faculty of medicine and a second faculty of dentistry. The other four members of the committee were: Dr. J. C. C. Dawson, the Registrar of the College of Physicians and Surgeons; Dr. John D. Hamilton, Dean of the Faculty of Medicine of the University of Toronto; Dr. J. W. R. Webster, the President of the College of Physicians and Surgeons of Ontario; and Dr. W. G. Brown, the Deputy Minister of Health for Ontario.

Following two extensive meetings a comprehensive report was prepared and submitted to the Minister of Health. The report covered the need for a new medical and a new dental school, general principles governing the creation of a new medical and dental school, their functions, the teaching hospital, and possible sites for a health sciences centre. In addition an appendix outlined the composition and physical structure of a health sciences centre. Under physical structure were included (1) Faculty of Medicine, (2) Faculty of Dentistry, (3) Medical Technical Training Centre or Institute, (4) School of Nursing, (5) Faculty of Pharmacy, and (6) Administrative Structure.

The committee recommended that a health sciences centre should be established as soon as possible at both or either Hamilton or Toronto. In Hamilton it should be established with McMaster University. In Toronto there are three alternatives — York University on the Steeles Avenue campus, Scarborough College on the campus at Highland Creek, or with either York University or the University of Toronto based at Sunnybrook Hospital. Several recommendations followed specifically relating to the various requirements of such a health science centre.

Although the report was submitted to government many months ago and assurance has been given by the Minister of Health that it was referred to the University Affairs Committee nothing further has been heard.

Again recognizing that a most serious situation is arising efforts were renewed in respect of the University of Western Ontario. The Board of Directors at its meeting on February 14 were apprised of the results of the visit of a deputation with the President and Chairman of the Board of Governors of the University of Western Ontario. It was the unanimous opinion of the Board that in view of the delay in respect of the creation of a Faculty of Medicine at McMaster University it was now mandatory to proceed with the encouragement of the creation of a Faculty of Dentistry at the University of Western Ontario where an important Faculty of Medicine already exists.

Accordingly on February 17 a proposal was laid before the Minister of Health recommending the earliest possible action to create a Faculty of Dentistry at the University of Western Ontario. Some six reasons were advanced in support of the proposal:

- (1) There is an existing Faculty of Medicine with a highly competent staff. As a functioning Faculty of Medicine is mandatory before creating a Faculty of Dentistry and as it would take some time to develop a similarly qualified medical teaching staff in a university which does not at present include a Faculty of Medicine, the opportunity for earlier commencement at Western is obvious.
- (2) There is a voluminous medical sciences library at Western much of which is necessary to a Faculty of Dentistry. Again, in a university not at present providing a medical course not only would it be necessary to develop a library for subjects generally regarded to be within the exclusive purview of dentistry but it would be required to create a medical library as well.
- (3) The building program now advancing within the University of Western Ontario has been so planned that the incorporation of a Faculty of Dentistry could be achieved with minimal inconvenience and with the maximum saving of time. In fact, if government were to provide early approval the first class of dental students could be graduated from Western in the spring of 1969. By the most optimistic calculations it would not be possible to graduate a class in dentistry from any University which does not at present have a Faculty of Medicine until at least 1972. The burgeoning population of the province demands the earliest possible acquisition of a greater number of dental practitioners.
- (4) There are established ideal working relationships between the University of Western Ontario and all the major hospitals in the area. The opportunity for clinical material for a Faculty of Dentistry both on an in-patient and an out-patient basis already exists. Such agreements would, perforce, have to be negotiated in any area where there is no operable medical school.
- (5) An extensive school dental program is operating in London and full co-operation in the provision of patients for clinical material is assured.
- (6) The existence of a dental faculty within a geographic area tends to draw a greater number of applicants from that area. It is known that the smaller centres are more likely to acquire practitioners from among students who have been recruited from similarly-sized communities. The western aspect of Ontario requires more dentists and there is every likelihood that the smaller towns and cities of western Ontario would experience a significantly improved patient-dentist ratio if the second Faculty of Dentistry is located in London.

The Minister has been informed by the Chairman of the Board of Governors and the President of the University of Western Ontario that the University would be most responsive to a request to establish a Faculty of Dentistry providing the Ontario government will provide the capital funds and guarantee the necessary operating costs.

At this writing the Secretary has been assured by the Minister's office that this proposal is under active consideration. It is to be hoped that governmental interest in and concern for this problem will soon evidence tangible support for the proposal.

3. Bill 163 — An Act Respecting Medical Services Insurance

As far as the dental profession is concerned one of the most far-reaching statutes ever to be presented in the Ontario Legislature is Bill 163 — An Act Respecting Medical Services Insurance. The statute purports to provide for medical services insurance but excludes, under Schedule A of the statute, provision for dental services.

Those responsible for drafting this statute either have not recognized or have chosen to ignore the fact that there are certain services which reside within the academic and legal competence of dentists but which also may be rendered by medical practitioners. Bill 163 is discriminatory and unfair because it makes provision for benefits to be paid for services providing such services are rendered by licensed physicians but excludes from benefits services performed by dentists even though such services are provided for within the meaning of The Dentistry Act of Ontario.

It would also appear to be patent that any administrative machinery, established or augmented for the administration of medical care services, will, of necessity, continue to be employed if and when the plan is extended to include dental care. Thus it is of consummate interest to the dental profession that such an administrative vehicle be sufficiently flexible it can encompass the administrative problems which the provision of dental care insurance may engender.

For this reason this Board, on May 9, 1963, requested that it be represented on the Committee of Enquiry established to advise the government on how to provide the best medical services insurance plan for Ontario. Early in September 1963 the complement of the thirteen-member committee was announced but no dentist was appointed.

The Board directed that a Brief be prepared and appointed a Steering Committee with Dr. R. W. Marshall as Chairman and Dr. D. B. McAdam, Dr. G. K. Chapman, and the Secretary as members. The Brief was approved by both the O.D.A. and R.C.D.S. Boards and was presented to the Committee of Enquiry on December 11, 1963. The profession was represented by Dr. J. P. Coupland, Vice-President of the R.C.D.S., Dr. W. W. Philp, President of the O.D.A., Dr. R. W. Marshall, Dr. John A. Pedler, Dr. A. A. Antoni, and the Secretary.

While the deputation received a gracious hearing one was unable to depart with a conviction that the committee was really particularly concerned with the discriminatory nature of the legislation but nonetheless our further observations were requested respecting proposals for amendments to the statute as well as the listing of certain services for which benefits should be given when such services are performed by dentists.

Two amendments were proposed for Section 1 of the Act Respecting Medical Services Insurance. Section 1 (i) provides for services under the direction of a physician and we suggested the addition of the words "or where applicable, by or under the direction of a dentist."

A new sub-section (m) was suggested as follows:

“‘Dentist’ means a dental practitioner registered as such under The Dentistry Act of Ontario or under the comparable legislation of any jurisdiction outside Ontario in which medical or surgical care or services are rendered to a resident.”

This proposal thus gives a definition of what is meant by a dentist similar to the definition contained in the statute for physicians.

Finally it was suggested that Schedule A be amended by the deletion of the words “dental services” from Exception 3 of Schedule A and the following to be substituted in place thereof:

“Services recognized as being exclusively dental in character, i.e. tooth restorations, including endodontic services, prostheses, orthodontic services, extractions and adjunctive procedures, periodontal services and radiographic and anaesthetic services relating to the foregoing.”

We suggested to the Enquiry that if Bill 163 is not to be unjust and discriminatory as far as dentists and persons who seek their services are concerned the following are procedures for which dentists should be indemnified under Bill 163:

- (1) Management of acute infections of oral structures.
- (2) Management of traumatic injuries of the jaws.
- (3) Management of cysts of the mouth and jaw.
- (5) Biopsy of oral lesions.
- (5) Management of benign tumours of the mouth and jaws.
- (6) Closure of antro-oral fistulae.
- (7) Surgical management of jaw deformities.
- (8) Management of trigeminal neuralgia.
- (9) Radiography with respect to items 1-8.
- (10) General anaesthesia with respect to items 1-8.

Because the Brief appeared in its entirety in the January 1964 issue of the *Journal of the Ontario Dental Association* it is not attached to this report for record purposes.

No date has been given for the transmission of the final report of the Enquiry to the government. It is likely that the report will not become available at least till the Fall of this year.

4. Railway Brotherhood Seeks Dental Mechanics' Legislation

The Ontario Legislative Committee of the International Railway Brotherhood presented a Brief to the Government of Ontario which included a request that dental mechanics' legislation similar to that in effect in Alberta and in British Columbia be enacted in Ontario. The Minister of Health has requested the views and comments of the Board on this proposal.

In acknowledgment of the Minister's request it was pointed out that the welfare of the public in its acquisition of dental services demands that such services be provided under the responsibility of dentists who are qualified by education, training, experience, and licensure to have an all-encompassing concern and regard for the dental and total health of their

patients. While recognizing the most valuable services rendered by competent auxiliary personnel fitted for their responsibilities through recognized training programs the profession, nonetheless, does aver that all auxiliaries engaged in contributing to the provision of dental care should serve as personnel whose services are integrated under the supervision and direction of the dentist who, himself, must assume complete responsibility for the dental welfare of the patient.

The brief presented by the Railway Brotherhood presupposes that the dental mechanic has not only sufficient mechanical skills but has the appropriate biological understanding to undertake and be entirely responsible for certain prosthetic services.

Such a supposition is completely invalid. As an artificial denture is required to fulfil a physiological function, more than mechanical competence derived from on the job training is necessary to determine if the denture meets essential physiological criteria.

The brief made reference to the legislation existing in British Columbia and in Alberta and one was permitted to infer that Ontario should look favourably upon these statutory precedents.

It was pointed out to the Minister that the dental profession believes strongly that the legislation respecting dental mechanics is inimical to the welfare of the public for it fractionizes responsibility and permits persons with nothing other than on-the-job training to assume responsibilities they are unqualified to accept.

In Alberta the Minister of Health refused to have the dental mechanics' legislation within the administration of his department. He stated that he was interested only in the dental health team and could not consider that these mechanics were rendering a health service. Accordingly, the mechanics' bill was placed under the jurisdiction of the Minister of Labour. Even a cursory review of the problems now existing in our most westerly provinces can permit no other conclusion but that the problems being created by these statutes are infinitely greater than the alleged benefits which they were intended to provide.

On an interim basis the Minister has been informed that the dental profession in Ontario could not be more strongly opposed to the enactment of the type of legislation proposed by the Railway Brotherhood. This Board may now have additional comments it may wish transmitted to the Minister.

5. Hospital Regulations

This past year has witnessed a most significant advance in respect of the efforts of the profession to have created more equitable regulations respecting the provision of dental services in our public general hospitals. Dr. A. A. Antoni, the chairman of the Hospital Dental Services Committee of the Canadian Dental Association, and the R.C.D.S. Secretary met on two occasions with the Joint Working Committee on Public Hospitals Act Regulations. On this committee are represented the Ontario Hospital Services Commission, the Ontario Medical Association, the Ontario Hospital Association, and the Department of Health of Ontario.

The deliberations of both meetings resulted in regulatory proposals entirely consistent with recommendations made by this Board.

The new draft regulations define "attending dentist," "dentist," and "dental staff." An attending dentist is a dentist who has been appointed to the dental staff of a hospital and attends a patient in the hospital. The dental staff means the dentist or dentists to whom the Board has granted the privilege of attending patients in the hospital in co-operation with a member of a medical staff. A dentist means a person holding a certificate of licence under The Dentistry Act of Ontario.

Consistent with the appropriate section of the statute the regulation now stipulates that the Board of a hospital may provide, in the hospital by-laws, for the appointment and functioning of a dental staff and a Chief of the dental staff and also a method of determining the professional privileges granted to each dentist on the dental staff. It should be pointed out that this is an identical provision to that made in respect to medical staff.

The admission of a patient to hospital for dental services is provided for in the following section:

"No person shall be admitted to a hospital for treatment by a dentist except:

- (a) When the dentist is of the opinion that it is necessary for the person to be admitted to the hospital as an in-patient, and
- (b) On the joint order of a dentist and of a medical practitioner who are members of the staff of that hospital."

Thus by making this amendment the dentist becomes entirely responsible for deciding upon the need to admit a patient but the requirement under the Public Hospitals Act of the necessary medical attention is taken care of by the joint admission procedure.

A new section provides for the full authority of the dentist to write or telephone all necessary orders respecting the patient he has admitted to the hospital.

Before the above regulations can become law they must go through a rather lengthy legal procedure. The Joint Working Committee did agree, however, that because of the urgency of regularizing many of the dental practices now going forward in hospitals in Ontario the dental by-laws would be put into the legalistic mill without delay in the hope that in the reasonably foreseeable future the unanimous recommendations of the Joint Working Committee could become law.

Acting on the request of the R.C.D.S. Secretary for a representative of the dental profession to serve on this Joint Working Committee the members unanimously adopted a motion requesting the Chairman of the Ontario Hospital Services Commission to write to the Royal College of Dental Surgeons to request a representative for the Joint Working Committee.

Both Dr. Antoni and the Secretary were deeply appreciative of the understanding courtesy they received from all members of the Joint Working Committee.

6. Canadian Council on Hospital Accreditation

Shortly after the 1963 Annual Meeting, the Board received a copy of the Second Edition of the *Standards for Accreditation of Canadian Hospitals* from the Canadian Council on Hospital Accreditation. Major modifications respecting dental services were made in the Second Edition. In fact, except for two or three short paragraphs which said very little, dentistry received very little attention in the First Edition.

Dr. A. A. Antoni, Chairman of the C.D.A.'s Hospital Dental Services Committee, and the R.C.D.S. Secretary were appointed by the C.D.A. as a sub-committee to meet with a sub-committee of the C.C.H.A. in the hope of developing standards more consistent with contemporary requirements and practices. The agreements reached by the committee thus created were eventually confirmed by the Council and because of the importance of the dental provisions in the Second Edition of the Standards, "Medical Staff responsibilities for dental patient care" and "dental service" regulations are attached as Appendix A.

7. Possession of Dental Equipment by a Registered Dental Technician

Because Section 23 (5) of The Dentistry Act makes the possession of dental equipment *prima facie* evidence of an infraction of the statute the Governing Board of Dental Technicians expressed concern that registered dental technicians might well be considered culpable by having in their laboratories instruments and equipment of a character similar to that found in a dentist's office. While the Governing Board recommended an amendment to the Act, the R.C.D.S. Directors, while sympathetic with the viewpoint expressed, did not consider it propitious to seek a statutory amendment. However, instructions were given to draft a permissive statement to make reasonable provisions for the concerns expressed by the Governing Board. The following statement has, therefore, been forwarded to the Governing Board of Dental Technicians of Ontario:

"Permission is hereby granted by the Board of Directors of the Royal College of Dental Surgeons of Ontario to every person who is registered as a dental technician, pursuant to the provisions of The Dental Technicians' Act, so long as the registration of such person continues to be renewed and is not cancelled or suspended, to have in his possession in pursuit of his business, trade, or calling as a dental technician, such dental equipment of a character similar to that with which a place of business of a dentist is equipped, and the dental materials incidental thereto, as is reasonably necessary to the performance of his duties as a dental technician, that nothing herein contained shall be deemed to relieve any person so authorized from compliance with the provisions of Section 23, sub-section (1) of The Dentistry Act, except as in sub-section (3) of the said section provided."

8. Dental Technicians Plan Training Program

During March 1964 your Secretary was privileged to attend a joint meeting of the Governing Board of Dental Technicians of Ontario, representatives of the Dental Laboratory Association of Ontario, and the Toronto Study Club of Dental Technicians. In all there were 24 persons in attendance and the purpose of the discussion was to consider the desirability of establishing a more formal course of training for dental technicians.

There was unanimous agreement that it is anomalous for a statute such as The Dental Technicians' Act to provide for examination and registration procedures in the absence of any formal arrangements for training. All agreed to the desirability of establishing a program not only for persons wishing to enter the dental laboratory industry but for those already engaged in the trade.

A modified "apprenticeship" program not within the meaning of The Apprenticeship Act, the administration of which resides within the purview of the Ontario Department of Labour, but within the existing provisions of The Dental Technicians' Act, was agreed to as a desirable method. The education committee of technicians already established is to be augmented and its early efforts are to be directed to the development of a curriculum to which a laboratory owner (registered dental technician) would be contractually committed should he assume responsibility for a trainee in his laboratory. The trainee, in turn, would enter into a contract with the laboratory owner to protect the interest and welfare of the registered dental technician.

It was further agreed that additional didactic work would be necessary at some central location — probably the laboratory already owned by the Governing Board. Following the trainee's period of satisfactory service with the laboratory owner and following successful completion of the additional training at the central laboratory the candidate would then attempt the licensing examinations for which provision is made within The Dental Technicians' Act.

Because of the stipulation contained in Section 23 (6) of The Dentistry Act the co-operative participation of the R.C.D.S. Board is necessary and your secretary assured the technicians that this Board, having a concern for technological competence, would give every possible consideration to proposals emanating from the Governing Board of Dental Technicians and would want to co-operate in any way possible to make the establishment of a formal program of training a practical reality.

9. Dental Assisting Course — Township of Etobicoke

One year ago the Board was gratified to learn of the inauguration of a course in dental assisting in the Township of Scarborough. This program is nearing the end of its first year of operation. The facilities are most adequate and we have heard nothing but glowing praise in respect of the work of Dr. Marjorie Jackson in helping to organize the program and for the services of Mrs. Mai Pohlak, a licensed Dental Hygienist, who is the full-time teacher-supervisor of the program.

Over the past several months your secretary has worked closely with Mr. Frank Mitchell, Assistant Superintendent of Secondary Education in the Township of Etobicoke, in respect to the development of a similar program in the Township. It is a pleasure to report that in September 1964 the second program in dental assisting at the secondary school level will be inaugurated in this province. Etobicoke Collegiate is now well advanced in its building expansion program and a new section of the structure will contain the laboratory for the dental assisting program. Another licensed dental hygienist, Mrs. H. E. Bauernhofer, will be the teacher.

10. Group Insurance Coverage

If justification were ever needed for the establishment of group insurance arrangements for the dentists of Ontario the general participating figures undoubtedly provide it. With the exception of the facility provided to enable dentists and their employees to contribute to a group annuity from which pensions for the employees may be acquired, the participation in all plans is gratifying.

(a) *Liability* — This plan is available not only to Ontario dentists but to dentists in New Brunswick, Manitoba, Saskatchewan and Alberta as well. Only New Brunswick and Saskatchewan have not met their participation requirement. Regretfully it will be necessary to discontinue the plan in both provinces if their participation does not approximate fifty per cent of the practising dentists by the termination of the policy year on September 30, 1964.

The following is the participation in this plan:

Alberta	309
Saskatchewan	66
Manitoba	121
Ontario	1,540
New Brunswick	29

Unfortunately 1963 was a heavy year for claims. The claims either paid or for which provision has been made were approximately the same as the aggregate of the previous four years.

(b) *All Risks Replacement Cost Insurance* — There are 370 dentists in Ontario availing themselves of this important coverage. Unfortunately we have not yet been able to communicate adequately with the members of the profession to convince them of the imperativeness of replacement cost coverage. Actual value coverage as represented by the depreciated value of the office contents is fine providing one does not experience the hazard against which the insurance has been purchased! It is a sobering experience, as can be attested by a few Ontario dentists, to attempt to re-equip and re-supply a dental office on the proceeds accruing from insurance purchased to cover only a portion of the depreciated value. A mailing piece is being prepared for circulation to the members in the near future.

(c) *Employee Pension* — To date there are only 19 participants. However, the important consideration is that the facility exists and it is hoped that both employer-dentists and their employees who intend to be engaged in their occupations for some time come to recognize the wisdom of providing for retirement income out of current earnings.

(d) *Income Protection — Sickness and Accident* — At the time of consolidation of the eight varying local plans, all underwritten by the same carrier, approximately 1,100 dentists had income protection coverage. In the consolidated plan which is a significant improvement even over the best of the former local plans this number has been augmented to 1,759 — a rather remarkable growth. This participation is rather dramatic evidence of the quality of the plan and justifies the rather prodigious work undertaken to prepare specifications and receive proposals from a large number of potential carriers.

(e) *Office Overhead* — The participation in this plan is 305. This type of coverage frequently seems possessed of some confusion in the minds of dentists. It should be reiterated that office overhead protection covers only expenses actually incurred. Thus in the dentist's absence because of sickness or accident he is not incurring expenses for supplies, laboratory services, and laundry. Certain utilities are less, as are cleaning or janitor services. The primary need of a dentist is to replace lost income. This is why the Income Protection Plan outlined in (d) above is the core of our program.

Frequent references are heard to the fact that premiums paid on behalf of Office Overhead are chargeable expenses to the office and therefore one is not paying tax on the premium. This is, of course, true but one might wish that a similar emphasis was given to the fact that when benefits are paid they must be received as income.

Two additional comments need to be made. Firstly, Canadian Dental Service Plans Incorporated has proven beyond the shadow of a doubt that it is an outstandingly capable Collector of Premiums. D.S.P.I. is the dentists' own organization and is primarily concerned with providing the very best service it can to the people to whom it is responsible — the participating dentists. D.S.P.I. is not in the insurance business. It performs a function in respect to the above group insurance plans for which provision is made within The Insurance Act of Ontario and for a statutorily limited administration fee. Neither the carrier nor the broker of record is of consequence to D.S.P.I. It performs its administrative functions constantly motivated by considerations which place the welfare of the dentist (or his beneficiary) in the position of priority.

Secondly, it is important to recognize that these group coverages experience periodic review by Insurance Advisors augmented by the addition of the Chairman of the Insurance Committees of the local dental societies in the province.

Notwithstanding the significant improvements that have been achieved within the Liability Plan negotiations are at present underway to arrive at a formula for retrospective rating. In other words favourable claims' experience will result in return of premium to the contract holder and this amount, in some fashion yet to be determined, can be utilized to the benefit of the certificate holders.

11. C.D.A. Executive Council and R.C.D.S. Board Consider Participation in Insurance

During November 1963 an all-day joint meeting of the Executive Council of the Canadian Dental Association and the Board of Directors of the Royal College of Dental Surgeons of Ontario was held for the purpose of discussing professional participation in commercial insurance plans. While little was actually resolved in respect of principles to guide a dental organization in its participation in insurance coverages, certain agreements were reached.

The Canadian Dental Association has established a committee on commercial insurance plans. The first report of the meeting of that committee will be available for discussion at this meeting.

Since November 1963 a moratorium has been declared and agreement exists that the R.C.D.S. and the C.D.A. will not institute any plans beyond those to which they are already committed. Thus, although the Canadian Dental Association has had proposals made for participation in a group life insurance plan, this will not proceed. D.S.P.I., also, will not proceed to assume the function of Collector of Premiums for the O.H.S.C., Blue Cross Supplemental, P.S.I., and Blue Cross Extended Health Care Plans. The recommendation of the insurance conferences in respect to D.S.P.I. becoming Collector of Premiums for the above-named plans has been held in abeyance to await possible developments accruing from the deliberations of the C.D.A. Committee on Commercial Insurance Plans. It is hoped that following consideration of this report the Board may wish to provide further direction.

12. The Fluoridation Act of Ontario

In November 1963 the secretary was granted an interview with the Minister of Health to discuss with him The Fluoridation Act of Ontario. The secretary outlined some of the concerns of the profession in respect of the statute particularly the problems of a community protecting its investment in equipment and supplies for a fluoridation procedure which expenditures had been made subsequent to an affirmative plebiscite. The Act provides for no time limit whatsoever between plebiscites.

In recognizing a defect in the legislation Dr. Dymond assured the secretary that he intends to discuss the matter fully with his colleagues on the Executive Council, hopefully to present an amendment which will provide a reasonable period of time between referenda.

The National Fluoridation Committee of the Health League of Canada also had similar concerns. Accordingly the committee decided to prepare a Brief and have a representative group from the committee present it to the Prime Minister of the province. Unfortunately it was not possible to gain an interview with Premier Robarts but a meeting has been scheduled with the Ministers of Health, Energy Resources, and Municipal Affairs on Wednesday, April 15, 1964. The Brief, the original draft of which was prepared by your Secretary, has been forwarded to the Prime Minister and the other ministers concerned and it is hoped that some positive action may be forthcoming to remove the existing defect in the legislation.

13. Status of Fluoridation in Ontario

On December 31, 1963, slightly more than 63% of all persons in Canada now enjoying the benefits of controlled fluoridation were resident in Ontario. On that date 3,851,306 Canadians in 202 communities supplied by 143 water systems were served by fluoridation programs. Of this number some 2,435,626 were resident in 54 Ontario communities supplied by 30 water systems. Thus, today, approximately 4 out of 10 Ontarians are the beneficiaries of controlled fluoridation programs and in addition to that number there are several thousand people in over 30 communities enjoying the benefits of fluoridation without the active intervention of the public utility authorities.

14. Cytology Committee

Acting on the appointment of President Bruce the Secretary is serving on the Ontario Cytology Committee, under the Chairmanship of Dr. Edgar A. White, with Dr. W. Wesley Philp, the President of the Ontario Dental Association, as the other member. Although sponsored by both organizations it is hoped that this special committee following the initiation of the cytological service may become a sub-committee of the Dental Public Health Committee of The Ontario Dental Association.

On the basis of the grant from the Ontario Cancer Treatment and Research Foundation it will soon be possible for the dentists of Ontario to avail themselves of a cytological service. Dr. Harry Hunter of the Research Division of the Faculty of Dentistry will be responsible for the service aspect and Dr. D. L. Anderson of the same division will undertake the associated epidemiological activities. It is hoped thereby that not only will a valuable service accrue to the public through the dentists of Ontario but that for the first time there will be in this province a source of adequate statistical information bearing upon the prevalence and incidence of oral cancer.

The early activities of this committee in respect of the production of literature and necessary mailings will involve an expenditure which should not exceed, in the aggregate, \$1,000.00. It is therefore recommended that the Board authorize a special budgetary commitment in an amount not to exceed \$500.00 to help launch this most worthwhile activity.

15. Pre-Medication

During the past year the subject of pre-medication, in its relationship to dental service, became a matter of public concern. A coroner's jury recommended "that the administration of drugs by dental practitioners to children under ten years of age should be undertaken only after consultation by the dentist with the family physician at the commencement of treatment."

While no-one will discount that value of medical consultation the fact remains that it resides within the academic and legal competence of dentists judiciously to employ pre-medication where in their judgment it may be deemed to be beneficial. Following the authorization of the Board a committee under the chairmanship of Dr. Clifford Reynolds has been appointed to develop a document to remind all practitioners of the fundamental consideration inherent in the employment of pre-medication both for children and adults. Dr. Reynolds has assured the Secretary that the report is nearing completion and should soon be available for distribution to all licentiates.

16. Select Committee on Cost of Drugs

On June 15, 1961, the R.C.D.S. presented a Brief on the Cost of Drugs to a Select Committee of the Legislature. The report of the Select Committee has now been published and one copy has been received. Dentistry received very little mention. The right of dentists to prescribe is acknowledged. Under Part II the submissions received by the profession were summarized. The comments respecting dentistry are as follows:

- (1) The practising dentist prescribes few drugs and those used are well established. Consequently, the dental profession encountered no problems concerning the availability of information.

- (2) Total cost of drugs used by the dental profession in Ontario was estimated at approximately \$1 million which was a very small percentage of the total drug bill for the province.
- (3) Dentists do not charge for the drug used as a separate item but include the cost in the total charge to the patient since it forms such a negligible part of the account.
- (4) Dentists purchase their drugs either from a retail pharmacist or from one of the dental supply wholesalers. Few, if any, dentists obtain the drugs they use direct from the manufacturers.

In all some thirteen recommendations and proposals were made by the Select Committee on Cost of Drugs. None of the proposals and recommendations was specific to dentistry.

17. Brief to Special Senate Committee on Aging

During the past several months your Secretary has served as a member of the Steering Committee in respect of the development of a Brief to be submitted by the Canadian Dental Association to the Special Committee on Aging of the Senate of Canada. The committee is functioning under the chairmanship of Dr. W. G. McIntosh, the Chairman of the C.D.A.'s Dental Services Committee. Dr. R. A. Clappison and Dr. P. G. Anderson are the other members of the committee. Mrs. Isabel Brown, the Director of the Bureau of Economic Research, is the senior author and additional contributions are being made by other members of the C.D.A. secretariat. It is expected that this Brief will soon be ready for presentation.

This Brief will give support to this Board's frequent recommendation that beneficiaries under Old Age Assistance and Old Age Security programs should receive a basic dental care service similar to that provided for certain beneficiaries under the Mothers' Allowances Act. The administration would be performed in a similar fashion thus enabling the beneficiaries to select the dentist of their choice and permitting the practising dentists to participate or not in the program as they saw fit.

18. Fourth Secretaries' Conference

The fourth annual Secretaries' Conference was held in Montreal from December 2 to December 4, 1963. Dr. G. M. Dewis, the Registrar-Secretary of the Provincial Dental Board of Nova Scotia, was chairman. The secretaries met at the headquarters of the College of Dental Surgeons of the Province of Quebec on Monday, December 2, and on Wednesday, December 4. Tuesday, December 3, was spent both at the University of Montreal and at the Montreal General Hospital in order that the secretaries and representatives of the Canadian dental schools might become familiar with the Cytological Smear Technique for the determination of oral cancer.

A broad and comprehensive range of subjects was considered and there is no doubt that this annual meeting is indeed valuable to each of the provincial secretaries. The conference enables the transmission of first-hand information in respect to contemporary dental problems within the various provincial jurisdictions and also enables the acquisition of information in respect of administrative procedures which other secretaries have found to be valuable.

The fifth conference will be held toward the end of this year in Toronto and the Chairman will be Dr. Robert LeBlanc, Registrar of the College of Dental Surgeons of Quebec.

19. Dr. Don W. Gullett Succeeded by Dr. W. G. McIntosh

A former secretary of this Board, Dr. Don W. Gullett, secretary of the Canadian Dental Association, will retire at the end of 1964. Your secretary knows of no dentist, anywhere, who has contributed as energetically, as conscientiously, as selflessly, and as effectively to our profession. His knowledge of dental affairs is encyclopaedic and he enjoys the admiration and respect of dentists throughout the world.

It is gratifying to learn that his contributions will not cease on retirement. The assignment he has undertaken from the Executive Council of the C.D.A. to write a history of dentistry in Canada will be a contribution of outstanding significance to Canadian dentistry.

It would be difficult to think of any dentist better qualified than Dr. W. G. McIntosh to succeed Dr. Gullett as secretary of our national organization. Dr. McIntosh will bring to this position a wide spectrum of experiences in practice, in teaching, in research, and in organizational and administrative pursuits. Couple these with an almost awesome capacity for productively effective work and it is obvious that the dental profession in Canada is most fortunate indeed. Dr. McIntosh accepted the Executive Council's invitation to serve in the senior executive position in Canadian dentistry.

Every hope is extended that he may enjoy success, happiness, and satisfaction in the important position for which he has been chosen.

20. Scrutineers to be Appointed

As the biennial election for the Board of Directors of the Royal College of Dental Surgeons of Ontario will be conducted during the Fall of 1964 it will be necessary at this Annual Meeting for the Board to appoint two scrutineers.

21. Licences Issued in 1963

Dentists

Licences Issued — Active	2,437
— Graduating	107
— Inactive	5
— Life Members	97

Total licences issued to December 31, 1963 2,646

Increase in licences issued over previous year — 2,646–2,596 = 50

Dental Hygienists

Licences Issued — Practising in Ontario	64
— Out of province	7

Total licenses issued 71

22. Changes in Register During 1963

Additions

By R.C.D.S. Examination	5
Graduates of University of Toronto	111
Resumed Practice	14
N.D.E.B. Certificate	13
	143

Deletions

On Post Graduate Courses	8
Left Ontario	16
Retired	34
Deceased (11 Life Members)	33
	91

Licensed dentists on December 31, 1963 — 2,604

23. Licentiates Deceased

The year 1963 witnessed nine fewer deaths among the members of the R.C.D.S. than did 1962. In all 33 members died, of whom eleven were Life Members. Whenever possible, letters of sympathy to the next of kin were written on behalf of the Board and Members of the College. Since development of the Canadian Fund for Dental Education a donation is now being made annually to the fund as a memorial tribute to deceased members. The next of kin is advised through the use of an appropriate memorial card that such donation has been made. The list of members who died in 1963 is attached as Appendix B.

24. Life Membership

The names of eight Licentiates all registered in the Royal College of Dental Surgeons of Ontario in 1915, thus having been included in the Ontario register for fifty years, are herewith appended (Appendix C) and are proposed for Life Membership commencing January 1, 1965. One other member of the 1915 class of the School of Dentistry of the R.C.D.S. continues on the active register but because of being under age was not registered until February, 1916. As Life Membership is predicated on year of registration and not year of graduation his name will be proposed one year hence.

25. Dentist-Population Ratios

Again in 1963 and notwithstanding the graduation of maximum classes from the University of Toronto's Faculty of Dentistry, the dentist-population ratio has worsened slightly. On January 1, 1963, the ratio was 1:2443. On January 1, 1964, the ratio was 1:2462. Eastern Ontario showed a slight improvement as Districts 1 and 2 have marginally improved ratios. All other districts, however, reflect an experience similar to that of the province as a whole.

In Districts 1 and 2 the ratio has improved by 14 and 45 respectively while in Districts 3 to 8 inclusively the ratios have worsened by 225, 15, 169, 23, 57 and 31 respectively. It is obvious that Districts 3 and 5 are experiencing a most serious worsening in their dentist-patient ratios and continuing efforts will have to be made to recruit dental students from those areas and attempt to encourage new registrants to locate in these districts. The dentist-population ratios by counties and electoral districts is attached as Appendix D.

26. Extramural and Extension Lecture Program

During 1963, an aggregate 927 dentists attended the 35 lectures conducted within the Extramural and Extension Lecture Program. Of the 35 lectures, four were Extension Lectures, that is the lecturer was not a member of the staff of the Faculty of Dentistry. By the comments received on the report forms returned by the secretaries it appears obvious that the program enjoys the approbation of the profession in the areas in which the lectures are held. It is unfortunate that a few of the societies entitled to be included in this program do not avail themselves of the opportunity. The 1963 report is appended as Appendix E.

27. The secretary has enjoyed the opportunity, during the past year, of representing the Board on the Senate of the University of Toronto, the Dental Public Health Committee of The Ontario Dental Association, and the Council of the Faculty of Dentistry where he serves, as well, on the Admissions, Library, Scholarship and Awards, and Research Advisory Committees. He has been privileged, too, to be associated with conscientious co-workers at R.C.D.S. Headquarters who have at all times demonstrated interest and diligence in their various responsibilities.

On behalf of the Headquarters staff appreciation is expressed to the Board for the many kindnesses and considerations which have been extended.

Appendix A

EXCERPTS FROM THE SECOND EDITION, CANADIAN COUNCIL ON HOSPITAL ACCREDITATION'S STANDARDS FOR ACCREDITATION OF CANADIAN HOSPITALS.

4. Medical Staff Responsibilities for Dental Patient Care

(a) *History and Physical Examination*

It shall be the responsibility of the medical advisory committee through the chief of surgery, or through the chief of staff if there is no chief of surgery, to assure that the admitting physician or some other qualified physician makes a record of history and physical examination of the dental patient within 24 hours of admission and always before any dental surgery is undertaken.

(b) *Medical Care in Hospital*

The physician designated by the chief of surgery shall be responsible for any medical care required by the dental patient in hospital.

(c) *Responsibilities of the Chief of Surgery*

- (i) The chief of surgery shall have overall responsibility for the care of all dental patients in the hospital.
- (ii) The chief of surgery shall assure co-ordination of physicians' and dentists' services for good patient care and proper co-operation between members of the department or service of surgery, and members of the department or service of dentistry.
- (iii) The chief of surgery with the chief of dental service shall assure that indicated consultations are arranged, held and properly recorded.
- (iv) The chief of surgery with the chief of dental service, or chief oral surgeon if there is one, shall assure proper conformance with hospital regulations for operating room procedures including arrangements for scheduling such procedures.
- (v) In hospitals where there is no chief of surgery, the chief of staff shall assume these responsibilities.

(d) *Responsibility for General Anaesthesia*

General anaesthesia for dental patients shall be arranged by the department of anaesthesia where such a department is organized, or by the chief of dental service making arrangements with physicians having appropriate anaesthetic privileges in the hospital where there is not an organized anaesthesia department. Such arrangement shall include responsibility for general anaesthesia in the out-patient department or service of the hospital.

DENTAL SERVICE

5. Relationship of Medical and Dental Staffs of the Hospital

- (a) Liaison between the medical staff and the dental staff of the hospital through the chief of surgery and the chief of dentistry shall not preclude liaison among other offices of the respective staffs to stimulate co-operative effort. In certain large fully departmentalized hospitals, the appointment of a medical-dental liaison committee may be advisable.
- (b) Members of the active medical staff may attend meetings of the active dental staff and members of the active dental staff may attend meetings of the active medical staff.
- (c) When a member of the dental staff has been given notice that a dental case is to be presented at a general or departmental medical staff meeting, the dentist shall attend such meeting prepared to discuss dental aspects of the case in question.
- (d) When a member of the medical staff responsible for the medical care of a dental patient in hospital or when a consultant who has examined a dental patient is notified that his presence is desired at a meeting of the dental staff, he shall attend such meeting of the dental staff and be prepared to discuss medical aspects of the case in question.

In hospitals where a dental staff is appointed, the following Standards are applicable and shall be met:

(a) *Administrative*

- (1) The governing body, on the advice of the medical staff, may appoint one or more dentists to the professional staff of the hospital.
- (2) Patients admitted for dental care shall be admitted conjointly by a dentist on the active dental staff of the hospital and a physician on the active medical staff of the hospital.
- (3) Where clinical need exists and dental staff resources permit, a dental service shall be organized.
- (4) Where clinical need exists and professional resources of the dental staff permit, the dental service shall be departmentalized.

(b) *Dental Staff Responsibilities*

Where a dental staff is organized, there shall be dental staff by-laws approved by the dental staff, the medical staff and the governing body which conform with the principles of the medical staff by-laws and which delineate specifically:

- (1) Procedure for appointment of dentists who are qualified legally, professionally and ethically for such appointment, and which shall include:
 - (a) Agreement of the dentist that he will abide by hospital and dental staff policies and conform with medical staff policies as applicable.
 - (b) Definite delineation of each dental staff member's hospital privileges according to training, experience and competence.
- (2) Categories of dental staff membership. There shall be an active dental staff and there may be other categories of membership as appropriate.
- (3) Dental staff regulations. There shall be dental staff regulations to assure fulfilment of dental staff responsibilities, including the holding of consultations and the making of adequate dental records.
- (4) Dental records. Dental records shall be adequate to justify the diagnosis made and warrant the treatment given, and shall include:
 - (a) Identification data.
 - (b) Physicians' record of history and examination.
 - (c) Provisional dental diagnosis.
 - (d) Dental history.
 - (e) Dentist's and physician's orders.
 - (f) Laboratory, x-ray and other reports of special examinations.
 - (g) Reports of consultations.
 - (h) Reports of operative procedures.
 - (i) Report of anaesthesia.
 - (j) Progress notes.
 - (k) Final diagnosis.
 - (l) Dental case history summary.

(5) Officers of the dental staff:

- (a) There shall be a chief of dental service and other officers as appropriate.
- (b) The duties and responsibilities of officers of the dental staff shall be delineated.

(6) Responsibilities of the chief of dental service:

- (a) The chief of dental service shall be responsible to the chief of surgery, where applicable, and to the dental and medical advisory committees for the organization of the dental service or department and for the supervision and control of all dental work done in the hospital.
- (b) The chief of dental service shall be a member of the medical advisory committee (the medical staff by-laws should authorize this) and chairman of the dental advisory committee.

(7) Dental advisory committee:

- (a) There shall be a dental advisory committee and this committee may appoint other committees of the dental staff which shall report to it.
- (b) The dental advisory committee shall perform, or shall appoint a dental audit committee to perform an audit of dental clinical work performed in the hospital as revealed by the dental records.
- (c) Responsibilities of the dental audit function shall include those for assuring adequate recording of dental histories and evaluation of dental services, together with recommendations for improving dental clinical work.

(8) Dental staff meetings:

- (a) Meetings of the dental staff shall be held monthly, at least ten in the year, and shall include discussion of general dental business, organization and policies, followed by a report of the dental audit function and a review, analysis and evaluation of the dental work of the hospital including review of selected in-patient and out-patient cases treated at the hospital.
- (b) The attendance requirement at dental staff meetings shall be kept.

(9) Dental staff departmentalization:

- (a) Departmentalization and sub-departmentalization may be undertaken according to clinical need and dental staff resources.
- (b) Departmentalization will make provision for general dental practice and will include a department or division of oral surgery and such other recognized dental specialty sections as may be required and indicated.
- (c) Where the dental service is departmentalized, organized departments such as oral surgery shall hold monthly meetings.

ACTION

- Item 4. The Secretary was directed to communicate with the Minister endorsing the reply and to assure the Minister that an officer of this Board is always prepared to discuss with any person any phase of dental health upon which observations and comments may be made to him.
- Item 5. Motion adopted:
"That the President be authorized to appoint a Representative for the Joint Working Committee on Hospital Regulations of the Ontario Hospital Services Commission if and when an invitation is extended."
- Item 8. The Board agreed in principle that it was desirable to establish a formal training program to enhance the competence of dental technicians and agreed in principle with the general curriculum outline but that it had certain reservations in respect of the practicability of the proposed method of implementation. The Board authorized the President to appoint Dr. R. L. Twible and Dr. W. D. MacKay to work with the Governing Board in this respect. A suggestion was also made that a presentation might be made to the Minister of Education to seek his Department's view to the establishment of programs.
- Item 11. Motion adopted:
"That notwithstanding the adoption of a previous resolution authorizing the transfer of the function of Collection of Premiums for O.H.S.C., Blue Cross Supplemental, P.S.I., and Blue Cross Extended Health Plans, such action be deferred pending further study."
- Item 14. Motion adopted:
"That a sum not to exceed \$500.00 be authorized to launch the Cytological Service as outlined in the report of the Registrar-Secretary."
- Item 20. Motion adopted:
"That Mr. Colin C. Rous and Dr. R. S. Woollatt be appointed scrutineers and that Dr. R. J. Godfrey be an alternate in the event that either of the above-named is unable to serve."
- Item 24. Motion adopted:
"That the following be granted Life Membership in the R.C.D.S. commencing January 1, 1965: Blake Byron Beaton, William James Cooper, Arthur Oswald Hinds, William Wagner MacDonald, Sylvanus Prophet McFee, George Stewart Smockum, James Elmer Thompson and John Harry Zinn."

Report adopted.

REGISTRATION AND LICENSURE COMMITTEE
(EXAMINERS AND PETITIONS COMMITTEE)

MEMBERS: J. D. Purves, Chairman; D. J. Ferguson, R. Michell.

REPORT

FALL MEETING

On May 8, 9 and 10, the Examiners and Petitions Committee conducted licensing examinations for eight candidates, although one withdrew early in the final morning of the examination.

Applications for Registration

Pursuant to the authority granted to the Committee by the Board, the Committee directed that:

- (1) Roman A. Heston-Cook, B.D.S. (Sheff. '61)
- (2) Benjamin M. Levine, D.D.S. (Det. '63)
- (3) Joseph J. Mendoza, B.D.S. (Edin. '62)
- (4) Fredrick I. Muroff, D.D.S. (Det. '63)
- (5) Kenneth L. Searles, B.A. (Tor. '49), B.D.S. (Edin. '59)
- (6) Colin Bernard Walker, B.D.S. (Birm. '59)
- (7) George A. Zarb, B.D.S. (Malta), M.Sc.D. (Mich. '62), (Mich. '63)

be granted their Licentiate of Dental Surgery in the Royal College of Dental Surgeons of Ontario when all remaining regulations and requirements have been met.

ACTION

Report adopted.

REPORT

1. Fall Board Examinations

Licensing examinations were conducted on November 20, 21 and 22 for four candidates.

2. Applications for Registration

The Committee recommends that:

- (1) Everard B. Austin, B.S., (Fisk '51), D.D.S., (Meharry '55)
- (2) Benedict D. Redmond, D.D.S., (Mont. '43)
- (3) Norman A. Frew, B.D.S., (Otago '54)
- (4) Martin B. Lee, B.D.S., (Manch. '62)

having passed the licensing examinations conducted by the Board be granted their Licentiate of Dental Surgery of the Royal College of Dental Surgeons of Ontario when all remaining requirements have been met.

3. Applications for Certification

(a) The following having met the requirements for their respective specialties are recommended for certification when all additional requirements have been met:

- (1) Walter Borden Bulchak, D.D.S. (McG. '60), Cert. Perio. (Tufts '63), in Periodontics.
- (2) David Engel, D.D.S. (Tor. '56), Dip. Orth. (Tor. '63), in Orthodontics.
- (3) Louis James Frost, B.S. (St. F. X. '51), D.D.S. (Dal. '55), M. D. (Dal. '62), in Oral Surgery.
- (4) James Zygmunt Gajda, D.D.S. (Tor. '56), Dip. Oral Surg. (Tor. '62), in Oral Surgery.
- (5) William Stephen Schwetz, D.D.S. (Tor. '58), Cert. O.S. (Tufts '63), in Oral Surgery.
- (6) Simon Weinberg, D.D.S. (Tor. '59), Dip. Oral Surg. (Tor. '63), in Oral Surgery.

(b) An application was received from Douglas Charles Thomas Coupland, B.Sc. (McG. '47), D.D.S. (Tor. '52), M.D.C.M. (Queens '58) for certification in Oral Surgery. The representatives of Oral Surgery to the Liaison Sub-Committee expressed the view that irrespective of the dual degrees the requirements for certification as stipulated in the specialty regulations of the Royal College of Dental Surgeons of Ontario had not been met. The Committee in concurring with the Oral Surgery consultants regretfully cannot recommend certification.

ACTION

Report adopted.

REPORT

1. A review of the extensive resolution respecting the functioning of the N.D.E.B. is requested. The present progress and indeed processing of the resolution has not been accomplished to the satisfaction of the member on that committee. A review of the resolution and a further directive are considered necessary.
2. The present format of Board Examinations was reviewed and possible alterations await any change in registration and licensure requirements.
3. A reassessment of the performance of graduates from other than Canadian or American Dental Faculties was made. The results do not suggest any alteration of principle at this time. Of the 18 candidates studied, 17 passed (three had additional requirements to meet) and one failed.
4. A motion "That the Examiners and Petitions Committee does recommend to the Board of Directors that it be recommended to the Canadian Dental Association that effort be made to establish with Dental Bodies of

other nations a relationship similar to that which exists between the Canadian Dental Association and the American Dental Association wherein through reciprocal agreement, it has been possible for both Canada and the United States to accredit each others' dental schools."

- 5. The committee was given authority by the Board to examine Balraj K. Arora and if the requirements were met to proceed to effect his registration and licensure. The committee directed that Balraj K. Arora's registration and licensure be effected when all remaining requirements had been met.
- 6. The Terms of Reference of the committee were reviewed.

ACTION

Report adopted.

REPORT

ANNUAL MEETING

1. Motion adopted:

That the following having been recommended for the Degree of Doctor of Dental Surgery from the Faculty of Dentistry of the University of Toronto be registered as Licentiates of Dental Surgery of the Royal College of Dental Surgeons of Ontario when all remaining requirements have been met:

 Williams, Peter Thomas

REPORT

ANNUAL MEETING

1. Revenue and Expenditures — 1963

The total revenue of \$229,159.94 exceeded the budgeted revenue of \$222,126.00 by \$7,033.94. The total expenditures of \$201,354.48 were \$10,675.00, less than the budgeted expenditures of \$212,029.00. Revenue for 1963 exceeded expenditures by \$27,805.46.

(a) *Revenue*

The statement of Revenue and Expenditures shows that revenue from interest on short term certificates is considerably less than budget. The reason is that the certificate in the amount of \$75,000.00 matured on January 14, two weeks subsequent to the close of the 1963 fiscal year. The interest, on January 14, 1964, was credited to the savings account at that time. Thus the interest earnings in 1964 will be enhanced to the detriment of those of 1963. As the finances of the College are not on an accrual basis it seems unnecessary to journalize this amount. Thus the statement shows only that revenue actually received in fiscal 1963.

Again the statement reflects continuing favourable interest earnings made possible, largely, because of the utilization of appropriate short term investments thus deriving a significantly higher return from moneys currently available.

General revenue reveals sundry income in the amount of \$1,595.57. This sum was derived, almost entirely, from the sale of lecture books employed in the evening courses for dental assistants. The original investment made by the Board in producing these books has now been recouped.

(b) *Expenditures*

Almost all items of expenditure were less than budget with the exception of the Extramural Lecture Program and Board and Committee Expenses. In both these items there is a direct co-relation between increased expenditures and increased activities.

A significant saving accrued in Stationery and Office Supplies as a result of an agreement entered into with a major supplier in this field whereby a 20% discount is granted on all stationery and office supplies purchased from the firm. During 1963 the saving, because of this favourable agreement, amounted to approximately \$1,000.00.

2. Bond Holdings

As has been enunciated in previous reports the Board continues to hold bonds with a par value of \$30,000.00 which provide an interest return of only 2¾%. Previous consideration of the sale of these bonds and the re-investment of the proceeds in bonds of higher yields has indicated that any

increase in interest which might be obtained would be more than offset by the reduced value available for reinvestment. Ontario Hydro bonds with a par value of \$5,000.00 and a market value of \$4,700.00 mature on April 1, 1967. The remaining Province of Ontario securities, however, do not mature until July 15, 1970 (\$10,000.00), July 15, 1971 (\$8,000.00), and July 15, 1972 (\$7,000.00). The difference between the par value and market value of these Province of Ontario bonds at December 31, 1963, was \$3,440.00 — perhaps an amount too great to be offset by an increased interest return over the remaining life of the securities.

It is recommended that the Finance Committee give consideration to the feasibility of selling these bonds and reinvesting the sums derived in more attractive issues.

3. Member Stricken from Register

Regrettably, all efforts expended by the Board to have Dr. H. G. McW. Aye remain in good standing met with neither co-operation nor response. Accordingly, pursuant to the provisions of The Dentistry Act of Ontario, the Board at its November 1963 meeting struck the name of Dr. H. G. McW. Ayre, of Rainy River, from the Register of the Royal College of Dental Surgeons of Ontario.

4. Auditors' Report

The Auditors' Report, consisting of the Balance Sheet and Government and Government Guaranteed Bonds is attached. The firm of Thorne, Mulholland, Howson and McPherson continues to provide exemplary service and it is recommended that this firm be re-appointed auditors for 1964.

ACTION

Item 4. Motion adopted:

“That the firm of Thorne, Mulholland, Howson and McPherson be appointed Auditors for 1964.”

Report adopted.

AUDITORS' REPORT

To the Directors of the Royal College of Dental Surgeons of Ontario:

In accordance with your instructions and the recommendations adopted by you at your 1960 fall meeting we have examined the accounts and records of the Royal College of Dental Surgeons of Ontario for the year ended December 31, 1963, and the balance sheet of the College as at that date. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion the accompanying balance sheet presents fairly the financial position of the College as at December 31, 1963, on a basis consistent with that of the preceding year.

Toronto, Canada,
March 6, 1964.

THORNE, MULHOLLAND, HOWSON & MCPHERSON,
Chartered Accountants

BALANCE SHEET

December 31, 1963

WORKMEN'S COMPENSATION BOARD

CONSULTANT: T. R. Marshall.

REPORT

ANNUAL MEETING

1. Your Consultant has been in regular attendance at the Workmen's Compensation Board's offices and available for telephone consultation with colleagues and members of the Board staff at any time during the past year. Some problems reported to you a year ago have been ameliorated and others have become more prominent. The chief complaint with a growing number of dentists today is that the Workmen's Compensation Board Schedule of Fees is inadequate, especially in the operative dentistry field. A few of our dentists are refusing to serve patients at fees allowed, others do the work complaining the Workmen's Compensation Board should not be an object of charity. Your Consultant has no power to increase the fee set forth in the Schedule unless a greater average difficulty is encountered in rendering the service. In such cases the increased time, skill, responsibility and technicians' charges in the service are considered and a recommendation made to claims' assessors who may or may not accept the recommendations.

2. In reporting to you a year ago, some mention was made of complaints concerning the slow processing of claims. Many dentists were irritated by what they called "Red Tape." There is still a routine manner of processing claims which I do not think has changed very much. However, six months ago the Chief Medical Officer of the Board approached your Consultant to increase his attendance from two half days a month to half a day each week. This was agreed to and now many claims are receiving more prompt attention. Final decisions are speeded up through telephone contact with dentists anywhere in the province; cases are discussed in professional consultation which results in less misunderstanding, agreement on treatment plans worked out and better relations established between Board and dentist—all in a minimum of time.

3. It should be further stated that the Board is anxious to overcome delays in the claims' processing department. A new plan of stock piling blank report forms has been worked out for the medical profession and is becoming pretty general in operation. Attention is now being given to the possibility of similar action for those dentists who do a fair number of compensation cases. It is not contemplated to stock pile these forms in every dental office, because many dentists have little use for them. However, consideration will undoubtedly be given to requests when the forms are available. This new plan, when in operation, should improve and hasten processing dental claims.

4. In the year 1963 there were 917 dentists who did work for beneficiaries of the Workmen's Compensation Board. Payments made to dentists for their services were \$116,971.00. This is a slight increase over 1962. A few

dentists do quite a lot of work for the Board, but most do very little and some do none at all. In the year under review —

4 dentists did over	\$1,000.00
20 dentists did between	\$500.00 and \$1,000.00
93 dentists did between	\$300.00 and \$500.00
600 dentists did less than	\$300.00.

Actually in overall benefits paid out by the Board, dental service costs are comparatively small.

5. The question — “What is a fair fee for the various dental services?” seems to be a moot one at the present time. Office overhead is higher, costs of dental supplies and equipment have increased, laboratory charges are 20-25% higher in the past two years, and the cost of living to the dentist has increased. In the main, this is especially true in the larger urban centres but it is true to a lesser degree in smaller towns as well. The younger men in the profession seem to be more conscious of the need for higher fees to make it worth their while to attempt high quality service. Methods of dental treatment are improving constantly and these newer methods entail more time, more skill and more responsibility. This trend to higher quality service should be encouraged. The present Fee Schedule is criticized as being unfair for good work especially in the area of operative dentistry. It is exacting to perform and compensation is comparatively less than in the area of removable prosthodontics. Members of the profession have also pointed out that the Fee Schedule is inconsistent in the operative field. Here is one example: the fee allowed for a three-quarter crown on an anterior tooth is \$35.00, but for a gold acrylic veneer crown is \$55.00. Using high speed equipment there is not much more time or skill needed for the full coverage crown, only laboratory costs are a little more. As a result of this situation very seldom are three-quarter crowns made any more.

6. A year ago it was recommended the Fee Schedule be reviewed. Further, it was suggested that The Ontario Dental Association be contacted with the view of having “one schedule” for the province. This would eliminate a great deal of confusion because a great many dentists use the O.D.A. Schedule in making up estimates for the Board. It is understood a comprehensive committee has been set up and is at work and a report expected soon. Your Consultant is of the opinion that the Board will give due consideration to a new Schedule of Fees that is considered fair to the profession.

7. An unfavourable situation develops when a patient consults a dentist of his choice and finds him dissatisfied with fees allowed for the services. It could suggest to the patient that the Board provides inferior service. Recently a few dentists have indicated that the patient is quite willing to pay the difference for the best work. The Board is anxious to provide good services to its beneficiaries, otherwise they complain and the work may have to be performed over again, perhaps by another dentist.

8. During the year, two or three matters kept recurring and should be reported to you.

(a) The Board regulations specifically state that restorative dental service should not be undertaken without authorization for the contemplated procedures. The only exception to this is emergency treatment, neces-

sary x-rays and minor repairs to prosthetic appliances. The dentist who proceeds without authority may not be paid for his work. A few dentists have proceeded pleading lack of knowledge of this regulation, but it is printed on the back of the dental report form. Co-operation of the profession is requested. In cases of emergency the dentist may telephone the Board and reverse charges to discuss the emergency of early treatment.

- (b) Another Board regulation has to do with surgical procedures under general anaesthetic. The operating surgeon or dental surgeon cannot collect a fee for a surgical service and also for administration of a general anaesthetic at the same operation. This affects the one man oral surgery practice. Problems that have come up during the year have been negotiated on the basis of having general anaesthetic facilities available. A recommendation on how to deal with this problem would be appreciated.
- (c) There is a final matter to be mentioned again. It is perennial. The most frequent dental injury occurring in an accident is a fractured incisor tooth and its most frequent treatment is a porcelain jacket crown. The Board reserves the right to authorize these crowns before the dentist proceeds. In harmony with the teaching of the dental faculty in Toronto, it is the Board's policy to request a delay of three months before proceeding with the crown restoration. A provisional crown may be placed as an emergency when necessary and this will be allowed by the Board. If the injured tooth is normally vital after this resting period, the Board usually allows the dentist to proceed. Many traumatized teeth become non-vital in the 90-day period following an accident. If this occurs, endodontic therapy can be carried out. However, if a porcelain jacket crown is placed too soon and endodontic treatment found necessary afterwards, the crown is ruined. Dentists proceeding with a porcelain jacket crown without authority may be allowed a fee for a provisional crown only. Sometimes the patient pressures the dentist for the restoration. When the dentist proceeds under such circumstances, he may be paid his full fee, if the patient agrees to take responsibility in case of failure.

9. In concluding this Report it is no doubt apparent to members of this Board that your Consultant's work has increased in the past year. It is hoped the profession has been served better as a result. The good relations between dentists and the Board continue except that there is considerable dissatisfaction with fees allowed. There is the utmost cordiality and co-operation shown your representative by the Board staff. Dr. Dunn has been very patient and helpful in discussing matters arising during the year — this is much appreciated. And to you gentlemen of the Board goes sincere thanks for your confidence in entrusting the responsibility of representing you and the profession at the Workmen's Compensation Board of Ontario.

ACTION

Report adopted.

ADDITIONAL ITEMS

FALL MEETING

Auxiliary Services

The Board reviewed its policy in respect of Auxiliary Services and adopted the following resolution:

“Whereas inquiries from members of the College regarding the Board’s policy on the utilization and training of Auxiliary Personnel have been received

Therefore be it resolved that:

The Board reaffirms its acceptance of the policy statement on Auxiliary Personnel adopted by the C.D.A. in October 1958 and revised in 1961 and distributed to the profession as a leaflet entitled “Policy Statement on Auxiliary Personnel.”

Dental Assistants’ Course — Scarborough

The Superintendent of Secondary Schools for the Scarborough Board of Education provided a definitive outline of the Dental Assistants’ Course at West Hill Collegiate and expressed the hope that the curriculum, facilities, and teaching provided will meet the Board’s requirements for some form of special certification for graduates of the course.

Motion adopted:

“That the Secretary be instructed to develop a certificate to be presented to graduates of the course in dental assisting conducted at West Hill Collegiate, Scarborough, or any other recognized collegiate in Ontario, such draft certificate to be presented to the Board for approval at the Annual Meeting in 1964.”

Dentist Interviewed Following Coroner’s Inquest

The Board received a communication from the Office of the Supervising Coroner to the effect that a child had died from bronchial and cerebral edema resulting from the administration of drugs prescribed by a member-dentist through an error in judgment. The dentist was interviewed and a thoroughly comprehensive discussion was held with him on all facets of the unfortunate matter.

Dorinda Tully Estate

The Board receives the earnings of the Dorinda Tully Estate for employment in support of the Harry R. Abbott Library in the Faculty of Dentistry of the University of Toronto. The status of the estate was reviewed. In comparing the statement with that dated August 1, 1962 the total value of the Trust was seen to have increased by approximately 5%. An improvement in income is anticipated over the ensuing 12 month period with the net annual income increasing by some \$50.00 from \$750.00 to \$800.00.

Hamilton Academy Donates to Canadian Fund For Dental Education

The Hamilton Academy of Dentistry informed the Board that it had voted a sum of \$500.00 to the Canadian Fund for Dental Education and expressed the hope that this action might stimulate other local societies to consider supporting this cause. The Board concurred in the letter of congratulations and appreciation extended on its behalf by the Secretary.

Life Member

Through a clerical error the name of a member was not included in the Life Member list presented by the Registrar in his 1963 annual report.

Motion adopted:

"That Dr. Edgar James Norman, being registered in the Royal College of Dental Surgeons of Ontario in 1914 and being eligible for Life Membership in January, 1964 be made a Life Member on January 1, 1964."

Medical Services Insurance Enquiry Brief

The Board reviewed a draft copy of a Brief prepared for presentation to the Medical Services Insurance Enquiry.

Motions adopted:

1. "That the Brief re Medical Services Insurance Enquiry be adopted, and further,
That the special committee be highly commended and thanked for the excellence of its production."
2. "That the Secretary, Dr. R. W. Marshall, Dr. J. A. Pedler and Dr. J. P. Coupland be appointed as representatives of the R.C.D.S. to present the Brief re Medical Services Insurance to the Hagey Committee."

Member Removed From Register

The Treasurer reported that Dr. H. G. Ayre's 1963 fee was still outstanding and that all legal procedures as authorized by statute had been exhausted.

Motion adopted:

"That through failure to remit the 1963 licentiate fee the name of Dr. H. G. McW. Ayre be removed from the register of the Royal College of Dental Surgeons of Ontario."

Members Present Brief

Dr. Elliott Siegel and Dr. Ralph Singer presented a Brief to the Board and attended as a deputation to discuss it. There was a one hour discussion on prepayment plans, closed and open panels, organizational and other matters. The President complimented Drs. Siegel and Singer on the quality of their Brief.

Premedication Report

The London and District Dental Society provided the Board with a copy of a report prepared by a committee of the Society dealing with the administration of drugs prior to performing dental procedures for children.

Motion adopted:

"That the London and District Dental Society be commended for the production of its report on premedication for children and further,

That the report be reviewed by competent dental, medical and pharmacological authorities, and further,

That their report be distributed to the Licentiates of the R.C.D.S."

R.C.D.S. Registrant Erased From U.K. Dental Register

The Board received an enquiry from a dentist in the United Kingdom who, following his graduation from the Toronto Faculty of Dentistry, where he had been admitted to the final year on the basis of his B.D.S. degree, registered in the R.C.D.S. and then returned to England to engage in practice.

The General Dental Council found him to be guilty of infamous or disgraceful conduct in a professional sense and accordingly his name was erased from The Dental Register. Pending consideration of an appeal he wished to enquire of his position relative to practice in Canada.

Motion adopted:

"That the Board delegate to a committee composed of the President, the Chairman of the Discipline Committee and the Registrar its powers to deal in any manner they judge correct after receiving pertinent information from the General Dental Council in the matter of Dr. - - ."

Seal of The College

Motion adopted:

"That the original seal of the Royal College of Dental Surgeons of Ontario be presented to the Museum of the Faculty of Dentistry."

Use of Facilities of R.C.D.S. Headquarters

Motion adopted:

"That the facilities of the Headquarters of the R.C.D.S. be made available to no one except dental organizations recognized by the Board or government agencies."

FEBRUARY MEETING

The Woods Gordon Report

The report was distributed to all members for their independent review approximately three weeks prior to this meeting.

Each director was polled in respect of his opinion on the general principle of the R.C.D.S. Board restricting itself to the statutory responsibilities inherent in The Dentistry Act and the O.D.A. assuming all other responsibilities normally accruing to a voluntary organization. There was unanimous agreement with the principle but most indicated some reservations respecting proposed methods of implementation. Recommendation No. 1 dealt broadly with the basic areas of concern of the R.C.D.S. and the O.D.A.

The Board generally was in agreement with the recommendation except the members expressed concern with the relinquishment of the R.C.D.S. relationship to the Canadian Dental Association at least until such time that the Board could be assured that the national organization would continue to receive adequate financial support.

Motions adopted:

1. "That the general principle of the Woods Gordon Report that the R.C.D.S. restrict itself to the statutory responsibilities inherent in The Dentistry Act and that the O.D.A. assume those responsibilities normally accruing to a voluntary organization be approved.
2. "Whereas the Board of Directors of the Royal College of Dental Surgeons of Ontario has approved the general principle inherent in the Woods Gordon report that the R.C.D.S. Board confine its activities to statutory responsibilities and that the Ontario Dental Association assume those responsibilities which normally accrue to a voluntary association,

Therefore be it resolved,

That contingent upon the acceptance of the same general principle by the Board of Governors of the Ontario Dental Association the Liaison Committee be empowered to recommend to both Boards a method of implementation."

3. "That subsequent to the meeting of the Board of Governors of the O.D.A. to review the Woods Gordon Report and with the approval of the O.D.A. Board of Governors the report be published in the *Journal of the Ontario Dental Association* in the earliest possible edition."

Second Dental School for Ontario

On Monday, February 3, 1964 a deputation from the profession met with President G. Edward Hall and with Colonel D. B. Weldon, the Chairman of the Board of Governors of the University of Western Ontario. The deputation comprised Dr. W. G. Bruce, Dr. D. J. Ferguson, Dr. A. J. Harris, representing the London and District Dental Society, and the Secretary. The appointment extended from 2.00 p.m. to approximately 3.30 p.m.

The meeting opened with the Secretary providing the appropriate background material relating to the profession's desire to have created a second faculty of dentistry in Ontario. As the Lewis Report had previously been forwarded to Dr. Hall it was not necessary to review that document to any great extent.

The position of the University of Western Ontario is essentially this: Because of the significant financial requirements both for capital construction and for continuing operation the University of Western Ontario does not intend actively to seek establishment of a second faculty of dentistry there. It will, however, give every possible consideration should a request come from some other source.

Colonel Weldon indicated that, with the developing medical sciences centre at U.W.O. and in accord with the Board of Governors' desire that this be the finest centre of its kind in Canada, the health services centre would not be complete without a faculty of dentistry.

Dr. Hall advanced many reasons for considering U.W.O. in a position of priority relative to the establishment of a faculty of dentistry.

The London and District Dental Society has agreed to undertake to develop, with whatever co-operation the R.C.D.S. may render, a survey report of the clinical material potential in and around London. As well the Director of Dental Services for the Board of Education has been asked to look into the matter of possible collaboration of the Board of Education in this project.

Motion adopted:

"Whereas this Board has approved the establishment of a second dental school in Ontario at the earliest possible time, and

Whereas there is convincing evidence that the University of Western Ontario could establish such a school significantly earlier than other universities,

Therefore be it resolved

That the Secretary be instructed to bring these facts to the attention of the appropriate Government authorities."

ANNUAL MEETING

Accreditation of Foreign Dental Schools

Motion adopted:

"Whereas there is in existence in Canada a facility for the evaluation and accreditation of dental schools, and

Whereas a reciprocal arrangement has been developed with a similar facility in the U.S.A., and

Whereas there is a continual change in the standards of dental education throughout the world, and

Whereas there is evidence that in some countries there are schools which have standards equal to or approaching those of schools approved by the C.D.A. and A.D.A.,

Therefore be it resolved

That, if possible, the Council on Education of the Canadian Dental Association develop a facility for the evaluation and the accreditation of dental schools on a world-wide basis."

Applications for Specialty Certification in Oral Surgery

The Chairman of the Registration and Licensure Committee presented two applications from dentists who at present limit themselves to the specialty of oral surgery but who do not have qualifications accruing from an approved formal program of training. The Board, following due consideration, stated that it was not possible to waive the requirement which demands successful completion of an approved program of graduate training.

Association of Dentists in Practice

Because, during the year, three actions involving litigation between members of the profession came to the attention of the Board and because, in two instances, an officer of the Board was required to function as a mediator, the Government and Legislation Committee was requested to give consideration to factors bearing upon the relationships of dentists practising in association.

By-Laws for Dental Hygienists

The by-laws respecting dental hygienists adopted at the Annual Meeting in 1963 have not yet cleared the Registrar of Regulations but every effort is being made to expedite the approval of the Lieutenant-Governor in Council.

C.D.A. Committee on Commercial Insurance Plans

Two members of the C.D.A. Committee on Commercial Insurance Plans spent one afternoon with the Board. A report was presented and an extensive discussion followed on principles to guide a dental organization in participating in insurance. Principles No. 7 and No. 10 of the "Principles to Guide a Dental Organization in Providing Insurance Coverages for its Membership" (see Appendix A—Executive Committee Report) were considered the main points at issue. These principles espouse (1) participation in group coverages only, and (2) the collector of premiums should be an agency, the staff of which is directly responsible to the dental profession and not salaried or commissioned agents of an insurance company or agency. At the termination of the discussion the Board agreed that further discussion and negotiation were possible on the basis of this compromise: Individually selected plans, although in the Board's opinion not a proper area of concern for a dental organization, would be left to the C.D.A. to determine if it felt it incumbent to continue in this area. In respect to group plans the Board agreed that the C.D.A. Committee on Commercial Insurance Plans should develop specifications for group plans, seek competitive bids from carriers, and institute those group coverages deemed to be in the best interest of the profession. The present C.D.A. administrator could be named "Broker of Record" and D.S.P.I. would be directed to act as "Collector of Premiums."

On November 23, 1963, as a result of an all-day meeting, the Board and the Executive Council of the C.D.A. effected to a moratorium in which each agreed to take no further action in respect of its participation in insurance except for those programs to which it was already committed. The Board, accordingly, agreed that it would take no action in respect of its earlier decision to have D.S.P.I. act as Collector of Premiums for P.S.I., O.H.S.C., Blue Cross Supplemental, and Blue Cross Extended Health Care Plan.

At the termination of the meeting with the representatives of the C.D.A. Committee on Commercial Insurance Plans the Board was informed that the R.C.D.S. would receive an official communication from the C.D.A. notifying the Board of the termination of the moratorium. On April 15, 1964, a letter, dated April 14, 1964, from the Secretary of the Canadian Dental Association, outlined the background development to a C.D.A.

Group Life Insurance Plan and informed the Board that as of April 14, 1964, the C.D.A. Trustees had instructed the administrator of the C.D.A. Pension-Assurance Plans to proceed with the distribution of informative subject matter to the profession.

Canadian Dental Service Plans Incorporated

A Director requested a short annotated outline of the formation of D.S.P.I. and a presentation of its latest financial statement. The Secretary and Mr. W. E. Jackson, Secretary-Treasurer of D.S.P.I., provided the appropriate information. It was reiterated that D.S.P.I. is purely a service organization which provides administrative services in respect of plans initiated and approved by a participating provincial dental legal body. Some of the pertinent by-laws of D.S.P.I. were reviewed. The following merits enunciation in view of the fact there appears to be some confusion in respect to the functions D.S.P.I. is legally entitled to perform:

"The Directors shall manage the affairs of the Corporation and shall initiate and promulgate the plans and policies of the Corporation. The Directors shall have power to pay all expenses incurred in obtaining the incorporation of and in organizing of the Corporation and to make such arrangements as they may deem advisable with any Provincial Body or any other organization or individual for the provision by such body, organization or individual of secretarial, administrative or other services upon such terms as to the Directors shall seem proper. . . ."

For 1963 the revenue was \$32,705.38 and the expenditure of \$22,504.02 showing an excess of revenue over expenditures of \$10,201.36. The net worth of D.S.P.I. is approximately \$22,000.00. D.S.P.I. is now entirely self-sufficient. The Board indicated satisfaction with the operation of D.S.P.I.

Canadian Society of Dentistry For Children Seeks By-Law Amendment

The Board received from the Secretary of the Canadian Dental Association a notice of proposed amendment to the By-laws of the Canadian Dental Association, such amendment to be considered at the June 1964 meeting of the C.D.A. Board of Governors. The proposed amendment relates to membership provisions in the Canadian Society of Dentistry for Children, a Section of the C.D.A.

Motion adopted:

"That the Board of Directors of the Royal College of Dental Surgeons of Ontario approve the proposed amendment to the By-laws of the Canadian Dental Association relating to the Section of Dentistry for Children."

Communications' Media's Employment of Pictures of Dentists in their Offices

The Board re-affirmed its policy that no member of the R.C.D.S. must permit photographs of himself to be taken in his office for use in communications' media.

Dentist Summoned Before Board

Because of his failure to reply to three registered letters sent to him by the Board following receipt of allegations in respect of the competence of

his services, a member was summoned to appear before the Board. The member stated that a serious health problem had so engaged his concern that he had not appreciated the professional requirement of replying to the reasonable requests of the Board. He was required to have his written reply available for the Board the following morning. The Board was assured that should it be necessary in the future to receive a reply from this member his immediate co-operation would be forthcoming.

Dental Services For Persons With Marginal Incomes

A letter was received from a local society outlining a proposal to enable the society to meet the request of the local branch of the Red Cross for dentists to provide denture services to senior medically indigent patients. The Board could not recommend that the Society enter into the agreement on the basis of the draft proposal of the Society.

Motion adopted:

"That the Dental Services Committee give consideration to the development of appropriate means whereby persons of marginal income may obtain dental services, this study to include the possible utilization of out-patient departments in public general hospitals for the purpose."

Dental Assistants' Course — Scarborough

The Superintendent of Secondary Schools for the Scarborough Board of Education provided two draft certificates which might be granted by the R.C.D.S. to students who successfully complete the Dental Assistants' Course.

Motion adopted:

"That the wording of a certificate, submitted by the Superintendent of Secondary Schools for the Township of Scarborough, in respect to the Course in Dental Assisting, be approved, and

That the Secretary be and is hereby authorized to have the appropriate certificates prepared for graduates of such approved courses in dental assisting."

Endodontics Suggested as a Certifiable Specialty

The Board received a communication outlining reasons for the consideration of Endodontics as a certifiable specialty and seeking the opportunity of having a deputation meet the Board at its meeting in November 1964 for the purpose of making a presentation. The secretary had previously suggested that the members interested in this development communicate their proposals, as well, to the Specialists and Specialization Committee of the C.D.A. The secretary was directed to arrange a mutually-convenient appointment for the presentation of the Brief at the fall meeting, 1964

Motion adopted:

"That the R.C.D.S. Board, at the present time, recognize no additional Specialties until the Canadian Dental Association has granted such recognition."

Financial Support — Canadian Dental Association

Resolution adopted:

“Whereas the Royal College of Dental Surgeons of Ontario has consistently supported the establishment of a strong Canadian Dental Association,

Therefore be it resolved

That the Board of Directors of the Royal College of Dental Surgeons of Ontario wishes to reiterate, in the most emphatic terms, the importance of maintaining a strong and vital Canadian Dental Association, and

That the Board of Directors considers it mandatory that the Ontario profession assure financial support to the Canadian Dental Association on a basis proportional to that of most other provinces, and

That the Ontario Dental Association and the R.C.D.S.-O.D.A. Liaison Committee, assigned the responsibility of suggesting to both Boards a method of implementing the proposals which have been approved in principle in the Woods, Gordon Report, be advised of the adoption of this resolution.”

James Branston Willmott Scholarships

The Board awards, annually, two scholarships in memory of the late Dr. J. B. Willmott — awards tenable in the First and Second years in the Faculty of Dentistry to the students who rank highest in each year. The value of these awards was increased from \$125.00 to \$150.00.

National Dental Examining Board of Canada

Motion adopted:

“That the Board of Directors reiterates its request that the National Dental Examining Board of Canada accept for examination any candidates for whom a provincial licensing authority has provided an Enabling Certificate and

That the Secretary be requested to prepare a draft of the appropriate regulatory amendment for transmission to the Board’s N.D.E.B. representative.”

Oral Surgeons And Orthodontists Appoint Representatives

The Ontario Society of Oral Surgeons has appointed Dr. Peter Smylski to succeed Dr. J. H. Johnson as advisory representative to the Registration and Licensure Committee. Dr. Johnson retires from the Faculty of Dentistry at the close of this academic year. The Ontario Society of Orthodontists has appointed Dr. Holly Halderson to succeed Dr. Egil Harvold now in Norway.

Oral Surgery Residences And Internships

Motion adopted:

“That the Registration and Licensure Committee be requested to develop a list of approved Oral Surgery Residency and Internship

Programs to provide a portion of the academic basis for granting Specialists' Certification in Oral Surgery."

Per Diem Allowance For Extramural And Extension Lecturers

Motion adopted:

"That effective immediately the per diem remuneration for part-time Faculty Staff Extramural Lecturers and for Extension Lecturers be increased to \$100.00 and,

That effective immediately the per diem remuneration for full-time Faculty Staff be increased to \$50.00."

Property Matters

Motions adopted:

1. "That the Property Committee be authorized to have the rear parking area and side drive black topped at a cost not to exceed \$1,200.00."
2. "That the Property Committee be directed to install a new gas heating unit by a lease-purchase arrangement."

Proportional Representation on the Board of Directors

Dr. H. M. Jolley again introduced his proposal that a statutory amendment should be considered to increase the complement of the Board of Directors to give consideration to the principle of proportional representation. Because of the work at present going forward relative to the implementation of the Woods Gordon Report and the requirement of augmenting the membership of the Board when a second Faculty of Dentistry is established in Ontario, it was considered desirable to delay action on this request at this time.

R.C.D.C. Training Program For Dental Auxiliaries

The President of the Board and the Director-General of Dental Services exchanged correspondence on the subject of the R.C.D.C. training program for auxiliary dental personnel. Much background information leading to the development of the program was provided and the Board was referred to the final report which appeared in the December 1963 issue of the *Journal of the Canadian Dental Association*. The Director-General reiterated that R.C.D.C. thinking in respect of auxiliary personnel is directed along lines indicated by the C.D.A. in its official actions. All Corps policies are similarly governed not only in actual implementation but in intent as well. The development of the auxiliary program took place only as a consequence of the proposals being approved by the C.D.A.'s Council on Education and encouragement being received from that source.

Society Resolution Questions use of 'Doctor'

A resolution was transmitted to the Board by a local dental society to the effect that the Board "maintain a very strict enquiry into the qualifications of immigrant dental surgeons before giving them a licence." In addition the society questioned the employment by immigrant dentists of the title "doctor" when the degree possessed by such dentists is a bachelor's degree. The Secretary provided an interim reply explaining the registration

requirements and the licensing examination procedures as well as commenting upon the public confusion which would result if a few licensed dentists were not permitted to assume the courtesy title "doctor." The Board concurred with the Secretary's reply.

Staff Medical and Surgical Coverage

Motion adopted:

"That the Staff Medical and Surgical Coverage be altered to the P.S.I. Blue Plan with the addition of Blue Cross Extended Health Care Benefits."

REGULATIONS

SIGNS

A member of the Royal College of Dental Surgeons, in connection with his profession:

1. May not display or permit to be displayed any sign other than a sign which in its character, position, size and wording is merely such as may be reasonably required to indicate the location of and entrance to the premises in which a dental practice is being carried on and in which no letters larger than four (4) inches are used.
2. May not display more than two signs in addition to one at or on his entrance door.
 - (a) Not more than one of these may be a suspended sign.
 - (b) Not more than one of these may be an illuminated sign and if illuminated must not be intermittent, daylight, "Neon" or "Neon type" and no colours shall appear in such signs other than white or black.
3. May not display any sign on premises other than those in which his practice is actually carried on.

Notwithstanding the above regulations he may (using only unilluminated letters or figures not larger than two (2) inches:

- (a) Add to his entrance sign, his office hours.
- (b) Add to any sign the words (when an entrance is difficult to find) "Entrance on . . ."

PROFESSIONAL CARDS AND ANNOUNCEMENTS

A member of the Royal College of Dental Surgeons, in connection with his practice:

1. May not permit to appear in any newspaper or other publication, printed or written for distribution or display anything other than his professional card (which may contain at most his name, title or degrees, profession, address, telephone number and office hours) or an announcement of his commencement of practice, change of office location, absence from or return to practice, or the restriction of his practice. The announcement shall not contain any reference to qualifications, procedures or equipment. The space used, for either card or announcement, must not exceed one column (13 ems) in width by two inches in length and must not be in the nature of a display.
2. He may, however, observing the dignity and ethics of the profession, without reference to qualifications, procedures or equipment:
 - (a) Use private professional cards.
 - (b) Issue accounts and receipts.
 - (c) Issue appointment cards.
 - (d) Mail to his patients recall notices.
 - (e) Mail to his patients and acquaintances announcements of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice, provided he is a certified specialist.

SOLICITED ADVERTISING

For the protection of the Profession from solicited advertising, the Board prohibits any member of the Royal College of Dental Surgeons from inserting his professional card in hand-bills, programs, year books or other printed matter of like character.

TAKING OVER A PRACTICE

When any member of the Royal College of Dental Surgeons takes over the practice or office of another member of the College, either by purchase or otherwise, the member so acquiring the said practice or office shall not after one year from the date of such acquisition use any sign or printed matter which suggests to the public that the retiring member was in any way associated or connected with the said practice or office.

TELEPHONE DIRECTORY LISTINGS

1. No display advertising of any kind.
2. No black face listings in the yellow pages.
3. No specialists' list under separate group headings.
4. Mention of office hours is of no particular value and is usually used only to increase space, therefore to be excluded.
5. Mention of particular facilities or equipment, such as X-rays, gas extractions, etc., acceptable in either section.
6. Residence listing in yellow pages, as well as in white pages, is acceptable.
7. Designation as specialists may be used in both yellow and white pages, provided the dentist is a specialist certified in and restricted to the designated branch of dentistry.

Report

1.
In accordance with the provisions of The Dentistry Act of Ontario and the By-Laws of the Royal College of Dental Surgeons of Ontario, an election of the Board of Directors was held from October to December, 1964.

2.
On October 16th, 1964, nominations were called for by circular letter to each Licentiate resident in Ontario on October 1st, 1964. Valid nominations were received as follows:

District No. 1	Dr. J. P. Coupland, Ottawa
District No. 2	Dr. R. C. Honey, Peterborough
District No. 3	Dr. A. B. Sutherland, Sudbury
District No. 4	Dr. H. M. Jolley, Toronto Dr. E. J. Siegel, Toronto
District No. 5	Dr. A. M. Blair, Alliston Dr. W. G. Bruce, Kincardine
District No. 6	Dr. C. F. Cappa, London Dr. T. H. Wachna, Windsor
District No. 7	Dr. R. Michell, Kitchener
District No. 8	Dr. W. E. Kennedy, Hamilton Dr. E. J. Rajczak, Hamilton

3.
All candidates were informed of their nominations. None withdrew. As no additional valid nominations were received for Districts 1, 2, 3, and 7, Drs. Coupland, Honey, Sutherland, and Michell, respectively, were declared elected by acclamation.

4.
Elections were held in Districts 4, 5, 6, and 8.

5.
On November 27th ballots, together with necessary instructions, were mailed to all qualified Electors in the districts in which elections were being held. The officially appointed Scrutineers, Dr. R. J. Godfrey and Mr. Colin C. Rous counted the ballots on Wednesday, December 9th, 1964. Dr. Ray Mulrooney, representing Dr. E. J. Siegel, Dr. A. M. Blair, Dr. C. F. Cappa, and Dr. E. J. Rajczak were present during the counting of the ballots. The report of the Scrutineers (Appendix A) indicates that the following were elected:

District No. 4	Dr. H. M. Jolley
District No. 5	Dr. W. G. Bruce
District No. 6	Dr. T. H. Wachna
District No. 8	Dr. E. J. Rajczak

6.
A letter from the Secretary of the Faculty of Dentistry, University of Toronto (Appendix B), confirms the election of Dr. James D. Purves as Faculty representative on the Board.

7.

Therefore the duly-elected members of the Board of Directors for the ensuing biennial term are:

District No. 1	Dr. J. P. Coupland, Ottawa
District No. 2	Dr. R. C. Honey, Peterborough
District No. 3	Dr. A. B. Sutherland, Sudbury
District No. 4	Dr. H. M. Jolley, Toronto
District No. 5	Dr. W. G. Bruce, Kincardine
District No. 6	Dr. T. H. Wachna, Windsor
District No. 7	Dr. R. Michell, Kitchener
District No. 8	Dr. E. J. Rajczak, Hamilton
Faculty (Toronto)	Dr. J. D. Purves, Toronto

Appendix A

SCRUTINEERS' REPORT ON ELECTIONS — 1964

District No. 4

Number of ballots received	831
Number of valid ballots	829
Number of invalid ballots	2

Reasons for declaring ballots invalid:

Ballot not in envelope	1
Deliberately spoiled by voter	1

The 829 valid ballots were marked as follows:

For Dr. H. M. Jolley	444
For Dr. E. J. Siegel	385

Showing a majority of 59 for Dr. Jolley.

Dr. Jolley is thereby declared elected.

District No. 5

Number of ballots received	94
Number of valid ballots	94
Number of invalid ballots	0

The 94 valid ballots were marked as follows:

For Dr. A. M. Blair	9
For Dr. W. G. Bruce	85

Showing a majority of 76 for Dr. Bruce.

Dr. Bruce is thereby declared elected.

District No. 6

Number of ballots received	216
Number of valid ballots	215
Number of invalid ballots	1

Reason for declaring ballot invalid:

Not validated	1
---------------------	---

The 215 valid ballots were marked as follows:

For Dr. C. F. Cappa	102
For Dr. T. H. Wachna	113

Showing a majority of 11 for Dr. Wachna

Dr. Wachna is thereby declared elected.

District No. 8

Number of ballots received	283
Number of valid ballots	282
Number of invalid ballots	1

Reason for declaring ballot invalid:

Not validated	1
---------------------	---

The 282 valid ballots were marked as follows:

For Dr. W. E. Kennedy	86
For Dr. E. J. Rajczak	196

Showing a majority of 110 for Dr. Rajczak.

Dr. Rajczak is thereby declared elected.

Fall Meeting

1.

On the invitation of the Alberta Dental Association the 1964 Annual Meeting of the Canadian Dental Association was held in the Macdonald Hotel, Edmonton, from June 24th to July 1st.

2.

Everyone present was extremely pleased that President Zimmerman had recovered sufficiently from a recent illness to preside at all sessions — a function he performed most ably.

3.

At this meeting for the first time the C.D.A. amendment to the Constitution adopted in 1963 which provides representation to the Federal Dental Services on the Board of Governors became effective. Brigadier K. M. Baird was welcomed as the representative of the dentists in the Federal Services.

4.

A few hours before the opening session of the Board of Governors, the 914 page Report of the Royal Commission on Health Services was released. At the President's request the Association's Secretary presented a summary of some of the recommendations contained in the long-awaited report which particularly applied to dental services.

5.

Subsequently the Board decided that a detailed study of the Report would be made along the lines followed when the briefs presented to the Royal Commission were prepared with a Steering Committee co-ordinating the studies of the C.D.A., the Corporate members, the C.D.A. Sections and other interested dental organizations.

6.

The meetings of the Reference Committees whose function is to review the reports of the President, the Secretary, the Executive and all Councils and Committees of the Association were diligently attended. The discussions were animated and the viewpoints often widely divergent. Many who were attending the reference committees for the first time remarked on how effectively and how democratically the interests of the individual members were safeguarded by the procedure followed in conducting the Annual Meeting.

7.

The Board of Governors, in a strongly-worded resolution, gave support to the position taken by this Board in respect to Ontario Bill 163, "An Act Respecting Medical Services Insurance."

"Whereas legislation providing for Medical Services Plans through the utilization of multiple carriers has been enacted in one province and in another, following presentation in the Legislative Assembly, is now under study by a Committee of Enquiry, and

Whereas this legislation purports to exclude dental services from its provisions, and

Whereas there are certain services generally recognized as not being exclusively dental in character which reside within the academic and legal competence of dentists but which also may be rendered by physicians, and Whereas benefits for such services when rendered by dentists are refused on the ground that these services are not compensable unless performed by licensed physicians, and

Whereas public funds are employed to purchase or contribute to the purchase of medical services insurance contracts for those residents requiring such assistance, and

Whereas legislation which, in effect, places economic sanctions on the right of a beneficiary to select the legally-competent practitioner of his choice and discriminates against legally-qualified members of one profession in favour of those of another profession is grossly iniquitous,

Therefore be it resolved

That the Canadian Dental Association does strongly record its opposition to the enactment of any provisions within legislation for Medical Services Plans which deny the unencumbered right of a patient to select the legally-qualified practitioner of his choice, and further

That the Canadian Dental Association does strongly record its opposition to the enactment of any provisions within legislation for Medical Services Plans which permit public funds to be employed in a manner which discriminates against the lawful services of dentists, and further

That the Canadian Dental Association, should the respective Corporate Members so request, transmit the substance of this resolution to the appropriate provincial authorities."

Subsequent to the meeting of the Board of Governors and on the request of the R.C.D.S. Board, this resolution and a covering letter were transmitted to the Chairman of the Committee of Enquiry by the Secretary of our national organization.

8.

Dean James D. McLean reported on the excellent progress of the Canadian Fund for Dental Education, to which this Board makes an annual memorial contribution.

For the first year of its operation ending December 31, 1963, the Fund received contributions slightly in excess of \$25,600 leaving a net income of \$24,575 after all expenses had been deducted. Slightly more than one-half of the receipts were from dentists and dental organizations. The dental trades in Canada contributed almost \$12,000 during 1963 and have continued their support in 1964.

After due deliberation and consideration it was determined that the prime need in respect of dental education was support for teacher-training projects. Accordingly the sum of \$6,000 was appropriated to support a worthy student or students during 1964, and each of the dental schools was so notified.

We congratulate the Trustees of the Fund for the high degree of success this important venture has achieved.

9.

A valuable contribution to the deliberations of both the Reference Committees and the Board of Governors sessions is made by the Registrar-Secretary of the

R.C.D.S. through his vast background of knowledge as well as by his facility of expression. Your representatives strongly recommend that the existing policy of sending the Secretary of the R.C.D.S. to the Annual Meeting of the C.D.A. be continued. We further recommend that, when convenient, the Secretary's wife accompany him to the C.D.A. Annual Meeting and that provision be made in the budget to encourage her to do so.

10.

The Report of the Secretary of the C.D.A. received special attention because it was the last which Dr. Gullett would present before his retirement in December 1964. His report contained thoughtful philosophical observations as well as the usual factual information. Careful reading of this report, to be found in the 1964 C.D.A. *Transactions*, is recommended to all members of the R.C.D.S.

11.

The appointment of Dr. W. G. McIntosh to succeed Dr. Gullett as the Association's Secretary was confirmed. Dr. McIntosh commenced his duties in September 1964.

12.

The Headquarters Property Committee reported that the addition to the old building was completed. The Treasurer reported that the cost of the new building and furnishings was \$141,000. Construction costs were \$123,000 which were paid from the Reserve Account and the furnishing costs were \$18,000 which were paid from the General Account. At the end of 1963 the Reserve Fund showed an amount of \$212,000. In the opinion of financial experts this is not considered excessive for an organization with an annual budget of \$307,000.

13.

The Committee on Specialists and Specialization reported that it seems certain that a Bill will be introduced in the Senate or House of Commons of Canada to create a Royal College of Dentists of Canada within the next few months. Her Majesty, Queen Elizabeth, has graciously granted permission to use "Royal" in the name of the proposed College.

14.

The following resolution was submitted from the R.C.D.S. for consideration at the Board of Governors meeting:

"Whereas there is in existence in Canada a facility for the evaluation and accreditation of dental schools, and

Whereas reciprocal arrangements have been developed with a similar facility in the U.S.A., and

Whereas there is a continual change in the standards of dental education throughout the world, and

Whereas there is evidence that in some countries there are schools which have standards equal to or approaching those of schools approved by the Canadian Dental Association and the American Dental Association, therefore be it

Resolved that, if possible, the Council on Education of the Canadian Dental Association develop a facility for the evaluation and the accreditation of dental schools on a world-wide basis."

This resolution received the sympathetic consideration of the Board of Governors and it was referred to the C.D.A. Council on Education for study.

15.

The Executive Council appointed Dr. J. P. Coupland to prepare a statement and meet with the Canadian Health Insurance Association to discuss the discrimination which the profession believes is being practised against dentists and those who require oral surgical services by some companies and by most professionally-operated plans.

16.

At the luncheon meeting on June 29th Dr. Remy Langlois of Quebec City was installed as President to succeed Dr. Zimmerman. Conferring an Honorary Membership and the presentation of a portrait to Dr. Don W. Gullett in recognition of his unique contribution to Canadian dentistry made this a momentous occasion.

17.

The Convention opened on June 28th which was later than the usual date. Although the C.D.A. had not held its Annual Meeting in Edmonton previously, the industrious planning of the Convention Committee more than compensated for their lack of experience. The scientific sessions were informative and were well attended. The Exhibitors were pleased with the arrangements provided for them.

18.

Dr. Zimmerman presided over a general session sponsored by the C.D.A. for a discussion of the Report of the Royal Commission on Health Services. Dr. Bruce McFarlane, assistant professor of Sociology of Carleton University and Dr. W. G. McIntosh, chairman of the Steering Committee which prepared the Association's Brief to the Royal Commission, led the discussion and replied to questions submitted in writing from the audience. This presentation was highly informative and well received.

19.

The social events exemplified typical western imagination and hospitality. The resourcefulness of the Convention Committee was taxed by the unexpectedly large registration. Apparently the date after school closing was the factor which determined that more dentists than usual attended with their families.

20.

In a total registration of 745 dentists, 540 were accompanied by their wives and many brought children as well. One hundred and eleven Ontario dentists were registered, 73 Dental Assistants and 37 Dental Hygienists attended the annual meetings of their respective national organization.

21.

Your representatives to the C.D.A. request that congratulations on a most successful meeting and thanks for courtesies extended be sent to the Alberta Dental Association and to the C.D.A. 1964 Convention Committee and that a copy of this report be forwarded.

Report adopted.

CONTINUING EDUCATION COMMITTEE

Members: J. D. Purves, Chairman, R. C. Honey, H. M. Jolley.

Report

Fall Meeting

1.

The main problem with the successful execution of the Extension and Extramural Lecture program continues to be the laxity evident in district societies in which applications for speakers do not meet the minimum of two months' notice. All district societies should be advised by the Board representative of that district that programs for the ensuing year would best be arranged in May and June.

2.

The subject of the availability of competent technicians' services was felt to be within the terms of reference of this committee. The feeling was expressed that the present potential personnel available to fulfill the requirements of the various technical fields, e.g., crown and bridge, orthodontics, ceramics, partial denture prosthesis and complete denture prosthesis, with the required degree of excellence, was indeed meagre. To this end a meeting with President Bissell of the University of Toronto to investigate the possibility of the R.C.D.S. co-operating with the Faculty of Dentistry, University of Toronto in the establishment of a technicians' course was recommended. It was felt that the analogy of the nurse and medical technicians' training program within the hospital complex could be considered to be equivalent to that of the technician training within the dental hospital or infirmary. This, presupposing the present academic requirement of Grade XII. In addition, the co-operation of the Governing Board of Dental Technicians in such a scheme was to be solicited.

Action

1. The Board Members are to encourage local societies in their districts to give sufficient notice when they are requesting Extramural Lectures.
2. It was noted that the Wednesday afternoon lectures at the Faculty of Dentistry, University of Toronto, were well received.
3. The Board wishes to express its appreciation to Dr. G. T. Mitton for his help with the arrangements of the Extramural Lectures over the past years and to wish him a happy retirement.
4. Report adopted.

Schools: West Hill Collegiate Institute, Scarborough
Etobicoke Collegiate Institute, Etobicoke

Report

1. Dental Assisting in High Schools:

In September, 1963, the first Dental Assistants' Course was established at West Hill Collegiate Institute by the Board of Education for the Township of Scarborough. The following year, Etobicoke Board of Education added a similar Course at Etobicoke Collegiate Institute, and in September, 1965, yet a third Course in Dental Assisting will be started at Lorne Park Collegiate Institute by the Toronto Township Board of Education.

Presently, Dental Assisting is an experimental program and it has been recommended that no other secondary schools begin a similar course before the already existing courses are evaluated at the conclusion of a five-year term (1963-1968). From this evaluation it will be determined if there is a need for additional training programs for dental assistants.

2. Financing the Dental Assistants' Courses:

The establishment of these courses was financed by a Dominion-Provincial Educational Grant, making available an excellently equipped and planned laboratory for the teaching of the different phases in Dental Assisting.

3. Planning the Course in Dental Assisting:

The Faculty of Dentistry, University of Toronto, in an advisory capacity, worked closely with the Scarborough Board of Education in planning the layout of the laboratory, equipment, supplies, curriculum and time-tables.

Dr. M. Jackson, Supervisor of Dental Hygiene, Faculty of Dentistry, did most of the actual planning, and her extensive "Report on Scarborough Project in Dental Assisting" has aided Etobicoke and Toronto Townships in establishing similar courses.

During the first year of the course at West Hill Collegiate, Dr. M. Jackson spent one afternoon a week teaching and demonstrating Operative Dental Assistance and Paedodontia Assistance to the students enrolled in the course. In Etobicoke, Dr. Chalmers is employed by the Board of Education to teach Operative Dental Assistance.

4. Curriculum:

Grade XI (a) Academic		22 periods per week	
English	5	Physical Education	2
History	3	Physics	4
Commercial Skills	4	Home Economics	4
(Typing, Bookkeeping, Business Arithmetic)			
(b) Dental		18 periods per week	

See Table I - Appendix A

Grade XII (a) Academic

23 periods per week

English 5

Physical Education 2

Economics 4

Chemistry 4

Commercial Skills 4

Home Economics 4

(b) Dental

17 periods per week

See Table II - Appendix B

A regular textbook for this course has not yet been approved. Brauer's text—"The Dental Assistant" (3rd edition) has been used as a reference text. A list of all the textbooks used for reference in establishing the Dental Assistants' curriculum could be obtained from M. Pohlak, West Hill Collegiate Institute, Scarborough.

5.

Admission Requirements:

Dental Assisting is offered in Grades XI and XII of the four-year Science, Technology and Trades Branch. The Course is open to twenty-four students each year who have successfully completed Grade IX and X in any branch of the secondary school program. Priority is given to students with an average of sixty-six per cent or better.

6.

Clinical Training Program for Students in the Dental Assistants' Course:

(a) *Externship*: Ideally and initially, it was suggested that the student assistants receive their actual training at the Faculty of Dentistry. However, in view of the fact that two other schools would institute Dental Assistants' Courses, the facilities of the Faculty would not permit the accommodation for that number of students. Problems in giving adequate instruction and supervision to the students at the Faculty were other factors which determined the abandoning of the initial idea.

Other outlets had to be explored and it was suggested that cooperation from the local dentists should be obtained. Thus, after an enquiry as to how many dentists would be interested in accommodating student assistants in their offices, a plan was easily worked out whereby the students could spend two weeks (afternoons) in several dental offices. Dentists were notified that no payment of any kind was to be received by the students. Also, the liability insurance carried by the Board of Education covered the students while on externship in dental offices.

The cooperation was gratifying and the students were accommodated at the one time in various practices. It was left entirely to the discretion of the dentist as to how the students could assist and learn while on experience weeks, since procedures vary greatly from office to office.

This type of training was made available only to second year Dental Assistant students during their final term at school.

A Questionnaire re the student's capacity as a Dental Assistant was sent to the dentists prior to the second week of the externship program. Upon the return of these Questionnaires, it will be easy to evaluate the success of this phase of the Dental Assistants' training.

In Etobicoke, the students are still in their first year of Dental Assisting and the externship program will be established within the next year when the students are in Grade XII.

(b) *In the school laboratory*, the following phases of clinical training are taught:

- (1) Recognition of instruments;
- (2) Sharpening of instruments;
- (3) Organization of instruments and supplies;
- (4) Chairside assisting — phantom head as patient;
- (5) Emergency procedures;
- (6) Handling Dental materials;
- (7) Charting;
- (8) Developing and mounting X-rays;
- (9) Laboratory techniques
 - impression pouring and trimming
 - simple acrylic space maintainers
 - occlusion rims
 - investing and casting gold inlays.

7.

Graduation:

At the successful completion of the second year in Dental Assisting, students will be awarded the Ontario Secondary School Graduation Diploma, as well as a Certificate in Dental Assisting from the Royal College of Dental Surgeons of Ontario.

DENTAL PUBLIC HEALTH COMMITTEE — O.D.A.

Members: Dr. D. J. E. Mitchell, Chairman, Dr. R. R. Butler, Dr. K. W. Davey,
Dr. R. O. Fisk, Dr. M. Buchman, Dr. F. B. Burns, Dr. M. A. Charlebois,
Dr. R. E. Feasby, Dr. F. G. Sonley.

Report

Annual Meeting

1.

Dental Health Day

This was held, as has been the custom on the Wednesday of National Health Week (March 17th). Letters were sent to the presidents of several service clubs and all Dental Societies in the Province were contacted. Film strips, posters and additional material were sent to all radio and T.V. outlets. Individual dentists were sent packages of dental health pamphlets and a poster.

2.

Student Dinner

The Annual Student Dinner was held in the Great Hall of Hart House on November 25th, 1964. The speaker was the Vice-President (Academic) of the University of Toronto, Dr. M. St. A. Woodside. Entertainment was provided following dinner and a good majority of the students were present. It was encouraging to note that a greater number of Board members were present this year.

3.

Convention

Convention speakers have been confirmed as follows:

Breakfast Meeting — Dr. C. L. Strachan

D.P. Health Luncheon — Dr. John B. Macdonald, President, U.B.C.

Invitations have been sent to the presidents of nine different Ontario Universities to be present as head table guests at the Tuesday luncheon.

The Dental Public Health Clinical Contribution will be in the form of a panel discussion on Dental Services for Handicapped Children.

Participating in the panel will be:

Dr. Alan Conn — Chief of Anaesthesiology, Hospital for Sick Children

Mr. John Law — Administrator, Hospital for Sick Children

Dr. Leo Sturgeon — Chief, Welland County Health Unit

Dr. S. A. MacGregor — Professor of Paedodontics, University of Toronto (Head)

Dr. H. B. Cotnam — Chief Coroner, Province of Ontario.

The panel moderator will be Dr. Frank Dawe of St. Catharines.

4.

Red Cross

All dental coaches are in operation and through the efforts of Dr. Pownall applicants have been interviewed and selected to replace those men who are retiring. A new pamphlet on Dental Health is being prepared by Ganes Productions for wide distribution throughout Canada. The cost of the project will be borne by the Junior Red Cross. The committee has spent a considerable amount of time and effort in the preparation of this colourful and informative booklet.

5.

Public Relations Committee

A new poster has been designed and distributed throughout Ontario and the pamphlet on Hidden Sugars is being revised.

A new series of coloured transparencies (approximately 60 in number) has been developed and should be ready for distribution very shortly.

To permit a readily transportable display for use in career expositions, etc., a new portable display has been purchased. This should permit a more diversified and interesting exhibit.

6.

Ontario Dental Public Health Council

The results of the Gallup Poll of both the profession and the public of Ontario have been submitted. Arrangements are being made to confer with both the Provincial and Federal Health Ministers. Simultaneously releases will be made to the press and to the dental profession. The project has been most gratifying from the aspect of the profession's co-operation in answering the questionnaire and the results will be of inestimable value in future relations with

- the dental profession itself and its related associations
- the Government — both Provincial and Federal
- the public
- the schools
- various organizations concerned with health programmes

Dr. Frank Dawe and his committee are to be highly commended for the foresight and perspicacity shown in undertaking this project.

7.

Recruitment - Placement

The Secondary Schools of Lambton and Middlesex Counties were the source of students for the Annual Dinner in Hart House and tour of the Faculty on April 22nd. The students are being billeted in the homes of Toronto dentists overnight. It is expected that 40 will attend the dinner at Hart House.

In closing I wish to express the gratitude of the committee to our field secretary, Dr. Glenn Mitton, for his tireless efforts on behalf of dental public health in Ontario.

Action

1. That the Dental Public Health Committee of the Ontario Dental Association be invited to give consideration to the undertaking of a programme or programmes designed to encourage an increased utilization by the Dental Profession of the established Oral Cytological services.
2. Report adopted.

DENTAL SERVICES COMMITTEE

Members: H. M. Jolley, Chairman, R. H. Finlayson, W. S. MacKenzie,
J. Sim, D. B. McAdam, P. E. Willson.

Report

Fall Meeting

1.

Since the April meeting of the Board, the Committee has held one meeting which, in addition to the committee members, was attended by the Secretary of the Board, and part time by the Business Manager. All the Committee deliberations at this meeting were affected by the proposals being considered in regard to the reorganization of dentistry in Ontario.

2.

Welfare Plan

(a) *Presentation to Minister of Public Welfare* — On June 17th, Dr. Jolley, Dr. MacKenzie, Mr. Jackson, and the Secretary met with the Honourable Louis P. Cecile, Minister of Public Welfare, in his office. The short Brief approved by the Committee was presented and an informal discussion of the Welfare Plan took place. The Minister agreed to consider the Board's request for an increase in the monthly per capita grant from 70 to 90 cents. He made reference to federal-provincial discussions and was hopeful that a resolution of certain inter-governmental matters would make possible a gradual expansion of the Welfare Plan to include all beneficiaries under Mothers' Allowances and the Old Age Security and Old Age Assistance groups. The Minister acknowledged, too, the need to revise the Welfare contract.

(b) *Meeting and Correspondence with Department of Public Welfare* — On Thursday, September 24th, Mr. Jackson and the Secretary met with Mr. Borczak and Mr. Price of the Ontario Department of Public Welfare. The purpose of the meeting was to discuss proposals respecting further developments within the Ontario Dental Welfare Plan. It was apparent that the Department is sympathetic to R.C.D.S. proposals to augment the existing coverage to include *all* beneficiaries under the Mothers' Allowances Act and is sympathetic to an increase in monthly grant.

The R.C.D.S. representatives agreed that the inclusion of all M.A. beneficiaries would be a desirable first step but the principle was expressed that all persons receiving benefits under the Ontario Medical Welfare Plan should eventually be the recipients of dental care services as well.

Mr. Borczak and Mr. Price agreed to discuss the matter further with Mr. James Band, the Deputy Minister of Public Welfare. Following departmental agreement representatives of the Department would be required to appear before the Treasury Board to obtain the necessary funds to augment the program and increase the grant. It is highly improbable that the Department would be successful in the midst of a fiscal year. It was agreed, therefore, that an attempt be made to make the new proposal operable on April 1st, 1965, the commencement of the Government's next fiscal year.

Mr. Borczak stated that it would be necessary for the Department to have supporting evidence when its representatives appeared before the Treasury Board. Mr. Jackson and the Secretary have therefore provided the Department with as much supporting information as possible.

It was agreed not to amend the 1958 contract at this time notwithstanding the fact that the contract has become somewhat outdated. From a negotiating standpoint in respect to the augmentation of the plan and the acquisition of an increase in grant it is perhaps more desirable to seek amendment to a 1958 contract than one entered into in the last months of 1964.

On October 15th a letter was received from the Deputy Minister of Public Welfare expressing pleasure at the satisfactory discussion between representatives of the Department and the college. Mr. Band was appreciative of the receipt of the statistical information provided and expressed the view that the figures are illuminating. The Department is giving every consideration to an adjustment in the per capita monthly payment and an expansion of services to include adults in Mothers' Allowances and other programs. He said that, "We are certainly happy to know that the College is willing to extend this public spirited service on a wider scale."

The Committee was pleased with the results of the meeting and expressed the hope that April 1, 1965, would witness the Board's proposals being brought to fruition.

3.

Co-operative Medical Services Federation of Ontario

The Secretary presented an exchange of correspondence with Mr. E. Schofield, the Provincial Secretary of C.M.S.F.O. The Federation is desirous of working out an agreement with the dental profession for the purpose of entering into a service contract to enable the acquisition of dental services by its members. Mr. Schofield met with the Committee in October.

Mr. Schofield outlined the historical development of medical co-operatives in Ontario pointing out that at the outset they were predominantly rural and were created to permit individuals, the self-employed, and others to avail themselves of the benefits of group purchase of health care. Originally the emphasis was on hospital coverage but with the advent of O.H.S.C. attention turned to the next largest field of uncovered services — medical care. There are 32 county medical co-operatives in Ontario, 31 being in the Federation. In 1963 these co-operatives had earned income from premiums in excess of \$2,800,000.

Medical co-operatives, Mr. Schofield said, are designed for service, not for profit. Any excess of premiums over benefits paid and administrative costs incurred is returned to the members as a "patronage rebate." There is a very low administrative cost and the autonomy of each county co-operative provides excellent liaison with the people in the respective areas resulting, he said, in very little abuse of the programs.

The premium rates across the province, on average, are about \$120 per year for home and office calls and major medical. This compares with a P.S.I. premium, which does not include major medical, in the order of \$206.

Mr. Schofield outlined the agreement between the co-operatives and the Ontario Chiropractic Association. There has been a chiropractic program in 10 of the co-operatives for two years. There is unlimited chiropractic care with the cost spread across the entire participating co-operative. The Chiropractic Association sets the tariff. The "pledge sum" (the aggregate premium received for the \$1.00. If the pledge sum is insufficient there is a pro-ration factor. Of the 10 co-operatives, the premium has been sufficiently adequate in 8 of them to pay the chiropractic service) buys unlimited care. The intent is to pay 100 cents on

100% of the tariff. Mr. Schofield said that there was "pro-ration if necessary but not necessarily pro-ration." The present premium for the chiropractic service is \$3.00 per year per adult. There is a co-insurance factor as the member pays \$1.00 per visit. Utilization runs from 7 to 12%.

Similar arrangements are proceeding with the Ontario Optometrical Association to contract for optometric care. The proposals will carry three premiums — \$3.00 single, \$6.00 couple, and \$8.00 couple with children.

Mr. Schofield reported there are approximately 150,000-160,000 people in Ontario Medical Co-operatives. Whereas approximately 13% of the general population is over 65 years of age, in the Co-operatives about 23% are over 65. The membership is about 75% rural and 25% urban.

Mr. Schofield, when questioned, said that from the standpoint of the Co-operative a contract with the participating profession was desirable. Without a contract the practitioner did not need to adhere to the tariff and the contract made possible the control by the profession of the quality of care.

The Committee agreed that it be recommended to the Board that:

- (1) no contract be entered into with the Medical Co-operatives,
- (2) co-operation on a basis similar to that shown to commercial insurance carriers be exhibited and,
- (3) that consideration be given to the operation of a pilot program in a county where the factors are favourable.

4.

Ontario Welfare Council

A letter dated July 3, 1964, was received from Mr. Trevor Pierce, Executive Director, enclosing two resolutions adopted at the Annual Meeting of O.W.C. on May 22, 1964. One resolution supports the R.C.D.S. recommendation that dental benefits be extended to all beneficiaries at present in receipt of medical benefits through the Ontario Medical Welfare Plan. The other supports the development of dental departments in hospitals. The Council stated that, "Health care rendered by dentists is an essential part of the total health program and should be integrated with those of other health professions in order to provide a total health service."

The Committee expressed gratification of the support given to the proposals of the profession by the Ontario Welfare Council.

5.

Marginal Income Groups

The Committee considered the following motion adopted by the Board in April, 1964: "That the Dental Services Committee give consideration to the development of appropriate means whereby persons of marginal income may obtain dental services — this study to include the possible utilization of out-patient departments in public general hospitals for the purpose."

After considerable deliberation the consensus of the Committee was that the most appropriate means of providing persons of marginal incomes with dental services was through government clinics staffed by dentists and auxiliaries on a salary basis. These clinics could be in hospitals, in separate buildings, and they could be travelling clinics. The Committee agreed that a means test is inherent in providing for services of this nature.

6.

Prepayment Plans

The Committee considered for the second time the following motion adopted by the Board in November, 1963: "That the Dental Services Committee study conditions under which dentists might participate in prepaid plans which provide dental care benefits."

The Committee felt it could offer no direction beyond its view that any pre-paid plan for dental services should be consistent with the "Principles for Pre-payment Plans" adopted by the Canadian Dental Association.

Action

Report adopted.

Report—Annual Meeting

1.

Since the November meeting of the Board the committee has held one meeting which, in addition to the majority of the committee (two members being absent), was attended by the Secretary of the Board, the Business Manager, and for a portion of the time, Dr. F. A. Kohli, Director of Dental Services, Ontario Department of Health.

2.

Welfare Plan

(a) *Presentation to Minister of Public Welfare* — The committee regrets to report that as yet no formal reply has been received from the Department of Public Welfare as to the disposition of the matters discussed with the Minister on June 17th. These discussions dealt with the contents of a Brief which requested (a) an increase in the monthly per capita grants from 70 to 90 cents and (b) an expansion of the Welfare Plan to include all beneficiaries under Mothers' Allowances and the Old Age Security and Old Age Assistance Groups. In addition there was informal agreement of the need to revise the Welfare Contract.

In regard to the latter, as reported to the November Special Meeting of the Board, a meeting was held attended by representatives of the Board and of the Ontario Department of Public Welfare. The Committee felt that as a result of these discussions and subsequent correspondence that the suggestions contained in the Brief might be brought to fruition by April 1, 1965.

(b) *The Annual Report of the Welfare Plan* was presented by the Business Manager. It clearly demonstrates that an increase in the per capita grant is mandatory if the present services are to be continued without a decrease in the pro ration payments based on the O.D.A. Suggested Schedule of Fees. With the imminent presentation of a revised O.D.A. Schedule, to which the Welfare Plan is wedded, and the desire of the Committee to improve the pro ration payments the disposition of the Board's presentation to the Department of Public Welfare assume critical importance.

The Committee recommends to the Board that if the proposed increase from the Department of Public Welfare is not what was requested strong representation should be made.

3.

Dental Beneficiaries — Ontario Department of Public Welfare

Dr. Frank Kohli, Director of Dental Services for the Ontario Department of Public Welfare, reports the following groups are Dental Beneficiaries of various plans under the aegis of the Ontario Department of Public Welfare.

(a) *The Dental Welfare Plan* — a plan contracted between the R.C.D.S. and the Department of Public Welfare. Fee, 66 $\frac{2}{3}$ of O.D.A. Fee Schedule.

(b) *Emergent Relief Recipients* — extractions only, paid by local welfare authorities, who are reimbursed by the Department of Public Welfare to the extent of

80%. The accounts are checked by the Dental Division Department of Health according to the Department of Public Welfare Schedule, namely \$3.00 for the first extraction with local anaesthetic plus \$1.00 for each additional extraction at the same sitting; and \$5.00 for general anaesthesia plus \$1.00 for each extraction.

(c) *Rehabilitation Services Branch* of the Ontario Department of Public Welfare provides for dental rehabilitation of persons receiving rehabilitation training by that Branch. The dentist submits a report of dental examination and estimate of necessary dental treatment. The Dental Division of the Department of Health checks the recommended treatment and estimate. The fee for treatment approved is estimated at 90% of the O.D.A. Schedule of Fees.

No information has as yet been received by the Committee as to the operation of the Rehabilitation Services Branch Dental Scheme. The Committee is attempting to ascertain how the plan is administered, by whom the beneficiaries are assigned, what authorization is required prior to proceeding to operate; freedom of choice of dentist and associated matters. In regard to the emergent relief recipients Dr. Kohli reported that this scheme was operating under a fee schedule established in the early 1950's and was now undergoing review with the hope that it would be revised to conform with the O.D.A. Fee Schedule, prorated 90%, and would also be enlarged to include repair of existing dentures.

The committee recommends that in view of the unrealistic fee schedule pertaining to the Emergency Relief Recipients that the Board make representations to the Department of Public Welfare to the effect that dentists be remunerated on the basis of the current fee schedule of the O.D.A.

4.

Communication from the Sudbury District Dental Society

A letter was received from the Sudbury District Dental Society reporting that it had been approached by representatives of the Union of Mine Mill and Smelter Workers to ascertain the feasibility of establishing a dental plan to provide services to members of the Union and their dependents. The letter also inquired as to the status of the Dental Service Corporation. A reply had been sent which reported on the reasons for the non-existence of a Service Corporation, advising care and caution in negotiating, outlining some of the problems associated and requesting additional information. At the time of the Committee meeting no further correspondence had been received.

5.

Communication from the University of Guelph re Neglect of Dental Care

A letter from the Secretary of the Health Services Committee of the University of Guelph was discussed. The letter reported that while a very adequate prepaid accident plan for dental care for university students existed there was no program for other dental services. This resulted in a neglect of dental care. Advice was solicited on how the needs for dental care might be more adequately met —

whether by a form of prepaid insurance, provision of a dental clinic or some other means.

The committee recommends that the Director for the District involved (Dr. R. Michell) be requested to have a committee formed among the dentists in the Guelph area and that they discuss the matter with the Secretary of the Health Services Committee of the University of Guelph.

6.

Relative Value Method of Fee Determination

At the request of the Dental Services Committee of the C.D.A. the Committee studied and discussed the report of its sub-committee on the Relative Value Method of Fee Determination. The following suggestions and comments were offered:

On Page 5 — As it was thought that there was not enough factor spread, make the present Class I (excluding amalgam restorations and silicate and direct resin restorations) have a factor of .75.

Make a new Class II consisting of amalgam restorations and silicate and direct resin restorations and let it have a factor of 1. The other classes to remain as they are except in Class III add preventive orthodontics (space maintainers) and in Class IV after interceptive orthodontic treatment add in brackets appliance therapy.

Page 6 — (b) delete the word "total" after the word specific.

Page 6 — It was thought as a protection to the public a top limit should be considered for a complete diagnosis. viz. A clinical examination consisting of examination of periodontal, orthodontic, and caries conditions including radiographs, treatment plan, explanation to patient and study models should not exceed a relative value of . . .

Page 7 — Pulp tests specific (local) the T factor should be raised to .25

Page 14 — Silicate Cement and Direct Resin Restorations in Class IV only the T factor should be raised to 2.5

The Committee expressed its admiration and commendation of the labors and achievements of the authors of the Report.

Action

1. The following motion was presented:

There exists a continuing and growing need for provision of dental services for persons of marginal income; for most of the beneficiaries of Public Welfare, and for residents of rural areas:

and whereas

2. There appears to be some confusion as to areas of responsibility between the Dental Services Committee of this body and the Dental Public Health Committee of the O.D.A.

and whereas

3. There is a lack of accurate statistical information as to requirements, distribution of needs, and possible costs.

and whereas

4. There is evidence of greater interest on the part of authorities in both the Department of Public Welfare and Department of Health in the provision of dental services for these categories.

THEREFORE BE IT RESOLVED

(a) That the *Dental Services Committee* be instructed to collate statistical data pertinent to making dental services available to these categories of individual and that it be empowered to employ such professional assistance as it requires to achieve this end.

(b) That the *Dental Services Committee* be instructed to convene a meeting jointly with the Dental Public Health Committee of the O.D.A. with the purposes of achieving (a) a clear definition of their respective fields of responsibility and (b) full utilization jointly of all the energies available for achieving one desired end.

(c) That the *Committee* be instructed to continue its efforts to obtain expansion of categories of beneficiaries of Welfare Recipients eligible for dental benefits and assure adequate compensation to dentists for these services.

2. Report adopted.

**DISCIPLINE
COMMITTEE**

Members: A. H. Leckie, Chairman; J. D. Purves, R. C. Honey, H. M. Jolley,
A. B. Sutherland.

Report—Fall Meeting

1.

Since the April meeting of the Board the Discipline Committee has received 44 complaints from the public. This is a considerable increase over previous years and is rather alarming. The complaints may be classified as follows:

1. Excessive Fees.....	8
2. Unhygienic Conditions of Offices.....	2
3. Unsatisfactory Services	28
4. Violation of the By-laws.....	3
5. Unethical Practice	2
6. Request for Reinstatement.....	1

The latter was a request from a member of the College who was struck from the register for non-payment of his licence fee. He was advised of the cost of reinstatement including current and back licence fees and penalties. So far no further word has been received.

2.

A few of the recent graduates have not observed the By-laws in their announcement of the beginning of their practices. Whenever evidence has been available these members of the College have been advised in strong terms by the Secretary and in all cases promises to conform to the By-laws have been received.

3.

Two cases of unethical practice have been brought to the attention of the Board. One was able to satisfy the Chairman that the allegations resulted from a misunderstanding. The other has been summoned before the Board at this meeting.

4.

An unresolved complaint was referred to the Discipline Committee by the Mediations Committee of the Toronto Academy of Dentistry. The committee reported that it had explored the problem as fully as the committee's jurisdiction permitted and it was felt that there was good cause for the patient's complaint. The Mediations Committee further stated "that the service rendered was not a satisfactory service, and the treatment plan given was not in the best interest of the patient. Also general dental principles were ignored in devising the treatment plan and in carrying out some phases of the plan." The dentist involved has been invited to appear before the Board during this meeting.

5.

The vast majority of complaints, namely of unsatisfactory services, arise from lack of communication between dentist and patient. Greater care should be employed by the members of the College to advise their patients as to their treatment plan and the result that can be expected. Also a clear understanding of the cost of such services should be assured on the part of the patient.

6. The Mediations Committees set up by most of the larger dental academies and associations have been of inestimable value in dealing with complaints and as a public relations adjunct to the College.

Action

Report adopted.

Report—Annual Meeting

The request of the Chairman of the Discipline Committee to the local Dental Societies for reports of their Mediations Committees was answered by only 13 local Societies. Of these, 11 Societies reported no complaints. These are as follows:

- Wingham and District
- Bay of Quinte
- Kirkland Lake
- North Bay and District
- Kenora-Rainy River
- Thunder Bay
- Greater St. Catharines
- Owen Sound
- Stratford
- Lambton County
- Halton-Peel

Essex County reported 6 complaints which could be classified as follows:

Unsatisfactory Services	2
Excessive Fees	3
Unethical Practice	1

Hamilton Academy of Dentistry reported 19 complaints as follows:

Poor Bookkeeping	1
Excessive Fees	8
Unsatisfactory Services	10

The R.C.D.S. office processed 60 complaints, the nature of which are as follows:

Unhygienic Conditions of Office	2
Unsatisfactory Services	32
Excessive Fees	15
By-law Violations	8
Unethical Practice	3

There are at present before the Discipline Committee of the R.C.D.S. a number of complaints in which the dentist involved could be accused of incompetence. These complaints should be pursued and when sufficient evidence can be secured, formal meetings of the Discipline Committee should be held and appropriate disciplinary action taken.

Action

1. Report adopted.

Report

Annual Meeting

1.

Introduction

The preparation of the annual report to the Board of Directors of the Royal College of Dental Surgeons reminds me each year that another academic session is rapidly coming to an end. At the time of writing this report, year-end activities seem to be intermingled with plans for a new session. For example, the budget for the new academic session is currently under review; calendars are being revised; timetables are being prepared; teaching schedules for part time staff are under consideration; examinations are in progress, or soon to commence; new full time staff members are being recruited and the deadline for submission of the annual report to the President of the University looms on the horizon.

While some of these items appear to be routine and fall into a fixed pattern most of them are subject to considerable flexibility from year to year.

2.

Registration

The progressive registration figures for the six years since we moved to the building at 124 Edward Street are included for the record.

	1959-60	1960-61	1961-62	1962-63	1963-64	1964-65
Undergraduate Course						
Preprofessional Year	100	116	123	125	0	0
First Dental Year	115	113	120	123	127	127
Second Dental Year	85	119	110	120	117	117
Third Dental Year	63	77	114	105	118	115
Fourth Dental Year	94	72	85	124	120	123
Special Students	10	10	4	7	1	7
Dental Hygiene						
First Year	8	21	42	50	49	47
Second Year	6	8	16	38	45	47
Postgraduate and Graduate						
Diploma Courses	15	11	20	21	20	25
Bachelor Science Dentists ..	3	4	5	1	3	6
Master Science Dentists	8	7	5	4	4	10
Occasional	..	..	..	3	7	6
	<u>511</u>	<u>558</u>	<u>644</u>	<u>721</u>	<u>611</u>	<u>630</u>

It will be noted that, commencing with session 1962-63, the graduating class has been maintained close to full capacity, in spite of smaller Third Year classes. The admission of a few graduates from overseas dental schools, particularly from the Commonwealth countries, to the final year, makes this possible. Some of the ad eundum graduates remain to practise in Canada. The numbers applying each year in the ad eundum category vary from 20 to 30. Nine have been admitted to the 1965-66 graduating year to make a full class.

3.

Applications

The recruitment effort, an activity in which many people participate, is effectively maintaining a long application list for dentistry. For session 1964-65 a total of 467 applications for First Year were received. However, only 43% or a total of 203 were fully qualified and of these 127 registered after letters of admission were sent to 146 candidates. A total of 57 with full qualifications were unable to enter dentistry at Toronto University.

At the time of preparing this report, 535 First Year applications have been received for session 1965-66 and for First Year Hygiene a total of 106.

4.

Dental Hygiene: Experimental Program

One year ago I reported to this Board that the experiment begun in session 1962-63, designed to determine the capabilities of Dental Hygiene students, would be concluded by the end of 1964. Last December I submitted the final report on this project. In summary we reported that approximately two-thirds of the students registered in the Dental Hygiene classes were capable of being trained to perform a wide range of technical procedures. In addition it was indicated that if the scope of the Dental Hygienist training was to be extended, aptitude tests would be necessary in order to identify those who should not be included in the group undertaking expanded training.

The tests used in arriving at these conclusions were not in any way meant to indicate the areas in which the duties of the hygienist should be expanded, but rather to provide a reasonable assessment of their aptitude. It is extremely unfortunate that the intent of this experiment, and particularly one of the projects included, were misinterpreted by some members of the profession.

I understand that this report has been distributed to members of this Board and insofar as the Faculty is concerned, the project was terminated at the end of 1964.

After the Board has discussed this report, consideration will be given to its publication in an appropriate journal, such as the Journal of Dental Education published by the American Association of Dental Schools.

5.

Professional Attitudes

This Board has expressed concern on several occasions in the past in respect to the professional and ethical attitudes of some new graduates. The most recent observations emanated out of the 1964 Fall meeting of the Board and a communication was directed to the Faculty along these lines. A committee of the Faculty was set up to give serious study to this subject and in January of this year the Committee reviewed the instruction given to students on these topics: Furthermore, the Committee decided to hold two special meetings concerning these matters, the first with representatives of the Canadian Section of the American Dental Trade Association and the second with representatives of the Toronto Academy of Dentistry, the Ontario Dental Association and this Board. The Faculty committee was satisfied that adequate instruction in ethics and professional attitudes was being given to students but identified several factors which they felt were contributing to the behaviour of some young graduates. It was recognized that by the time these new graduates are ready to commence practice, many of them are heavily burdened with financial obligations. The accumulation of debts incurred in getting an education, extravagant office installations, and personal obligations, are staggering. Then the combination of

high hourly productivity using modern high speed equipment and the misuse of the individual unit fee schedule results in excessive hourly fees. These are but a few of the contributing factors which lead to public relations' problems.

The members of the Dental Trade Association were most helpful in their observations concerning the purchase of equipment. During the subsequent meeting with the representatives of the Ontario Dental Organizations, it was agreed that the interchange of ideas was very useful and that perhaps the problem had been magnified. The representatives undertook to concentrate on measures designed to improve the situation.

The Faculty members agreed to continue and perhaps expand their emphasis on the principles of ethics and professional attitudes. The Ontario Dental Association representatives agreed to stress in the preamble to the new fee schedule, that it must be used with discretion. We urge the Discipline Committee of the R.C.D.S. to put teeth into their regulations and discipline offenders.

6.

Dental Students — Chairside Assistants' Training Program

A year ago we reported that a pilot study had been set up under the direction of Dr. C. E. Purdy with the assistance of the W. K. Kellogg Foundation for the training of undergraduate dental students in the utilization of chairside assistants.

The 1963-64 experimental year was eminently successful, and we are pleased to report that the Kellogg Foundation approved a grant of \$92,800 for the expansion of this project during the period 1964-68. Therefore, during the current session the number of trained chairside assistants employed was increased from two to six, permitting both the Third and Fourth Year students to gain increased experience.

The equipment being used in this project has undergone extensive modifications, resulting in the elimination of the conventional dental unit, and the introduction of a new cabinet design. It is now reasonable to forecast that this program will be effective in training dental students in the utilization of auxiliary personnel, thereby improving their operating efficiency and increasing their service to the public.

7.

Cost Study — Dental Education

In the Fall of 1963, the American Association of Dental Schools with the support of the W. K. Kellogg Foundation initiated a Cost Study of Dental Education. The dental schools in Canada were invited to participate in this study, the purpose of which was to determine in detail the costs of all aspects of dental education. Previous attempts have been made to collect information and provide an accurate cost analysis of dental school activities but so many variables have entered into the procedures used that the results were not comparable. It is hoped that the current study will permit periodic self study by schools, and analysis of costs on a continuing basis.

The figures established through this study will be important to each individual school when negotiating budget support for instruction, research, postgraduate and continuing education and other aspects of dental school activities.

It is anticipated that this study will be concluded late in 1965 and will provide this Faculty with important guide lines to be studied in respect to financial support.

8.

I.A.D.R. - A.A.D.S. Meetings, 1965

The annual meetings of both the International Association for Dental Research and the American Association of Dental Schools will take place at the Royal York Hotel from July 22nd to July 28th. These meetings were last held in Toronto in 1930 when Dean Wallace Seccombe was President of the Schools Association.

An active Chapter of the I.A.D.R. is centred in Toronto, holding meetings twice a month through the academic year. Several members of the staff, Division of Dental Research, will present reports on their research work at this meeting. Each of the Canadian schools is an active member of the Dental Schools Association and staff members contribute frequently to the program.

A Local Arrangements Committee has been meeting regularly during the past few months preparing for these meetings. On Sunday, July 25th, President Murray Ross of York University will address a Joint Session of the two organizations speaking on the subject "The Health Sciences and Society." Following Dr. Ross' address Open House will be held at the dental building, 124 Edward Street, from 3:30 to 6:00 p.m. Many members of both organizations have expressed the desire to see our facilities.

9.

Conference on Dental Education

In September, 1955, the Faculty conducted a very effective Conference on Dental Education. This conference was designed to provide up-to-date information on the philosophy of education, general methodology of teaching and ways and means of evaluating student progress. The 1955 conference was made possible through the co-operation of the staff of the Ontario College of Education who provided most of the instruction. In recent weeks serious consideration has been given to the possibility of arranging a similar conference for the 1965-66 academic session. A financial grant has been received from the Canadian Fund for Dental Education which would help defray the expenses of such a conference.

10.

Arts Committee

An Arts Committee composed of dental students and staff was formed at the beginning of the 1964-65 session. The stated purposes of the Committee are "to render more pleasing and stimulating the environment of students and staff in the Faculty of Dentistry building." During the current session, the Committee arranged four exhibitions. The official opening night held in connection with this project late in October attracted a number of senior university officials and was generally acclaimed a resounding success. The Globe and Mail commented "The Faculty of Dentistry, University of Toronto, has taken a bold and laudable step in launching a series of exhibitions that will enhance and humanize its new and rather too clinical building on Edward Street."

The exhibition in January comprised art done by members of the staff and students. Dr. C. H. M. Williams has given outstanding leadership to this project which has received bouquets from many quarters.

11.

Special Students

Two categories of special students seem to be increasing in numbers and give rise for concern. First, there are overseas graduates who seek clinical experience prior to taking the Board Examinations and the second group comprises those

candidates who fail the Board Examinations and wish to prepare for a second try. The problem is that each of these special students require individual clinical supervision. We appreciate that there is no other facility which can be used for the instruction of such students. The Faculty has been pleased to co-operate, but concern is felt lest the numbers increase and seriously tax the clinical staff and facilities.

12.

Bill 163

Recently, a brief memorandum was prepared and submitted to the Prime Minister of Ontario and the Minister of Health, in respect to the detrimental effect which "the Act respecting Medical Services Insurance" would have on the teaching of Oral Surgery. It was indicated that the implementation of Bill 163 in its present form would seriously reduce the number of surgery patients available for teaching both undergraduate and graduate students.

In a cordial response from the Minister of Health, the Deans of the Faculties of Medicine and Dentistry were invited to present their views jointly on this matter. This has been done and we await further developments.

13.

New School

The announcement of the establishment of a second dental school in Ontario was welcome news. This Faculty extends greetings to the University of Western Ontario and congratulations to Dr. Wesley J. Dunn, first Dean of the new school. The staff and students at Toronto offer Dean Dunn their best wishes for the success of the school and we pledge our support and help in the development of the school.

14.

Staff

The policy of recruiting additional full time academic staff continues. Budget provision for session 1964-65 made it possible to appoint on a full time basis, Dr. P. T. Smylski, Professor of Oral Surgery, and Head of the Department; Dr. R. E. Echlin, Assistant Professor of Dentistry; Dr. M. C. Johnston, Assistant Professor of Embryology and Histology, and Dr. M. Listgarten as Assistant Professor of Periodontology.

Drs. P. T. Smylski and R. E. Echlin had been on the staff previously in a part time capacity. Dr. M. C. Johnston returned to the Faculty after three years of graduate study at the University of Rochester. Dr. M. Listgarten is a new member of the staff. After graduation in 1959, and one year of internship at the Hospital for Sick Children, he completed three years of graduate study at the Harvard School of Dental Medicine.

Dr. W. D. MacKay was promoted to the rank of Professor of Dental Materials and Technology at the commencement of the current session and will become head of that department on July 1, 1965. Similarly, Dr. H. A. Hunter was promoted to the rank of Professor of Oral Pathology on July 1, 1964. Dr. A. L. Posen became Assistant Professor of Orthodontics at the beginning of the 1964-65 session. Of particular interest to this Board is the fact that Drs. K. F. Pownall and E. J. Rajczak relinquished their duties on the Faculty staff to serve the Royal College of Dental Surgeons.

University retirement policy removes from our ranks, on June 30, 1965, Dr. G. T. Mitton, Professor of Dental Public Health and Dr. H. Mercer. These men have given long years of faithful service to the University.

The extension of the teaching program into hospital facilities has resulted in the appointment of Professor C. H. M. Williams as Chief of the Dental Service at the Toronto Western Hospital, where a comprehensive teaching unit will be developed.

Acknowledgements

In conclusion, the preparation of this report provides an opportunity to acknowledge the continuing support of many individuals and organizations. The Ladies' Auxiliary to the Academy of Dentistry has supported for many years dental service for needy children. The Dental Alumni Association, in addition to support for many regular projects, co-operated with the Faculty in the dinner given for the graduating class. The University of Toronto Associates in New York City, in co-operation with the Nevin Family, provided additional funds in support of the Museum. A legacy of \$1,000 was received from the estate of the late Mrs. F. E. Currie, in memory of her daughter Dr. Margaret Mitchell. This is to be used "for such educational purposes as the Faculty may deem advisable."

We have already made mention of our further indebtedness to the W. K. Kellogg Foundation. Finally, we express our appreciation to this Board for the very substantial assistance given through annual grants and the Extramural programs.

Report

Annual Meeting

1.

Introduction

Notwithstanding that Section 4 of The Dentistry Act of Ontario does not at this time make statutory provision for representation on the RCDS Board of Directors from the Faculty of Dentistry of The University of Western Ontario, it seems appropriate that this embryonic institution should follow the precedent established by the Faculty of Dentistry of the University of Toronto and provide an Annual Report. Ontario has always been an outstanding example of jurisdiction in which rapport and co-operative understanding exist between the regulatory authority and the educational institution. It is the strong desire of our new school to maintain and perpetuate this relationship.

The importance of maintaining open lines of communication cannot be over-emphasized because essentially both the school and the licensing authority are interested in the same thing — educating and licensing dentists who are capable of providing for the public the highest possible standards of professional service. It is axiomatic, therefore, that if goals are similar these can be attained more effectively when means exist to permit *participating* co-operation one with the other.

The Medical Act of Ontario provides that the Council of the College of Physicians and Surgeons of Ontario will have representation "from every University, College or body in Ontario that is authorized to conduct a course or courses in the science of medicine. . . ." In Section 4 of The Dentistry Act of Ontario provision is made that "one member (of the Board of Directors) shall be elected by and from the Faculty of Dentistry of the University of Toronto." It is probably safe to assume that the Legislature's intent is to enable representation on the RCDS Board from "every University, College, or body in Ontario that is authorized to conduct a course or courses in the science and art of *dentistry*." It is respectfully recommended that the Board seek from the Legislature the necessary statutory amendment.

2.

History

As early as October, 1947, the Board of Governors of The University of Western Ontario had approved in principle the eventual development of a Faculty of Dentistry, and in 1949 the Canadian Dental Association and the Royal College of Dental Surgeons of Ontario had endorsed such establishment. In 1950, however, it became obvious there was a need to expand the facilities then in operation in the province and the Board of Directors of the College accordingly recommended the creation of new and expanded premises for the existing dental school.

In 1962 the RCDS in a report to the Minister of Health recommended two possible locations for the establishment of a second dental school in Ontario. One of these was within The University of Western Ontario. On October 29th, 1964, The Honourable John P. Robarts, Prime Minister of Ontario, announced

that as a result of a very thorough study of the question of medical and dental teaching facilities the Government of Ontario had approved four major projects, one of which was the development of a Faculty of Dentistry at The University of Western Ontario to operate in conjunction with the present Faculty of Medicine within a Health Sciences Centre.

On November 20, 1964, the Board of Governors of Western officially established the Faculty of Dentistry, effective January 1, 1965 and at the same meeting appointed the Dean, such appointment being effective on February 1, 1965.

3.

Faculty Organization

While it is optimistically hoped that a reasonable number of our graduates will be motivated and academically prepared to undertake graduate and post-graduate education, thus enabling them to pursue careers in teaching and research or in specialty practice, it is likely that the majority will proceed from graduation to general practice. Because the Faculty of Dentistry of The University of Western Ontario will tend to serve the western aspects of this province it is likely that many of its general practitioner graduates will locate in communities where specialty resources are limited. It will therefore be necessary that the product of this institution is able to render effectively and competently a broad spectrum of dental services. It is hoped that a graduate of this school, when care is sought for a child or when a patient presents exhibiting some periodontal involvement, endodontic problem or requesting an extraction, will not automatically feel it incumbent on himself to attempt to refer the patient for specialty attention at least until such time as he has assured himself that it would be in the interest of the patient to make such a referral. The number of specialists now available, and even the number which we shall likely have in the foreseeable future, are too few to be regularly engaged in providing attentions which should be the responsibility of the competent general practitioner.

Accordingly, this view has been the philosophical basis upon which certain organizational decisions have been made, *in respect of undergraduate education*. Departmentalization in the usual sense is being de-emphasized. Apart from the six Basic Science disciplines, Anatomy, Bacteriology, Biochemistry, Pathology, Pharmacology, and Physiology, which in our developing Health Sciences Centre will be common to the Faculties of Medicine and Dentistry, only five departments are at present being considered:

(a) *Department of Restorative Dentistry* — to include operative dentistry, fixed and removable prosthodontics, ceramics, endodontics, and dental morphology. A metallurgical and dental materials research laboratory would form a part of this department.

(b) *Department of Oral Medicine* — to include oral diagnosis, dental radiology, and periodontics. It is hoped that the Head of this department might be appointed Chief of the Department of Dentistry in the new university teaching hospital.

(c) *Department of Oral Surgery* — to include both Oral Surgery and Anaesthesia.

(d) *Department of Paediatric Dentistry* — to include paedodontics and orthodontics.

(e) *Department of Social Dentistry* — to include preventive dentistry, public health, epidemiology, ethics, jurisprudence, history of dentistry, practice administration including employment of auxiliaries and any course which has as its purpose the inculcation in students of dentistry of the concept that they are

integral parts of society and have, thereby, obligations and responsibilities in respect of it. This Faculty will not be successful until its graduates exhibit a well-developed sense of social consciousness.

Treatment in our Faculty will be "patient-centred" and it is intended that through lesser departmentalization, including the clinical areas, we shall work toward that goal. A cubicle-type main clinic has been specified — one which affords ease of supervision yet provides patient privacy. Cubicles will be sufficiently large to accommodate a dental assistant as well. Except for oral surgery and radiography the student will serve all his patients, the young, the middle-aged, the old, the edentulous, the semi-edentulous, and those in possession of all their teeth within the cubicle to which he has been assigned. While this arrangement will undoubtedly require some mental gymnastics in timetable development the effort, it is hoped, will be worth it.

Various Faculty committees will be created as the need for them arises — Curriculum, Admissions, Scholarships and Awards, Research, Hospital Services, etc. These committees will be elected by the Faculty members themselves and will operate on the basis of terms of reference approved by the faculty. These committees will report periodically to the Faculty Council where opportunity will be provided for full discussion and consideration before suggested matters become Faculty policy. Where course content, calendar changes and the like are under review, proposals respecting them must, of course, receive the approbation of the University Senate.

4.

Admission Requirements

Admission to the Faculty of Dentistry will be based primarily on academic ability and personal qualities as evidenced by predental scholastic records, aptitude tests, and personal interviews. Because facilities for pre-clinical and clinical instruction are limited, it will be necessary to restrict enrollment to those who, in the opinion of the Faculty, are best qualified to meet the mental and physical demands of the curriculum and most likely to be able to complete successfully the full course of study. The presentation of the minimum requirements for admission should not be regarded as assurance that the applicant will necessarily be accepted.

A Grade 13 student who intends to study Dentistry at the University of Western Ontario should apply for admission to the first year of General Program One (Science) offered in the Faculty of Arts and Science. His Grade 13 program must include English, a language other than English, Chemistry, Physics, Algebra, Geometry and one of Trigonometry, Botany, or Zoology.

From the first year of General Program One, he may proceed to either (a) the second year of a 4-year Honors Program leading to the B.Sc. degree or (b) the second year of some 4-year Honors Programs leading to the B.A. degree or (c) the second year of the 3-year General Program One (Science) leading to the B.A. degree.

In their choice of options for the second year, students will be urged not to anticipate dental school courses. Rather, they should seek to obtain a broad general background of education in keeping with their own interests.

Students who have completed a B.A. or B.Sc. or the equivalent pre-professional program described above at another University, are eligible to apply for admission to the first year in the Faculty of Dentistry.

Perhaps a general statement should be made because of the two-year "pre-dental" requirement following Ontario Grade 13. This is a departure as far as this province is concerned.

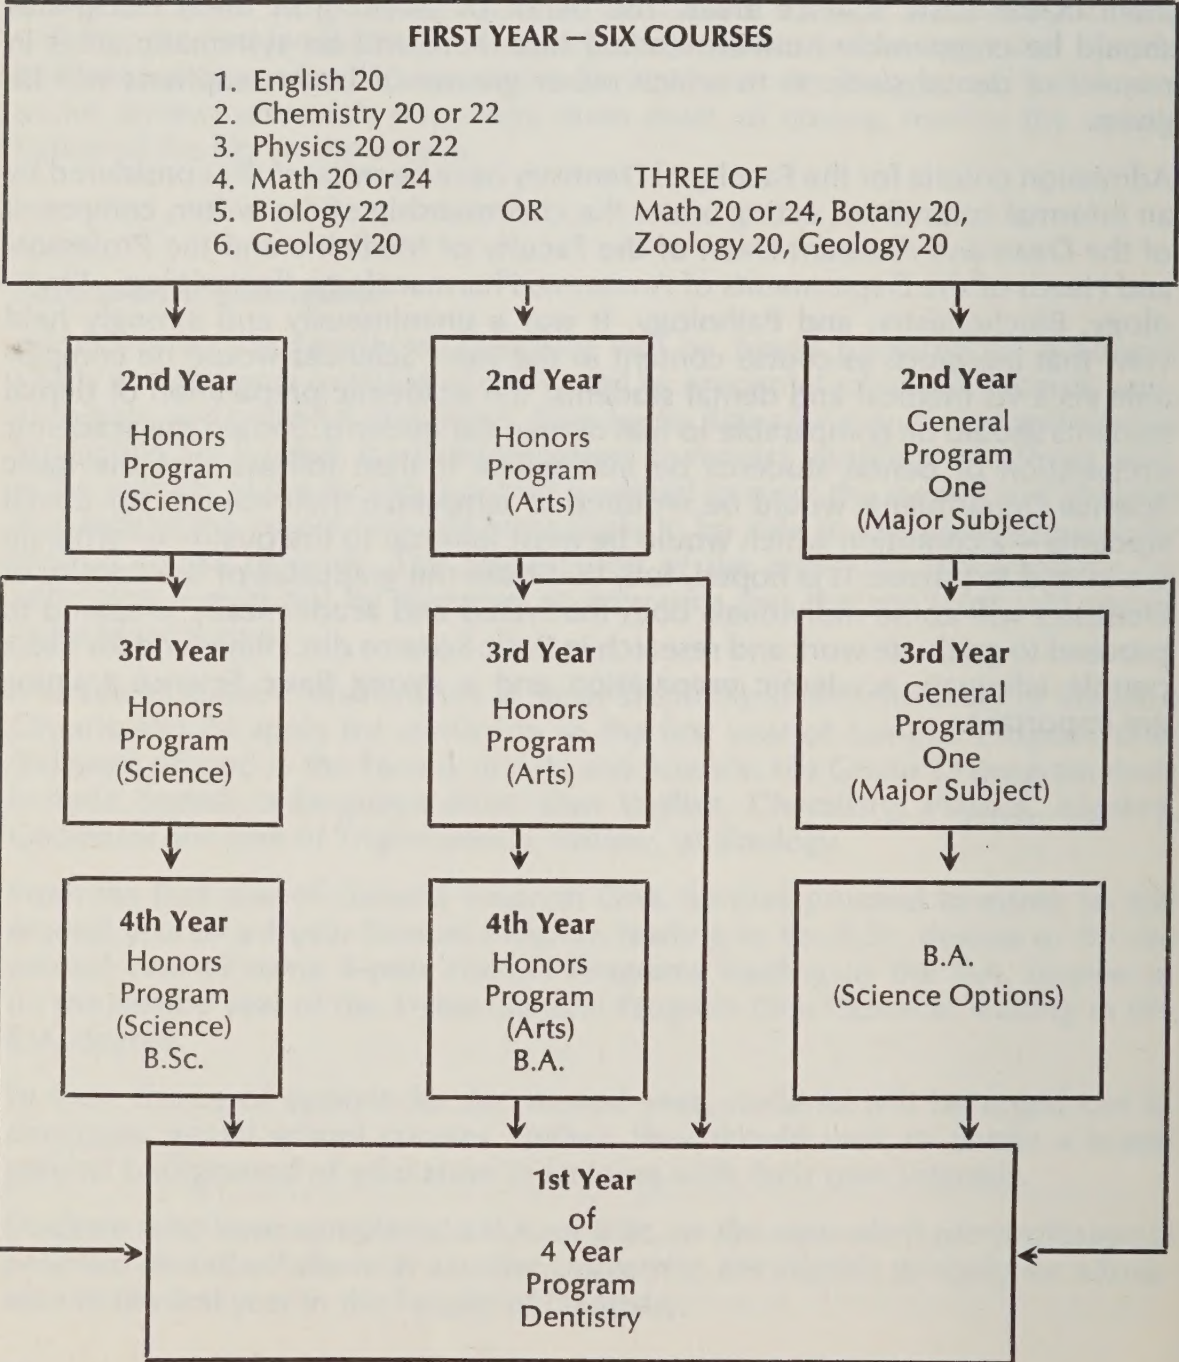

Plans in the University are well advanced toward the establishment of a Health Sciences Centre. The new Medical Sciences Building, adjoining the Cancer Research Institute and the School of Nursing, will soon be ready for occupancy. Efforts are at present being made which, by the fall of 1967 and 1970 respectively, should result in a Dental Sciences Building and a University Teaching Hospital. The first year of a four-year program in dentistry will be offered at least in September, 1967, with some possibility (dependent upon a few as yet unresolved considerations) that a small first year class could be enrolled in September, 1966.

It is of the utmost importance that within this Health Sciences Centre every opportunity should be seized to inculcate in embryo physicians and dentists the fact that they are part of a health team each contributing to the health needs of the community. Medical and dental students should experience comparable pre-professional programs to equip them to undertake the demands placed on them in the Basic Science areas. The depth of teaching in these disciplines should be comparable notwithstanding that there will be systematic areas in respect of dental students to which either greater or lesser emphasis will be given.

Admission criteria for the Faculty of Dentistry have been carefully considered by an informal committee, acting under the chairmanship of the writer, composed of the Dean and Assistant Dean of the Faculty of Medicine and the Professors and Heads of the Departments of Anatomy, Pharmacology, Bacteriology, Physiology, Biochemistry, and Pathology. It was a unanimously and strongly held view that inasmuch as course content in the Basic Sciences would be comparable vis à vis medical and dental students, the academic preparation of dental students should be comparable to that of medical students. Should the academic preparation of dental students be inadequate it then follows that the Basic Science Departments would be required to temporize their courses for dental students — a condition which would be most inimical to the quality of program we intend to pursue. It is hoped, too, that from the graduates of the Faculty of Dentistry will come individuals both motivated and academically prepared to proceed to graduate work and research in Basic Science disciplines and for these people adequate academic preparation and a strong Basic Science training are important.

5. Academic Preparation for Admission

GRADE 13 (ONTARIO)	
English (2 units)	200
Language (2 units)	200
Algebra (1 unit)	100
Geometry (1 unit)	100
Trigonometry (1 unit) ..	100
Physics (1 unit)	100
Chemistry (1 unit)	100
Maximum	900
Minimum Acceptable Total	540
Minimum Acceptable Average	60%
Minimum Math -	
Science Average	60%

5A.
Projected Enrollment

The following projected enrollment figures are employed as the basis for the physical requirements of the Dental Sciences Building:

- (a) Undergraduate class size in dentistry = 52
- (b) Total dental students in four-year program — $4 \times 52 = 208$
- (c) Graduate and post-graduate students = 20
- (d) Dental hygiene class size = 20
- (e) Total dental hygiene students in two-year program — $2 \times 20 = 40$
- (f) Total number of dental, graduate and post-graduate, and dental hygiene students = 268

The above figures are those which might reasonably be expected when the Faculty of Dentistry is operating at capacity.

6.
Physical Accommodation

The first draft of the general specifications for the Dental Sciences Building was submitted to the Superintendent of Buildings and Grounds on March 3, 1965. Section 1 comprised areas specific to dentistry and a total space allotment of 48,730 net square feet was requested. Section 2 which is the Basic Sciences' expansion entailed a total request of slightly more than 38,700 square feet.

Section 1 was outlined under ten main headings with detailed space itemizations being provided under each. The following is a summary in square feet of Section 1 estimates but no detail is herein provided in respect of each sub-heading. It should be noted that in addition to the considerable research space being requested in the Basic Sciences' expansion each clinical department and the pre-clinical area as well will have space allotments for research activities.

1. Pre-clinical	5310
2. Clinical	
(a) Restorative, Periodontics, Orthodontics, Paedodontics	17810
(b) Oral Diagnosis and Radiology	3475
(c) Oral Surgery and Anaesthesia	2315
(d) Graduate Clinics	3725
3. Lecture Rooms	3200
4. Study Area (adjacent to Library)	800
5. Television	800
6. Visual Aids	775
7. Administration	1930
8. Dental Hygiene	3250
9. Lockers and Lounges	3290
10. Maintenance and Housekeeping	2050
Total	48730

In Section 2, a total of some 11200 square feet of student laboratories has been requested for the six Basic Science disciplines. The remaining approximately 27000 square feet are assignable to departmental offices, research laboratories, and supporting facilities. Additional animal quarters will also need to be provided.

Present plans forsee the detailed planning of the Dental Sciences Building completed before the end of this year in order that tenders can be called for very early in 1966. It is estimated that the active construction phase will consume approximately eighteen months.

7.

Library

The collection of books and periodicals for the Faculty of Dentistry will be entirely integrated within the existing Bio-Medical Library. It is important, in this new Health Sciences Centre, that every opportunity be seized to inculcate in embryo physicians and dentists the fact they are part of a health team, each contributing in some fashion to the health needs of the community. Admission standards are virtually identical; the depth of teaching in the Basic Sciences will be comparable notwithstanding that there will be systematic areas to which greater or lesser emphasis will be given; and dental students will be intimately involved in the hospital program.

Within the Library, in this context, it is important that dental journals be alphabetically inserted within the collection of the medical and basic science journals and that dental texts find themselves on shelves contiguous to those holding medical books. This should be good not only for dental students but will have more than a subtle effect on the medical and basic science people as well. And, too, physiology is physiology and biochemistry is biochemistry. It is difficult to justify their artificial separation.

As far as shelf and stack space in the new Bio-Medical Library is concerned no significant problem is created by the addition of dental books and periodicals. In the planning, however, no reading or study room provision was made for students of dentistry because at the time of planning the Medical Sciences Building the addition of a Faculty of Dentistry to the University was not contemplated. Thus in the general building specifications already submitted there is a space allocation for additional reading room or study facilities.

The Budget of the Faculty for 1965-1966 contains a significant provision for the purchase of books and journals. The total budget of \$20,700 is apportioned as follows:

Supplies	\$ 300
Book Purchase	17000
Binding	1800
Cataloging Supplies	200
Subscriptions	500
Salaries	1000

By the date of enrollment of the first class whether it be September 1966 or September 1967 a most creditable library will have been initiated.

8.

Staff

On February 15th, 1965 the first recommendation concerning staff was made to the President of the University. It was suggested there should be one department in each of the Basic Science disciplines but there should be cross-appointments within the Faculties of Medicine and Dentistry. By such an arrangement the *Announcement* of the Faculty of Dentistry would list as departments in the faculty the respective Basic Science disciplines with the names of the Heads of the departments and any others within the departments whom the Heads would provide appearing as the academic staff responsible for the teaching of dental

students. Each department would prepare one budget and the Deans of the Faculties of Medicine and Dentistry would work out the details in respect of proportionate financial support.

Accordingly the President was happy to concur in the recommendations and made the following appointments to the Faculty of Dentistry effective February 15, 1965:

1. Murray L. Barr, B.A., M.Sc., M.D., LL.D., Professor and Head, Department of Anatomy
2. Charles W. Gowdey, B.A., M.Sc., D.Phil., Professor and Head, Department of Pharmacology
3. Robert G. E. Murray, M.A., M.D.C.M., Professor and Head, Department of Bacteriology and Immunology
4. James A. F. Stevenson, M.A., M.D.C.M., Professor and Head, Department of Physiology
5. Harold B. Stewart, M.D., Ph.D., Professor and Head, Department of Biochemistry
6. A. Cameron Wallace, B.A., M.D., Professor and Head, Department of Pathology

It is pleasant to report that the development of this Faculty has precipitated several applications for Faculty appointments. By mid March sixteen applications had been received for appointments to the academic staff and four to the non-academic.

If it is possible, at all, to characterize the kind of person that we should wish to attract to this Faculty I should hope that he would be a "co-operative individualist." By this is meant that he has the ability to be creative, is energetic and resourceful, is willing to assume personal responsibility for his area of particular interest and yet when policies relating to the Faculty have been thoughtfully and democratically arrived at is prepared to join ranks and co-operate with other members of the staff to the end that the best possible program may eventuate.

The task of Faculty recruitment will be the next major responsibility to which efforts will be directed. Undoubtedly the quality of staff will be the most significant factor in the development of a creditable institution.

9.

Conclusion

It is impossible to conclude this report without expressing deep appreciation to the many officers of the University who have so graciously given of their knowledge, experience, and time to assist the writer in this as yet unfamiliar role he has assumed. Co-operation and sympathetic understanding have invariably been proffered and there is a genuine aspiration which pervades the University that its newest Faculty will provide a program of outstanding merit and that its graduates will be a credit to their University, to their profession, and to themselves. The writer deeply shares these convictions and would pledge to his profession his intent to do everything within his ability to create an academic climate for the Faculty of Dentistry of the University of Western Ontario within which these aspirations may attain fruition.

Action

1. Report adopted.
2. Board extended congratulations to the new Dean.

FINANCE COMMITTEE

Members: H. M. Jolley, Chairman, D. J. Ferguson, R. Michell.

Report

Fall Meeting

1.

The Committee met in October. Present in addition to the committee members were the President of the Board, the Registrar-Secretary-Treasurer and the Business Manager.

2.

Review of Bond Holdings

The current status of the Bond Holdings of the R.C.D.S. was reviewed. The desirability of making alterations in the nature of the investments was given consideration. It was decided that in view of the relative insignificance of the amount involved and the fiduciary character of the holdings, no basic alteration was justified.

The Committee agreed to recommend that the Board sell its Hydro Electric Power Commission of Ontario bonds, 2³/₄% maturing April 1, 1967 and reinvest the proceeds plus the amount required to make up \$5,000 in Canada Permanent Trust Debentures, 5¹/₂% maturing October 15, 1968.

The following is the position of bond holdings on October 6, 1964:

	Par Value	Market Value	Yield to Maturity
1. Government of Canada			
4 ¹ / ₄ %, Sept. 1, 1983	10,000 (91.75)	9,175	5.19%
3 ¹ / ₄ %, Oct. 1, 1979	10,000 (80.75)	8,075	5.10%
2. Province of Ontario			
2 ³ / ₄ %, July 15, 1970	10,000 (88.70)	8,870	5%
2 ³ / ₄ %, July 15, 1971	8,000 (87.25)	6,980	5%
2 ³ / ₄ %, July 15, 1972	7,000 (85.70)	5,999	5%
3. Hydro-Electric Power Comm. of Ontario			
2 ³ / ₄ %, April 1, 1967	5,000 (96.00)	4,800	4.46%
5%, Oct. 15, 1978	10,000 (97.00)	9,700	5.30%

3.

Budget - 1965

The Budget for 1965 was prepared and approved and is attached as Appendix A.

BUDGET — 1964 AND 1965

Report adopted.

Budget for 1965 adopted.

GOVERNMENT AND LEGISLATION COMMITTEE

Members: J. P. Coupland, Chairman, D. J. Ferguson, A. H. Leckie.

Report

Fall Meeting

1.

A meeting of the Government and Legislation Committee was held on Wednesday, October 7th with all members present.

2.

Records of Deceased Dentists

The Board was requested to give advice to the solicitor for the executors of the estate of a dentist in respect of the disposition of the history charts of the patients. Because this matter is one of frequent concern the Government and Legislation Committee felt that it would be appropriate to comment on the matter in this report.

The position is relatively clear that the dental history charts are the property of the dentist. Should a dentist on retirement dispose of his practice to another then it would be acceptable for him to transfer the charts to his successor. It should follow, then, that the estate executor could act in like fashion. However, where there has been no transference of practice the executor should retain all charts for a reasonable period, say two years, and if the charts have not been requested then destroy them.

Should a patient request his case history chart then he should be asked the name and address of his current dentist and the records should be mailed to that practitioner. While under most circumstances there would probably be no danger in mailing the chart directly to the patient it is possible, even likely, that the case histories could include certain personal observations and comments which might be inappropriate to transmit to the person about whom they have been made. At the time of forwarding the history charts to the new dentist a short note should accompany it indicating the patient has requested that the records be forwarded for whatever value they may possess.

Occasionally it has been reported that some dentists seek to purchase the history charts of a deceased dentist. A reasonable person would agree that when a dental practice is being continued or resumed by a practitioner following the termination of practice by his predecessor, the records of the practice would remain with it. This is notwithstanding the fact that the information in such records is confidential and under normal circumstances must not be given to others (even other practitioners) without the consent of the patient or patients to whom such records apply. An entirely different situation pertains, however, when the practice is not being continued and the records are simply being purchased in order that the purchaser may in some fashion communicate with the patients ostensibly to encourage their attendance on him for professional services. The sale and purchase of such personal records would offend against ethical and responsible professional practice.

3.

Association of Dentists in Practice

The Board, unfortunately, has found itself over the past few months attempting to act the role of mediator in respect of several matters of dispute which have

arisen between dentists. One such matter related to an interpretation of the provisions respecting the sale of a practice and two were contractual disputes respecting "employer - employee" arrangements. All three difficulties might well have proceeded to litigation, an unseemly experience for colleagues and confreres.

These problems are not a matter of ethics but of intraprofessional relations and as such it is not possible for the Board to codify the myriad of provisions which dentists may wish to create between themselves. Where a dentist is contemplating an assistantship to another dentist there should on all occasions be a written contract between the dentists concerned so that there will be no misunderstanding of the various provisions relating to the arrangement especially as to where and when the assistant may commence practice on the completion of his contract or period of association in practice. It is strongly recommended that each party to the contract be counselled in his actions by a solicitor.

4.

By-District Listings in Telephone Directories

The creation of district listings in the Yellow Pages of telephone directories in large metropolitan areas has provided a means whereby it is possible for a practitioner to instruct the telephone company to include his name, address, and telephone number in one or more of the district listings. The listing in the alphabetical yellow page directory is automatic unless the dentist directs that the number not be included.

The fundamental purpose of signs and telephone directory listings in connection with a dental practice is to enable someone who has selected a particular dentist to find him. Signs and telephone listings utilized in relation to the practice of a profession are not calculated to attract to the practitioner those who are not already his patients. Thus there would appear to be no sound ethical purpose for the employment of "By-District" listings. The Committee considers such "By-District" listings advertising and accordingly recommends that an appropriate amendment to the By-laws be enacted to make such listings illegal.

5.

Telephone Listings for Clinics, Groups, etc.

The Committee recommends that the Board enact a by-law providing for the following: That the name of a clinic, dental centre, partnership or other form of dental group may be listed in the Alphabetical Telephone Directory (White Pages) and a list of the members' names may appear thereunder as well as in his/her section of the Alphabetical Directory. These listings may include the certified members' specialty designations.

If the name of the clinic, dental centre, partnership or other form of dental group is listed in the Classified Directory (Yellow Pages) the names of the members may not be listed thereunder but the name of each may be listed in his/her alphabetical section of the Classified Directory. These listings may include the certified members' specialty designations.

6.

Recognition of Dental Societies

Over the years the Board has given recognition to many dental societies and organizations in Ontario. Each application for such recognition has been considered on its merits and the Board has acted on the basis of its judgment at the time the application was considered. No formal criteria have ever been estab-

lished. The Government and Legislation Committee suggests that there may be some merit in not formalizing such criteria but believes, nonetheless, that it is desirable to outline one or two basic considerations which should apply.

The recognition of specialty groups should be on the basis of those specialties which enjoy certification status. The recognition of limited practice groups should be restricted to those facets of dentistry which while not yet enjoying formal specialty recognition are, nonetheless, reasonably clearly defined areas of dental practice such as endodontics and prosthodontics.

The recognition of local dental societies should be on the basis of geographic need and a reasonable attempt should be made to avoid overlapping jurisdictions. See Appendix B.

7.

By-Laws for Dental Hygienists

At the Fall Meeting of the Board in November, 1962 the by-laws respecting dental hygienists, known as Regulation 74 under the Dentistry Act, were re-drafted and submitted, as required by Section 12 of The Act to the Lieutenant-Governor in Council. In May 1963 the Registrar of Regulations returned the regulation for signature. However, certain additional amendments unsatisfactory to the Board had been written in and the document, therefore, was not signed but was returned with appropriate explanation bearing upon the unacceptable amendments. Since that time considerable discussion and correspondence have ensued and it is hoped that there will be an early resolution of the problem.

In order to assist in the drafting of the regulation the Committee recommends that the following be agreed to as a definition of dental hygiene and that this definition be included in the new regulation:

"The practice of dental hygiene means the performance under the direct supervision and control of a member of the R.C.D.S. of any service usually performed by a dental hygienist and includes —

- (a) Cleaning and polishing teeth;
- (b) Giving of instructions and demonstrations in oral hygiene and mouth care;
- (c) Administering first aid;
- (d) Making radiograms;
- (e) Topical application of medicaments;
- and
- (f) Performance in the oral cavity of any service or assistance which is ancillary to the primary performance of a dental procedure by a member of the College and which does not involve the exercise by the hygienist of the professional skill or judgment required of a member of the College."

8.

Agreement — University of Toronto — R.C.D.S.

It is recommended that the amended agreement prepared by the University of Toronto solicitors be adopted. The amended agreement deletes clause 12 of the Agreement entered into in 1925 when the School of Dentistry of the R.C.D.S. became the Faculty of Dentistry of the University of Toronto. Clause 12 is as follows:

- "12. That the University, as a part of the regular tuition fee, shall receive for and transmit to the Board annually the sum of \$10 for each student registered as in attendance in the Faculty of Dentistry, which for each candidate shall be credited by the Board toward the licence fee."

Appendix A

REGULATION MADE UNDER THE DENTISTRY ACT

Dental Hygienists

1.

In this By-law, "registrar-secretary" means the person appointed by the Board as registrar and secretary of the College.

2.

An ancillary body known as "dental hygienists" is established consisting of those persons who are registered under this By-law as dental hygienists.

3.

The practice of dental hygiene means the performance under the direct supervision and control of a member of the College of any work, service, advice or assistance usually undertaken, performed or given by a dental hygienist and includes,

- (a) cleaning and polishing teeth;
- (b) giving of instructions and demonstrations in oral hygiene and mouth care;
- (c) administering first aid;
- (d) making radiograms;
- (e) topical application of medicaments; and
- (f) performance in the oral cavity of any work, service or assistance which is ancillary to the primary performance of a dental procedure by a member of the College and which does not involve the exercise by the dental hygienist of the professional skill or judgment required of a member of the College.

4.

No person shall act as a dental hygienist unless she is registered under this By-law.

5.

(I) There shall be a register of dental hygienists containing the names of persons who are entitled to registration under this By-law.

(II) The register shall be maintained by the registrar-secretary.

6.

An application for registration as a dental hygienist shall be in Form 1.

7.

(I) The registrar-secretary shall register an applicant who,

- (a) is a female person;
- (b) is a Canadian citizen or proves to the satisfaction of the Board that she intends to apply for Canadian citizenship when she is qualified to do so;
- (c) holds standing in nine Grade 13 papers of the Ontario Department of Education as follows:
 - (1) Two papers in English.
 - (2) Two papers in Latin or two papers chosen from algebra, geometry, trigonometry and statics.
 - (3) Two papers chosen from botany, zoology, physics and chemistry.

(4) Two papers in any one language chosen from French, German, Greek, Spanish and Italian.

(5) One paper not already chosen from the options in paragraphs 2 or 4, or equivalent standing as determined by the Minister of Education;

(d) has completed the course of study referred to in section 8;

(e) has passed the examinations prescribed under section 9; and

(f) pays to the treasurer of the College a registration fee of \$25.

(II) Clauses c and d of subsection 1 do not apply to an applicant who,

(a) has graduated from a school outside Ontario recognized by the Board as requiring qualifications for admission and providing a course of study equivalent to those required by subsection 1; and

(b) possesses the aptitude, capacity and character to become and act as a dental hygienist.

8.

The course of study for dental hygienists shall consist of the course in dental hygiene conducted by the Faculty of Dentistry at the University of Toronto or such other course or courses in dental hygiene as may be approved by the Board as being equivalent in scope to the course conducted by the Faculty of Dentistry at the University of Toronto.

9.

(I) The Board may conduct examinations for candidates seeking registration as dental hygienists.

(II) The registrar-secretary shall conduct or cause to be conducted the examinations referred to in subsection 1.

(III) The Board may accept the examinations given at the conclusion of a course of study referred to in section 8 as the registration examinations for dental hygienists.

10.

(I) Every registered dental hygienist shall pay annually to the treasurer of the College a renewal fee of \$2 on or before the first day of January in each year.

(II) The registrar-secretary shall remove from the register, after ninety days, the name of any dental hygienist who does not pay the renewal fee.

11.

(I) The registrar-secretary shall issue annually a certificate of registration as a dental hygienist in Form 2 to every person whose name appears on the register.

(II) The certificate shall be signed by the president of the College and the registrar-secretary.

(III) Every dental hygienist employed by a member of the College shall display her certificate of registration in a conspicuous place in the office of the member.

12.

All fees are payable to the treasurer of the College.

13.

(I) Where the name of any dental hygienist has been removed from the register under section 10 and that dental hygienist pays a registration fee of \$5 the registrar-secretary shall re-register the dental hygienist and thereupon issue a certificate of registration.

- (II) On or before the first day of December in each year, the registrar-secretary shall notify each dental hygienist that the annual fee is due at the end of the year.
- (III) The notice shall be sent by prepaid post addressed to the dental hygienist at her address appearing on the register.

14.

- (I) Except as provided by subsection 3 of section 11 and except to a member of the College, a dental hygienist shall not,
 - (a) by exhibiting, displaying or permitting to be displayed any sign or notice; or
 - (b) by otherwise advertising;represent that she is engaged or about to become engaged in the practice of dental hygiene.

(II) Notwithstanding subsection 1, any dental hygienist registered as such under this By-law is entitled to use the designation, Registered Dental Hygienist, (R.D.H.)

15.

- (I) Where the Board, after a hearing, finds that a dental hygienist,
 - (a) has been guilty of,
 - (1) incompetence,
 - (2) improper or dishonourable conduct in respect of the dental practice of her employer, or
 - (3) failure to comply with the Act or this By-law; or
 - (b) has been convicted of a crime that affects her fitness to practise,the Board may revoke or suspend the registration of the dental hygienist and remove her name from the register.

16.

Regulation 74 of Revised Statutes of Ontario, 1960, is revoked.

FORM 1
The Dentistry Act
APPLICATION FOR REGISTRATION
AS A DENTAL HYGIENIST

I apply for registration as a dental hygienist. I have passed the examinations prescribed for admission to registration as a dental hygienist in Ontario. I enclose \$25 registration fee, payable to the treasurer of the Royal College of Dental Surgeons of Ontario, and submit the following information:

- 1. Name in full
- 2. Permanent address
- 3. Temporary address
- 4. Date and place of birth
- 5. Citizenship
- 6. Preliminary education
- 7. Name of secondary school attended

Location
Time in attendance
Graduation diploma or certificate obtained
8. Education as a dental hygienist
Name of school attended
Time in attendance
Date of completion of course
Graduation diploma or certificate obtained
9. References

Dated at _____, this _____ day
of _____, 19 _____.
.....
Signature of applicant.

FORM 2
The Dentistry Act
CERTIFICATE OF REGISTRATION
AS A DENTAL HYGIENIST

This certifies that.....
(Name of person)
of
(Address)
is registered as a dental hygienist.
Date
.....
(Signature of President) (Signature of Registrar-Secretary)

Action

8. The following resolution was unanimously adopted:

"Be it resolved that the terms of the proposed Agreement between the College and the Governors of the University of Toronto dated the 22nd day of June, 1964, and providing for the amendment of certain terms of the Agreement between the parties dated the 1st day of July, 1925, dealing with the establishment of the Faculty of Dentistry at the University of Toronto, be and the same are hereby approved, and that the President and the Secretary of the College be and they are hereby authorized to execute and deliver the said amending Agreement on behalf of the College and to affix thereto its corporate seal."

Report adopted.

BY LAW NO. 99

Enacted November 26, 1964

Being a By-law to amend By-law No. 9 and No. 12.

Be it enacted and it is hereby enacted a By-law of the Royal College of Dental Surgeons of Ontario as follows:

That By-law No. 9, Section I, subsection (f) be amended by deleting the word 'or' in line two and by adding, following the words "New Zealand" in line two, "or South Africa."

That By-law No. 12, Section 1 (e) be amended by the addition of:

- (8) No "By-District" listings in the yellow pages shall be permitted.
- (9) The name of a clinic, dental centre, partnership or other form of dental group may be listed in the white pages and a list of the members' names may appear thereunder as well as in his/her section in the white pages. Such listings may include the certified members' specialty designations.
- (10) Should the name of a clinic, dental centre, partnership or other form of dental group be listed in the yellow pages the names of the members may not be listed thereunder but the name of each may be listed in his/her alphabetical section of the yellow pages. Such listings may include the certified members' specialty designations.

That By-law No. 12, Section I (f) be renumbered I (g) and that the following be numbered I (f):

- (f) No member of the said College shall designate by name or employ the term clinic, dental centre, or other form of dental group unless the said clinic, dental centre or other form of dental group comprises a minimum of three members of the College.

Report

Annual Meeting

The following is respectfully submitted concerning investigations and prosecutions for the period January 1st, 1964, to December 31st, 1964.

Prosecutions

(a) *BOISVERT, Rene*, 115 Kathleen Street East, Sudbury, Ontario — Charged with 'having dental equipment' Sec. 23(5). BOISVERT entered a plea of guilty in Magistrate's Court, Sudbury, Ontario, on the 11th of March, 1964. In view of previous convictions he was fined \$500 and costs. Dentures seized under search warrant were confiscated in this case. Fine and costs paid.

(b) *MANELLI, Wilfrid*, 251 St. Jacques Street, Eastview, Ontario — Charged with 'supplying a prosthetic denture' Sec. 23(1)(c). MANELLI entered a plea of guilty in Magistrate's Court, Eastview, Ontario, on the 16th of April, 1964. Fine of \$100 and costs was imposed and paid. Dentures, impressions, etc., seized under search warrant were confiscated in this case. Charges laid under Sec. 23(1)(b) 'take an impression' and Sec. 23(5) 'have dental equipment,' were withdrawn.

(c) *OUSSOREN, H. C.*, 38 Bartley Drive, North York, Ontario — Charged with 'supplying a prosthetic denture' Sec. 23(1)(c) and 'having dental equipment' Sec. 23(5). OUSSOREN entered a plea of guilty on each count in Magistrate's Court, Toronto, Ontario, on the 8th of May, 1964. Fines of \$10 and costs on each charge were imposed and paid. A complete upper and lower denture admittedly made for a customer was confiscated in this case.

Investigations

- (a) Public complaints concerning unhygienic condition of dentists' offices (2).
- (b) Announcement cards distributed contrary to By-laws (4).

Inspections and investigations were made as indicated in the above and necessary directives were issued by the Registrar to parties concerned.

Division Court

Four suits entered in Division Court for 1964 annual registration fees resulted in the fees and additional sums as prescribed by By-law being received in due course.

General

Several cases of suspected illegal activities and infractions of the Dentistry Act in various sectors of the Province are under active investigation at this time and developments are awaited.

With reference to articles confiscated as a result of prosecutions under the Dentistry Act a procedure of disposition is in effect.

Action

1. That the Registrar-Secretary contact the Canadian Section of the American Dental Trades Association with a view to establishing some means of eliminating sales of dental materials to unauthorized persons.
2. Report adopted.

Members: Russell A. Hugill, Ernest Rollaston, Wesley J. Dunn.

Report

1. The Insurance Advisers met at Headquarters on May 19 and August 25, 1964.

2. Group Liability Insurance Program

(a) *Premiums and Claims 1958 - 1963* — The following is a review of the premiums paid and the claims remitted or provided for during the life of the plan, 1958 to 1963:

Year	Premiums	Losses
1958.....	\$17,980	\$ 179.93
1959.....	29,816	1,213.77
1960.....	17,748	3,295.16
1961.....	80,836	4,140.10
1962.....	38,894	3,088.45
1963.....	32,565	11,686.00

It is interesting to note that the losses provided for in 1963 were approximately the same as for the total of the first five years of the plan.

(b) *Program amendments* — The Secretary and the Business Manager, at the request of the Insurance Advisers, held discussions with the Carrier. On the basis of these discussions the Insurance Advisers were able to give effect to the following amendments, effective October 1, 1964:

- (a) Three-year premium — 2½ times annual of \$24.00=\$60.00 (now \$64.80).
- (b) Increase in property damage cover from \$10,000 to \$20,000.
- (c) Inclusion of a deductible of \$15.00 for any one claim on property damage coverage.
- (d) Inclusion of a retrospective rating clause.

In addition, the Insurance Advisers have approved the inclusion of a retention clause in the contract as well as an amendment to cover members in the Royal Canadian Dental Corps irrespective of their location of practice.

(c) *New Brunswick Participation* — Considerable effort has been expended over the past three years to attempt to achieve the approximate fifty per cent participation in New Brunswick which the contract requires. The Advisers agreed that the following procedures were required:

- (a) The Secretary to write to the President and Secretary of the New Brunswick Dental Society regretfully to inform them of the contractual necessity of terminating the arrangement at the end of the policy year.
- (b) The Administrator to write to each New Brunswick certificate holder informing him of the necessity of terminating the plan in New Brunswick and suggesting that the said certificate holder might wish to place his own liability insurance with the company of his choice in order that there would be no period when he would not have liability insurance coverage. In order to permit reasonable notice it was suggested that the carrier might agree to a one-month extension of contract for every New Brunswick certificate holder (to October 31, 1964), such extension to be

granted without additional premium. For any certificate holders who remit premium on a three-year basis a pro-rated refund to the end of the contract year (September 30, 1964) should be made.

Following these actions the New Brunswick Dental Society communicated with the Insurance Advisers, indicating that a number of dentists sufficient to make up the approximate fifty per cent requirement had expressed a desire to participate. The New Brunswick group was reopened and applications have been received which should now assure a continuation of the plan in that province.

(d) *Literature* — Promotional literature is being prepared particularly for employment with new licentiates.

3.

All Risks Replacement Cost Insurance Program

(a) *Proposed Option* — The Secretary reported to the Advisers on his and Mr. Jackson's discussions with representatives of the Carrier. As a result of the discussion it was proposed that the following coverages at an approximate annual aggregate premium of \$8.50 could be added to the All-Risks program as an option:

- (a) Miscellaneous property floater
- (b) Valuable papers
- (c) Extra expense fire insurance
- (d) Accounts receivable
- (e) Money and Securities

It was duly moved and carried that these coverages be made available as an option to any certificate holder in the basic All-Risks Program.

(b) *Literature* — Representatives of the carrier have informed the Secretary that they will attempt to provide basic copy of proposed literature for approval.

(c) *Correspondence* — A letter has been received from a company which wishes to be considered as a carrier of the All-Risk program. The advisers directed that the letter be filed for possible future employment.

(d) *Inclusion with Liability Certificate* — A suggestion was offered by the Carrier that in Ontario the All-Risks program could be included as an option on the Liability Plan certificate as this might have the effect of increasing participation in the All-Risks program. The Advisers expressed the view that the insurance picture was already sufficiently complicated and this procedure might well compound the problem. The proposal was rejected.

4.

Group Life Insurance Program

(a) *Plan Improvements* — The Secretary reported on his and Mr. Jackson's discussions with a representative of the Carrier. The matter of a dividend structure and refund formula is now under development. New rates for two age groups now apply and commenced on November 1, 1964.

Attained Age	Member - Dentists		Employees	
	\$10,000	\$25,000	\$2,000	\$5,000
45 to 49 — Old Rate	61.00	152.50	12.20	30.50
New Rate	58.00	145.00	11.60	29.00
50 to 54 — Old rate	102.00	255.00	20.40	51.00
New Rate	90.00	225.00	18.00	45.00

(b) *Dependants' Coverage* — The company has offered an attractive coverage for wives and children of certificate holders in the Group Life Program. The

Advisers rejected the proposal on the basis that such coverage would be in conflict with principle #6:

“Insurance coverages should relate directly to activities indigenous to the dental profession or broadly to the economic security of dentists and their employees. Plans should *not* be instituted for those coverages which individuals, with relative ease and for similar economies, can provide for themselves.”

- (c) *Literature* — New promotional literature has been prepared.
- (d) *Dividend declared* — The Insurance Advisers are pleased to report that the response to the Group Life Insurance Program has been such that a small dividend of 3 per cent of the first year’s premium has been declared. This indicates excellent progress and is an indication of what can be achieved by co-operative effort within group plans which contractually provide a retention clause.

5.
Income Protection Program

(a) *Present Status of Plan* — The Secretary reported on his and Mr. Jackson’s discussions with a representative of the Carrier. It was reported that on June 12, 1964, a minimum of approximately 1500 Ontario dentists now had coverage within the R.C.D.S. group. There were 2,051 contracts of which 81 apply to employees. The premium received, annualized for 1963-1964 is \$235,000, about \$35,000 higher than the amount estimated at the time of the inauguration of the plan. Of this premium approximately \$11,000 applies to Accidental Death and Dismemberment. There is a total liability on the carrier in an amount approximating \$13 million.

(b) *Accidental Death and Dismemberment (Pink Option)* — It has concerned the Advisers that the existing A. D. & D. coverage is essentially the standard one which applies to all vocations irrespective of specific requirements. At the time of initiation of the program it was not possible to develop this option more in accord with adopted principle #5: “The provisions of any plan should be developed to meet the *specific* requirements of the dental profession and its employees. . . .” Present premium is 85 cents per \$1,000.00 of benefit and coverage is available in units of \$10,000. The suggested alterations in this coverage to more nearly adhere to the requirement of the *specific* needs of dentists would entail an increase in premium of 45 cents per \$1,000 of coverage available in the same units of \$10,000. The proposed schedule and its comparison with the existing one follow:

<i>Specific Loss</i>	<i>Percentage of Principal Sum Payable for Loss</i>	<i>Present Percentage</i>
Life	100%	100% (same)
Either or Both Hands or Arms	100%	Both 100% (same) One — 50% (1/2 new coverage)
Both Eyes	100%	100% (same)
Thumb and Index Finger of Operating Hand	75%	25% (1/3 new coverage)
Thumb Only of Operating Hand	50%	12 1/2% (1/4 new coverage)
Index Finger Only of Operating Hand	50%	12 1/2% (1/4 new coverage)
Either or Both Feet or Legs . .	50%	Both 100% (2 x new coverage) One—50% (same)
One Eye	25%	50% (2 x new coverage)
Thumb and Index Finger of Non-Operating Hand . .	25%	25% (same)

Thus the proposed schedule provides in relationship to the existing one:

- (a) Two times the coverage for loss of either hand or arm.
- (b) Three times the coverage for loss of thumb and index finger of operating hand.
- (c) Four times the coverage for loss of thumb of operating hand.
- (d) Four times the coverage for loss of index finger of operating hand.

The new coverage would provide lesser amounts in respect to other accidents and dismemberments not considered as vital to the practising dentist:

- (a) 1/2 present coverage for loss of both feet or legs.
- (b) 1/2 present coverage for loss of one eye.

Other coverages remain the same.

The Insurance Advisers adopted the following motion:

"That the new proposals respecting the Accidental Death and Dismemberment Provisions, in view of their specificity to the practice of dentistry, be approved and adopted, and that the present A. D. & D. (Pink Option) be terminated at the end of the present contract year."

These proposals are now reflected in the Pink Option.

(c) *Agreement between R.C.D.S. and Carrier* — The proposed agreement to be effected between the R.C.D.S. and the Carrier was reviewed. The agreement provides for reserves and dividends, desirable features of a group arrangement. The Advisers recommended that Paragraph 1 of Section I be amended to substitute the name "Collector of Premiums" for "Administrator" and "Collection allowance" for "administrative allowance." The term "Administrator" in relation to D.S.P.I. had the connotation of being inclusive of the function of "Agent" and/or "Broker — of Record." The function of "Collector of Premiums" is provided for in the Insurance Act of Ontario.

The Advisers adopted the following motion:

"That the proposed Agreement between the Royal College of Dental Surgeons of Ontario and the Continental Casualty Company as amended be approved and That it is hereby recommended to the Board of Directors that authority be granted to enter into the said amended agreement with the Continental Casualty Company."

6.

Review of D.S.P.I. Position as Collector of Premiums

The Secretary read a resolution from the Executive Council of the C.D.A. expressing appreciation to the Board for deferring action on its resolution respecting D.S.P.I. becoming Collector of Premiums for several plans for medical and hospital coverage and requesting the continuing co-operation of the R.C.D.S. in postponing further action until "the study of the special committee on Commercial Insurance is concluded."

The Secretary-Treasurer of D.S.P.I. read his report of a meeting held between himself and the representative of the company which administers the plans approved by the Canadian Dental Association. The Advisers agreed that the results of the meeting were anything but encouraging and there appeared to be little or no possibility of any co-operative arrangement with the Administrator of the C.D.A. plans. Accordingly the following resolution was adopted:

"Whereas the Insurance Advisers strongly reiterate their endorsement of the approved 'Principles to Guide a Dental Organization in Providing Insurance Coverage for its Membership,' and

Whereas many Ontario dentists continue to evince confusion because of the number and variety of insurance plans available to them and the number of organizations from which they receive literature and premium notices, and

Whereas the need for early resolution of these problems is mandatory, and

Whereas it is confidently anticipated that the C.D.A.'s Special Committee on Commercial Insurance Plans, recognizing the problems which exist, will wish to direct itself at an early date to the tasks assigned to it,

Therefore be it resolved

That the Insurance Advisers strongly recommend to the Board of Directors that if a satisfactory compromise has not been achieved by December 31, 1964, the Board direct that its previously adopted principle #11, to wit, "Plans which are provincial in character, e.g. Physicians' Services Incorporated, Ontario Hospital Services Commission, Blue Cross Supplemental, etc., should be administered provincially with the appropriate provincial dental body as the sponsoring agency," be made operative, and further

That Canadian Dental Service Plans Incorporated be instructed to assume, for the participating members of the College, the function of Collector of Premiums for Ontario Hospital Services Commission, Physicians' Services Incorporated, Blue Cross Supplemental, and Blue Cross Extended Health Care Plan, at such time as the Board may direct subsequent to the receipt of the report of the January 11 and 12, 1965, deliberations of the Special Committee on Commercial Insurance Plans."

7.

Agent of Record

Recognizing that an Agent of Record for the Liability Insurance Program is a legal requirement and in accordance with the action taken by the Advisers on May 19, 1964, establishing a definite broker's fee, Mr. Ralph G. Morley was appointed Agent of Record.

STATEMENT
OF THE
BOARD OF DIRECTORS
OF THE
ROYAL COLLEGE OF DENTAL SURGEONS OF ONTARIO
TO THE
CANADIAN DENTAL ASSOCIATION'S SPECIAL COMMITTEE
ON COMMERCIAL INSURANCE PLANS

1. The Board of Directors of the Royal College of Dental Surgeons of Ontario welcomes the opportunity afforded by the Canadian Dental Association's Special Committee on Commercial Insurance Plans to offer certain observations and comments on the profession's participation in insurance. The provision of plans for coverage of various types is certainly not without its complexities and it is well that from time to time both the plans and the bases upon which they have been developed should be re-examined.
2. The dental profession throughout Canada owes a debt of gratitude to the Canadian Dental Association for its initiative in creating a facility whereby member-dentists can collectively participate in programs which, in many instances, would be difficult if not impossible on an individual basis. The contributions which the Canadian Dental Association has made are even more commendable when one appreciates the limited development of insurance plans at the time the national body first became participatingly interested in the late 1940s and early 1950s. Group plans, as we know them today, were virtually non-existent. Group annuity contracts for the provision of retirement benefits to employees were relatively unknown and dependence, therefore, had to be placed on pension trust agreements.
3. But just as there has been an explosion in scientific knowledge, just as the methods of practising dentistry have altered so immeasurably over the past decade and a half, and just as there have been so many significant social and economic changes, it must be recognized that there have been equally dramatic developments in the provision of insurance coverages of all kinds. The principles and practices germane to the early 1950s, therefore, must be carefully examined and objectively appraised to assure their continuing and contemporary applicability.
4. The Royal College of Dental Surgeons of Ontario, following a relatively brief experience in providing pension benefits to certain of its employees and in acting as the contract holder for a group liability insurance program, became convinced that this entire area of concern was enveloped by sufficient complexities that there was need for the development of positive guide-lines to assist the College and other dental organizations in the establishment of desirable insurance programs. Accordingly, the Canadian Dental Association was requested to convene a conference on insurance to permit deliberation on the subject. Although approval was given for such a conference and a tentative general date was set for it in the Fall of 1962, for various reasons the conference was not called. Several local dental societies in Ontario, in the meantime, were actively participating in insurance arrangements and the multiplicity of plans available for the profession was continuing to create marked confusion with many mem-

bers. The Board at its meeting in November, 1962, expressed concern with the number of insurance plans being presented to the profession with resultant overlappings, losses in economy of administration and confusion in communication. Accordingly the following resolution was adopted:

That a study in regard to insurance be instituted consisting of

- (1) the development of a brief documentation of the existing insurance coverages under dental sponsorship in Ontario, such study to be undertaken by the Business Manager with the participating co-operation of each Director, and
- (2) concomitantly the Insurance Advisers be requested to report on the basic insurance coverages which reside within the responsibility of a professional dental organization to provide, and
- (3) The information arising from (1) and (2) be presented at a meeting to which will be invited representatives to be selected by the Directors on a geographic basis, the expense of the meeting to be the responsibility of the Board, with the hope that from the deliberations may develop proposals to institute a sound and effective insurance program for the Ontario dental profession.

5. Items #1 and #2 were completed and then under the aegis of the R.C.D.S. Board two Insurance Conferences were held at Headquarters, one on May 1, 1963, the other on September 4, 1963. To these conferences were invited representatives of each dental society in Ontario participating in any way in insurance coverages for its members. The Trustees of the Canadian Dental Association's Pension and Insurance Plans were also invited. Only one society was unable to send a delegate. The following organizations were represented — Ottawa Dental Society, Brockville Dental Society, Hamilton Academy of Dentistry, Essex County Dental Association, Inter-County Dental Society, London and District Dental Society, Toronto Academy of Dentistry and the Ontario Dental Association.

6. As a consequence of the May 1st Conference a statement of "Principles to Guide a Dental Organization in Providing Insurance Coverage for its Membership" was, without dissenting vote, approved and was referred to the Executive Committee where, again, the statement experienced unanimous concurrence. Subsequently the Council of the Academy of Dentistry, Toronto and the Executive Committee of the Ontario Dental Association approved the Principles as well.

7. The following twelve principles, then, represent the bases on which R.C.D.S. and Ontario local dental society participation in insurance programs is predicated. Some of these principles are completely self-explanatory but where deemed appropriate additional explanation is given following the principle or principles stated.

PRINCIPLES TO GUIDE A DENTAL ORGANIZATION IN PROVIDING INSURANCE COVERAGE FOR ITS MEMBERSHIP

- (1) It is within the legal capacity and purview of any properly constituted and well-managed organization operationally related to the practice of a profession to concern itself with the provision of appropriate insurance coverages.
- (2) It is recognized and accepted as common practice for associations responsible to the membership of a profession to enter into contracts enabling

their members to achieve a greater degree of economic protection through exercise of the various advantages attributable to mass purchasing.

- (3) There is at least some measure of responsibility falling on a dental organization for making group insurance coverages available where a need has been recognized and the proposals are capable of fulfilment unless such participation unreasonably complicates the normal day-to-day operation of the organization.
- (4) Any plans decided upon must be presented as a "service" of the association sponsor, a "facility" available to the individual practitioner for voluntary acceptance or rejection. A dental organization's prime objective is to serve the best interest of its membership and it is not to engage itself in the insurance industry.
- (5) The provisions of any plan should be developed to meet the specific requirements of the dental profession and its employees. After the specifications have been agreed upon, tenders should be called from a representative group of carriers in order to assure direct and precise comparison among the different companies, thus enabling the selection of the most suitable carrier. From time to time specifications should be reviewed and new tenders called.

Comment: It is imperative that before a plan is established a committee of dentists decides, from a dental practitioner's standpoint, what type and extent of coverage would most ideally meet the specific requirements of dentists. These requirements should then be translated into specifications, a procedure which, in all likelihood, will require the services of a competent and objective consultant, one, preferably, who could not be construed to exhibit any possible conflict of interest in respect of the ultimate choice of carrier. Once the specifications have been agreed upon by the Insurance Committee, then, and only then, should the insurance industry be approached for tenders. An Insurance Committee has a responsibility to its members to be certain that the plan to be offered has been carefully developed and that, at least at the time of implementation, the carrier selected is the most capable of meeting or approximating the specifications prepared. No plan should be adopted for the profession's participation unless the Insurance Committee has assured itself that the terms of the plan are the best that can reasonably be established and that the carrier is the most favourable firm with which the profession might enter into a contract. It should be noted here that premium is only one consideration. There are additional factors which require consideration and weighing as well. Adequate consideration, for instance, must be given to retention factors.

- (6) Insurance coverages should relate directly to the activities indigenous to the dental profession or broadly to the economic security of dentists and their employees. Plans should not be instituted for those coverages which individuals, with relative ease and for similar economies, can provide for themselves.
- (7) Coverages arranged for the dental profession should be provided on a true group basis. That is, there is no individual selectivity and plans cannot be individually cancelled or amended by the carrier. The organization, therefore, becomes the policyholder and each individual participating member a certificate holder.

Comment: The R.C.D.S. is convinced that the individually-selected life insurance plans available through the Broker who sells C.D.A. approved plans (Professional and Industrial Pensions Limited), such contracts being placed with the London Assurance Group, are highly competitive with individually-selected

plans available to dentists through other insurance companies doing business in Canada. But it must be stated with equal emphasis that it is possible for an insurable dentist to purchase a life insurance contract for himself which may be almost as good, as good or even better than one available through the present Broker. This comment, in no way, is meant as a criticism of the individual plans obtainable through London Assurance. It simply brings into question a policy of the Canadian Dental Association ostensibly placing its "stamp of approval" on individual contracts provided by one company which are no more than competitive with many other contracts available to the profession from other companies whose stature in the insurance industry in Canada is at least the equal of the company which now appears to enjoy C.D.A. endorsement. Surely it must be admitted that a "Canadian Dental Association Pension-Assurance Plan" which, in effect, utilizes a wide range of individually-selected plans is no "plan" at all. Rather it is a number of plans (or contracts) which a dentist may purchase provided he meets whatever medical standards are required. Principle #6 simply states that there is really no justification for a dental organization attempting to make provision of contracts for its members when with relative ease and for similar economies the members can obtain like contracts from a company or companies of their choice.

The R.C.D.S. believes that an association is justified only in making group coverages available. The variations in economic needs of dentists probably vary directly with the number of dentists. Therefore the R.C.D.S. contends that only certain fundamental or basic provisions should be offered and the individual member, if he chooses to avail himself of the coverage provided, can then proceed to create his own estate, taking into consideration whatever factors he deems necessary to regard. Therefore it is right and proper for a dental organization to become a contract holder for a Group Life Program to which the individual member may become a certificate holder if he so desires. But it is questionable if the same organization should say to the membership in effect, "If you purchase an individually-selected contract through a particular Broker and Carrier (Professional and Industrial Pensions Limited, and London Assurance) we are quite sure that you will have acquired a contract of outstanding merit."

- (8) The Trustees or Advisers appointed by the dental organizations should have a complete and comprehensive knowledge of the provisions of all group coverages provided by the said organization in order that they are able to communicate to their own colleagues and, when necessary, answer directly questions received from members concerning the coverages available.
- (9) There should be consultation among the several groups participating in the provision of group insurance plans before new plans are created and promulgated. To the extent possible plans should be provincial in nature to permit all practitioners in the province, irrespective of the size of the community in which they practise, to avail themselves of the benefits and economies of group participation.

Comment: Although it can certainly be interpreted from principle #9 that it is recommended that plans be "provincial in nature," we have here an example of lack of precision in writing. By no means was principle #9 meant to preclude national participation. What was meant was that plans should at least be provincial in nature in order to make it possible for dentists in small communities where dental society membership is very small to avail themselves of the advantages of group participation. The R.C.D.S. is on record and again reiterates that it has no "pride of authorship" in respect of any plans of which it is now

the group policyholder and would not only be prepared to accept but indeed would encourage an extension of these arrangements to other provinces who express an interest in them, *provided that such programs are established and administered in consonance with acceptable principles.*

- (10) The administrative agency (collector of premiums) of such group plans should be an agency whose policies and activities are determined by the dental profession and the members of the administrative staff should be salaried by the dental group they represent. Under no circumstances should the administrative staff be a salaried or commissioned agent of an insurance company or agency.

Comment: While this principle appears to be quite clear in its meaning it is perhaps pertinent to clarify the meaning of the word "administrator" — a word frequently employed in conjunction with the profession's insurance plans. Under Ontario law — similar statutes exist in other jurisdictions — there are two persons or agencies mentioned other than the actual carrier. One is a "broker" or "agent-of-record" — the other is the "collector of premiums." A "broker" or "agent-of-record" is a legal requirement for some forms of insurance but not for all. The "collector of premiums" simply provides the service which the name connotes and the fee for its services has a statutory limitation placed on it of five per cent of the premium collected. It is important when employing the non-definitive word "administrator" to determine whether one means "Broker" or "Collector of Premiums" or both. A Broker must be licensed by the Superintendent of Insurance and the licence must be sponsored by an insurance company licensed to engage in business in Canada. The "Broker," therefore, is fully participating in the insurance business. The "Collector of Premiums," on the other hand, is simply a service facility designed to fulfil the function of transmitting premium notices, receiving premiums, performing the necessary accounting procedures and remitting to the carrier the amounts owing. There is no licensing procedure for a Collector of Premiums.

- (11) Plans which are provincial in character, e.g., Physicians' Services Incorporated, Ontario Hospital Services Commission, Blue Cross Supplemental, etc., should be administered provincially with the appropriate provincial dental body as the sponsoring agency.

Comment: Because of the constitutionality of health services it would seem to be appropriate for the dental organization in a province, *if it chooses to do so*, to deal directly with the agencies in its own province which provide for hospital, medical, and similar care. This is particularly pertinent when the agency is an arm of the provincial government such as the Ontario Hospital Services Commission. If the provincial dental body is not *directly* participating plans can be instituted which may not be in the ultimate best interest of the dentists of the province concerned. The following is an example. Ontario dentists had had O.H.S.C., Blue Cross Supplemental, and Physicians' Services Incorporated plans available with P.I.P. acting both as "Collector of Premiums" and negotiating agent. Without reference to the R.C.D.S. Board it was announced through the office of P.I.P. that the Blue Cross Extended Health Care Plan inclusive of a Medical Benefits Clause was now available and an undetermined number of Ontario dentists took on this added coverage. The effect of this new coverage was such that P.S.I. sent two representatives to R.C.D.S. headquarters to inform the Secretary and Business Manager that the P.S.I. Board had considered whether or not it would let its basic plan stand for the Ontario dentists in view of this action to include the Blue Cross E.H.C. The reason for concern on the part of P.S.I. is that it considers its plan a "service" plan as distinct from an "indemnity"

plan and the "participating" physician is the backbone of such a plan. The participating physician contractually is not permitted to extra bill unless the patient has an annual income of \$7,000 single, or \$10,000 family. The Blue Cross E.H.C., however, paid for physicians' fees beyond the O.M.A. tariff. For example: a service has been performed which by O.M.A. tariff involves a fee of \$100. If the physician is a participating physician he is paid \$90. If the physician is "non-participating" the subscriber is paid \$90 and the subscriber in turn would, presumably, remit \$100 to the non-participating physician. If the non-participating physician, however, submitted an account for \$125 Blue Cross E.H.C. would pay the amount additional to the O.M.A. tariff of \$100. But the participating physician cannot by contract extra bill. Therefore the existence of the E.H.C. program precipitated significant problems because participating physicians by contracting out from P.S.I. could then place themselves in a position to extra bill and be reasonably assured of receiving payment when patients had Blue Cross E.H.C.

One may perhaps say that this is not dentistry's problem. But in the long view it may be. At least it seems only desirable that the provincial dental body should have a full and complete opportunity to consider all possible ramifications before an arrangement such as this is launched. Negotiations with provincial authorities, the R.C.D.S. believes, is properly the function of the respective provincial dental bodies concerned.

It also needs to be mentioned that the P.S.I. plan at present available to Ontario dentists is the "Brown Plan" which provides for in-hospital physicians' care only. It may be that the "Blue Plan," which includes home and office calls as well, would meet with greater approbation. But when "administered" through an office which has no direct relationship to the R.C.D.S. there is really little opportunity for any Insurance Committee in Ontario to deal effectively with the matter.

(12) Direct solicitation of members by the carrier must not be permitted without the express permission of the group policyholder.

8. These, then, are the twelve principles under which the R.C.D.S. is at present being guided in its participation in insurance. These principles, of course, are not immutable and should be and will be subject to periodic review to assure their contemporary pertinence. The R.C.D.S. hopes, sincerely, that it will be possible to co-operate with the C.D.A., of which the R.C.D.S. is a Corporate Member, with the purpose in view of providing the very best insurance service to the profession throughout Canada. With the deepest respect, however, it must be emphasized that there continue to exist apparent conflicts in respect of basic principles involved and there seems little hope to effective resolution until such time as agreement can be achieved in respect to principles which should guide dental organizations in providing insurance coverage for their membership.

9. Finally a comment needs to be made in respect to Canadian Dental Service Plans Incorporated because it is apparent that some members of the profession are not yet, apparently, fully cognizant of the nature of the services rendered by this organization. D.S.P.I. is a not-for-profit, federally-chartered agency of the profession created to provide accounting and other administrative services in respect to plans which have been initiated and approved by provincial dental bodies. These services, in Ontario, are directed to (1) Post Payment Plan, (2) R.C.D.S. Comprehensive Group Liability Insurance Plan, (3) The Ontario Dental Welfare Plan, (4) R.C.D.S. All Risks Replacement Cost Office Contents

Insurance Plan, (5) Dentists' Employees' Pension Plan, (6) R.C.D.S. Employees' Dental Care Plan, (7) R.C.D.S. Group Disability Income Protection Plan and (8) R.C.D.S. Group Life Insurance Plan. In respect to the various insurance plans D.S.P.I. serves as "Collector of Premiums," a function outlined in The Insurance Act of Ontario. For the other plans, including the Ontario Dental Welfare Plan, it provides certain additional services all within the policy framework established by the Board of Directors of the R.C.D.S.

Frequently the allegation is heard that "D.S.P.I. is in the insurance business." It is not. As "collector of premiums" it is no more a part of the insurance business, per se, than it is engaged in rendering dental services simply because at the direction of the R.C.D.S. Board it provides, for a fee, certain accounting and administrative services within the Ontario Dental Welfare Plan. D.S.P.I. plays no role, whatsoever, in the development of policy for any of the plans for which it provides accounting services. In respect of the eight plans listed above it is the R.C.D.S. Board of Directors and the R.C.D.S. Board alone which is responsible for policy decisions and direction. The specifications of all insurance plans to be established with the R.C.D.S. as the group contract-holder must be approved by the R.C.D.S. Board. The final terms of the contract must be approved by the R.C.D.S. Board. The selection of the carrier is the decision of the R.C.D.S. Board. It is only after all matters of policy and terms have been established that D.S.P.I. is *requested* to provide, at a predetermined fee, the accounting and associated services necessary to the operation of the respective plan. Apparently, too, there has been some confusion in respect to the functions which D.S.P.I., under its Charter and Letters Patent received from the Secretary of State, is *legally* competent to perform. The following section from the By-laws of D.S.P.I. is appropriate to reiterate:

"The Directors shall manage the affairs of the Corporation and shall initiate and promulgate the plans and policies of the Corporation. The Directors shall have power to pay all expenses incurred in obtaining the incorporation of and in organizing of the Corporation and to make such arrangements as they may deem advisable with any Provincial Body or any other organization or individual for the provision by such body, organization or individual of secretarial, administrative or other services upon such terms as to the Directors shall seem proper. . . ."

At the outset D.S.P.I., although created to serve all provinces (it provides services for plans in Alberta, Saskatchewan, Manitoba, Ontario, Quebec and New Brunswick), received its financial undergirding from the R.C.D.S. It has long been self-sufficient and in fiscal 1963 it enjoyed an excess of revenue over expenditures of slightly in excess of \$10,000. This favourable position has permitted, already, a significant monetary contribution to Canadian dental education.

D.S.P.I. was brought into existence by dentists; it is operated on a not-for-profit basis by dentists for dentists and from the excess of revenue over expenditure worthwhile projects for dentistry, and through dentistry to the people whom the profession serves, have been and will be supported.

D.S.P.I. has served competently and conscientiously in the discharge of the functions assigned to it. It has earned a reputation which merits a continuing and increasing support from those dental organizations for whom it stands ready to serve.

Action

- a) The Statement of the Board of Directors of the Royal College of Dental Surgeons of Ontario to the Canadian Dental Association's Special Committee on Commercial Insurance Plans was approved.
- b) The Board directed that the Statement be distributed to the Special Committee in advance of its meeting of January 11th and 12th, 1965.
- c) Dr. A. H. Leckie was requested to seek the privilege of presenting the Statement.
- d) The agreement between the Board and the Continental Casualty Company was approved.
- e) The Insurance Advisers were complimented on an excellent report and statement.
- f) Report adopted.

Report—Annual Meeting

Liability (Malpractice) Coverage

This plan is, as it has always been, very successful both in its financial aspect and in the service it renders to members of the profession. Well over 75 per cent of the operative dentists in the participating provinces are certificate holders.

The improvements effected this year, namely:

- (a)The reduction of the three-year rate from \$64.80 to \$60.00
and
- (b) The increase in limits of the "Property Damage" clause from \$10,000 to \$20,000

have been well received. The rate reduction has encouraged more dentists to adopt the three year option.

The inclusion of a "retention" clause in our agreement with the Global General Insurance Company was a very progressive step and should, unless claims experience rises immeasurably, allow still further improvements in future years.

2.

All Risk (Office Contents) Coverage

This plan, as was expected, has not reached the proportions of the Liability Plan. Currently there are 454 policies in force.

It has, however, served a very useful purpose in bringing to the attention of the profession the fact that, unless they obtain similar coverage, they may be faced with a larger loss than they anticipated if their insurance settlement is based on the "depreciated value" rather than our "replacement cost". In addition it has, we believe, encouraged local fire insurance agencies to sell dentists a better coverage than they did previously in order to compete with our plan.

Our underwriters, the Global General Insurance Company, have been very fair and prompt in their adjustment of all claims that have been made. We have had three large fire losses besides a variety of break-ins, etc., and all the dentists involved have expressed satisfaction.

3.

Pension Plan for Employees

We have only 17 dentists contributing to our pension plan for employees. This is very low but there has been no promotional work done on this plan at all and, in view of the implementation of the Canada Pension Plan we do not suggest any. It is hoped that when pensions become mandatory this plan may be absorbed.

4.

Group Life Insurance

Our group life plan has attained its expected volume in the first year. The premiums received to Nov. 1, 1964, were \$21,450.00 and we have \$7,450,000.00 of insurance in force.

Although the plan suffered one \$25,000 loss the Global Life have already reduced the premium in two age groups and a 3% dividend was declared in its first year of operations.

5.

Income Protection and Office Overhead

Due to the presence of an effective field force and the co-operation of the local Dental Academies and Societies, this has been our most successful plan.

Here again, the value of placing all our plans on a "retention" basis has been amply proven.

Every dentist in Ontario has had two opportunities, regardless of his state of health, of obtaining \$700 per month (\$400 Income and \$300 Office Expense) protection against a possible loss should he be sick or disabled.

In addition, and in our first year of operation, a surplus of \$19,969.00 has been built up which can be used for the betterment of our service to the profession.

6.

General

What has the development of these plans contributed to dentistry?

It has:

- (i) Given every dentist the opportunity of protecting himself against all real or imaginary claims for damages or physical harm to patients or others at a very reasonable cost.
- (ii) Given every dentist the opportunity to protect himself against financial loss in cases of fire or damage to his office contents.
- (iii) Encouraged the use of "fringe benefits", ie., pensions for employees, as a means of attracting a better type of auxiliary personnel.
- (iv) Given all dentists, subject to a certain health qualification, the opportunity of purchasing term life insurance at very attractive rates and guaranteed ALL new graduates, regardless of their state of health, a minimum of \$10,000 Life insurance.
- (v) Guaranteed every dentist, during the open periods, a minimum of \$700 per month protection should he be sick or disabled.

We think this record compares very favourably to the accomplishments of other organizations in other fields.

Action

Report adopted.

Representative: Dr. J. G. Dale.

Report

Annual Meeting

Dr. Joseph Johnson, chairman of the Library Committee since 1946, and subsequently the Museum Committee, retired on July 1, 1964. Dr. Johnson, during the course of his eighteen years of service contributed much to the development of the excellent Library which exists at the Faculty of Dentistry. His fascination with the past and his sound knowledge of the history of Dentistry is reflected by the unique and extensive Museum collection which he has established at the Faculty.

In my capacity as Dr. Johnson's successor, I will make every effort to justify the confidence that has been placed in me; to continue with the development of the Library, and to proceed with the advancement and organization of the Museum to a high standard of excellence.

The Library

The chief Librarian of the University of Toronto, Mr. Robert H. Blackburn, stated in the introduction of his report, "In recent years, with the University curriculum growing steadily in breadth and depth, and the population explosion visible and audible in every study-room and corridor, it has become a matter of annual routine to report new levels of activity in every part of the Library System". The Library and the Museum of the Faculty of Dentistry exemplifies this progress by, (1) increased circulation, (2) increased appropriation, (3) additional staff, (4) the extension of Library hours, and (5) introduction of an organized Museum display based on a central theme for educational purposes.

The Collection

The Faculty collection acquired 268 University of Toronto books, and 174 Harry R. Abbott books, totalling 442 for the year, and bringing the total count to 10,670 bound volumes. Of this total 4,292 consist of University of Toronto books, 1,923 Harry R. Abbott books, and 4,455 Harry R. Abbott bound periodicals.

Seven new subscriptions have been added to the 125 we now have in our possession. In addition, we receive 118 periodicals regularly as donations or exchange.

There are at the present time 66 orders outstanding from the University.

This year, we have been fortunate to acquire 12 first editions of early dental books. These have been added to our rare book collection.

We gratefully acknowledge donations from: Drs. M. Belman, B. Boucher (for 18 volumes of the Dental Clinics of North America from Mar. 1957 to Nov. 1962), R. G. Ellis, S. Golden, H. Halderson, G. H. Hare, H. A. Hunter, J. H. Johnson, F. G. Kellam, B. McAdam, G. T. Mitton, A. W. Lindsay, G. Morgan, M. Jackson, N. Levine, the Canadian Dental Association, and the following Libraries in the United States: Kettering Memorial Hospital, Ohio; Brooke General Hospital, Fort Sam Houston, Texas; Veterans Administration Hospital, Salt Lake City, Utah; Georgetown University, Washington; University of California; Veterans

Administration Hospital, West Haven, Connecticut; Henry Ford Hospital, Detroit; Library of the Medical Sciences, Salt Lake City; Booth Memorial Hospital, Flushing, New York; Veterans Administration Hospital, Richmond, Virginia; University of Kentucky, and the University of Pittsburgh.

The Use of the Library

Five years ago, the Library recorded a total of 12,842 loans. The Faculty accounted for 809, the students for 1,340 and the graduates for 1,207. The reading room recorded 1,600 loans. This year 17,502 loans were recorded, an increase of 4,660 loans. The Faculty was responsible for 1,459, an increase of 650, the students for 9,060, an increase of 1,720, and the graduates for 2,114, an increase of 907. Reading room loans increased by 1,441 to 3,041. The periodical loans have remained fairly constant at approximately 1,850. The present figure includes 98 items mailed to 60 out-of-town borrowers and 14 inter-library loans.

Appropriation

The University increased the annual grant from \$1,600.00 to \$2,000.00 for the purchase of books and continuations. The amount allotted for periodicals is not granted outright but is taken from the general periodical fund within the University.

Staff

The Library staff was increased this year by the acquisition of the services of a new clerical assistant, Miss Anu Kask.

Space

A private office for the Librarian, Miss Smith, was erected in the Library, adjacent to the Staff Reading Room. This additional office provides more space in the Library administration area.

Catalogue System

The Library has completed a catalogue of books from 1958-1964 to supplement the previous catalogue from 1948-1958. The list of periodicals currently received, and the list of theses in the Library have been brought up to date. Work is continuing on the Bibliography of The History of Dentistry in Canada, and of The History of Dental Materials and Procedures.

A list of the material that we have to offer on the Medical Library Exchange was made out once again this year. A listing of 1,733 periodicals and 157 books was sent out. We, in turn, have access to lists of offerings from other Libraries throughout the world.

Open House

The Faculty of Dentistry Open House was held on Sunday, February 14. The Library was open to the public, and a display of early dental publications in Canada covering the history of dental journalism in Canada was the feature attraction. It was proposed that a larger display case be purchased for the exhibition of the rare book collections.

Evening Hours

The Library Committee, at the request of the students, departed significantly from Faculty tradition and policy, to open the Library during the evening hours until 10:00 p.m. The month of March, the month when the Fourth Year Students

were preparing for and writing their final examinations, was selected as the experimental period. The response was sufficiently encouraging to warrant an extension for another month. It was proposed that the evening hour privileges be continued until the end of the year in order that all the students have equal opportunity to use the facilities during the examination period.

The Museum

The Museum Committee was discontinued this year. The Museum affairs are now controlled by the Library-Museum Committee. On the basis of one year's experience, it appears that this is a satisfactory arrangement.

The Collection

Donations of Museum items from many sources, including the following, are gratefully acknowledged: Dr. A. R. Woods, an ivory denture dating from the early 19th century; Dr. E. B. Sparks, swaging tools for gold crowns; Mr. S. Parkin, dentures; Dr. D. H. J. MacDonald, a newspaper cutting of 1901 with an advertisement for dentures; Dr. W. Wood, a dental chair; Mr. Dickson, an x-ray machine used by Dr. George Watson; Dr. M. Jackson, records of the first capping ceremony and a graduation pin; Mr. J. Splatt, several items; The Weber Dental Manufacturing Co., loan of rare documents.

The Museum items will be catalogued in the near future. When this procedure has been accomplished, a complete record of the number and type of items will be available.

Appropriations

A proposed budget for the appropriation of \$1,500.00 donated to the Museum by the Associates of the University of Toronto in New York because of their interest in the Mendel Nevin family was submitted and approved.

The Museum is presently operating on a special Museum fund established through the generosity of the Ontario Dental Association.

Staff

A clerical assistant, to assist in the cataloguing, filing, preparation of displays, and correspondence associated with the Museum, was hired on a part-time basis.

A technical assistant, to aid in the preservation and restoration of Museum items, the preparation of displays, and the organization of the storage areas was also hired on a part-time basis.

Space

At the present time the Museum activities are restricted to three areas in the Faculty: (1) The Museum, (2) Room 150, and (3) Room 70.

The storage areas will be thoroughly cleaned and completely reorganized in the near future for the purpose of storing delicate and valuable Museum items in an efficient and secure manner.

Catalogue System

The catalogue system for the control of Museum items was designed, printed and instituted. Museum articles will be numbered, photographed, and filed with a complete history. The cross-reference files will include: a) name of the donor, b) name, c) category, and d) year of the article.

Various types of form letters are being designed to assist in the correspondence, to increase the efficiency, and to promote good public relations in regard to the Museum and the collection.

Open House

Much time and effort was expended creating a complete Museum display based on a central theme, THE HISTORY OF DENTISTRY, with special emphasis being placed on the development of The Faculty of Dentistry. 2,000 booklets were printed and distributed to the public during the Open House. Considerable interest was shown in the Museum, and many compliments were received.

Loans

A selection of Museum items was sent in November on a permanent loan basis to Fort Steele, British Columbia, where it will form part of an historical display. Through the generosity of Dean Ellis, the chairman attended a two-week Museum Seminar in Cooperstown, New York. The seminar was organized by the New York State Historical Society and the programme included: (1) Museum Display Procedures (2) Preservation and Restoration of Museum Articles (3) Museum Security and (4) Museum Organization.

I would like to take this opportunity to express sincere appreciation to the members of the Library Committee for their interest and participation throughout the year, and to the Library-Museum staff for the efficient services that they have provided.

This report is respectfully submitted with the recommendation that the customary grants be continued for the ensuing year.

Action

1. Board congratulated Dr. Dale on his appointment as Chairman of the Library-Museum Committee.
2. Report adopted.

Report

Fall Meeting

1.

The annual meeting of the N.D.E.B. was held in the Chateau Laurier Hotel, Ottawa, on June 15th, 1964.

2.

Representatives from all provinces in addition to the representative of the Council on Dental Education of the Canadian Dental Association were present.

3.

The results of the Spring Examinations of the N.D.E.B. are attached as Appendix A. The substantial increase in number of candidates this year is the result of the action of the College of Dental Surgeons of the Province of Quebec, according to which graduates of both Quebec dental schools are required to take N.D.E.B. examinations in order to practise in the Province of Quebec.

4.

At present 874 or 14.6% of the dentists of Canada hold an N.D.E.B. certificate.

5.

Problems of human error, inevitably a part of any examination system, continue to tax the energies of the Committee of Examiners in an attempt to set questions which effectively test the knowledge of the candidate. This becomes increasingly difficult when examinations require translation into French. Also, the teaching within the various faculties presents yet another variation occasioned by teaching content and emphasis plus the effectiveness of that teaching.

6.

An unusual situation developed in the case of five applicants who successfully wrote their N.D.E.B. examinations but were unsuccessful in their University course whose results were published after the N.D.E.B. examinations. The Board adhered to the opinion that inasmuch as the by-laws require the applicant to be a graduate in dentistry that the said candidates as such were ineligible to write the examinations and thus their fee was returnable and they would be required again to take the Board examinations.

7.

Dr. Malcolm Taylor has been asked to study the present examination system in relation to both conjoint examinations and also the effectiveness of the system employed by the Medical Council of Canada. Although Dr. Taylor estimates a two year investigation will be required, hope was expressed that there exists a sense of urgency.

8.

The R.C.D.S. once again submitted consideration of their wish that the N.D.E.B. allow to sit for their examinations all those for whom the R.C.D.S. would provide an enabling certificate. The meeting felt that the results of Dr. Taylor's investigations might provide a suitable avenue for solution of this problem.

9. Numerous items having to do with the miscellaneous detail of administration were dealt with.
10. The inadequate time available did not allow for the complete discussion of many items on the agenda. It has been recommended that the secretary provide an agenda to the delegates in advance of the meeting with a suggestion as to the possible time it might take to effectively conduct the meeting.
11. The Financial Report indicates a most favorable balance. Five thousand dollars has been invested in bonds and the honorarium to Dr. Taylor has been allowed for.

Action

6. The following resolution was adopted:

“Whereas five candidates for the N.D.E.B. certificate were successful in passing the examinations conducted by the N.D.E.B. in June, 1964, but failed to meet all the requirements of their University and thus were not recommended for their degrees at the time the N.D.E.B. results were announced, and

Whereas it would appear that the by-laws of the N.D.E.B. make necessary a re-examination of the said candidates because they are not graduates of a recognized dental school,

Therefore be it resolved

That it be recommended to the N.D.E.B. that all senior dental students registered in approved dental schools be considered eligible to try the examinations of the N.D.E.B. and that their results be withheld until such time as their successful completion of the requirements of their respective faculties be determined.”

Report adopted.

PROPERTY COMMITTEE

Members: R. C. Honey, Chairman, W. G. Woods, V. A. Herron.

Report

Fall Meeting

1.

The Property Committee met at 230 St. George St., in the Boardroom, on October 7, 1964. The Secretary reported that due to the delays in the C.D.A. building program, none of the exterior maintenance and renovation procedures authorized at the previous meeting of the Committee was carried out. All other maintenance work was completed and in addition a new gas furnace has been installed on the approval of the Board. The black topping of the parking lot was carried out on the authorization of the Chairman as well as the installation of two air-conditioning units in the offices on the second floor. A complete inspection of the building by the Committee then followed.

2.

Maintenance Procedures to be Undertaken:

The Committee authorized the following maintenance work to be carried out forthwith:

- (a) Back chimney to be pointed and closed.
- (b) North West corner of building pointed.
- (c) Install new toilet tank and seat in basement washroom.
- (d) Paint dining room in caretaker's apartment.
- (e) Repair cracks in plaster and paint Academy office.
- (f) Clean and paint stained area over radiator in staff lounge.

The following procedures to be carried out in the spring of 1965:

- (a) Installation of down-pipe at north-east corner.
- (b) Repair stucco on south bay window.
- (c) Repair back porch on second floor.
- (d) Install new eavestroughing where indicated.
- (e) Paint exterior woodwork of building.
- (f) Clean drapes throughout.

3.

The Committee recommends the replacement of carpeting on the stairs leading to the second floor, also that in the Secretary's office and the Boardroom.

4.

Inspection of Grounds:

The Committee was well pleased with the black topping of the parking lot and the condition of both the North and South driveways.

5.

Property Budget:

The Committee approved the following budget for 1965:

	1964	1965
Revenue		
Rent	\$4,692	\$4,692
Expenditures		
Caretaking	750	800
Equipment	150	200
Insurance	nil	400
Maintenance	2,500	1,500
Renovation	1,500	3,000
Taxes	1,700	1,800
	<u>\$6,600</u>	<u>\$7,700</u>

6.

The Committee reviewed the rent structure and recommends to the Board a 20 per cent increase be made applicable for 1966.

7.

On completion of the inspection of the building, the Committee members were unanimous in requesting the Secretary to convey to the caretaking staff their appreciation for the high standard of cleanliness that was apparent throughout.

Action

3. A sum, not to exceed \$2000.00, was approved for floor coverings.

Report adopted.

Report

Annual Meeting

1.

As a consequence of a thorough inspection of the grounds and building on October 16th last, and the approval of the Board having been gained at the Fall Meeting to carry out certain recommendations hereunder referred to, it has not been deemed necessary to call a meeting of the Committee since that date.

2.

Renewal and Maintenance Procedures Completed

(a) *Carpeting* has been laid in the Boardroom, Registrar's Office and stairs and landing by the Berkeley Contracting Co. at a cost of \$1,451.27.

(b) *Two leaks developed in the roof thus necessitating immediate action.* On the approval of the Chairman, a new plate was installed along the ridge of the roof, new slates were put on where required, the chimneys pointed, and the north one not in use was taken down to roof level and sealed. This work carries a five year guarantee against any defects which might develop during that period. The cost of this was \$600.00.

3. The Boardroom chairs are becoming tattered and worn — it is recommended that a complete upholstering job on these be carried out forthwith.

4. **Maintenance Work Not Yet Started**

The balance of the work authorized by the Board will be carried out as soon as quotations are received from two firms that wish to submit estimates (Bavington's is already in at a price of \$745.00) and of course, as soon as warmer spring weather permits this outside work can get started.

5. **Rent Structure**

The tenants have been advised that a rent increase in the order of twenty per cent will be made applicable for 1966.

Action

- 1. Report adopted.

Report

Annual Meeting

During the past two years it has been both a privilege and a pleasure to have served as President of this Board. The co-operation of the elected members has been worthy of the highest commendation. The appointed executives and office staff have thoroughly proven their value and effectiveness. To all of these people I extend my sincere appreciation.

The period of my term of office has been to a large degree a formulative one. Several projects have been instituted, the results of which are now being placed before the profession for consideration.

The Woods Gordon Report was requested in order to achieve a reorganization of Dentistry in Ontario. The results of this survey were examined by twenty-seven dental societies and a steering committee was appointed jointly by the R.C.D.S. and the O.D.A. The culmination of this effort is currently before this Board at its Annual Meeting. Following consideration by the executive of the O.D.A. it will be presented at the meeting of the general council of the O.D.A. at the time of the convention in May. This general procedure was endorsed by the local societies during the early presentation of the report.

The Royal Commission on Health conducted by Mr. Justice Emmett Hall merits the deepest attention by the members of our profession. This subject will also be the subject of a report by a steering committee at our Annual spring meeting and will receive our most earnest consideration.

During recent years there has been a continuing effort to promote the establishment of an additional Faculty of Dentistry in an Ontario university complex. This year agreement was reached providing this facility at the University of Western Ontario.

The creation of the new faculty withdrew from the employment of this Board our Registrar-Secretary-Treasurer, Dr. Wesley J. Dunn who was appointed to the position of Dean. For a period of ten years Dr. Dunn has fulfilled his duties to this Board with distinction. His comprehension of problems confronting the Board was unique. His diplomacy and wisdom in assisting in our deliberations was deeply appreciated. On behalf of the Board I extend our most heartfelt thanks and our best wishes for success in his new venture.

The replacement of Dr. Dunn elicited a considerable number of applicants in response to our advertisement for his successor. It was gratifying to receive so many replies from such a high calibre of applicants.

To his successor, Dr. K. F. Pownall, we extend our welcome and best wishes. To the remaining applicants we express our deep appreciation for their interest.

I find it difficult to conclude this report without reference to the increasing problems facing the Discipline Committee. An increasing number of these diffi-

culties revolve around the competence exhibited to perform operations mostly in the area of oral rehabilitation procedures and an equitable assessment of fees for this type of service. We cannot emphasize too strongly that members of the College approach this area of endeavour with deep thoughtfulness and considerate planning.

In this important era of our profession it is my sincere hope that we will continue to welcome and avail ourselves of the advantages of progress and at the same time present a united front exhibiting the co-operation that our profession so deeply deserves.

REGISTRATION AND LICENSURE COMMITTEE

Members: J. D. Purves, Chairman; D. J. Ferguson, R. Michell

Report

Fall Meeting

1.

Dr. Peter Smylski is recommended for an appointment as an Oral Surgery representative to the Liaison Sub-Committee, replacing Dr. J. H. Johnson who has retired.

2.

A list of approved Oral Surgery Residencies and Internships at universities and hospitals in Canada and the United States has been prepared by Drs. Antoni and Smylski. The postgraduate programs in these schools and hospitals would be considered acceptable for certification. (See Appendix A.)

3.

The acceptance of certain phases of the R.C.D.C. training toward the Oral Surgery certification program is recommended. Acceptance of these phases would be contingent on their compatability with the recognized three-year Oral Surgery certification program.

4.

That Dr. Kamal Den Thanik, B.D.S., University of Lucknow, Master of Science in Dentistry, Indiana University and a certificate holder in Orthodontics from Harvard School of Dental Medicine, be provided a registrable qualification and, therefore, be eligible for the licensing examination in Ontario.

5.

That the Board view the request from the South African Medical and Dental Council to enter into a reciprocal arrangement with the R.C.D.S. as acceptable and that a B.D.S. holder from the Universities of Witwatersrand and Pretoria be provided registrable qualification, thereby allowing such applicants to sit for the licensing examinations.

6.

The following

(a) Russell Daniel Bulchak, D.D.S. (Toronto), M.S. (Western Reserve) in orthodontics

(b) Marvin David Klotz, D.D.S. (Toronto), M.S. (Northwestern) in paedodontics

(c) Ian Duncan Forbes Schofield, D.D.S. (Toronto), Dip. O.S. (Toronto) in oral surgery,

having met the qualifications in their respective specialties, be granted certification when all other requirements of the Board have been met.

7.

Licensing Examinations — May, 1964

Acting on the authority granted by the Board the committee conducted licensing examinations for five candidates on May 20, 21 and 22, 1964. One candidate passed and four failed.

8.

Applications for Registration — May, 1964

(a) *The committee* recommends that Gordon Allison Hill, D.D.S. (Marquette '64), having passed the licensing examinations conducted by the Board, be granted the Licentiate of Dental Surgery of the Royal College of Dental Surgeons of Ontario when all remaining requirements have been met.

(b) *The committee* is unable to recommend the registration of

(1) William Garth Dunlop Brown, B.D.S. (Otago, Dec., '63)

(2) Geoffrey Lewis Lyne, B.D.S. (London, '56)

(3) Ieuan Llewellyn Thomas, B.D.S. (London, '53)

(4) John Geoffrey Whitelegg, B.D.S. (London, '49)

9.

Licensing Examinations — November, 1964

On November 18, 19 and 20 the Committee conducted licensing examinations for six candidates. Two candidates passed, two had conditions and two were failed.

10.

Applications for Registration

(a) *The Committee* recommends that:

(i) Ibbit Mosaheb, D.D.S. (McG., '47)

(ii) Mohammed Ishack Tallim, D.D.S. (N.W., '47),

having passed the licensing examinations conducted by the Board, be granted their Licentiate of Dental Surgery of the Royal College of Dental Surgeons of Ontario when all remaining requirements have been met.

(b) *The Committee* recommends that Kenneth Sinanan, B.Sc., D.D.S. (McG., '43), before being granted registration and licensure in the Royal College of Dental Surgeons of Ontario, be required to complete to the satisfaction of the Department of Operative Dentistry of the Faculty of Dentistry a special course of not less than six weeks and, once having successfully completed this program, that he then be passed and granted his licentiate of dental surgery when all remaining requirements have been met.

(c) *The Committee* recommends that Ian McLauchlan Milne, B.D.S. (U. St. A., '62), before being granted registration and licensure in the Royal College of Dental Surgeons of Ontario, be required to complete to the satisfaction of the Department of Prosthodontics of the Faculty of Dentistry a special course of not less than six weeks and, once having successfully completed this program, that he then be passed and be granted his licentiate of dental surgery when all remaining requirements have been met.

(d) *The Committee* regrets to report that

(i) Raymond Leon Braham, B.D.S. (Lond., '58) and

(ii) Samuel Anthony Nehra, B.S., D.D.S. (Det., '53)

failed to pass the licensing examinations.

11.

Application for Specialty Certification

(a) *An application for certification in periodontics* was received from Dr. Norton S. Taichman. The Committee recommends that Norton Stanley Taichman, D.D.S., Dip Perio (Harvard, '64), having met the requirements for certification in the specialty of periodontics, be granted such certification.

(b) *An application for certification in paedodontics* was received from Dr. Herbert W. Sorenson. The Committee recommends that when Herbert Wagner Sorenson, D.D.S., completes his essay requirement to the satisfaction of the Faculty of Dentistry he be granted his certification in paedodontics.

Action

3. The two officers of the R.C.D.C. whose transcripts were reviewed by the oral surgery consultants could be given credit for twenty months toward the thirty-two month requirement for certification in oral surgery.

Report adopted.

Report

Annual Meeting

1.

The Registration and Licensure Committee has attempted to resolve many problems of ever-increasing complexity during 1964.

2.

Those dentists from foreign lands not possessing a registrable qualification in this province, who have been allowed acceptance as interns in two Ontario hospitals, create a present problem. Although performing services acceptable to the hospitals concerned, essentially in the oral surgery field, there exists concern from this committee that the service appears to be irrational as to the baseline of registrable qualifications. Some other method, probably involving more undergraduate training in the fields in which their training is inadequate, appears to be essential before extension into this field is permissible.

3.

Since the Royal College of Dentists has been duly launched through Parliament, its early action will solve the vexing problem of the certification of specialists on a national basis. As such, modification of by-laws of all specialties would best await resolution through this agency to which the R.C.D.S. has offered support.

4.

Dr. R. L. Scott has been confirmed as a member of the Paedodontic section of the Liaison sub-committee, replacing Dr. Gordon Nikiforuk.

5.

Approval of courses in specialty training area must always contain a degree of flexibility. Both course content and course direction do not always represent a degree of competence required by the specialty concerned. It is, therefore, necessary to amend courses of study and institutions where these courses are

provided at frequent intervals. This duty is performed by the liaison sub-committees within the specialties. It is mandatory that acceptance of a course of study be approved by anyone contemplating embarking on a specialty training program who summarily wish to apply for certification in the Province of Ontario.

6.

Since the Spring Board Examinations occur on the 19, 20 and 21st of May, 1965, it will again be necessary for the committee to be granted the privilege of acceptance of successful candidates for registration when all remaining requirements have been met.

1916 Graduates — Listed on Register — Eligible for Life Membership Jan. 1, '66

Drs. G. D. Beierl
E. G. Berry
R. W. Blackwell
D. M. Boyd
T. D. Campbell
F. W. Canning
A. E. Cavanagh
C. R. Collard
J. J. Craig
L. R. Davison
F. M. Deans
J. E. E. Does

Drs. H. G. French
R. J. Godfrey
R. W. Hoffman
G. A. Lee
W. C. Leggett
K. McDowell
C. M. Porter

E. F. Whaley

Action

1. Report adopted
2. That the Registration and Licensure Committee review the Regulations for Specialty Certification.

Report

Annual Meeting

1.

Motion Adopted:

That the following, having been recommended for the Degree of Doctor of Dental Surgery from the Faculty of Dentistry of the University of Toronto, be registered as Licentiates of Dental Surgery of the Royal College of Dental Surgeons of Ontario when all remaining requirements have been met:

Adams, John Ronald
Anco, Ronald Stephen
Annis, Douglas Glenn
Atkins, George D'Arcy
Bartlow, William Ross
Bell, James Hyde
Bodrug, Wesley
Borris, Robert James
Brown, Gerald Robert
Chaytor, Brian Mervyn
Coakley, Michael John

Cohen, Donald Seymour
Cummins, James Thomas
Davison, James Kenneth
Delia, Ronald
Demptster, Archie Evans
Dodds, Gilbert Elwin
Ellis, Jack Hersh
Emmerton, Robert James
Evans, Glenn Wells
Farrell, Brian Michael
Farrow, Lawrence Edward

Fraser, Hugh Hazen Grieve
 Freeman, Eric
 Galante, Victor Anthony
 Gales, Gary Edward
 Gelfand, Martin
 Gilboe, Dennis Brien
 Girvin, John David
 Godfrey, Arthur
 Good, Ross Eldon
 Goode, Dickson Clark
 Goodman, Paul David
 Gosewich, Philip
 Haig, Donald Andrew
 Halip, Jack Walter
 Hanna, John Mark
 Harris, Sheldon Avrom
 Hartleib, Paul Charles
 Harvey, Hart Alexander
 Holmberg, Silver
 Holmes, Bradley Wescott
 Jack, William Hugh
 Jacks, Miss Pearl
 Jacobson, Kenneth Albert
 Johnson, Thomas Nelson
 Julian, William Garnet
 Kay, Melvyn Allan
 Kogon, Stanley Lawrence
 Kolton, Miss Olga
 Kucher, Kenneth James
 Kupsov, Allan Howard
 Langenholt, Erik
 Lees, James Alexander
 Lisson, Allen John
 Little, John Ross
 Little, Phillip Stephen
 Lubotta, Lawrence Anthony
 Luks, Eric
 Mattan, Frank Maurice
 McCue, Michael Lewis
 McEwen, Mendal Keith
 McLean, Edward Mervin
 Milne, David Stewart
 Misener, Howard Barton
 Monheit, Sonny Sheldon
 Mullaney, Robert S.
 Nash, Lawrence Wayne

Nolan, Daniel Roland
 Norman, David Louis A.
 Oliphant, Richard Gordon
 Paluch, Ronald Michael J.
 Paquin, Roger
 Quigley, Paul D'Arcy
 Ramage, William John
 Reynolds, James Morris
 Rival, Peter Daniel
 Rodney, Richard Norman
 Rose, Sheldon
 Ross, Alan Stephen
 Ross, Arthur Harry
 Ross, Stephen Zelman
 Santala, Arthur Edwin
 Sawa, Douglas Leonard
 Schaef, Lloyd Bruce
 Schwartz, Harvey Earl
 Segal, Percy
 Sharp, Donald Wayne
 Sielinski, Miss Alice
 Snihura, Nestor J.
 Somborac, Milan
 Somer, David Joel
 Spradbrow, John Ralf
 Stauffert, Hans Wilhelm
 Stephens, William Charles
 Stratton, William
 Sunohara, Paul Toyohara
 Tsafaroff, Julian Chris
 Tuch, Miss Lucie Helen
 Tukums, Zigurd
 Vierema, Miss Tuulikki S.
 Wakabayashi, Richard Hiro
 Wambera, Ivan Camil Maria
 Watt, James Armand
 Weir, Frederick David
 Williams, Thomas Alexander
 Wolburgh, Michael
 Wood, Mark Hiram
 Wozniuk, Peter Walter
 Wright, Reginald Arthur
 Wylie, Geoffrey John
 Zanier, Edward Michael
 Zemell, Jerry Harold

2.

Motion Adopted:

That the following, when they are recommended for the Degree of Doctor of Dental Surgery by the Faculty of Dentistry of the University of Toronto, be registered by the Registrar in the Royal College of Dental Surgeons of Ontario when all remaining requirements have been met:

Barth, Miss Hella Margaret

Bradley, Peter Charles

Cunningham, Peter John

Glave, William Alan

Zeck, William

Boston, John Albert

Combes, Barry George

Dmytruk, Bruno

Keane, William Douglas

Shadlyn, Robert Shane

3.

Application for Certification:

(a) Max Albert Listgarten, D.D.S. (U. of T., '59), Cert. Perio. (Harvard, '63), having met the requirements for specialization in periodontics, be recommended for certification when all additional requirements have been met.

(b) Harold Robert Bergman, D.D.S. (U. of T., '59), Dip. Oral Surg. (U. of T., '65), be granted his specialist certificate when all remaining requirements have been met.

THE GOVERNING BOARD OF DENTAL TECHNICIANS

BRIEF

To the Board of Directors of the Royal College of Dental Surgeons:

We beg to inform you of the seriousness of the situation that is confronting not only the laboratory industry, but the profession of Dentistry and the public as well. We solicit your advice, co-operation and support in initiating the necessary remedial measures. In the interest of brevity we are outlining the existing problem in point form:

- (1) The dental laboratory industry is indispensable to the profession of Dentistry. Our relationships in Ontario over the years have been most cordial and it is our wish that this situation should continue. We are striving to continually improve the quality of our services and strengthen the bonds of mutual understanding.
- (2) The expanding population of Ontario requires that approximately 20 - 25 well-qualified technicians be added to the roster annually. Following the war this deficiency was largely made up by technicians who were trained in Europe and had emigrated to Canada. This source of supply has virtually dried up and there is now grave difficulty in securing suitable trained technicians each year.
- (3) The apprenticeship method is a most unsatisfactory method of training dental technicians. There can be no uniformity of standards, as training will be governed, and limited, by the methods and background knowledge of the individual laboratories. This may be either good and progressive or deficient and reactionary, depending upon the background and attitudes of the individual laboratory.
- (4) Dental laboratories, in general, do not lend themselves to an apprenticeship type of training. Their services are invariably performed under heavy pressure to meet an immediate deadline. In such an atmosphere proper teaching is either difficult or impossible. The laboratory must keep itself solvent and there is little or no time for experimentation or research, which is as necessary in the dental laboratory, if there is to be progress, as in any other area.
- (5) In addition to the shortcomings indicated above, the present system is inequitable and unfair to the laboratories. Except for the apprenticeship system noted, there is no provision for the education of dental technicians. In an effort to upgrade the standards of those technicians, and certified technicians, the Board of Registered Technicians has rented space, provided instructors and conducted evening classes at their own personal expense. This is a load that the dental laboratories should not be expected to bear. Education in general is either paid for in full or subsidized from the public purse and we maintain that the education of dental technicians should be no exception.
- (6) *Adequate training is the first and most essential requisite for an efficient laboratory service.* It is ludicrous to set up standards and examinations for Registration when there is no training programme to bring the prospective technician to the required degree of proficiency. To do so, we believe, is

putting the cart before the horse, and has led to the present unsatisfactory situation between the American Dental Association and the National Association of Dental Laboratories in the United States. We draw your attention to the recent *address of Dr. Hillenbrand* to the Southern California Dental Laboratories Society, "*SOUND TRAINING IS MANDATORY.*" We should strive by all measures to prevent this situation, prevalent in the United States, from invading Ontario.

- (7) We call your attention to the Brief presented to the Ontario Legislature by the International Brotherhood of Railway Employees, requesting that dental mechanics be permitted to deal directly with the public. Since these efforts will doubtlessly be continued it is essential that the closest co-operation should be instituted to cement the presently existing relations between the R.C.D.S. and the G.B.D.T.
- (8) We direct your attention also to Bill #4 of the Ontario Legislature: "The Apprenticeship and Tradesman's Qualification Act, 1964," Section 18, Page 7, states — "The Lieutenant-Governor in Council may make regulations . . . (b) establishing an apprenticeship training programme for any trade or group of trades." Such programmes may be instituted when four or five individuals have so requested. The dangers of the situation should be obvious to everyone. If an apprenticeship training programme for dental technicians was established under the aegis of the Department of Labour, all control over the programme would be lost, both by the R.C.D.S. and the G.B.D.T. There could be no direction either for standards or the numbers educated. In the event of an excessive number being graduated, with insufficient training, there could be but one result: Because of their inadequacy in technical proficiency they would fail as technicians and could possibly turn to augment their income through illegal practice. It is a matter of pressing urgency to see that this does not occur.
- (9) We are convinced that the best possible facilities and training for dental technicians could be provided in the laboratories of the Faculty of Dentistry, at the University of Toronto. This would require governmental sanction, adequate subsidization, and the waiving of the Grade 13 entrance requirement. Dr. H. Mercer has had cordial preliminary conversations with Dean Ellis, and believes that such a solution has much to recommend it and is a reasonable solution to a serious problem. This programme to be developed as a joint project of the Royal College of Dental Surgeons and the Governing Board of Dental Technicians, employing the use of the Staff of the Faculty of Dentistry for lectures and training, also Technical Staff R.D.T.'s recommended by the Governing Board of Dental Technicians, and that nothing in this programme shall alter or affect the application of any provisions of the Dentistry Act or the Dental Technicians Act, or alter or affect the application of any Regulations or By-laws of either Act made thereunder.
- (10) If such a programme were instituted, the embryo technician could provide valuable services for the Faculty in the latter stages of his training. They could process clinical cases for the dental students under the design and prescription of the dental departments. This would give the student adequate training in this field. It would also tend to proper co-operation between the two groups. The technician would realize the scientific and biologic knowledge that is necessary to practice Dentistry and the dental student would realize the intricacy and delicacy of the technical services that are available to him. Such appreciation would be in the best interests

of both groups. In addition, the cases thus processed would mean a substantial saving in the Faculty expenditures for laboratory services.

In view of the urgency of the matter, we respectfully request that this Brief be given a place of high priority on the Agenda of the next meeting of the Board of Directors of The Royal College of Dental Surgeons; that provision be made to receive a delegation from the Board of Registered Technicians and that adequate time is allotted for a full discussion.

We are convinced that our request for enabling action should be made directly to proper authorities. *We are not asking that a precedent be established.* Programmes along similar lines are already being conducted with the financial assistance of the Legislature. The Nightingale School of Nursing is a case in point. Conversations with sitting Members of the Legislature lead us to believe that a well-presented Brief would be sympathetically received.

We therefore request that the Board of Directors of the Royal College of Dental Surgeons appoint four of its Members to act, along with Dr. H. Mercer and Messrs. Posen, Wood and Goodall, as a Joint Committee to make the necessary representations for the implementation of the suggestions of this Brief. We reaffirm that the situation is urgent.

Respectfully submitted,

E. VOWLES, Chairman;

S. P. SWEET, Vice-Chairman;

J. D. LEY, Secretary-Treasurer;

J. WYATT, Member;

Dr. H. MERCER, Member;

C. R. GOODALL, Secretary, Governing Board of
Dental Technicians.

Action

Agreement, generally, with paragraphs 1 - 8.

The secretary, in respect of sections 9 and 10, reported on a meeting in November, 1964, with President Claude Bissell of the University of Toronto. Dean Ellis, Dr. Purves and the secretary met with the President to acquaint him with the fact that dentistry did not enjoy facilities similar to those in public general hospitals wherein it is possible to conduct training programs for a broad spectrum of medical technological personnel. The only equivalent is the clinic of a dental school. Therefore the hope was expressed that it might be possible to utilize the faculty to provide the necessary physical accommodation for a program for dental technicians. Because of strict university admission requirements, however, it was obvious that there could be no enrolment as students. The President did agree that it would be possible to incorporate within the Faculty budget a sum sufficient to pay a small stipend to persons interested in learning this vocation while being employed somewhat like an apprentice by the Faculty. It is apparent that no more than six persons could be so employed — two, perhaps, in each of three years or three in each of two years. The representatives of the Governing Board expressed the view that the physical facilities of their

own laboratory, where eighteen people could be accommodated, could be employed in conjunction with such a development at the Faculty. There was a consensus that the matter required additional investigation and there was a need to proceed forthwith.

President Bruce appointed Drs. J. D. Purves, R. L. Twible, E. Downton and W. D. McKay to act with the four appointees of the Governing Board of Dental Technicians to investigate and recommend on the establishment of a training program for Dental Technicians.

THE COMMITTEE FOR THE ESTABLISHMENT OF A SCHOOL FOR DENTAL TECHNICIANS

Members: Dr. J. D. Purves, Chairman; Mr. H. Posen, Mr. W. Wood, Mr. C.. Goodall, Dr. H. Mercer, Dr. E. Downton, Dr. W. MacKay, Dr. R. L. Twible and Dr. K. F. Pownall.

Report

Annual Meeting

On Tuesday, March 2nd, there appeared in the Toronto Daily Star on Page 1 an article headlined "New Colleges Planned for Thirty Ontario Cities." It stated that a report presented to the Minister of Education on October 26, 1964, by the Committee of Presidents of Provincial Universities recommended, among other things, the establishment in community colleges of training facilities for dental technicians.

The Secretary wrote the Honourable W. G. Davis asking for the opportunity of discussing this matter with someone in the department before more plans were made along these lines.

As a result of this letter Mr. E. L. Palin, Assistant Director of the Technological and Trades Training Branch, phoned and asked if he could meet with the R.C.D.S. to discuss the matter further.

Dr. J. D. Purves and the Secretary met with Mr. E. L. Palin in his office at 44 Eglinton Avenue West, Friday, March 19th, 1965, at 9:30 a.m.

Mr. Palin and his associates welcomed the idea of a school for dental technicians in Ontario and pledged the full support of the branch in its establishment. They wished the course to be the best in Canada and would arrange space and the finest equipment available. Three consultants were called in and no problem could be seen once the space was found and utilities constructed. Mr. D. Judd and Mr. H. A. Constable, training specialists of the branch, met with our committee on Thursday, March 25, at 8:15 p.m. to discuss this matter further.

Mr. D. Judd expressed the willingness of the Branch to co-operate in every way possible. He explained the level that he thought the course might take as post Grade XII at a vocational centre. Most courses of a similar nature are of two years' duration but this could be three years if necessary. The percentage of academic training to technological training could be calculated by a special committee on curriculum at a later date. Mr. Judd reported that the availability of space in order to have the course in operation by the fall was doubtful; however, they would try. Messrs. Judd and Constable answered many questions. They informed the Secretary that they would get in contact with us when they had discussed the matter with their superiors.

Action

1. Report adopted.

Report

Fall Meeting

During September, October, and November, 1964, twenty-eight local dental societies in Ontario held meetings to discuss the proposals contained in the Woods, Gordon report. Resolutions were *not* received from:

- (1) Cornwall Dental Society
- (2) Kirkland Lake Dental Society
- (3) Lambton County Dental Society
- (4) Niagara Falls Dental Society
(Niagara Peninsula Dental Association replied)
- (5) Oxford County Dental Society
- (6) Porcupine Dental Association
- (7) Sault Ste. Marie Dental Society

In a sentence it can be stated that all of the 27 societies reporting at least agreed *in principle* with the report. An overwhelming majority of the societies' member-dentists were recorded in the affirmative.

It is difficult, if not impossible, in limited space to report on the resolutions submitted. The Boards are aware of the draft resolution which the meeting of the local society representatives last May requested the Liaison Committee to develop and forward for membership consideration. The following societies voted affirmatively for this resolution (numbered 1 for reference purposes).

(1) Bay of Quinte —	19 for,	0 against,	1 abstention (retired)
(2) Brant County —	for,	against,	abstentions
(3) Brockville —	7 for,	0 against,	0 abstentions
(4) Elgin —	8 for,	0 against,	0 abstentions
(5) Greater St. Catharines —	26 for,	0 against,	0 abstentions
(6) Grey-Bruce-Dufferin —	15 for,	0 against,	1 abstention
(7) Halton-Peel —	23 for,	0 against,	3 abstentions
(8) Kenora-Rainy River —	11 for,	0 against,	1 abstention
(9) Kent County —	12 for,	0 against,	0 abstentions
(10) Kingston & District —	14 for,	0 against,	0 abstentions
(11) Niagara Peninsula —	26 for,	0 against,	3 abstentions
(12) North Bay —	10 for,	0 against,	0 abstentions (Additional motions submitted)
(13) Ottawa —	59 for,	1 against,	0 abstentions
(14) Peterborough & Dist. —	20 for,	0 against,	0 abstentions
(15) Renfrew County —	12 for,	0 against,	0 abstentions
(16) Thunder Bay —	22 for,	0 against,	0 abstentions
(17) Rideau District Dental Society			
(Central Toronto — a district society within Toronto Academy of Dentistry — 47 for, 22 against, 11 abstentions. Deleted word 'generally' from resolving clause.)			

A second resolution (numbered 2 for reference purposes) adopted by several societies, is typified in the resolution adopted by the West Toronto Dental Society (a district society within the structure of the Academy of Dentistry, Toronto).

"The members of the.....(name of society).....at an officially-called and duly-constituted meeting held on ...(date)... hereby express their affirmation of the eleven major recommendations of the Woods, Gordon report as enunciated on pages 10 and 11 of the April issue of the Ontario Dental Journal and hereby direct the Liaison Committee of the R.C.D.S. and the O.D.A. to proceed forthwith with the creation of a draft (provisional) constitution to be presented for the study, discussion, and approval of the local dental societies throughout Ontario at the earliest possible opportunity."

The following societies voted affirmatively for resolution #2 or one very similar to it:

(1) Essex County —	for,	0 against,	0 abstentions
(2) Hamilton Academy —	for,	against,	abstentions
(3) Inter-County —	for,	0 against,	0 abstentions
(4) Norfolk County —	for,	against,	abstentions
(5) Toronto Academy			
West —	62 for,	0 against,	0 abstentions
North —	for,	0 against,	0 abstentions
East —	48 for,	0 against,	0 abstentions

In addition:

(1) Essex County proposed (a) 'that the Liaison Committee set up a Constitution Committee to consist of at least one representative from each local dental society with further representation on this committee in proportion to the size of each society.' (b) 'that consideration be given to mandatory membership in the O.D.A. as one means of strengthening the O.D.A.'

(2) Hamilton Academy adopted resolution (a) above.

Several societies presented resolutions similar to #1 and #2 above but with relatively minor variations.

(1) Durham-Ontario — resolving clause similar to #2 except specific reference to eleven major recommendations deleted and affirmation in principle only. Recommended substitution of "mainly" for "solely" in recommendation 1, agreed that D.L.P.A. should be available for all dentists in Ontario irrespective of O.D.A. membership, and suggested that the proposal for the restriction on number of consecutive terms be given careful consideration.

29 for, 0 against, 0 abstentions

(2) Muskoka-Simcoe — affirmed, in principle, the recommendations of the report and requested proceeding to a draft constitution to be referred to local societies for discussion and approval. ,

30 for, 4 against, 0 abstentions

(3) Stratford — expressed appreciation of C.D.A., recognized the necessity of a strong national body, recognized the value of a stronger provincial association, recognized that many areas of the Woods, Gordon report require more complete discussions and negotiations between the Liaison Committee and society members, approved report in principle and recommended development of a draft constitution for local society study.

8 for, 0 against, 0 abstentions

(4) Sudbury — 'Whereas' clauses similar to Resolution #1 and resolving clause seeks development of a draft constitution for the study, discussion, and approval of the local dental societies.

18 for, 0 against, 0 abstentions

(5) Wingham and District — recommended implementation of Report as amended by Society after draft constitution being approved by the local society. Of the 11 major recommendations the society agreed with 1, 3, 4, 5, 6, 7, and 8.

Rec. 2 — add 'with additional concern being given to relocation of insurance.'

Rec. 9 — add 'having full regard for 'Principles to Guide a Dental Organization in Providing Insurance for its Membership.''

Rec. 10 — add "on retirement, an associate membership be available in the O.D.A. at a nominal fee, and insurance remain in effect."

Rec. 11 — delete entire section and replace it with: "The D.L.P.A. shall remain within the jurisdiction of the R.C.D.S."

16 for, 0 against, 0 abstentions

One resolution was significantly different from all the rest and is herein reported in its entirety:

(1) London and District —

Whereas the members of the London and District Dental Society at an officially-called and duly-constituted meeting held on the 24th of October, 1964, carefully considered and deliberated upon (1) the Woods, Gordon Report on the reorganization of dentistry in Ontario and (2) the information contained in the Special Supplement of the June, 1964, R.C.D.S. Newsletter, and

Whereas it is the desire of the members of the London and District Dental Society to have created an organizational structure for dentistry in Ontario which, *in principle*, is consistent with the recommendations of the Woods, Gordon Report, and,

Whereas, this Society is cognizant and appreciative of the many past achievements of the C.D.A. and, not wishing to weaken our national body by precipitous action which may produce an immature Corporate Member unable at any time to meet a traditional commitment, and

Whereas it is recognized that the Woods, Gordon Report is not a perfect document and that many areas of the Report require more complete discussion and enlightened negotiations, and

Whereas it is equally recognized that the Liaison Committee must have support on basic concepts prior to such complete discussions,

THEREFORE BE IT RESOLVED.

That the membership of the London and District Dental Society is in favour of:

- 1) The transfer of duties and areas of responsibility respecting the R.C.D.S. and the O.D.A., generally as outlined in the Woods, Gordon Report.
- 2) The O.D.A. becoming the Corporate Member for Ontario of the C.D.A.
- 3) The reorganization of the O.D.A. to achieve a more democratic representation of dentists in the governing body.
- 4) A more complete report from the Liaison Committee relating to specific details of implementation.

44 for, 11 against, 2 abstentions

Dentists' Legal Protective Association

The following societies adopted specific resolutions or made specific recommendations in support of the position taken by the D.L.P.A. Executive:

- (1) Bay of Quinte
- (2) Durham-Ontario
- (3) Grey-Bruce-Dufferin
- (4) Halton-Peel
- (5) Ottawa Dental Society
- (6) Thunder Bay
- (7) Wingham and District

Two additional recommendations were offered by one society.

- (1) North Bay Dental Society

(a) That the fee necessary to operate the O.D.A., the C.D.A. and the local societies be paid to the C.D.A. and thereafter proportioned to the O.D.A. and the various district societies.

(b) That a maximum time limit be set for the working out of all details of the new organizational structure which will be presented to each local society for approval before November 10, 1965.

Action

The eleven major individual recommendations were reviewed and comments were made in respect to them for the guidance of the R.C.D.S. representatives to the R.C.D.S.-O.D.A. Liaison Committee:

1. The R.C.D.S. should concern itself solely with activities related to the training, examination, licensing, certification and regulation of the Profession.

Comment: It is impossible for the R.C.D.S. or the O.D.A. to concern itself "solely" with any particular facet or concern. There are and will be overlapping areas of interest and responsibility.

2. The O.D.A. should take over all other activities in which the R.C.D.S. is presently engaged.
3. The O.D.A. should become the Corporate Member of the C.D.A.

Comment: It is assumed that such transference of responsibility would take place only after the capability of the O.D.A. to assume it was established.

4. Local Societies should be invited to become branches of the O.D.A.
5. The O.D.A. should establish a Council whose members are the elected representatives of the branches.

Comment: There are reservations in respect of the size of the Council which would thereby be created.

6. The present Board of Governors of the O.D.A. should be discontinued and replaced by an Executive Board elected by the Council.
7. The Council should elect the Ontario Governors of the C.D.A.

Comment: For clarification, recommendation #7 is meant to apply when the O.D.A. becomes the Corporate Member.

8. There should be restrictions on the number of consecutive terms which can be served by members of the Boards of the R.C.D.S. and O.D.A., by members of the O.D.A. Council, and by the Ontario Governors of the C.D.A. These terms are specified in our report.

Comment: In respect to the R.C.D.S. at least, the Board disagrees with recommendation #8. Such factors as resignations, illness, death, and defeat during elections all have a bearing on continuity. Because of the legalistic nature of the work of the Board, because of the necessity of acquiring a broad and comprehensive knowledge and understanding of a vast volume of background or resource information the three term limitation would not serve the best interests of the College.

9. The O.D.A. should take over the responsibilities of the R.C.D.S. in connection with all matters concerning insurance.
10. Only members of the O.D.A. should participate in insurance and other benefits administered or offered by the C.D.S.P.I. or the C.D.A.
11. The O.D.A. should make the annual grant to the D.L.P.A., and the Secretary of the O.D.A. should be the Secretary of the D.L.P.A., replacing the participation of the R.C.D.S. in each case. Only members of the O.D.A. should receive the services of D.L.P.A.

Comment: The Board unanimously supports the resolution adopted in May, 1964, by the Dentists' Legal Protective Association of Ontario and therefore disagrees with recommendation #11.

R.C.D.S.-O.D.A. Liaison Committee was requested to proceed to develop a draft constitution for the Ontario Dental Association.

Report**Annual Meeting**

1.

Revenue and Expenditures — 1964

The excess of revenue over expenditures was not as favourable as the previous year. Revenue for 1964 totalled \$231,895 and expenditures, \$213,878 giving an excess of revenue of \$18,017. In 1963, this figure was \$27,805.

From a budgetary standpoint actual revenue exceeded budget by \$5,963 and the actual expenditures were \$9,849 less.

(a) *Revenue* — The major source of income from which revenue beyond budget was derived was from licence fees. Budgeting in this area was extremely conservative.

Interest on short term certificates was credited on January 11, 1965, in the amount of \$3,178.76. As was stated last year the finances of the College are not on an accrual basis and it is therefore not necessary to journalize this amount. Cognizance, however, should be given to this in establishing the following year's budget.

(b) *Expenditures* — Again almost all items of expenditure were equal to or less than budget. In only four areas were there any significant over-expenditures.

- (i) *Property maintenance* — it was realized at the Annual Meeting in the spring of 1964 that the \$2500 provision would be inadequate in the face of the Property Committee's approved recommendation to replace certain floor coverings. Thus an additional expenditure was authorized at that time.
- (ii) *Enforcing the Act* — the additional sum of \$502 beyond budget simply reflects additional activity in respect of this area of concern. This is an item for which it is extremely difficult to budget as there are great fluctuations in activities which appear to contravene the Act.
- (iii) *Library assistance* — the Board has an agreement with the University of Toronto that it will support to the extent of one-half, the salary of an assistant-librarian. This arrangement was established when the Harry R. Abbott Memorial Library of the School of Dentistry of the R.C.D.S. was incorporated with the Library of the Faculty of Dentistry. Depending upon the training and experience of the assistant-librarian and in view of the relatively frequent changes in personnel this amount is difficult to determine with any degree of exactitude.
- (iv) *C.D.A. Grant* — this figure is tied directly to R.C.D.S. Membership — active, inactive, and life. The formula approved at the Annual Meeting of the Board in 1963 is the basis for arriving at this amount. The additional \$1,408 simply reflects the higher R.C.D.S. membership.

2.

Bond Holdings

The Auditors' statement shows no change from 1963 in the Bond Holdings of the Board except that the Market Value has increased by \$1,180. However, at its November 1964 meeting the Board did authorize the sale of \$5,000 Ontario

Hydro Bonds — 2³/₄%, due April 1, 1967 and the re-investment of the proceeds in securities yielding a higher return. As this transaction was not completed in fiscal 1964 it will not be until the issuance of the Auditors' Statement for the year 1965 that this matter will be reflected.

3.
All Members in Good Standing

It is a pleasure to report, for the first time in several years, that all members were in good standing prior to the end of 1964. However, it continues as a source of some perplexity that three or four members every year permit their inattention to the legal requirement of remitting an annual licence fee to result in the necessity of entering such amounts in Division Court for collection. Quite apart from the considerable inconvenience to which such members are put the additional costs of issuing a draft and applying the statutory penalty, and those which apply to a Division Court action are considerable.

4.
Auditors' Report

The Auditors' Report, consisting of the Balance Sheet and Government and Guaranteed Bonds, is attached. The firm of Thorne, Mulholland, Howson, and McPherson is recommended for re-appointment as auditors for 1965.

Action

- 1. Thorne, Mulholland, Howson and MacPherson be appointed auditors for 1965.
- 2. Report adopted.

AUDITORS' REPORT

To the Directors of the Royal College of Dental Surgeons of Ontario:

In accordance with your instructions and the recommendations adopted by you at your 1960 fall meeting, we have examined the accounts and records of the Royal College of Dental Surgeons of Ontario for the year ended December 31, 1964 and the balance sheet of the College as at that date. Our examination included a general view of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion the accompanying balance sheet presents fairly the financial position of the College as at December 31, 1964, on a basis consistent with that of the preceding year.

Toronto, Canada,
March 9, 1965

WORKMEN'S COMPENSATION BOARD

Consultant: Dr. T. R. Marshall.

Report

Annual Meeting

1.

In the year under review a number of matters are brought to your attention that may be of interest to the profession.

Your Consultant reported to you a year ago that an increasing number of dentists were complaining that the Workmen's Compensation Board current Schedule of Fees was inadequate for good service. It was expected that the Ontario Dental Association would soon have a new Schedule which would have general application and that there would be one Schedule for Ontario. However, it was discovered that it would be some time before the Schedule would be available, and indeed, it is still in the Committee stage.

This situation was reported to representatives of the Workmen's Compensation Board. In due course it was suggested to your Consultant that the Board was desirous of maintaining the profession's co-operation, and if the Fee Schedule was out of line, perhaps an interim revision would be considered favourably by the Board. In consultation with Dr. Dunn, he suggested your Consultant prepare some revision more in keeping with present day dental fees. This was done and became effective September 1, 1964. Professional reaction to the Schedule has been good.

In 1964 there were 929 dentists who served beneficiaries of the Board and these were paid \$115,606 for their services. It should be noted that more dentists participated in 1963 but slightly less was paid out. For the most part payments were made under the 1962 Schedule.

2.

The complaint of delay in processing claims still exists and dentists are irritated that they must wait until their treatment plan is authorized before proceeding. It should be mentioned here that the Board maintains an active staff to devise ways and means of speeding up its service. For example, on September 1, 1964, a pad of dental report forms, together with a letter from Dr. Dunn, was mailed to every dentist in Ontario at his or her last known address. These forms were to be used for examination and report on dental injuries from an accident and forwarded to the Board immediately. It is amazing how few dentists remember receiving these forms, or if they did, do not know where they are. Further, at the request of the Medical Aid Department, your Consultant has spent increasingly more time at the Board's work than the half day arranged last year. A further point might be mentioned. If each dentist would give a complete report of oral conditions prior to accidental injury, describe the injuries in detail after a good examination of oral structures, and set forth his plan of treatment such that the claim could be assessed on information provided, then processing the claim could be speeded up.

It is difficult to appraise an increasingly common claim where a workman gets a bump and the Board gets a report like this — "Upper denture fractured beyond repair — a new denture needed — \$90 plus examination — \$5 . . ." When this

report is compared with other reports of the accident, the assessor wonders how the denture could be fractured so badly without evidence of oral injury. Further, is the examination worth \$5?

3.

A matter which perhaps has not been brought to your attention is that the Board maintains the right to control treatment. Much could be stated pro and con but it is summed up pretty well in the workman's right to *continuing entitlement* for service needed as a result of accidental injury or industrial disease. It is the Board's desire to have its beneficiaries receive good orthodox treatment as the commonly accepted practice of the day. Where failures occur under such circumstances the beneficiary is entitled to further necessary service. The Board's officers are constantly alerted to pick up recommended services for which the beneficiary is not entitled to and treatment proposals where success and satisfaction is questionable.

For example, on occasion a dentist is pressured into submitting a plan of treatment that the patient wants and is really against the dentist's better judgement. Your Consultant is expected to intercept such plans and discuss same with the dentist concerned who nearly always admits he sent in the treatment plan because the patient wanted him to. If necessary, the Board reserves the right to have a patient consult with a dentist of its choice before authorizing treatment. The purpose of treatment control is to arrange for proper treatment to which the beneficiary is entitled within the terms of the Workmen's Compensation Act.

There are certain conditions that limit this continuing entitlement to service such as the following three examples:

(1) A beneficiary having one or more missing teeth prior to his accident and having these teeth restored by the appliance used to restore teeth lost as a result of accident injury. This restoration usually would complete entitlement.

(2) Again a beneficiary has severe periodontal disease and bumps a tooth which becomes sore and extraction becomes necessary. The dentist reports all the teeth are so badly diseased that they should be removed — a bridge or partial denture is not indicated. The Board will allow extraction of remaining teeth in the arch or arches where the injury occurred and supply a complete denture. This completes entitlement; any relining or refitting becomes the responsibility of the workman.

(3) Again if a workman insisted on a plan of treatment contrary to orthodox and accepted treatment, some compensation would be allowed on basis of accepted practice and this would likely complete entitlement to further service.

4.

There are a few matters that have been reported to your Board before but because they keep coming up, they are brought to your attention again.

(1) A dentist who accepts a beneficiary of the Board as a patient must not proceed beyond emergency service without the Board's authorization.

(2) It is understood that a dentist who undertakes services for a beneficiary of the Board, accepts the Board's Schedule of Fees for those services. Further supplementary fees cannot be accepted from the patient according to the Workmen's Compensation Act.

(3) There is a Board regulation in regard to surgical procedures under general anaesthesia. The operating dental surgeon cannot collect a fee for surgical

service and for administration of general anaesthetic at the same time. The surgical fee is allowed plus an allowance for general anaesthetic facilities.

(4) In the treatment of traumatized anterior teeth (which is one of the most frequent injuries resulting from accidents) with a jacket crown restoration, the Board requests conservative procedures. It is recommended that the exposed dentine be protected and a provisional metallic or quick cure plastic crown be placed on the tooth and the permanent crown be delayed for three months. This policy has been adopted by the Board because of frequent pulp mortality in the first three month period. It would be appreciated if dentists would adopt this practice in Compensation cases.

5.

In concluding this Report, it must be apparent to members of this Board that some of the items are repeated. Your Consultant has made himself available as needed in any capacity to promote co-operation between the Board and the profession in the interests of good dental service. Relations generally have been good; the new interim Fee Schedule seems to have been received with satisfaction. The utmost cordiality exists between your Consultant and the Board staff.

Action

1. The Board expressed their appreciation to Dr. T. R. Marshall for his tireless efforts throughout the year.
2. Dr. T. R. Marshall be reappointed Consultant to the Workmen's Compensation Board.
3. Report adopted.

Fall Meeting

Aptitude Testing and Personal Interviews Recommended

Both the Dental Public Health Committee of The Ontario Dental Association and the Ontario Dental Public Health Council made separate recommendations to the Board to encourage the Faculty of Dentistry to include aptitude testing and personal interviews in respect of the selection of students. As this had been a previous position taken by the Board, the Board simply reiterated its recommendation that a suitable aptitude testing program along with a personal interview be instituted in facilitating the selection of prospective students for dentistry. This recommendation was duly referred to the Faculty.

Bill 163 — An Act Respecting Medical Services Insurance

The Board directed that a letter be sent to every member of the Ontario Legislature enclosing a copy of the Brief presented to the Committee of Enquiry dealing with the Act respecting Medical Services Insurance. This letter and its enclosure were mailed to each M.L.A. on December 21st. The Board strongly recorded its opposition to the enactment of Bill 163 at least in the form in which it had received Second Reading.

Canadian Fund for Dental Education

The Board received a letter of appreciation from Mr. Kenneth L. Croft, the Secretary of the Canadian Fund for Dental Education, for the memorial grant of \$500.

Centennial Convention — 1967

The Board, wishing to contribute to the special emphasis to be placed upon the 1967 O.D.A.-C.D.A. Convention which will celebrate the 100th anniversary of the organization of dentistry in Canada made provision for a grant of unstated amount to the 1967 Convention Committee providing that a matching grant is made by the C.D.A. and O.D.A. and that the Fund so created be utilized to defray any deficit which may be incurred in the operation of this Convention. The contribution of each organization is to be assessed on an equal basis and if there is any unused portion of the grant that such portion be returned to each organization in equal amounts.

Coroner Requests Inscribing Dentures

A request was received from Dr. Morton Shulman, Chief Coroner of Metropolitan Toronto, that the Board recommend to Ontario dentists that artificial dentures be inscribed with the names of the patients to assist in the identification of bodies. Several dentists in Ontario are already following this procedure. The Board approved the suggestion and directed that notice of this request should appear in the *Newsletter*.

Dentist Restored to Register

During the November, 1963, meeting of the Board, the name of Dr. H. G. M. Ayre was stricken from the Register of the College. Dr. Ayre's petition for reinstatement was accepted and following satisfaction of the financial obligations involved his name was restored to the Active Register.

Discipline Committee Summons Five Dentists

The Board expressed deep concern with the apparent increase in the number of complaints being received in respect of either services or conduct of member-dentists. Accordingly, it was decided that the Discipline Committee should meet regularly and that rather than the Secretary bringing to the attention of members infractions of The Dentistry Act and its by-laws, the dentists be summoned to appear before a regular meeting of the Committee to answer for their conduct. Specifically, the Discipline Committee was requested to summon five dentists before it to deal with allegations of improper conduct in a professional respect. The Discipline Committee met on December 12th with the dentists involved and has warned each of them that any further infractions will result in an Official Hearing before the Committee.

Dorinda Tully Estate

Mr. O. E. Whitehead, Estates Officer, Canada Trust Huron and Erie, reported the position of the Dorinda Tully Estate for the twelve month period ending July 31, 1964. In comparing this statement with that of August 1, 1963, it may be noted that the total value of the Trust has increased by approximately \$1,600. The value of the estate on July 31, 1964, was as follows:

Bonds and Debentures	\$10,030.00
Stocks — Preferred	3,606.25
— Common	5,625.00
Cash on Hand	277.51
Total	\$19,538.76

Dr. J. G. Dale, Harry R. Abbott, Librarian

Following Dr. J. H. Johnson's retirement and as a consequence of Dr. J. G. Dale's appointment as Honorary Librarian and Curator of the Dental Museum of the Faculty of Dentistry, he was confirmed in the position of Librarian of the Harry R. Abbott Library. The R.C.D.S. Board, acting as trustees of the Dorinda Tully Estate financially supports the H.R.A. Memorial Library.

Dr. Michell Replaces Secretary on R.C.D.S. - O.D.A. Liaison Committee

Dr. Ralph Michell, R.C.D.S. Director from District No. 7, was appointed by the Board to replace the Secretary on the R.C.D.S.-O.D.A. Liaison Committee.

Life Membership

Through a clerical error the name of Dr. James William McDonald was omitted from the list of 1915 registrants which appeared in the annual report of the Registrar-Secretary which was presented to the Board in April, 1964. The Board granted Life Membership to Dr. McDonald commencing January 1, 1965.

Minister of Health Meets With Board

The Minister of Health of Ontario is an ex-officio member of the Board of Directors. It was a privilege to have the Honourable Dr. M. B. Dymond attend one-half day of the Board meeting. Many subjects, including dental education, employment of auxiliary personnel, and prepayment plans were discussed with him. In addition, the Minister was able to contribute to the discussion of several reports having particular pertinence to his office.

N.D.E.B. Commissioner Meets With Board

Dr. Malcolm Taylor, President of the University of Victoria, accepted the appointment of the National Dental Examining Board of Canada to act as a Commissioner to study the role and the functions of the N.D.E.B. The views of the Board were sought and two areas in particular were enunciated. The Board reiterated its belief that the N.D.E.B. should, now that all Canadian dental schools at present graduating students have been approved, enter into conjoint examinations with such schools, rather than requiring a separate set of written examinations. In addition, it was recommended that the N.D.E.B. accept for examination any candidate for whom a provincial licencing authority is prepared to provide an enabling certificate. At present, a candidate with a registrable qualification although not a graduate of a Canadian or a United States approved school does not have access to the examination facility of the N.D.E.B.

Northern Alberta Institute of Technology

The services of the R.C.D.S. to address envelopes for the purpose of mailing a brochure to the dental profession in Ontario were requested by the Northern Alberta Institute of Technology. The mailing, it was stated, was to provide information in respect of the Institute's courses in Dental Assisting and in Dental Technology but not for its course for Dental Mechanics. The Board regretted that it could not assume responsibility for this service.

O.D.A. Seeks Recognition of Endodontics As a Specialty

The Board gave consideration to a resolution from The Ontario Dental Association which recommends that the R.C.D.S. Board give consideration to recognizing endodontics as a specialty. As a matter of policy, the Board has agreed that it will, in the future, recognize only those specialties recognized by the Canadian Dental Association. At the present time, the C.D.A. accords such recognition to oral surgery, orthodontics, and periodontics. In Ontario, paedodontics and dental public health are also certifiable.

R.C.D.S. Awards Prizes and Scholarships

The Board was pleased to learn that the winners of the James Branston Wilmott Scholarships for the academic session 1963-1964 were, in the first year, Mrs. I. Puryj and in the second year, Mr. R. D. Bevridge. The Board makes an annual grant of three hundred dollars to support these two scholarships. The winner of the R.C.D.S. Admissions Scholarship for the 1964-1965 academic session was Mr. T. M. Grosberg. This award is in the amount of six hundred dollars.

Retirement of Dr. A. H. Leckie and Dr. D. J. Ferguson

The president expressed the deep and sincere appreciation of the Board and the profession for the outstanding services rendered by Dr. Leckie and Dr. Ferguson. He regretted that each had decided not to stand for election this year. Because of the five terms he so auspiciously served, one of them as President, the Directors in token of their personal esteem and appreciation made a presentation to Dr. Leckie. Dr. J. P. Coupland made this presentation. Dr. Leckie, in his turn, expressed his thanks and appreciation and stated that it had been a most rewarding experience to meet and work with the various Directors of the Board.

Resignation of Registrar-Secretary-Treasurer

The November 20th letter of resignation of the Secretary was read officially into the Minutes. A portion of this letter follows:

Since being privileged to receive the appointment of Associate Secretary of the Royal College of Dental Surgeons of Ontario in September, 1955, and then becoming its Registrar-Secretary-Treasurer in 1956, I have had many difficult decisions to make. None, however, has ever presented for consideration as many factors and facets as the decision to which I have recently come. It is with profoundly mixed feelings, therefore, that I now submit to you my resignation from the positions which it has been my privilege to hold. I have, on the invitation of the President and Board of Governors of the University of Western Ontario, accepted the post of Dean of that University's Faculty of Dentistry.

To say that this has been a difficult decision would be a gross understatement. I cannot look in retrospect upon nine years of pleasant and fruitful association with Directors both present and past without being eternally grateful for this Board's initial and continuing confidence which has permitted me to serve, however inadequately, as its executive officer.

The years have passed quickly. While from week to week one is not particularly conscious of progress such is more readily apparent when one reviews the *Annual Proceedings* which offer dramatic evidence that Boards of Directors have conscientiously and competently discharged the important function of the offices to which the members of the profession have elected them. It has been a rewarding experience for me to have had a modest share in these developments. . . .

It is my sincere and most heartfelt wish that the future of the Royal College of Dental Surgeons of Ontario will hold a full measure of the hopes and aspirations each of us has for it. I am heartened by the fact that the affinity between the statutory authority and the educational institution of our profession is such that there cannot help, in the years which lie ahead, but be a continuation of the close and co-operative relationship which has so characterized our association for almost a decade.

May I wish for my successor the same rewarding experiences in office that have been mine to enjoy and for this Board and those which will succeed it, that they may measure in achievement the potentialities they possess.

The President, most graciously, conveyed to the Secretary the sincere good wishes of the Board.

Salaries of Dental Assistants and Dental Hygienists

The Board from time to time has seen the need for factual information in respect of salaries of dental assistants and dental hygienists. The Board, itself, was requested to conduct a survey to ascertain this information for the province of Ontario. Feeling that there might be merit in establishing this information on a national basis, the Board requested the Canadian Dental Association to consider the undertaking of this project.

Select Committee On Aging

A Select Committee On Aging was established by the Ontario Legislature on May 8th, 1964. In view of the desirability of the Ontario dental profession making some submission it was agreed that the excellent Brief prepared by

the Canadian Dental Association on this subject for presentation to the Committee On Aging of the Senate of Canada be employed for the purpose with an appropriate accompanying letter of explanation.

Selection Committee for Appointment of Registrar-Secretary-Treasurer

A Selection Committee comprising the President, Dr. W. G. Bruce, and Doctors H. M. Jolley and J. D. Purves was appointed for the purpose of reviewing applications and recommending to the Board possible successors for the position of Registrar-Secretary-Treasurer. In this respect the Committee was directed to communicate with each R.C.D.S. Licentiate and place an advertisement in both the O.D.A. and C.D.A. Journals.

Three Dentists Interviewed

The Board resolved itself into a Committee of the Whole under the Chairmanship of the Chairman of the Discipline Committee on three occasions during the course of the Fall Board Meeting. Three members of the profession had been invited to meet with the Board to discuss allegations of sub-minimal care, unsatisfactory care and an inordinate number of complaints, respectively. In one instance, the result of the informal hearing was satisfactory but the Board was far from pleased with the termination of the other two discussions. Accordingly, the member with the great number of complaints registered against him was warned to so conduct himself that it would not again be necessary for him to appear before the Board because the next hearing would not be an informal one but would be an Official Hearing as provided for in The Dentistry Act of Ontario. The third member was told that the Mediations Committee of the Toronto Academy of Dentistry and the Board essentially agreed with the allegations made by his patient and that he was now required to reach some satisfactory resolution of the problem or face official disciplinary action.

Workshop on Dental Hygiene Education and Licensure

Dr. Marjorie Jackson, Supervisor of the Course in Dental Hygiene at the Faculty of Dentistry of the University of Toronto had previously accepted President Bruce's invitation to represent the R.C.D.S. Board at a three-day Workshop in Dental Hygiene Education and Licensure which was held in Chicago from October 1st to 3rd, 1964.

Dr. Jackson reported that special emphasis was given to the education of the Dental Hygienist and experimentation in the expansion of the Hygienist's duties. Specific objectives of the Workshop were three: to re-examine the present and potential duties and responsibilities of the Hygienist; to evaluate the adequacy of present requirements for education of the Hygienist and, if indicated, to propose revisions in these requirements for consideration by the A.D.A. Council on Dental Education; and to propose revisions which may be indicated in licensure regulations for Dental Hygienists.

The Workshop participants concluded that the Dental Hygienist's services are largely professional in nature; that her services for a patient are by prescription from a dentist; that she is a therapist, and that, since the nature of the educational program for Dental Hygiene is affected by State licensure laws, serious consideration should be given to achieving more conformity in State laws.

Special Meeting, January 16, 1965.

Appointment of Registrar-Secretary-Treasurer

The Special Selection Committee composed of Doctors Bruce, Jolley, and Purves reported to the Board that it had carried out the Board's instructions in respect of advertising the availability of the position of registrar-secretary-treasurer. When the Committee met on January 3, 1965, it had received eleven applications. After reviewing each application four were selected to be invited for an interview by the entire Board on January 16, 1965. The committee recommended on a contractual agreement to be effected between the Board and its eventual appointee.

Commencing at 10:00 a.m. and at half-hour intervals the Board interviewed the four selected applicants. Following the termination of the final interview each Director was provided with a ballot on which he was requested to write the name of the applicant of his choice. This procedure resulted in the selection of Dr. Kenneth F. Pownall.

The following motions were then adopted:

(1) That Dr. Kenneth F. Pownall be appointed Registrar-Secretary-Treasurer of The Royal College of Dental Surgeons of Ontario such appointment to take effect on February 1, 1965.

(2) That consistent with the adopted report of the Selection Committee, the Selection Committee of Drs. Bruce, Jolley and Purves be and are hereby authorized on behalf of the Board of Directors of The Royal College of Dental Surgeons of Ontario to effectuate whatever terms of engagement of Dr. Kenneth F. Pownall as Registrar-Secretary-Treasurer of The Royal College of Dental Surgeons of Ontario, as to the said Selection Committee and to Dr. Pownall may be mutually acceptable.

(3) That effective February 1, 1965, authority be and is hereby given to substitute the name of Dr. Kenneth F. Pownall for that of Dr. Wesley J. Dunn in respect of the signing authorization for the funds of the Royal College of Dental Surgeons of Ontario on deposit in the Royal Bank of Canada, Bloor and Bedford Branch, Toronto, and for the funds of the Royal College of Dental Surgeons of Ontario on deposit in the Eastern and Chartered Trust Company, 61 Yonge Street, Toronto, and

That effective February 1, 1965, Dr. Kenneth F. Pownall be and is hereby authorized as the signing officer of the Board of Directors of the Royal College of Dental Surgeons of Ontario for the Safety Deposit Box on annual rental in the Royal Bank of Canada, Bloor and Bedford Branch, Toronto, and That on the close of business on Friday, January 29, 1965, the existing authorization of Dr. Wesley J. Dunn to act as signing officer of the Board of Directors for the said funds on deposit and for the Safety Deposit Box be and is hereby rescinded.

(4) That Dr. Kenneth F. Pownall assume, effective February 1, 1965, all representational positions at present assigned to Dr. Wesley J. Dunn, specifically:

(1) Senate, University of Toronto

(2) Council, Faculty of Dentistry

(3) Research Advisory Committee, Faculty of Dentistry, U of T

(4) Dental Public Health Committee, Ontario Dental Association

(5) R.C.D.S. Insurance Advisers

(6) D.S.P.I. Board of Directors.

D.S.P.I. Appointed Collector of Premiums

Dr. A. H. Leckie reported that on January 11, 1965, he attended, pursuant to the direction given by the Board at its November 1964 meeting, a portion of the meeting of the C.D.A. Special Committee on Commercial Insurance Plans. He read, between eleven a.m. and noon, the lengthy statement which had been approved by the Board. Four hours were devoted in the afternoon to a discussion of the document. No progress and therefore no solution was reported. The following motion was adopted with Dr. J. P. Coupland abstaining:

That authority be granted to the R.C.D.S. Insurance Advisers to take whatever steps are necessary to arrange the early transfer of the function of Collector of Premiums for Ontario Hospital Services Commission, Blue Cross Supplemental, Blue Cross Extended Health Care, and Physicians' Services Incorporated from Professional and Industrial Pensions Limited to Canadian Dental Service Plans Incorporated and that where necessary the co-operation of the Canadian Dental Association be sought in order that the wishes of its Corporate Member of Ontario in this regard may be fulfilled.

Property Committee Report on Floor Coverings

Dr. R. C. Honey presented a report bearing on five tenders submitted in respect of the installation of certain floor coverings authorized at the November 1964 meeting. The following motion was adopted:

That Berkley Contracting Company be approved to complete the contract of laying Gropoint carpet as detailed by the Property Committee.

Annual Meeting

C.D.A. Statement on the Recommendations of the Royal Commission on Health Services

The Board approved a motion stating that they urge the C.D.A. to withhold submission of their contemplated statement on the Recommendations of the Royal Commission on Health Services and requested that opportunity be afforded those local societies which have submitted briefs to study and comment upon the final draft preliminary to its presentation.

Preliminary Draft Constitution of the O.D.A.

It was explained to the Board that the draft constitution was being mailed to all dentists in the province for their comments. The committee expected criticism of the draft but felt it was a good starting point.

Scarborough General Hospital Seminar on Hospital Dentistry

It was reported to the Board that the third annual two-day seminar in Hospital Dentistry will be held at the hospital on October 21-22, 1965.

The Fluoridation Act of Ontario

That National Fluoridation Committee of The Health League of Canada reported to the Board that the Ontario Cabinet had declined the League's request for amendments to the Act.

Group Practice

The Board requested Dr. J. D. Purves to prepare a preliminary report on the feasibility of the establishment of Group Practices involving many dentists.

Bill 163 — An Act Respecting Medical Services Insurance

The Board appointed a committee consisting of Drs. W. J. Dunn, J. P. Coupland, J. Anders (O.D.A. representative) and K. F. Pownall to be prepared to present the views of the dental profession to the legislature concerning this Act.

Dental Services in Public General Hospitals in Ontario

The Board approved the following motion:

“WHEREAS the Joint Working Committee on Public General Hospitals’ Regulations has recommended the enactment of regulations in respect of hospital dental services which are consistent with those recommended by this Board, and

WHEREAS a period of several months has elapsed in which there is no tangible evidence of such recommended regulations becoming a part of the General Regulations for Ontario Public General Hospitals,

THEREFORE BE IT RESOLVED:

That a committee consisting of W. J. Dunn and R. W. Marshall be appointed to act for and in the name of the Board to take whatever steps are necessary to bring to fruition the recommendations of this Board in respect of regulations pertaining to dental services in the Public General Hospitals of Ontario.”

Conference on Oral Surgical Claims Under Health Insurance Policies

Dr. Robert Marshall reported to the Board on this conference held in Chicago on February 17, 1965. It was his opinion that dentistry and/or oral surgery was making steady progress both in the general comprehensive health insurance field and in the comprehensive dental insurance field.

Oral Cytology

Dr. E. A. White reported to the Board.

Report

Since the cytological smear service for the dental profession in Ontario was started in May, 1964, 730 smears have been sent in for examination. Approximately 15% of the dentist population participated. Of the 730 smears examined:

Unsatisfactory	#0	—	53	or	7.3%
Negative for Malignant cells	#1	—	462	or	63.3%
Atypical Benign	#2	—	166	or	22.72%
Suspicious Possibly Malignant	#3	—	34	or	4.6%
Highly Suggestive Malignancy	#4	—	8	or	1.1%
Positive for Malignant cells	#5	—	7	or	.98%

The type of mailing container has been changed as the original ones were unsatisfactory.

The Ontario Cancer Treatment and Research Foundation have renewed their grant for this year and we will not be called on for any further funds at present.

Dentists Requested to Appear Before Board

Two dentists appeared before the Board because of alleged complaints by patients of restorative work improperly done. The dentists were requested by the Board to arrive at a settlement with their patients which they have done and no further action is contemplated.

Pamphlet on Pre-Medication for Children

In view of the variance of opinion concerning the dosages and the general advisability of distributing a proposed pamphlet on Pre-Medication for Children it was decided to form a Committee under the Chairmanship of Dr. K. W. Davey to make recommendations on the general subject of "The Use and/or Abuse of Drugs in Dentistry".

C.D.A. Policy Statement on Auxiliary Personnel

A committee was formed consisting of Dr. H. Jolley, Dr. E. Rajczak and Dr. M. Boyes to review the policy statement of the C.D.A. and suggest any changes.

Oral Surgeon Consultants to the Registration and Licensure Committee

Dr. P. Smylski and Dr. A. Antoni appeared before the Board to state their views of the certification rules and regulations with regards to Oral Surgery. It was their interpretation that a candidate must complete three years of general practice before embarking on a post graduate course in oral surgery. They felt very strongly that this was essential for an oral surgeon to fully appreciate the problems of a general practitioner. The Oral Surgeons wished to constantly upgrade their standards. The Board requested the Oral Surgeons to submit to the Registration and Licensure Committee their rewording of the rules and regulations respecting Oral Surgery for its consideration.

REGULATIONS

SIGNS

A member of the Royal College of Dental Surgeons, in connection with his profession:

1. May not display or permit to be displayed any sign other than a sign which in its character, position, size and wording is merely such as may be reasonably required to indicate the location of and entrance to the premises in which a dental practice is being carried on and in which no letters larger than four (4) inches are used.
2. May not display more than two signs in addition to one at or on his entrance door.
 - (a) Not more than one of these may be a suspended sign.
 - (b) Not more than one of these may be an illuminated sign and if illuminated must not be intermittent, daylight, "Neon" or "Neon type" and no colours shall appear in such signs other than white or black.
3. May not display any sign on premises other than those in which his practice is actually carried on.

Notwithstanding the above regulations he may (using only unilluminated letters or figures not larger than two (2) inches:

- (a) Add to his entrance sign, his office hours.
- (b) Add to any sign the words (when an entrance is difficult to find) "Entrance on . . ."

PROFESSIONAL CARDS AND ANNOUNCEMENTS

A member of the Royal College of Dental Surgeons, in connection with his practice:

1. May not permit to appear in any newspaper or other publication, printed or written for distribution or display anything other than his professional card (which may contain at most his name, title or degrees, profession, address, telephone number and office hours) or an announcement of his commencement of practice, change of office location, absence from or return to practice, or the restriction of his practice. The announcement shall not contain any reference to qualifications, procedures or equipment. The space used, for either card or announcement, must not exceed one column (13 ems) in width by two inches in length and must not be in the nature of a display.
2. He may, however, observing the dignity and ethics of the profession, without reference to qualifications, procedures or equipment:
 - (a) Use private professional cards.
 - (b) Issue accounts and receipts.
 - (c) Issue appointment cards.
 - (d) Mail to his patients recall notices.
 - (e) Mail to his patients and acquaintances announcements of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice, provided he is a certified specialist.

SOLICITED ADVERTISING

For the protection of the Profession from solicited advertising, the Board prohibits any member of the Royal College of Dental Surgeons from inserting his professional card in hand-bills, programs, year books or other printed matter of like character.

TAKING OVER A PRACTICE

When any member of the Royal College of Dental Surgeons takes over the practice or office of another member of the College, either by purchase or otherwise, the member so acquiring the said practice or office shall not after one year from the date of such acquisition use any sign or printed matter which suggests to the public that the retiring member was in any way associated or connected with the said practice or office.

TELEPHONE DIRECTORY LISTINGS

1. No display advertising of any kind.
2. No black face listings in the yellow pages.
3. No specialists' list under separate group headings.
4. Mention of office hours is of no particular value and is usually used only to increase space, therefore to be excluded.
5. Mention of particular facilities or equipment, such as X-rays, gas extractions, etc., not acceptable in either section.
6. Residence listing in yellow pages, as well as in white pages, is acceptable.
7. Designation as specialists may be used in both yellow and white pages, provided the dentist is a specialist certified in and restricted to the designated branch of dentistry.
8. No "By-District" listings in the yellow pages shall be permitted.
9. The name of a clinic, dental centre, partnership or other form of dental group may be listed in the white pages and a list of the members' names may appear thereunder as well as in his/her section in the white pages. Such listings may include the certified members' specialty designations.
10. Should the name of a clinic, dental centre, partnership or other form of dental group be listed in the yellow pages the names of the members may not be listed thereunder but the name of each may be listed in his/her alphabetical section of the yellow pages. Such listings may include the certified members' specialty designations.

REPORT — J. P. Coupland

Fall Meeting — 1965

1.

The Annual Meeting of the Board of Governors of the Canadian Dental Association was held in Quebec City, May 26th to 29th, 1965. La Société Dentaire de Québec was the host organization. The sessions were held in the Jacques Cartier Room of the Chateau Frontenac and were ably presided over by C.D.A. President Remy Langlois. The Reference Committees and General Sessions of the Board of Governors were well attended. The loud speaker system was excellent and made a significant contribution to the discussions.

2.

New Officers Elected

At the conclusion of the Board of Governors meeting Dr. Philip S. Christie of Halifax was elected President to succeed Dr. Remy Langlois. Dr. J. P. Coupland of Ottawa was elected President-elect. Dr. W. G. Bruce of Kincardine, Ontario and Dean H. R. MacLean of Edmonton, Alberta were elected to the Executive Council.

3.

C.D.A. Statement on the Report of the Royal Commission on Health Services

The Steering Committee which was assigned the task of preparing a statement presented their report. The Board convened as a committee of the whole to give clause by clause study to the statement. The revisions made were of an extremely minor nature which reflected the thoroughness with which the Steering Committee had done its task.

In summary the forty-seven page statement expressed:

- (a) Approval of the recommendations in support of fluoridation, dental education and dental research.
- (b) Disappointment that the major emphasis was on treatment instead of prevention.
- (c) Opposition to the "New Zealand Dental Nurse" approach to the problem of dental treatment of children.

The statement was presented by a delegation of C.D.A. senior officers to the Minister of National Health and Welfare of the Government of Canada on June 23rd, 1965. It is expected that the Provincial Ministers of Health will receive copies from the corporate members of the C.D.A. and copies will be available at a nominal cost on application to C.D.A. Headquarters.

4.

Relative Value System of Fee Determination

The acceptance by the Board of Governors of the Relative Value System of Fee Determination culminated several years of intensive effort by a sub-committee under the chairmanship of Dr. R. A. Clappison. This report will appear as an appendix to the Dental Services Report in the 1965 C.D.A. Transactions. The

list of dental services contained in the report will be found useful for groups developing fee schedules and should accomplish standardization of nomenclature. The compilation of this information illustrates the service the C.D.A. performs for its corporate members who individually would find such a task difficult if not impossible.

5.

Pro-rating Dental Fees

By resolution the Board of Governors recorded its opposition to the principle of pro-rating dental fees. In so doing it was clearly established that no criticism was intended of groups which by force of circumstance had in the past or might in the future find it necessary to negotiate contracts on a pro-rated basis.

6.

The Royal College of Dentists of Canada

The Act to incorporate the Royal College of Dentists of Canada was passed by the Parliament of Canada on March 4th, 1965 and was given Royal Assent on March 18th, 1965. The first meeting of the Provisional Council was to be held on September 16th and 17th, 1965.

7.

Prosthodontics and Paedodontics Recognized as Specialties

Two applications for specialty recognition were approved. Prosthodontics and Paedodontics now are added to the three previously recognized — Orthodontics, Oral Surgery and Periodontics.

8.

Treasurer's Report

The Auditors Statement for 1964 showed a deficit of \$11,651. The 1965 Budget indicated a substantial increase in disbursements in 1965. It seems obvious that the C.D.A. will be forced to discontinue some of its present services and activities if no increase in income is forthcoming.

9.

The University of Western Ontario Dental School

The establishment of a Faculty of Dentistry at the University of Western Ontario was reported by the Council on Education. Congratulatory messages were sent to President Hall and Dean Wesley J. Dunn.

10.

C.D.A. 1965 Convention

Dr. Louis Bernier assisted by a very able committee produced an excellent convention. The scientific programme was well balanced and the social events were most enjoyable. A state dinner for all registered dentists and their ladies was provided by the Province of Quebec. This was an extremely dignified and most memorable occasion.

Action

Report adopted.

CONTINUING EDUCATION COMMITTEE

Members: Doctors J. D. Purves, T. H. Wachna, E. J. Rajczak

REPORT

Fall Meeting — 1965

1.
Progress in Continuing Education in Dentistry requires the close liaison between the Faculty of Dentistry and the licensing body. In addition programmes must prove attractive, stimulating and in keeping with contemporary trends.
2.
The Extramural and Extension Lecture service has historically proven acceptable within these criteria.
3.
Through conventions, study groups and post graduate courses the processes of continuing education are proceeding. Urbanization of dentists suggests that possibly new approaches to the problem are deserving of consideration. The advent of the new Faculty of Dentistry, University of Western Ontario, again offers new possibilities in the Continuing Education field.
4.
The medium of television has brought new possibilities within existing dental faculties — still as yet unused in Ontario. It was with this medium in mind that the Wednesday afternoon series was contemplated. It has proven disappointing that the trial program in this general direction has been shelved for the coming year. It is fervently hoped that the existing deterrents may be removed to offer this type of approach to the Continuing Education program.

Action

1. Report adopted.
2. Recommended that:
 - (a) The Continuing Education Committee review its activities in the light of proposed changes in the O.D.A. Constitution.
 - (b) A letter be written to Dean R. G. Ellis and Dean W. J. Dunn stating that whereas a continuing education programme was offered on Wednesday afternoons at the Faculty of Dentistry, University of Toronto in 1964-65, and subsequently discontinued, it is the hope of the Board of the R.C.D.S. that this or a similar type program be reinstituted. The Board would welcome any suggestions and comments from the Deans with respect to increasing participation of dentists in continuing education and post graduate programmes.

REPORT

Annual Meeting — 1966

1.
The report of the Extramural and Extension Lectures from January 1, 1965 to December 31, 1965 is appended.

2.

With the co-operation of the Faculty of Dentistry, University of Toronto and the Ontario Dental Hygienists Association arrangements are being made for Hygienists to be given post graduate courses and lectures.

3.

The Committee is studying the future role that the local societies and the newly constituted Ontario Dental Association might play in continuing education.

4.

The Committee is indebted to Dean R. G. Ellis and Miss C. Louckes who process the speaker service through the Faculty Staff. In this connection it is necessary that Societies requesting speakers should give sufficient notice. The lecturers are busy men and when asked to speak they have to adjust their schedules and the more time they have to do this the easier it is for them.

5.

The Extramural Lecture Service provides a potent stimulus to the organization of district societies' activities and provides a medium of communication between the Board, the Faculty and the Dental Practitioners in Ontario.

DENTAL ASSISTANTS' COURSE

Schools: West Hill Collegiate Institute, Scarborough
Mrs. M. Pohlak

Etobicoke Collegiate Institute, Etobicoke
Mrs. H. Bauernhofer

Lorne Park Collegiate Institute, Toronto Township
Mrs. M. Stait-Gardner

Report

Annual Meeting — 1966

1.

Courses in Dental Assisting:

In September, 1965, a third Dental Assistants' Course was established at Lorne Park Collegiate Institute by the Board of Education for the Township of Toronto. The initial course was begun at West Hill Collegiate Institute, Scarborough in 1963, and a similar course was added at Etobicoke Collegiate Institute the following year.

It has been recommended that no other secondary schools offer a Dental Assisting course before the already existing ones are evaluated at the conclusion of a five-year period (1963-1968). From this evaluation it will be determined if there is a need for additional training programs for dental assistants.

2.

Admission Requirements

Dental Assisting is offered in Grades XI and XII of the four-year Science, Technology and Trades Branch. The Course is open to twenty-four students each year who have successfully completed Grades IX and X in any branch of the secondary school program. Priority is given to students with an average of sixty-six per cent or better.

3.

Curriculum:

The three secondary schools offering the Dental Assistants' Courses follow the same curriculum both in the academic and in the dental subjects.

Grade XI (a) Academic

22 periods per week

English	5	Physical Education	2
History	3	Physics	4
Commercial Skills	4	Home Economics	4
(Typing, Bookkeeping, Business Arithmetic)			

(b) Dental	18 periods per week
Oral Biology 1	Operative Assistance
(a) Bacteriology	Prosthodontia
(b) Histology	Assistance
(c) General Anatomy	Oral Surgery Assistance
Dental Anatomy	Orthodontia Assistance
Dental Materials	Paedodontia
Radiography	Assistance
Oral Hygiene and Public Health	Charting Assistance
Psychology and Personality Development	Endodontia Assistance
First Aid	Periodontia Assistance
Dental Assisting Equipment — Use and Care	Total periods 40*

Grade XII (a) Academic	23 periods per week
English 5	Physical Education 2
Economics 4	Chemistry 4
Commercial Skills 4	Home Economics 4
(b) Dental	17 periods per week
Oral Biology 2	Operative Assistance
Oral Pathology	Prosthodontia
Physiology	Assistance
Pharmacology	Oral Surgery Assistance
Dental Materials	Orthodontia Assistance
Radiography	Paedodontia Assistance
Nutrition and Preventive Dentistry	Charting Assistance
Ethics, Jurisprudence, Dental Organization, Public Relations	Endodontia Assistance
Dental Public Health, Dental Research	Periodontia Assistance
Dental Assisting Supplies, ordering and storage	Telephone, appointments, recall systems, keeping dental records and accounts
	Total periods 40*

*The total periods shown are for West Hill Collegiate Institute. Both Etobicoke C.I. and Lorne Park C.I. operate on the basis of a 45-period week, and as a result the periods are shorter in length than at West Hill C.I.

4.

Clinical Training Program for Students in the Dental Assistants' Course

(a) *Externship Program:*

(i) *West Hill Collegiate Institute*

The co-operation from local dentists made it possible for the second-year students to visit and assist in private practices for a period of two weeks (afternoons only) during the school year 1964-65.

The realistic quality of this phase of the dental assisting training proved to be a great asset to the students in their applications of theory and laboratory procedures to real life situations.

During the present school year, the externship was increased to three weeks. It was left entirely to the discretion of the dentists as to how the students could assist and learn while on experience weeks, since procedures vary greatly from office to office. Perhaps in the future a more definite plan can be established so that the students would be uniformly evaluated on their practical ability in the dental office.

(ii) *Etobicoke Collegiate Institute*

The second year students will participate in a similar externship program for a period of one week in May, 1966.

(iii) *Lorne Park Collegiate Institute*

The Students are still in their first year of the Dental Assisting Course and the externship program will be established within the next year when they are in Grade XII.

(b) *In the school laboratory*, the following phases of clinical training are taught over a period of two years in all three schools:

- (1) Organization and recognition of instruments;
- (2) Handling dental materials;
- (3) Supplies — ordering and storage;
- (4) Charting
- (5) Chairside assisting (phantom head as patient);
- (6) Developing and mounting X-rays;
- (7) Laboratory techniques:
 - pouring and trimming study models and work casts,
 - simple acrylic space maintainers,
 - occlusion rims,
 - investing and casting gold inlays.

5.

Teachers of Dental Assistants' Courses:

At the present time, dental hygienists are employed as teachers of Dental Assisting. Before becoming permanent employees of their respective Boards of Education, the person engaged for teaching the course must successfully pass two summer courses and an applicable "Trades Test" at the Ontario College of Education to qualify for a Vocational Certificate in Dental Assisting. The practical tests in Dental Assisting for the three teachers have been administered by Dr. M. Jackson, Faculty of Dentistry, University of Toronto, at the request of the Ontario College of Education.

During the first year of the course at West Hill Collegiate Institute, Dr. Jackson spent one afternoon a week teaching Operative and Paedodontia Assistance to the students enrolled in the Course. For the second year, the services of a dental assistant, Mrs. M. Prokopec, were obtained for three half-days per week, leaving the teacher free to organize the curriculum content for the Dental Assisting Course.

In Etobicoke, Dr. G. Chalmers is engaged for a second year for two half-days per week teaching Operative Dental Assistance and Dental Materials.

Dr. R. Watson is giving his valuable aid to Lorne Park Collegiate Institute, one half-day per week until the course becomes more established.

6.

Advisory Vocational Committee:

At West Hill Collegiate Institute, a Dental Assistants' Course Sub-Committee of the Advisory Vocational Committee was established in September, 1965. The members of this Committee were appointed and they are:

Mr. R. Smith, Chairman
Dr. A. M. Adams
Mr. H. A. C. Farrow, Principal, West Hill C.I.
Mr. W. A. Parish
Mr. A. B. Patterson
Mrs. M. Pohlak
Dr. C. E. Purdy
Dr. J. C. Vickery

In addition to regular meetings at the school, members of the Committee are available for consultation at all times, if required.

7.

Enrolment, 1965-66

	Grade XI	Grade XII
Etobicoke C.I.	17	17
Lorne Park C.I.	20	—
West Hill C.I.	24	23

8.

Graduation:

At the successful completion of the second year in Dental Assisting, students will be awarded the Ontario Secondary School Graduation Diploma, as well as a Certificate in Dental Assisting from the Royal College of Dental Surgeons of Ontario.

Following an enquiry to the graduates of West Hill C.I., we are pleased to report that all but one student has found employment in the Dental Assisting field.

9.

Scholarships and Prizes:

In November, 1965, the C. S. Jackson Memorial Award, offered by Dr. M. Jackson to the first graduating class at West Hill Collegiate Institute, was presented at the Annual Commencement Exercises of the school. The award was given to the student with the highest standing on graduation from the two-year course in Dental Assisting and was presented by Dr. Jackson to Miss Kim Rhodes.

COMMITTEE TO STUDY DENTAL INTERNSHIP

Members: Doctors E. J. Rajczak, Chairman; C. H. M. Williams, J. Pedler, C. Cummings, K. Davey, H. Jolley and E. Dore.

Ex-Officio Members: Doctors Wesley J. Dunn, J. D. Purves, and J. P. Coupland.

REPORT

Annual Meeting — 1966

1.

History

Recognizing the inconsistency of accepting dentists of non-registrable qualifications for hospital dental internships the Board decided at the 226th meeting that only qualified applicants be accepted in the future. Since some hospitals were already committed to certain applicants or else did not have time to upgrade their training programmes sufficiently to attract registrable applicants it was decided at the 227th meeting to rescind the resolution for a period of one year. However, it was felt that a committee to study and advise on dental internships should be set up to review the present internship programmes and advise on ways and means to improve them. The Committee was to be made up of the Directors of Hospital Dental Departments which presently offer dental internships with Dr. Purves, Chairman of the Registration and Licensure Committee; Dean Dunn, Chairman of the Hospital Services Committee; and Dr. Coupland, President, R.C.D.S. as Ex-Officio Members.

2.

The Committee was agreed that acceptance of non-registrable personnel as dental interns in Ontario was not in the public interest and moreover could be potentially contentious.

3.

Considerable discussion took place in analysing and evaluating present dental internship programmes. It was agreed that a thorough upgrading of all internships was necessary to attract applicants with the proper qualifications.

4.

The Committee is presently engaged in formulating suggestions and guidelines for the organization of dental internship programmes and it is hoped that in the very near future the results of these discussions will be available for reporting.

Action.

1. Report received.

DENTAL PUBLIC HEALTH COMMITTEE — O.D.A.

Members: Doctors K. W. Davey, Chairman; M. Buchman, F. B. Burns, J. C. Duncan, R. E. Feasby, R. O. Fisk, J. K. Kerr, J. T. Anders, M. G. Boyes, C. F. Cappa, D. P. Cunningham, F. E. Dawe, R. G. Ellis, R. M. Grainger, H. S. Grey, F. A. Kohli, J. M. Lawrence, N. Levine, D. W. Lewis, S. A. MacGregor, W. McColeman, G. T. Mitton, B. L. Pedlar, K. F. Pownall, D. M. Wallace.

REPORT

Annual Meeting — 1966

This report covers the activities of the Dental Public Health Committee of the Ontario Dental Association for a period beginning September 1965 until the present time.

1.

Department of Education, Committee on Aims and Objectives

The Chairman of the Dental Public Health Committee accompanied by Drs. K. F. Pownall and R. E. Feasby attended a hearing with the Sub-Committee on the Aims and Objectives of Education at which time the brief that was submitted on dental health was discussed. We felt that our brief was well received and were questioned for about one hour. The questioning centred around fluoridation, recruitment, the effect of dental education in schools, the ratio of dentists to the general population and other activities of The Ontario Dental Association and the Royal College of Dental Surgeons.

2.

Dental Health Day

A preliminary newsletter was sent in January to all secretaries of the local dental societies stressing —

- (a) That the societies contact all Home and School Associations with respect to a Dental Health Night;
- (b) That dental health kits will be mailed in February to the societies and this will include a new pamphlet on home dental care.

Completed preparations included the mailing of materials to every dentist in the province. The Sheltered Workshop of the Association for Retarded Children was used in stuffing of materials for these kits.

The Committee is indebted to the American Dental Association and to the Professional Services Division of Procter and Gamble Company for their assistance in Dental Health Day.

The Canadian Society of Dentistry for Children has also offered assistance in future Health Days.

3.

"Notebook on Dentistry" Program — CJRT

Various members of the Dental Public Health Committee have participated in this programme conducted by Dr. Spence.

4.

Recruitment — Placement

The area selected for our recruitment programme this year includes the counties of Durham, Peterborough, and Victoria. A similar programme as in the past has been arranged. Mr. Frank Clute was the dinner speaker, on April 14th, at Hart House.

Two successful projects for the placement of 1966 graduates in small Ontario communities are under way. The communities of Chesley and Fergus are completing plans for a bungalow-office accommodation for a dentist and possibly a physician. In each case the Town Council is supporting the plan and it is hoped this will be a pattern for future placement programmes.

5.

Convention

The programme will centre around the following:

- (a) Slides to be projected in clinics illustrating the action of the Dental Public Health Committee.
- (b) A carousel-type display will be placed in the foyer opposite Hall A. A milk vending machine will be placed in the carousel. This display may be transported and used for other occasions.
- (c) A diary dated May 1966-1967 is to be placed as a token on the tables at the Dental Public Health Luncheon. Insert pages of this diary will illustrate activities of the Dental Public Health Committee and other information concerned with dental public health. Colgate-Palmolive Ltd. will underwrite the cost of this book and a credit line will be given to this Company inside the front page.
- (d) Table clinic planning will include a mechanical display to show colour prints on Oral Cytology.
- (e) Dr. Nikiforuk will be the speaker at the Dental Public Health Luncheon.
- (f) The Associated Milk Foundation of Canada will provide milk, milk cooler and display material.

6.

Student Dinner

This was successful, although 31 students did not attend. A letter is being prepared for the Canadian Section of the American Dental Trades Association and the Dentists Co-operative asking that they refrain from making dinner arrangements for at least a week prior to this dinner.

7.

Public Information

Most of the work for the brief on The Aims and Objectives of Education in Ontario was prepared by this Committee. Current projects include the following:

- (a) Poster for Dental Health Day.
- (b) Production of pamphlet "Home Dental Care".
- (c) Revision of slides for lectures to lay groups. Arrangements have been made with the Faculty of Dentistry to enable us to photograph interesting material that is seen in the clinic and that may be used by the committee for dental health education.

(d) The committee has decided to publish a new edition of the book "Your Child and Mine". A sub-committee will be set up to produce this publication and the present book should be replaced within three years; 15,000 copies of the original book have been distributed.

8.

Dental Public Health Council

As a result of Gallup poll observations concerning the public and the dentist, the Ontario Federation of Home and School Associations is including a listing of the secretaries of all the dental societies in their general mailing circulation. They are asking that co-operation should be sought in planning programs and speakers for health nights at various Home and School Association meetings. The Federation also offered the Dental Public Health Council display space at their annual meeting in April. This display is being produced by a special sub-committee of the Dental Public Health Committee.

The Council is developing a portable display on careers to be available for Careers' Expositions in the province.

A preliminary meeting was held to discuss the approach that the committee of three will take when they meet with the Minister of Health to discuss supplementary dental services in northern Ontario.

The Honourable Matthew Dymond will be the speaker for the Breakfast meeting in May and will discuss the potentials in recruitment-placement by the use of Public Health Bursaries as part of his address.

As Chairman of the Dental Public Health Committee of the Ontario Dental Association I respectfully submit this report.

Action

1. The Board recommends that the Oral Cytology Committee should be a sub-committee of the Dental Public Health Committee.
2. Report received.

DENTAL SERVICES COMMITTEE

Members: Drs. H. M. Jolley, Chairman; R. H. Finlayson, W. S. MacKenzie, D. B. McAdam, E. Rajczak, J. Sim.

REPORT

Fall Meeting — 1965

1.

Since the April Meeting of the Board, the committee has held two meetings. The first of these on June 9, was presided over by Dr. J. Sim in the absence of the Chairman. The second meeting on November 2, was fully attended. In addition to the committee members the Secretary and Business Manager were in attendance.

2.

Resolution re Responsibilities of Dental Public Health Committee and Dental Services Committee.

It was resolved at the April meeting of the Board (1964-65 Proceedings, Page 25, Item (b)) that steps be taken to clarify the respective fields of responsibility of the two committees particularly in regard to placement of dental personnel in areas at present inadequately served. To this end a meeting of the D.P.H. Committee was attended and therefrom emerged a resolution from that committee that its activities in this regard "may be defined as being educational in nature and not directly involved in the actual provision of dental treatment services." The Dental Services Committee maintains that its Terms of Reference do not include responsibility for placement of dental personnel and recommends that consideration be given to the formation of a new committee charged with this important service to the Public.

It was also resolved:

A. That the Board of the R.C.D.S. give further consideration to the Terms of Reference and outline any changes that they feel are desirable.

B. That, in order that there may be more co-operation between the Dental Public Health Committee of the O.D.A. and the Dental Services Committee of the R.C.D.S., one of the members of the D.P.H. Committee be recommended for appointment to the Dental Services Committee of the R.C.D.S.

C. That the Board of the R.C.D.S. give specific study to the definition of the terms "welfare", "welfare recipient" and "dental public health".

The meeting with the D.P.H. Committee also produced a suggestion for joint action in an attempt to provide a solution for the provision of dental services for remote and inadequately staffed areas.

3.

Collection of Statistical Data

Pursuant to Item (a) of the resolution reported on Page 25 of the 1964-65 Proceedings it can be taken that steps have been initiated to amass the desired information.

(1) A committee consisting of the Secretary, Business Manager and Dr. R. M. Grainger has been appointed "to collate and assess statistical data derived from

the welfare charts". They have been given the power to add to their number and to obtain professional assistance if necessary.

(2) The active co-operation of the dental profession has been sought for the provision of particulars which can be utilized in amassing relevant information. The new group of adult beneficiaries under the Welfare Plan, it is hoped, will provide a valuable source in this respect. The plan has not as yet been long enough in operation to make a significant contribution to our accumulation of facts.

(3) Some data have been made available on the requirements of the aged and is being analysed. While the group examined is relatively small and restricted it should prove of some value in beginning a collection of information in a hitherto neglected sphere.

4. **University of Guelph**

For various reasons Dr. Michell and his committee of practitioners in the area of the University of Guelph are continuing discussions with the University of Guelph before determining any course of action.

5. **Transfer of Administration of Welfare Plan to O.D.A.**

A request was received from the President of the Board for consideration of the practicability and advisability of the transfer of responsibility for the Welfare Plan to the O.D.A. The Committee recommends that "the status quo be maintained in regards to the plan until the new Constitution of the O.D.A. is ratified."

6. **Welfare Plan**

(a) *New Contract* — A new contract has been signed under the terms of which the parents, as well as the children who are beneficiaries under the Mothers and Dependent Fathers Allowances Act are made eligible for limited dental services and the monthly per capita grants for all beneficiaries established at 80 cents.

(b) *Increase in Per Capita Grant* — At the Annual Meeting in April 1965 it was reported that no formal reply had been received from the Department of Public Welfare to our submission (made on June 17th, 1964) for an increase in the monthly per capita grant from 70 cents to 90 cents. The Board approved the Committee's recommendation that if this increase was not obtained strong representations should be made. Acting on these instructions an interview was sought with the Minister of Public Welfare immediately after we were informed that the increase granted was only to the extent of 10 cents per capita month (i.e. from 70 to 80 cents rather than the 90 cents that had been sought). Such a meeting was finally held in September. It was attended by the Minister, the Chairman of this Committee, the Secretary and the Business Manager. The result was the Minister's sympathetic suggestion that a new brief be directed to him outlining our policy with regard to the matter of payment for services rendered to beneficiaries under the Welfare Plan. If approved by this Board this presentation, which is appended, will state that any pro-rationing that is required should not be lower than that paid for Medical Services. To achieve this end a minimum monthly per capita payment of 90 cents is required. Further it will state that when Bill 136 or some similar measure becomes operative the

Dental Profession will expect to be compensated for its services on a basis parallel to that paid to physicians — namely 100% of the O.D.A. Schedule of Fees.

(c) *Increase in Pro-Ration* — The Committee recommended an increase in the pro-ration to 75% of the O.D.A. Schedule as of September 1, 1965. With the approval of the President of the Board this rate is being paid.

(d) *Administration* — 1. New chart forms were prepared and distributed to the profession. These were especially designed to assist in obtaining data pertinent to the collection of desired statistics. These were accompanied by a letter of explanation and a request for co-operation.

2. It was deemed necessary to inform the profession of the restricted and limited benefits available to beneficiaries under the Plan. A special letter was mailed for this purpose.

3. The committee has clarified for the Administrative Staff the details of fees to be paid for each authorized operation. This was necessitated by the fact that the Fee Schedule in some instances lists several values for each operation.

4. All banking with regards to the Dental Welfare Plan is now being carried on with the Bank of Montreal (Bloor and St. George St. Branch) rather than hitherto employing both the Bank of Montreal and the Eastern and Chartered Trust Co. in payment of welfare accounts.

7.

Revised Schedule of Rates for Emergent Dental Services

The Committee felt strongly that the fees paid for Dental Services under this revised schedule are grossly inadequate. It recommends that at an appropriate time representations should be made to have this schedule altered to conform with the O.D.A. Fee Schedule.

8.

Miscellaneous

1. The Committee referred to the Dental Services Committee of the C.D.A. a request for appraisal of a Canadian chart form for dental services from the Joint Committee of the Canadian Medical and Canadian Health Insurance Association on Uniform Claim Forms.

2. The Committee discussed with the Secretary the contents of a letter from the M.O.H. of Scarborough concerning a plan for dental care in Scarborough involving treatment as well as prevention.

November 6, 1965.

The Honourable Louis P. Cecile, Q.C.,
Minister of Public Welfare,
Parliament Buildings,
Queen's Park,
Toronto 2, Ontario.

Dear Mr. Minister:

Re: The Dental Welfare Plan

On April 22nd, 1958, the Department of Public Welfare and the Royal College of Dental Surgeons of Ontario agreed that certain dental services should be provided for beneficiaries under the Mothers and Dependent Children's Allowances Act.

It is most gratifying to know that your Department has been pleased with the progress and administration of the plan and the public service the dental profession has rendered. You, Sir, and the members of your Department are to be congratulated for your foresight and for the quality and scope of the vital health services which you administer in the Province. We feel proud to have been associated with you in this endeavour.

Many of today's achievements in the field of health care would not have been possible without the knowledge and experience gained in the administration of these programmes of public assistance. We think you will agree that the dental profession deserves credit for the role it has assumed. Over and above the acceptance of its responsibilities to the public and the severe pro-rationing of fees the profession has accepted in these formative years, many individual practitioners have rendered services beyond the terms of the agreement, with full knowledge that they would receive no compensation.

Furthermore we believe that excellent rapport exists between your department and the dental profession. This cordial relationship has been nurtured and sustained by the officers and employees of the Royal College who administer the Dental Welfare Plan on your behalf. This, of course, has been in the public's best interest.

Although the plan was originally conceived to provide a much needed health service it was considered to be both exploratory and experimental in nature; to gain experience and to supply facts and figures which were not available then. These purposes have been achieved. Since 1958, however, our social climate has changed. Today, at all levels of government there is a massive war on poverty. Provision for health care at public expense is now taken for granted. In the Province of Ontario, with the passage of Bill 136, it is an accomplished fact.

When this new legislation becomes effective medical care as a welfare measure, will, for practical purposes, cease to exist. Unfortunately Bill 136 makes no provision for dental care, even within the narrow limits of our present Plan. Nevertheless the dental profession will co-operate with your department in continuing to provide the services now available.

Under the provisions of Bill 136 pro-rationing of physicians' fees for services to patients formerly receiving public assistance will be abrogated. It is logical to assume that there will be a concomitant elimination of the pro-rationing of

dental fees. This is only right and just. Naturally the profession will be willing to continue to accept reasonable pro-rationing of fees until Bill 136 becomes effective.

For the present, however, as we stated in our Brief of November, 1964, we urgently require that the per capita monthly grant on behalf of eligible beneficiaries be increased by an amount of 10 cents per month to an amount of 90 cents per month per eligible beneficiary.

As you are aware, until last year the profession has never asked for an increase since the plan's inception in 1958. The plan was considered exploratory, and was administered very stringently. We now urgently require an increase. We feel that we should not be penalized for not having previously made repeated representations for incremental additions to the per capita monthly grant.

When Bill 136 becomes effective, and pro-rationing of fees is discontinued, an additional amount of 25 cents per month per eligible beneficiary will be required to establish parity with the medical profession.

Your attention, Mr. Minister, is gratefully acknowledged and appreciated. May we assure you of our continued interest and constant co-operation.

Yours sincerely,

Action

1. Report adopted.

REPORT

Annual Meeting — 1966

1.

The Committee has held one meeting since the November Meeting of the Board. In addition to the regular Committee members the President of the Board, the Secretary, and the Business Manager were present. A notable and significant addition to the Committee was the official representative of the O.D.A. presaging the potential transfer of some of the responsibilities of this Committee.

The Committee is working in the shadow of the imminent implementation of O.M.S.I.P. and of the projected Canada Assistance Act and the profound effect these two will inevitably have on the function of this Committee.

2.

Scarborough Township Children's Dental Treatment Plan

The Secretary reported that the two officers had met with him in the Boardroom, 230 St. George Street, to discuss the possibility of a treatment plan for children of parents in lower income groups in Scarborough. The Secretary suggested that using a plan similar to the successfully operated welfare plan that now exists between the R.C.D.S. and the Provincial Department of Public Welfare might have merit. It would mean that there would not be a huge capital outlay, that work would be done in private dental offices and this system appears to be satisfactory to both patient and dentist. The officers felt the system had advantages over school clinics and would so report to their Board of Health.

3. **Rates for Emergent Dental Service**

The Secretary was instructed to make representation to the Department of Public Welfare informing them of this Board's opposition to the existing schedule.

4. **Collection of Statistical Data**

A survey was conducted by the Staff of the Jewish Home for the Aged in Toronto and the material thus obtained made available to Dr. R. M. Grainger for analysis. A report based on this material has been prepared by Drs. R. M. Grainger and G. Thompson and has been presented to this Board. The Summary of the Report is as follows:

"Estimated needs for adult dental care have been provided from 506 examinations of older persons upon entry into the Jewish Home for the Aged in Toronto. There is a tremendous backlog need for dentures amounting to one and one quarter dentures per person on the average or to the extent that about two-thirds of the population need a maxillary denture and two thirds need a mandibular denture either because they have none or their present denture is only in poor or fair condition. The incremental need for new dentures is much less, probably in the order of five percent of the adult population per year. Other oral conditions must be considered including periodontal disease, leukoplakia, tumors, extractions, and dental caries treatment."

5. **The Dental Welfare Plan**

The Business Manager reports as follows:

"The addition of the parents to our Welfare Plan, the increase in grant by the Department from 70 to 80 cents, the changes in the O.D.A. Fee Schedule and the increase in pro-rationing, all in mid-year, has made it impossible to furnish any statements that might be of value in future planning. Certainly it is too soon to analyse the financial impact of the parents on our Plan.

In December 1964 there were 8,997 children eligible under the General Welfare Assistance Act and 18,372 eligible under the Mothers & Dependent Fathers Allowances Act for a total of 27,369 children.

As of November 30th, 1965 (the last available data) there were 16,194 persons eligible under the G.W.A. and 30,254 under the M. & D.F.A.A. for a total of 46,448 persons.

This is an increase of 19,079.

As the age ceiling for eligibility was also removed from the children at the same time it is not known how many of those now eligible could be considered children.

On April 1st, 1965 our grant was increased from 70 to 80 cents per eligible beneficiary and the parents and children aged over 17 added to the list.

For the Calendar year 1965 the grants received were:

G.W.A.	\$126,854.20
M. & D.F.A.A.	245,690.70
for a total of	\$372,544.90
For the same period our payments to the profession amounted to	\$345,266.95

Taken by themselves these two figures could lead us to the erroneous conclusion that we had a very stable plan.

Unfortunately, this may not be so for several reasons:—

1. Until September 1965 we were paying 66²/₃% of the old Fee Schedule — we are now paying 75% of the new Schedule, and
2. There was a “breathing spell” between April 1st and June 1st during which increased grants were obtained but the increased list of new eligibles was not announced and then a certain slackness during July and August due to the holiday season.

A much closer estimate of our financial requirements can be arrived at by studying the monthly trends.

In that period immediately prior to the increase in grant we were paying out approximately \$4,000 per month more than we were receiving.

In December 1965 we paid out \$8,000 more than we received — \$45,096.75 paid as against \$37,158.40 received.

This is possibly (and hopefully) the maximum monthly payment we may make and it will level off at around \$40,000 per month. This is still \$3,000 a month more than we are receiving but, with our reserve, will enable us to carry on until the end of March, and thereafter *if the grant is increased to 90 cents at that time.*

Our balance in the Welfare Trust Account as of 31 Dec. 65 is:

Bank	\$ 63,267.25
Trust Certificate	50,000.00
	\$113,267.25

This of course, is constantly fluctuating as payments are made and grants received.

The balance of this report is purely statistical and given for information only.

1. No. eligible December 1964 — 27,369. In December 1965 — 46,448.
2. Changes in eligibility during year — 41,229.
3. Total eligible for dental treatment during year — 57,523.
4. No. of cheques paid to dentists (January 490, December 562) for an average of 520 per month.
5. Estimated number of dentists participating — 1,510.
6. No. of accounts processed — 19,800.
7. Interest earned on funds — \$3,293.73.

The following resolution was approved by the committee and is presented for ratification to the Board:

WHEREAS under O.M.S.I.P. regulations physicians will be paid at the rate of 90% of the O.M.A. Fee Schedule commencing July 1st, 1966, Therefore

BE IT RESOLVED THAT this Committee recommend to the Board that the pro-rationing of fees in the Welfare Plan be raised from 75% to 90% of the O.D.A. Fee Schedule commencing July 1st, 1966 . . . CARRIED.

5B.

Increase in the Per Capita Grant

As approved at the November meeting, a communication was addressed to the Minister of Public Welfare immediately following that meeting. The communication drew to his attention our desire to continue the happy relationship which exists between the Profession and his Department, that the Profession is eager to continue and to expand its services to the recipients of aid from the Department of Public Welfare, that to carry on its present services in an equitable manner the per capita grant must be increased to 90 cents per month per eligible beneficiary, and that an increased monthly per capita payment will be necessary if the Dental Profession is to receive compensation for its services on a basis parallel to that paid to physicians.

6.

Report on Plan for the Training and Employment of Auxiliary Dental Personnel in Ontario.

A request for such a report was received from the Chairman of the C.D.A. Committee on Dental Services. The matter was referred to a sub-committee headed by Dr. E. Rajczak. Dr. Rajczak invited representations from various societies who had discussed the subject and sent representatives to a meeting at which he presided. The report of this sub-committee's findings is being considered by the Board.

7.

Welfare Councils

There is evidence of an increasing awareness in Municipal, Welfare and Service Councils of the inadequacy of existing plans for dental services for Welfare recipients and marginal income groups.

Dr. J. Sim has been appointed Chairman of a sub-committee to prepare a positive plan for dental care, stressing the need for preventive measures, which could be presented to the government to aid and guide it in any measures it may undertake.

Action

1. Ways to extend the Welfare Plan to include the provision of dentures are to be explored.
2. Report adopted.

COMMITTEE TO STUDY A POLICY STATEMENT ON THE PROJECTION OF DENTAL SERVICES

Members: Doctors H. M. Jolley, Chairman; E. J. Rajczak and M. G. Boyes.

REPORT

Annual Meeting — 1966

The Committee felt, and so expressed itself in its first report to the Board presented to the November Meeting, that the Policy Statement must attempt to reflect the considered opinion of the members of the profession. It therefore enlisted the co-operation of the O.D.A. which solicited expressions of opinion on the contents of a Policy Statement on the Projection of Dental Services using the existing Policy Statement as a guide for discussion. Replies were received from the following organizations:

Halton-Peel Dental Association
Toronto Academy of Dentistry
Hamilton Academy of Dentistry
Niagara Peninsula Dental Association
Stratford Dental Society
Essex County Dental Association

Their views were considered in the compilation of this Report.

Realizing that the problems of providing good dental care are not exactly similar in all provinces and after due consideration of all facets of developing a Policy Statement on the Projection of Dental Services your Committee decided we should not try to develop a policy statement for Canada but should develop one for Ontario which would be acceptable to this Board and the dentists of our province.

We felt, that, if we could compile such a statement and it were not in conflict with the policy statement of the Canadian Dental Association, this would assist the C.D.A. in developing a policy statement applicable to all Canada.

We therefore respectfully submit the following Policy Statement on the Projection of Dental Services in Ontario and move its adoption by this Board.

POLICY STATEMENT ON THE PROJECTION OF DENTAL SERVICES IN ONTARIO

P R E F A C E

1.

The Dental Profession agrees that:

- (a) It exists to render an essential health service to the entire population.
- (b) This service must be available in adequate quality and in sufficient quantity to satisfy the demands of the population wherever it is situated.
- (c) The service should be rendered in a manner that is fair and equitable both to the recipient and to the individual who provides it.

2. The Dental Profession in Ontario has, through its own efforts and adaptability, achieved a level of professional competence which should ensure the people of Ontario dental service of unexcelled quality and no procedures can be contemplated that might jeopardize this.
3. A very considerable gap exists between the extent of the dental needs of the population and their demand for it.
4. It therefore seems highly desirable that a well-defined policy for projected dental services to the public be established towards which all future efforts be directed.

STATEMENT OF POLICY

The profession must continue to seek reasonable practical solutions for the manpower, public education, and economic problems inherent in the provision of good dental care for the people of this province.

These can best be found by:

1. Co-operation among public and government agencies and the profession.
2. Developing suitable dental care programs for recipients of public welfare and the handicapped — the quality of such care to be comparable to the care rendered to any unsubsidized group.
3. Explore the possibility of improving the quantity of dental services available to marginal income groups through communal government assistance (subsidization, grants, aids).

The profession is cognizant of the danger of jeopardizing the quality of service to the patient and the dentist-patient relationship in an over-delegation of duties. As a matter of policy we recommend:

1. That we encourage the continued expansion of training facilities for dental students and dental auxiliaries.
2. That we increase our support for the training of research personnel and particularly encourage research in the preventive aspects of dentistry.
3. That as the ultimate goal of the profession is the prevention of dental disease, even greater emphasis be placed on preventive procedures to improve oral health, including community measures, fluoridation of water supplies, etc.
4. That we should encourage the development of various methods of financing dental treatment through service corporations, private insurance carriers and union/management agreements.
5. That the Dental Organizations continue to seek reasonable practical solutions for the manpower and economic problems inherent in providing adequate dental care for the public. These can best be found by co-operating with public and governmental agencies. The profession is convinced that any dental service that may eventuate from these deliberations can best achieve its purpose if the profession maintains administrative control.

6. That a program of instruction in the care of the handicapped be instituted in our dental schools.
7. That dental care in remote areas be provided by the use of mobile coaches and the government be encouraged to expand the present facilities.
8. That we gather, compile and analyze statistical data which will provide an accurate measure of the dental needs and demands of the people across Ontario.
9. That we encourage recruitment of dental students and dental auxiliaries.
10. That the profession administer a fund to be used as bursaries or loans to dental students, to assist in acquiring a dental education in return for which the recipient graduate is encouraged to spend a specific period of time in a locality designated by the profession.

Action

Report adopted.

To be referred to the Board of Governors of the O.D.A. for their approval.

Members: Doctors W. G. Bruce, Chairman; J. D. Purves, A. B. Sutherland,
H. M. Jolley, E. J. Rajczak.

REPORT

Fall Meeting — 1965

1.
In recent years there has been an annual increase in the number of complaints presented to this Committee. The current year gives every indication of establishing a record.
2.
The greatest number of situations requiring investigation and action occurs in claims that operative procedures are unsatisfactory. This almost invariably involves the difficult task of relating the competence of the practitioner and the fee to the end result. The assistance provided by the referees selected by the Board for this purpose is gratefully acknowledged.
3.
An increasing number of offences is noted in By-Law infractions.
4.
One member of the College had a continuing history of poor relationship with patients. He was requested to seek medical attention and warned that any recurrence of complaints would result in a formal hearing at which his license would be placed in jeopardy.
5.
Action has been deferred in one case pending the result of an imminent civil action.
6.
Following a detailed report by the Inspector a member of the College was instructed to alter his sign immediately and assure the Committee that the apparel worn in his office would conform with the dignity of the profession.
7.
Successful mediation was achieved by the Secretary in a number of cases involving lack of understanding between practitioner and patient.

8. Recommendations:

1. That a specific procedure be followed in conducting meetings when members of the College are requested to appear before the Committee. It is felt that the gravity of such an appearance must be stressed strongly.
2. The Committee suggests that the Board give consideration for provision in the Act whereby a broader range of penalties may be instituted for lesser offences not necessarily affecting licensure.

3. That a letter accompany each new certificate of licensure warning against infractions of the By-Laws, and outlining the penalties resulting in contravention.
4. That consideration be given the establishing of a Complaints Committee. Members of this Committee should not include personnel who are members of the Discipline Committee. This Committee is to be composed of the Secretary, Legal Counsel and one Director.

Action

1. That a specific procedure for disciplinary matters be developed and published in the Proceedings after the Dentistry Act is amended.
2. That the charge as outlined below against Dr. D. E. Lindsay having been established, the Board recommends that Dr. D. E. Lindsay be subject to a severe reprimand and this be so recorded in the Proceedings.

Charge: That the charge under Section (2) of the Summons of May 17th, 1965 ie. that on November 24, 1965 Dr. Lindsay undertook to the Board of the Royal College of Dental Surgeons of Ontario

(a) That he would contact Mrs. ————— and endeavour to effect an amicable adjustment of his differences with her.

(b) that he would report back to the Board with respect thereto; but that he had failed to comply with either of such undertakings.

3. Report be adopted.

REPORT

Annual Meeting — 1966

1.

The trend of recent years has continued in the current annual increase in the number of complaints placed before the Committee. In common with previous Discipline Committees, we experienced the frustrations caused by the limitations in power to act as outlined in the Dentistry Act of Ontario in its present form. Minor cases, in which prior resolution through mediation might have been achieved, frequently consumed too much Committee time.

2.

The Committee met to assess recommendations and to suggest to the Board changes that might be made to facilitate more efficient and effective processing of disciplinary problems. It was felt that this action was overdue and of considerable urgency.

The results of this meeting are:

1. The formation of a Complaints Committee to be comprised of the Secretary and two elected members of the Board who are not members of the Discipline Committee.

The purpose of the Complaints Committee is to consider the complaints and separate the cases which merit attention by the Discipline Committee from those which are of a minor nature requiring only mediation or correction of lack of understanding between patients and dentists.

2. The development of a format to be recommended to the Board for use by the Committee to create a consistent method of procedure for the conduct of a meeting of the Committee when convened to consider a complaint.
3. Recommendations were forwarded to the Board, pertinent to legal requirements of the Committee, to enhance its effectiveness. These recommendations are reflected in the request for Amendments to the Dentistry Act now before the Ontario Legislature and will be reported following action by that body.

3.
In accordance with the Dentistry Act in its present form decisions on several complaints are pending, awaiting the Board's consideration of recommendations forwarded by the Discipline Committee.

Other complaints, of minor nature, were disposed of at the time of hearing by the Committee.

4.
The Discipline Committee wishes to express gratitude to Mr. Gordon Watson, the solicitor for the Board of the Royal College of Dental Surgeons of Ontario. With good humour and willingness he has devoted a great deal of extra time to assisting the Committee in its deliberations.

5.
The mediations committees of several local dental societies have provided valuable assistance to the Committee. Their observations are recorded in Appendix A of this report.

Action

1. Report adopted.

Appendix A

REPORT OF MEDIATIONS COMMITTEES

Many local societies reported that the services of their Mediations Committee were not required during 1965.

It would be a happy thought to think that the reason for this was because all patients were completely satisfied. Fortunately, with few exceptions, Mediations Committees have managed to amicably settle the differences between dentist and patient. As the Chairman of the Ottawa Dental Society points out, much misunderstanding is caused by the dentist not taking sufficient time to explain procedures and estimates before the work commences. He further recommends that dentists should feel free to discuss problems with the Mediations Committee when they see that dialogue is breaking down rapidly and the involvement of a third party might preclude a complete breakdown. Another chairman simply states a large percentage of complaints arise from poor public relations on the part of a few dentists.

When one considers the hundreds of thousands of patient-visits that occur each year the number of misunderstandings is relatively very small.

SUB-COMMITTEE TO STUDY PREMEDICATION AND DRUGS IN DENTISTRY

Members: Doctors K. W. Davey, Chairman; E. Sonley, Secretary, P. E. Currie, L. Frost, M. F. Grapko, F. N. Hughes, J. Kreutzer, J. Purves, E. A. Sellers, A. O. C. Smith, J. E. Speck, A. W. S. Wood, and Mr. P. W. Bell.

REPORT

Fall Meeting — 1965

1.

The Aim of this Committee

It is proposed that the final aim of this committee is to compile a manual dealing with the subject of drug therapy in dentistry. The subject matter of this broad area is to be divided into component parts and developed initially at the sub-committee level.

This committee will act as an Executive Committee and the members will chair the various sub-committees. The sub-committee chairmen will go outside this Executive Committee for their information, but there may be one or more members of this committee represented on each sub-committee.

2.

Proposed Sub-committees

The following components have been suggested areas in dentistry that are concerned with the use of drugs:

- (a) Child management and premedication for children.
- (b) Oral surgery and anaesthesia.
- (c) Periodontia.
- (d) Drug compatibilities.
- (e) Medication and drug application in restorative dentistry.
- (f) Minimum physical examinations prior to drug administration in dentistry.
- (g) Undergraduate instruction in therapeutic pharmacology.

3.

Composition

Bell, P.W.	— Canadian Pharmaceutical Association Inc.
Currie, P. E.	— General Practitioners in Dentistry
Frost, L.	— Canadian Society of Oral Surgeons
Grapko, M. F.	— Institute of Child Study, University of Toronto
Hughes, F. N.	— Dean, Faculty of Pharmacy
Kreutzer, J.	— Faculty of Dentistry, University of Toronto
Purves, J.	— Royal College of Dental Surgeons of Ontario
Sellers, E. A.	— Professor, Department of Pharmacology, University of Toronto
Smith, A. O. C.	— Department of Anaesthesia, Hospital for Sick Children
Speck, J. E.	— Canadian Academy of Periodontology (Ontario)
Wood, A. W. S.	— Canadian Academy of Paedodontics (Ontario)
Sonley, E.	— Secretary
Davey, K. W.	— Chairman

Action

Report received.

REPORT

Annual Meeting — 1966

1.

The Committee has held four meetings and discussions have been frank and sincere. All avenues of approach were investigated that would comply with the terms of reference. We had been instructed:

(1) By the Dental Public Health Committee of the Ontario Dental Association to "Prepare and offer positive action and warning on the use of pre-medication in dentistry for children".

(2) By the Royal College of Dental Surgeons of Ontario to "Study the subject of the use and/or abuse of drugs in Dentistry".

2.

The Committee after extensive study has come 'full circle' in respect to its opinion on how to cope with the *gigantic problem* of informing the dental profession in Ontario about the use and abuse of drugs in dentistry. The following is a brief summary of the committee's deliberations:

The Committee developed a rough outline for a proposed publication to be sent to all Ontario dentists. This material was to be developed on a series of durable colour-coated flip cards that would be retained by the dentist as a quick reference.

This information was divided into two sections:

- (a) An introduction or preamble written as a caution or warning that would highlight the hazards and potential dangers of the misuse of drugs;
- (b) A summary of specific information on various types of drugs related to such factors as indication, contraindications, drug compatibility, symptoms of over-dose, and possibly drug dosages. This information would be indexed to one or two authoritative pharmaceutical texts as a reference to future reading.

This outline was produced and copies were circulated to members of the committee for comment. It became increasingly evident to the committee, however, that the field of drugs and medication in dentistry was so vast that any condensed publication developed by this Committee would be not only expensive to produce but also *totally inadequate*. This argument became even more valid when we considered that the American Dental Association, for example, produces an annual publication, "Accepted Dental Remedies" that may be purchased for approximately \$1.00 a copy. This is far more complete than any material our committee would be likely to produce. Furthermore, the committee felt that a publication such as "Accepted Dental Remedies" should be considered as the bare minimum when suggesting a reference to dentists contemplating a wider use of drugs.

3.

In view of these facts, the committee makes the following recommendations and also asks that the R.C.D.S. consider the alternate suggestions that have been made and then advise the committee on the future course it should take.

Recommendations

1. That a letter be sent to all dentists explaining the feelings of the committee;

2. That an article be published by the R.C.D.S. written in general terms supporting the intelligent use of drugs where indicated, but primarily outlining the hazards and the complications involved following drug administration;
3. That an unbound copy of "Accepted Dental Remedies" published by the American Dental Association be made available or even distributed to all dentists in Ontario;
4. That the profession be educated on a continuing basis by the means of short postgraduate courses on the use and abuse of drugs.

Alternate Suggestions

1. That the R.C.D.S. providing its function includes education by pamphlets or publications, distribute or make available to Ontario dentists, either free or at nominal cost, a binder designed to contain the publication "Accepted Dental Remedies" as well as future publications of the R.C.D.S. that could be distributed periodically. These short publications would be produced to fulfil particular needs in Ontario. The first issue, for example, would be the letter referring to the recommendations of the committee and its proposed program. This issue might be followed, for example, by a pamphlet concerned with the hazards of drugs in dentistry. Other releases would cover such subjects as: emergency treatment, antibiotic therapy, premedication for children, etc. This gradual organized introduction of material into the private office, using the 'ADR' as a reference might be more effective than a sudden release of a complete publication on drugs in dentistry.
2. That the Academy of Paedodontics be asked to produce a pamphlet or article on "The Hazards of Premedication in Dentistry for Children".

Action:

1. That Clinics and Extra-Mural Lectures on the use and abuse of drugs be encouraged.
2. The Board favours recommendation number 2.
3. Report be received and adopted.

Dean: Roy G. Ellis

REPORT

Annual Meeting — 1966

1.

Introduction

This is the 19th occasion on which it has been my pleasure to present a report on behalf of the Faculty of Dentistry, University of Toronto, at the annual meeting of the Board of Directors of the Royal College of Dental Surgeons of Ontario. I doubt whether any dental school, and in particular, a dean, on the North American continent has enjoyed a more cordial relationship with the Licensing Board of the state or province concerned. In describing this relationship to a recent visitor to the Faculty, he commented rather enviously that we were most fortunate. I am aware that this Board now receives reports from two dental schools in the Province of Ontario. I am sure this will provide the Board with a more comprehensive review of dental education in this province.

2.

Dental Students Register

The Bureau of Economic Research of the Canadian Dental Association reported recently that, "in ten years, Canada's dental schools have increased their capacities by over 75%." Further increases are anticipated in the near future. The Bureau further reports that the "total undergraduate enrollment was 1,289 students, 50 more than were enrolled last year".

Graduate, post-graduate, and special courses are offered at four schools, namely, Montreal, Manitoba, Alberta, and Toronto. The total enrollment in these three types of courses in session 1965-66 is 75, of which number 48 (64%) are registered at Toronto.

"There are 179 students enrolled in the four schools offering the two-year Dental Hygiene Program. At three schools, namely, Toronto, Manitoba, and Alberta, the first-year classes are virtually filled to capacity. Seventy-five hygienists graduated in 1964-65 and of these 45 (60%) were from the School at Toronto."

3.

Applications

In another report released recently by the Canadian Dental Association, it was indicated that 1,296 students submitted applications for admission to the 1965-66 freshman year of Canada's seven dental schools. "The majority of the applicants applied to only one dental school but one in six of them applied to from two to all seven schools each." A total of 1,689 applications were submitted by the 1,296 candidates. It should be noted that applications do not always produce candidates who have met the minimum requirements for admission. We in Toronto received 570 applications for the 1965-66 class of which number only 256 were finally documented and placed before the Admissions Committee of this Faculty. The remainder, numbering 314, (55%) either withdrew their applications formally (approximately 25) or failed to obtain the minimum qualifications, or submit final transcripts. The figure for all Canadian schools was 853 (50%) of the original 1,689 applications, failed to qualify.

It is perhaps, of further interest to note that to fill the 125 places in the 1965-66 freshman class, acceptances were issued to 159 students. In the final analysis, of the original 570 applicants seeking a place in the Toronto School, only 95 eligible students failed to obtain a place in the class commencing in September 1965. Many of these will, no doubt, apply again for the freshman class of 1966-67. We have already received in excess of 750 applications for session 1966-67.

4.

Trends — Preprofessional Education

You will recall that the Predental year conducted under the auspices of the Faculty of Dentistry was discontinued two years ago. The current first and second year classes completed their preprofessional training at the university of their choice. Seventy-four of the 125 students admitted in September, 1965, completed their preprofessional education at the University of Toronto while 51 (40%) came from universities other than Toronto.

It was anticipated that the withdrawal of the University of Toronto Predental year would result in a wider distribution of University preparation for dentistry. This appears to be taking place and may be accompanied by an increasing number of students seeking admission to dentistry from small communities and rural districts.

It is also interesting to observe another trend which appears to be related to the Predental year at Toronto. A marked increase is shown in the number of candidates entering the first dental year after completion of an Arts or Science degree.

The majority of the current fourth and third year students entered the First Dental Year following the one year Predental course at Toronto in 1962 and 1963 respectively. The classes entering in 1964 and 1965, now the Second and First Years, completed their preprofessional education at the University of their choice. The figures below present a comparison of the educational background of the last two classes to enter through Toronto's Predental Year and the first two classes to enter after the elimination of that year.

	One Year	Two Years	Three Years	Degree
Fourth year (admitted 1962)	101	—	—	7
Third year (admitted 1963)	95	5	—	6
Second year (admitted 1964)	88	9	1	23
First year (admitted 1965)	78	7	4	36

5.

Registration

Enrollment of all categories of students is being maintained at near capacity. The total registration for the current session is 637 students, compared with 630 in the previous session. We do not anticipate any marked change in these figures in the near future. Plans are being developed and have been submitted to the University authorities recommending the expansion of our Division of Post-graduate and Graduate Dental Education.

6.

Post-graduate and Graduate Education

In a brief submitted to the President of the University the need for expansion of facilities to accommodate 150 full time students in the various diploma and degree courses is carefully documented. This is three times the present capacity.

A more comprehensive program of short courses for practicing dentists is envisaged as part of this expansion.

On February 24th, 1966, the Dean and Dr. K. J. Paynter appeared before the Commission to Study Development of Graduate Programs in Ontario Universities. The plans projected by the Faculty of Dentistry, University of Toronto, for expansion of post-graduate and graduate education were outlined for the members of the Commission.

It was stated that if the future needs for Ontario are to be met even in part, and if the valuable national and international contribution to dental resources is to continue at the same level of relative significance, enrollment of post-graduate and graduate students in the Faculty may be tripled (approximately 150 students). To do so will require an addition to the present dental building of 25,000 square feet of space and alterations to existing facilities, the cost of which has been estimated at \$1,075,000 on the basis of the February, 1965, building index. Annual operating costs will rise approximately \$770,000 above present costs. This figure includes supporting technical, secretarial and nursing staff in addition to the academic staff.

A critical shortage of full time dental school teachers with graduate training already exists, and as the newly established schools of dentistry in Canada become operational, and others are created, the demand for qualified teachers, already acute, will increase rather than decrease.

Financial support for post-graduate and graduate students in dentistry is also urgently needed.

7.

Ontario Government — Bursary Plan

On March 26, 1962, the Minister of Health announced the establishment of the Medical and Dental Students Bursary Plan. It was indicated that ten bursaries would be available for dental students — each to provide \$1,000 per year. With the award of a bursary, the student accepts "an obligation to enter general practice, on completion of training, in a location in the Province of Ontario, which is acceptable to the Minister of Health. The return in service will be one calendar year for each academic year of bursary assistance provided".

During the 1962-63 session, six students contracted for bursary provided by the Ontario Government. During the current session, 1965-66, a total of 33 students have been awarded these bursaries. However, there are 39 students registered in the current session under the Bursary Plan as follows:

19 in the Fourth Year
3 in the Third Year
8 in the Second Year
9 in the First Year

Students in the graduating class who have received bursary assistance under this plan, will fulfill their return-in-service in the following communities: Chesley, Clinton, Cochrane, Cornwall, Dresden, Elliot Lake, Fergus, Hanover, Kincardine, Lindsay, Meaford, Port Dover, Port Elgin, Renfrew, Timmins, Whitby. In addition, three will serve on the Red Cross coaches.

It is probable that a larger percentage of the members of the 1966 graduating class will be locating in rural communities, than any class in recent years. The Ontario Government Bursary Plan is contributing significantly to this satisfactory record of placement.

8.

Dental Hygienists — Placement Service

The members of the dental profession in Ontario have been circularized by the Ontario Dental Association regarding the establishment of a placement service for dental hygienists. This is a cooperative arrangement between the Ontario Dental Hygienists' Association and the Ontario Dental Association, and was requested by the Faculty of Dentistry.

While the number of graduates from the dental hygiene course was small, the Supervisor assisted wherever possible in the placement of new graduates in dental offices. However, with 45-50 new graduates each year and an increasing number of former graduates seeking new positions, the burden of placement responsibilities became intolerable. Close liaison will be maintained between the Supervisor of the Course and the placement personnel in order that the service be as effective as possible.

9.

Teachers Conference

The members of the teaching staff of the Faculty of Dentistry have been requested to attend a conference on teaching methods and evaluation of students to be held in the dental building May 9th-11th, 1966. Invitations have been extended to all the Canadian dental schools to send representatives, to the four schools in the United States bordering on the Great Lakes, and to the Royal Canadian Dental Corps.

The Conference has been arranged in cooperation with members of the staff of the Ontario College of Education, the Ryerson Polytechnical Institute and the Teaching Aids Centre of the Toronto Board of Education. An outstanding programme has been arranged by a Committee led by Dr. C. E. Purdy.

On Wednesday evening, May 11th, a dinner will be held at the Westbury Hotel at which Dr. J. D. Hamilton, Dean of the Faculty of Medicine, will speak on "Future Education in the Health Sciences".

10.

Research

The Biennial report of the Chairman of the Division of Dental Research for the period May, 1963 to May, 1965, was received after the 1965 annual meeting of the Board. In his foreword to the report Dr. Grainger emphasized the vital relationship which must exist between the Division and the faculty. In a previous paragraph in this report I have referred to the projection for expansion of the graduate program and this inevitably will be accompanied by increasing participation in research. Dr. Grainger also focuses attention on the very heart of research activities when he says, "A university teaching staff that does not interest itself in research is a staff out of touch with current thinking, and hence not fully equipped to give the highest level of instruction to either undergraduate or graduate students. When anything less than the highest level of instruction is available, the profession itself deteriorates, and along with it, the dental health of the population it is created to serve."

I commend the latest Biennial report of the Research Division to your attention. Perusal of it will impress you with the vitality which motivates this department of the school.

11.

Toronto — Buffalo Research Meeting

A research conversazione was held on October 26th at Prudhommes Hotel, Vineland, for the staffs of the Research Divisions of the Dental Schools of the

University of Toronto and the University of Buffalo. Over forty research workers attended the program which was unique and highly successful. Each person was given approximately three minutes to tell about the highlights of his work and receive questions from the rest of the group. The result was a rapid review of the current research activities of the two schools, plus the comments or criticisms which helped everyone grasp the significance of the work.

12.

Diploma in Oral Surgery

The Senate of the University gave final reading to a statute on Friday, March 11th, 1966, approving the change of the name of the Diploma in Dental Oral Surgery and Anaesthesia to the Diploma in Oral Surgery and Anaesthesia.

13.

Box Memorial Lecture

The 1965 Box Memorial Lecture was given on October 18th, by Hans Selye, M.D., Ph.D., D.Sc., Professor and Director of the Institut de Medicin et de Chirurgie Experimentales, University of Montreal. Dr. Selye's subject was "Calciphylaxis".

Dr. Selye is a world renowned research scientist and his lecture enhances the very high standard established by previous Box Memorial lectures. The Faculty is proud to be the sponsor of this annual scientific highlight.

14.

Staff

On two occasions during the past year the staff ties with the past have been severed with the passing of two grand gentlemen, namely Dr. Charles A. Corrigan and Dr. Hugh A. Hoskin. Both men will be remembered affectionately by hundreds of dentists who came under their influence as students. Both men contributed significantly to dental education and to the development of young men entering a professional career. They both enhanced the image of dentistry because of the breadth of their associations and wide interests.

We record with deep regret also the recent passing of Dr. W. J. Evon, a young man with great promise who was serving in a part-time capacity on the staff.

New appointments to the full time staff, effective at the beginning of the 1965-66 academic session included: Miss Kathryn MacKenzie who graduated with the Diploma in Dental Hygiene in 1956 and subsequently obtained a B.A. degree from McMaster University in 1963. Miss MacKenzie joined the Dental Hygiene teaching staff in September, 1965. Dr. D. W. Lewis was appointed Assistant Professor of Dental Public Health following graduation in 1959 and completion of the Diploma in Dental Public Health in 1962. He gained field experience as Director of the Dental Division of the Department of Health in Kingston and relinquished this post to complete the requirements for the M.Sc.D. degree in 1965.

Promotions included Dr. A. M. Hunt to Professor in charge of Dental Public Health; Dr. E. P. Downton to Professor in the Department of Prosthodontics; Dr. K. W. Davey to Associate Professor in the Department of Paedodontics.

On November 1st, 1965, Mr. Douglas H. Evans, formerly attached to the Headquarters Staff of the Director General of Dental Services in Ottawa was appointed Administrative Assistant to the Dean. Mr. Evans' duties include non-academic personnel, matters relating to the physical plant and special items assigned by the Dean. Mr. A. G. Read continues as the efficient Secretary of the Faculty, and is responsible for details relating to administration in the academic areas.

Significant honours were awarded two senior members of the staff early in the current session.

On July 13th, Dr. C. H. M. Williams was awarded the Elmer S. Best Memorial Award by the Pierre Fauchard Academy for his outstanding contributions to dentistry and services to humanity. The presentation was made to Dr. Williams by the U.S. Ambassador, The Honourable W. Walton Butterworth, at the U.S. Embassy in Ottawa. This award was created in 1961 as a memorial to Dr. Elmer S. Best, a founder and long time secretary of the Pierre Fauchard Academy. A group of dentists from the United States and Canada, including a few staff members, were present when Dr. Williams received this well deserved honour. Later in July, at the Annual Meeting of the American Association of Dental Schools, Dr. P. G. Anderson was awarded one of the three 1964 editorial awards given by the Association. These awards are sponsored by the Columbia Dentoform Corporation of New York. They are awarded annually for meritorious original contributions for the advancement of dental education. Dr. Anderson's article appeared in the June, 1964, issue of the Journal of Dental Education and was entitled "Practical Applications in Accelerated Pre-clinical and Clinical Teaching".

15.

Acknowledgements

Without being specific on this occasion, the Faculty is again indebted to a host of individuals for continuing support in one form or another. We gratefully acknowledge the many evidences of generosity and helpful cooperation. Above all, I take this opportunity to express to the staff in all categories my sincere thanks for their loyalty and devotion to their various tasks.

Finally, to this Board we express again our sincere appreciation for continuing interest and support.

Action

1. Report received.

THE UNIVERSITY OF WESTERN ONTARIO

FACULTY OF DENTISTRY

Dean: Wesley J. Dunn.

REPORT

Annual Meeting — 1966

It is a privilege to present the second annual report of the Faculty of Dentistry of The University of Western Ontario.

1.

The Dental Sciences Building

Plans for the Dental Sciences Building have now been completed. The electrical and mechanical drawings are in their final stages and it is hoped that construction of the building can commence in early June 1966. The estimated date of completion is now late 1967 or early 1968.

The building itself comprises seven levels. The lower ground, ground, and first floors provide the physical facilities essentially for the dental clinical sciences. In addition to the pre-clinical student laboratories on the lower ground floor, provision has been made for a Dental Materials Research section; shops for dental equipment repair, instrument fabrication, and electrical, electronic, and optical equipment maintenance; the Faculty Stores; and student and staff locker rooms and lounges.

The ground floor includes the large general clinic with its supporting services, a general reception area, the oral diagnosis and dental radiography section, and the Department of Oral Surgery.

The first floor provides a student common room and student affairs' area; a large lecture room which will accommodate a full class in medicine plus a full class in dentistry; the general administration area of the Faculty; a dental hygiene section; and graduate clinical facilities.

The second, third, and fourth floors enable the expansion of the six Basic Science Departments — two departments on each floor. As the Dental Sciences Building will be physically attached to the Medical Sciences Building, the new structure will make possible a significant enlargement of these departments.

On the fifth floor will be located the additional animal quarters plus an endocrinology research area which is being moved to the upper floor of the Dental Sciences Building from another area on the campus.

The building described above will have a gross area of almost 167,200 square feet. If the present plans of constructing two levels below the lower ground floor are approved this will add an additional 33,750 square feet. A covered walkway from the present Animal House in the Medical Sciences Building to connect with the additional quarters in the Dental Sciences Building will add another 1,500 square feet. In all, the building may approximate 202,450 square feet. The cost estimate, based on today's indices, for building, furnishing, and equipping the structure is \$7,400,000.

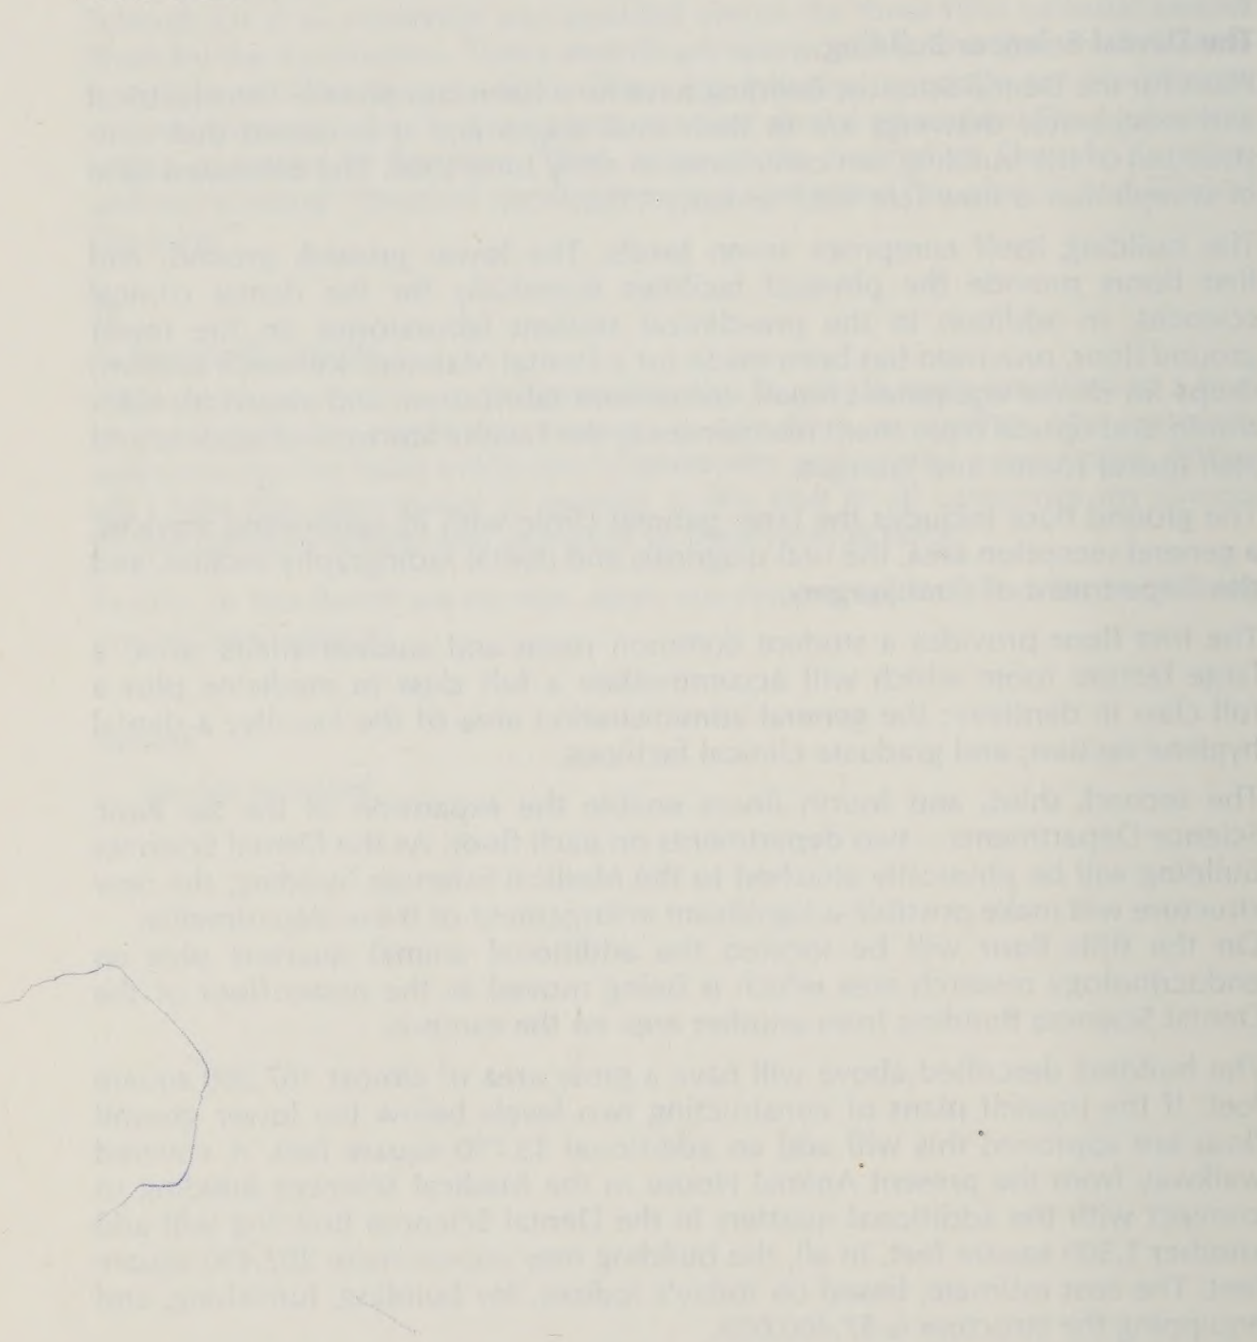

2.

The Council

The first meeting of the Council of the Faculty of Dentistry was held on September 27th, 1965. The original Council consisted of the President, the Vice-President (Health Sciences), the Heads of the Departments of Anatomy, Bac-

teriology, Biochemistry, Pathology, Pharmacology, and Physiology and the Dean of the Faculty as Chairman of Council. On April 15th, 1966 the Board of Governors concurred in the recommendation that all members of the six Basic Science Departments hold joint appointments in the Faculties of Medicine and Dentistry. Thus the Council will now consist of those mentioned above plus the Professors, Associate Professors, Assistant Professors (full and part-time) and full-time Lecturers. Standing invitations to attend Council on a non-voting basis have been extended to the Deans of Medicine and Nursing, the Librarian, and the Director of University Hospital.

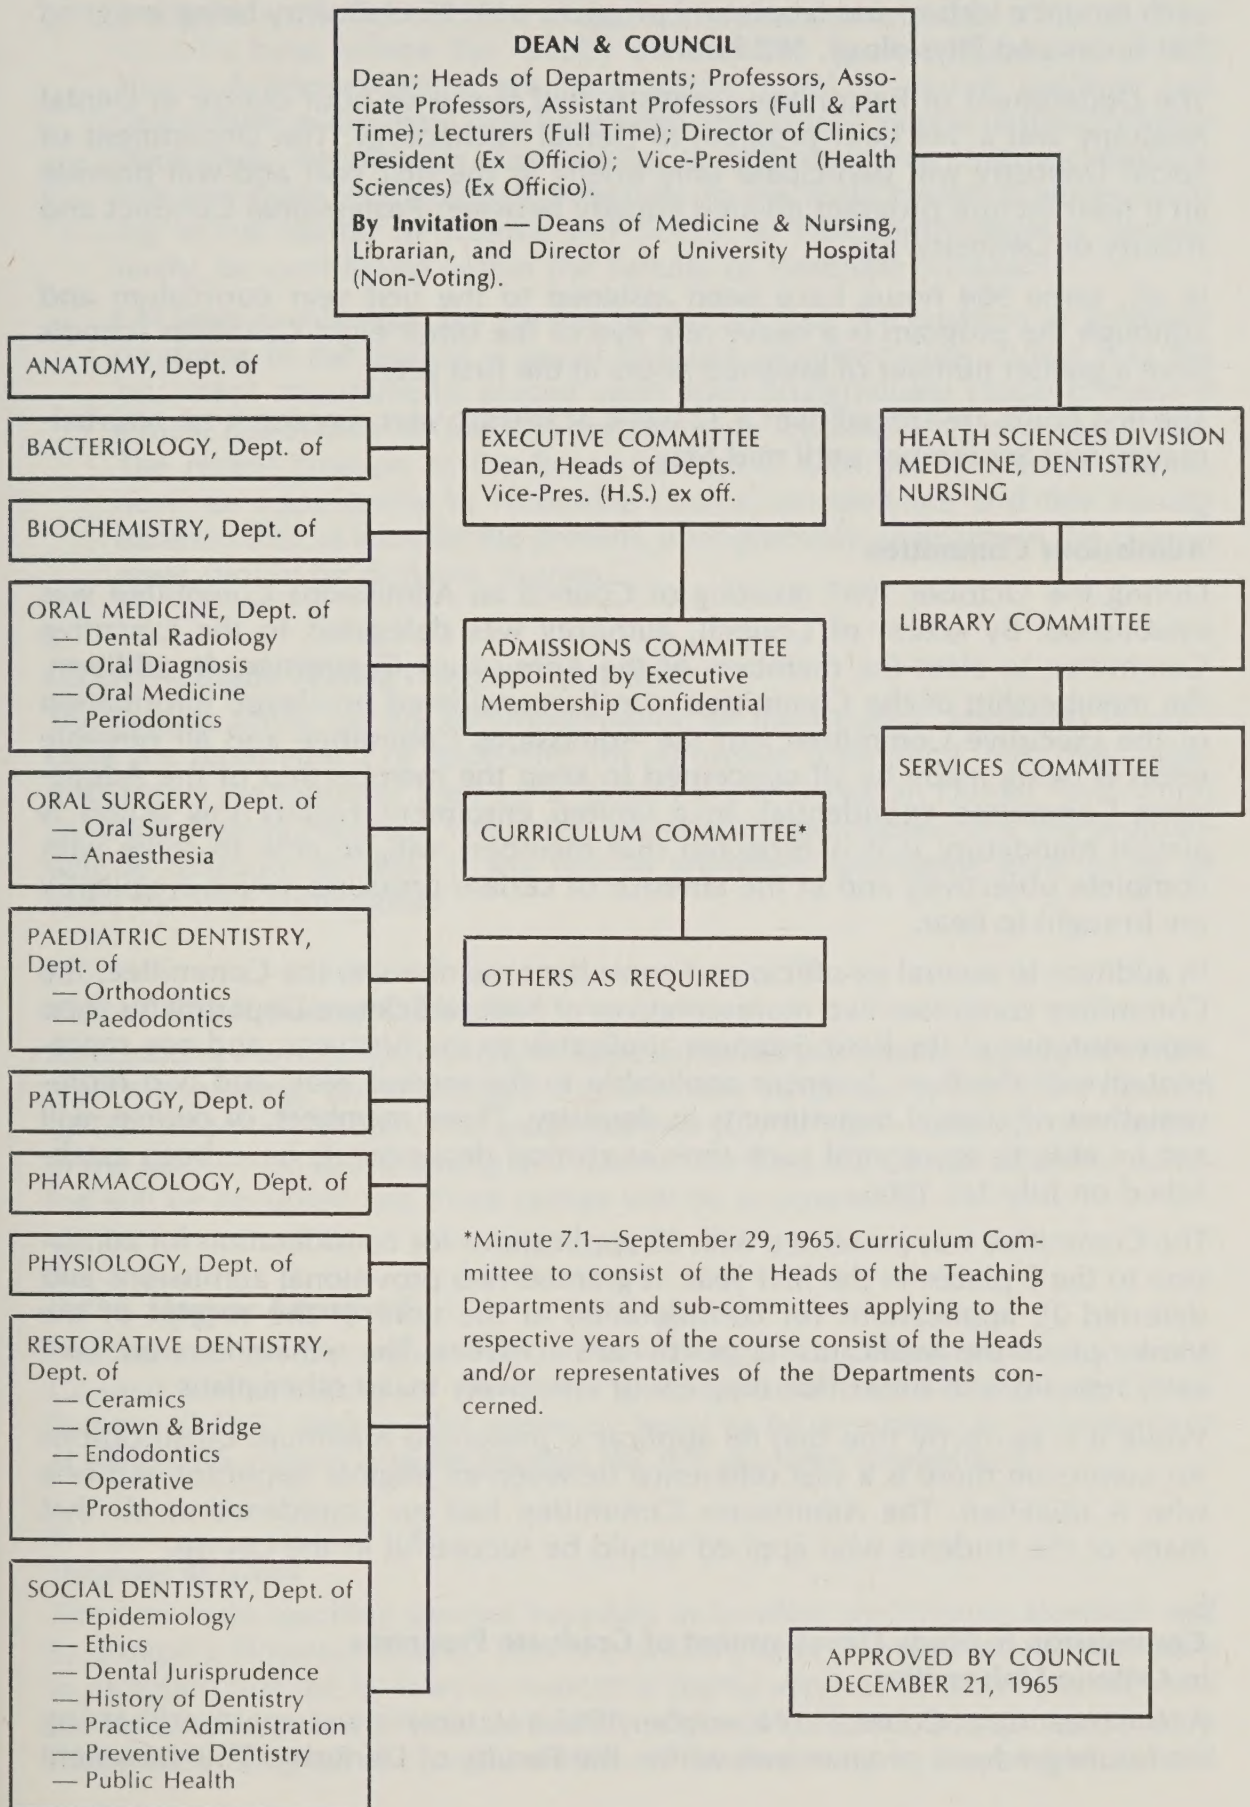

The present Council and departmental organization is shown in the following flow chart:

THE UNIVERSITY OF WESTERN ONTARIO

FACULTY OF DENTISTRY

Council and Departmental Organization

3.

First Year Curriculum

The Senate approved the recommendation of Council in respect of the establishment of a Curriculum for the first year. Five departments will participate in the teaching program. The Departments of Biochemistry and Physiology will each mount a lecture and laboratory program with Biochemistry being assigned 184 hours and Physiology, 192 hours.

The Department of Restorative Dentistry will give a 48 hour course in Dental Anatomy and a 144 hour program in Dental Technology. The Department of Social Dentistry will participate only briefly in the first year and will provide an 8 hour lecture program divided equally between Professional Conduct and History of Dentistry.

In all, some 984 hours have been assigned to the first year curriculum and although the program is a heavy one five of the other eight Canadian schools have a greater number of assigned hours in the first year.

The 984 hours are spread over a 32 week academic year running from approximately mid September until mid May.

4.

Admissions Committee

During the October 1965 meeting of Council an Admissions Committee was established. By action of Council, authority was delegated to the Executive Committee to elect the members of the Admissions Committee. In addition, the membership of the Committee is to be considered privileged information of the Executive Committee and the Admissions Committee and all possible effort is being made by all concerned to keep the membership of the Admissions Committee confidential. In a limited enrolment Faculty this action is almost mandatory if it is expected that members will be able to serve with complete objectivity and in the absence of certain pressures which frequently are brought to bear.

In addition to several ex-officio and consultant members to the Committee, the Committee comprises two representatives of Natural Science Departments; one representative of the Basic Sciences applicable to the first year; and one representative of the Basic Sciences applicable to the second year; and two representatives of clinical departments in dentistry. These members, of course, will not be able to serve until such time as clinical departments have been established on July 1st, 1966.

The Committee was presented with 88 applications for consideration for admission to the 8 places in the first year. It granted two provisional admissions and deferred 29 applications for consideration at the time of the receipt of the transcripts of the applicants' current year's activities. The remainder were sent early rejections in order that they could effectively make other plans.

While it is perfectly true that 88 applicants presented minimum qualifications for admission there is a vast difference between an eligible applicant and one who is qualified. The Admissions Committee had no confidence at all that many of the students who applied would be successful in the course.

5.

Commission to Study Development of Graduate Programs in Ontario Universities

At the meeting of Council in November 1965 a statement was approved bearing on future graduate programmes within the Faculty of Dentistry. This statement

was subsequently transmitted to the Commission to Study Development of Graduate Programmes in Ontario Universities and, in part, this statement follows:

"Notwithstanding the most creditable efforts being made at the University of Toronto there is an overwhelming need to provide opportunities in graduate work for dentists interested in the basic health sciences. Particularly here, where the Faculty of Dentistry is an integral part of the Health Sciences Centre, we have urgent need to recruit teachers and researchers in dentistry who have been adequately trained in Basic Science disciplines. Accordingly, this Faculty is recommending that, for dentists, two and three year graduate programs in the Basic Health Sciences leading to the Master of Science and Doctor of Philosophy degrees, respectively, be established within the Faculty of Graduate Studies."

"At least at this time, we are not recommending the creation of graduate programs in the clinical sciences because experience has shown that the treatment requirements placed upon such postgraduate students make it almost impossible for them to consummate creditable research programs. The recent creation of the Royal College of Dentists of Canada affords, now, an opportunity to recognize clinical competence and this Faculty believes that, at least for the present, post-graduate programs in the clinical areas should be diploma courses."

6.

C.D.A. Aptitude Testing Program Approved

The Senate, acting on the recommendation of the Council, approved in principle the requirement of applicants for admission presenting with their other documents the report of their achievement in the Canadian Dental Association Aptitude Testing Program. While it is confidently anticipated that the program will be operable in 1966, it will not be launched sufficiently early to be of value for 1966 admissions.

7.

Visit of C.D.A. Survey Committee

Anticipating eventual accreditation, the Council of the Faculty, during its February 1966 meeting, recommended that a survey visitation by the CDA Council on Education take place in the academic year July 1, 1966 - June 30, 1969, either in the fall of 1968 or the spring of 1969. At that time the Dental Sciences Building will be occupied and three classes will be in operation.

8.

D.D.S. Degree Approved

The Senate, on December 17th, 1965, acting on a recommendation of the Council of the Faculty of Dentistry, gave approval to the Doctor of Dental Surgery (D.D.S.) degree. The academic hood to be employed at Convocations at which this degree is to be granted has not yet been determined.

9.

Hospital By-Laws

The two main teaching general hospitals in London are Victoria Hospital and St. Joseph's Hospital. Shortly after the writer's arrival in London he was able to ascertain that the by-laws in respect of dental services in each hospital were far from adequate. He was invited by Victoria Hospital to participate on a Committee assigned the responsibility of drafting new by-laws which would

provide a sound legal base for dental services in the hospital. These draft by-laws have now been completed and will shortly be presented to the Board of Trustees through the Medical Advisory Committee. They are being delayed until the new General Regulations enacted pursuant to the Public Hospital's Act have been promulgated by the Lieutenant-Governor in Council.

St. Joseph's Hospital has issued a similar invitation to have a redraft of its by-laws prepared.

As there seems to be merit in achieving some consistency, the drafting of dental by-laws for St. Joseph's Hospital will await the approval of the by-laws prepared for Victoria Hospital. At that time similar by-laws, with whatever appropriate amendments are necessary, will be prepared for the consideration of St. Joseph's Hospital.

When these procedures have been completed the environment for dental services in these two hospitals should be vastly improved and effective dental services should result.

10.

Vice-President's Committee (Health Sciences)

On January 3rd, 1966 the Vice-President's Committee (Health Sciences) was established. The development of an integrated Health Sciences Centre made mandatory the creation of a group which could serve to consider matters common to all divisions of the Centre. The Chairman of the Committee is Dr. O. H. Warwick, Vice-President (Health Sciences) and the other members are Miss R. Catherine Aikin, Dean of Nursing; Dr. Douglas Bocking, Dean of Medicine; and the writer.

The Committee meets monthly and already has demonstrated its effectiveness in dealing with matters of common interest as they relate to teaching and research in the Health Sciences.

11

Senate Review Committee

In March, 1966 the report of the Commission on University Government in Canada was made public. Prior to the release of this report the Senate established a Senate Review Committee to study all aspects of the present operation of the Senate with a view to making recommendations in respect of the future role of the Senate in University Government. This is an important subject and the Faculty of Dentistry has made its contribution to the Committee's deliberations.

12.

Associate Committee on Dental Research of National Research Council

Following receipt of an invitation from the Associate Committee on Dental Research of the National Research Council to appoint a representative from the Faculty of Dentistry of The University of Western Ontario, Professor Charles W. Gowdey, Head of the Department of Pharmacology accepted the appointment and attended his first meeting in March, 1966.

13.

London and District Dental Society Memorial Scholarship Fund

The Faculty is most grateful to the London and District Dental Society for having established a Memorial Scholarship Fund. The Society has appointed Drs. A. J.

Harris, D. C. Way, and J. O. McCutcheon as trustees. When the amount on deposit in the Fund is sufficient to make a granting of an award possible the Terms of Reference of the award will be developed. Contributions totalling \$398.00 have been received since the Fund's inception.

14.

Dental Library Book Fund

Through the generosity of the Oxford County Branch of The University of Western Ontario Alumni Association, a donation of \$100 was made to establish a Dental Library Book Fund. It is hoped that other Alumni branches and any interested persons or organizations may wish to augment this Fund for the important purpose for which it was established.

15.

Staff

The Council of the Faculty of Dentistry, during its meeting on March 21st, 1966, unanimously adopted certain proposals respecting the appointment to this Faculty of members of staff of the Basic Science Departments. In order that the Faculty of Dentistry may function effectively and appropriately within the Health Sciences Centre, Council requested the Board of Governors, at its meeting on April 15th, to publish a minute to the effect that all faculty holding academic appointment in the Departments of Anatomy, Bacteriology, Biochemistry, Pathology, Pharmacology, and Physiology be deemed to be joint-appointees in the Faculty of Medicine and the Faculty of Dentistry. This recommendation was ratified by the Board. Thus the Faculty of Dentistry now enjoys and benefits from the most significant contributions of all members of the six Basic Science Departments.

On July 1, 1966, four members of Faculty with dental qualifications will be joining this staff. Dr. Donald S. Moore of Hamilton has been appointed Professor and Head of the Department of Oral Medicine. Dr. Moore is well known to the dentists of this province being a graduate of the Faculty of Dentistry of the University of Toronto and the holder of the Diploma in Periodontics of the same institution. Dr. Moore has been on the part time staff of the Toronto school and is one of Canada's most sought after clinicians. He will assume responsibility for a Department which will provide courses in Oral Diagnosis, Dental Radiology, Oral Medicine, and Periodontics.

Dr. Ronald E. Jordan will become Professor and Head of the Department of Restorative Dentistry. Dr. Jordan is a 1954 graduate of the Faculty of Dentistry of the University of Alberta. In 1962 he was the recipient of the M.S.D. degree in Restorative Dentistry from the University of Washington. From 1962 to 1964, Dr. Jordan was Associate Professor in Operative Dentistry at Dalhousie University and in 1964, went to the University of Pittsburgh, Cleft Palate Research Center as a Research Associate. In 1965, he became Associate Professor and Chairman of the Department of Operative Dentistry of the University of Pittsburgh. Dr. Jordan has contributed several papers to the literature and is the co-author of two books, *The Human Dentition Before Birth*, and *Dental Anatomy and its Clinical Applications*.

Dr. David G. Gardner joins the Faculty as an Associate Professor in the Department of Pathology. Dr. Gardner is a 1958 graduate of the University of Toronto, and in 1965, earned the M.S.D. degree of Indiana University, in Pathology. At present he is Assistant Professor in the Department of Oral Medicine at the University of British Columbia. From 1963 to 1965 he was a Dental Research Fellow of the National Research Council of Canada.

Dr. Peter G. Dellow of the University of Adelaide will be joining the Department of Physiology as an Associate Professor. Dr. Dellow was graduated Bachelor of Dental Surgery in 1949 and Bachelor of Medicine, Bachelor of Surgery in 1957. He is a member of the Australian College of Dental Surgeons. For several years Dr. Dellow has been a Lecturer in Physiology and in Oral Biology at the University of Adelaide. He has a thesis in preparation "Sensory Trigeminal Mechanisms" as a portion of the requirements for the M.D.S. degree of the University of Adelaide.

It is a pleasure to welcome these colleagues to The University of Western Ontario.

16.

Visitors to the Faculty

During the year the Faculty enjoyed visits from Dr. James W. Bawden, Dean-elect of the School of Dentistry of the University of North Carolina; Dr. K. J. Paynter, Chairman of the Division of Post-Graduate Studies of the Faculty of Dentistry of the University of Toronto; Brigadier K. A. Baird, Director-General of Dental Services for The Canadian Armed Forces; and Dr. Harry Hunter, Professor of Oral Pathology of the Faculty of Dentistry of the University of Toronto.

Dr. Bawden presented a seminar entitled "The placental transfer of fluoride and calcium," and met with the members of the Department of Physiology in respect of their interest in and concern for the mounting of an effective first year program in this discipline. Dr. Paynter performed a similar service for the Department of Anatomy and Dr. Hunter lectured to the second year in Medicine and also met with members of the Department of Pathology.

17.

Conclusion

The year which has passed has had both its encouragements and its discouragements. Notwithstanding that all parties concerned with the planning of the Dental Sciences Building have been working most expeditiously toward its completion the building is such an incredibly complicated one that progress has not kept pace with expectations. On the credit side of the ledger, however, has been the establishment of excellent working relationships with other divisions of the University, a development of an organizational structure for the Faculty within the Health Sciences Centre which augurs well for the future maturation of this school and the recruitment of a nucleus of competent staff upon which depends so completely the quality of programmes to be offered.

The Faculty of Dentistry of The University of Western Ontario is grateful for the marked participating interest the profession has exhibited toward this embryonic institution. We hope that the product of all our efforts and interest may measure in achievement the aspirations we have for it.

Action

1. Report received.

Members: Doctors R. Michell, Chairman; R. C. Honey, H. M. Jolley.

REPORT

Fall Meeting — 1965

1.
We present herewith as Appendix "A" our budget proposal for the Calendar Year ending December 31st, 1966.
2.
As in previous years we have been conservative in our estimate of possible revenues and tried to anticipate all possible expenditures.
3.
As no decision in respect to changes in the R.C.D.S./O.D.A. relationship has been arrived at by our Board at the time of writing this report, such matters have not been taken into consideration. Any such changes would, naturally, reflect in our budget and might necessitate revisions.
4.
The Committee requests the direction of the Board with regards to a grant to the Centennial Convention Committee.

Action

1. Report approved.
2. The Budget for 1966 be adopted.
3. The Chairman of the Finance Committee was instructed to prepare a proposal on per diem allowances, travel allowances, accommodation etc. for Directors and Committee members.
4. The Secretary and one Director were instructed to consult Mr. G. Watson re his retainer fee.

REPORT

Special Meeting, February 12th, 1966.

The following policy statement on Honoraria and Expense Reimbursement is submitted for approval.

R.C.D.S. POLICY STATEMENT ON HONORARIA AND EXPENSE REIMBURSEMENT

Eligible Personnel

- Non-salaried officers
- Directors of the Board
- Members of Committees
- Examiners and Scrutineers
- R.C.D.S. Members on duties authorized by the Board

Honoraria

\$75. per day

\$40. per half day

(When travelling requires the loss of office hours reimbursement to be made on a per diem basis — 1 day \$75.

1/2 day \$40.)

Expense Reimbursement

Hotel Accommodation (single rate)

Meals

Miscellaneous (Airport Transportation, Taxis, gratuities, etc.)

Travel

Train or Air — first class (if economy not available)

Automobile — 10¢ per mile but not to exceed first class train or 'plane fare.

Note — For Income Tax purposes vouchers for expense reimbursements should be attached to expense account whenever possible.

An expense account may be submitted by Directors when attending a meeting in an official capacity.

Evening meetings are to be discouraged as much as possible. No honoraria will be paid for evening meetings unless travel time requires loss of productive office hours.

GOVERNMENT AND LEGISLATION COMMITTEE

Members: Doctors R. C. Honey, Chairman; H. M. Jolley, A. B. Sutherland.

REPORT

Fall Meeting — 1965

1.
The Government and Legislation Committee recommends the adoption of the Act to Amend the Dentistry Act.
2.
The Committee recommends the term of the President be for one year.
3.
The Committee recommends that elections to the Board of the R.C.D.S. be staggered so that at no time will the complete Board be elected at one time.
4.
The Committee recommends the adoption of the By-Laws of Dental Hygienists appearing as Appendix A.
5.
The Committee recommends the division of R.C.D.S. District #3 into two in a manner similar to that of the Ontario Dental Association.

Appendix A

REGULATION MADE UNDER THE DENTISTRY ACT OF ONTARIO

Dental Hygienists

1.
In this By-law, "registrar-secretary" means the person appointed by the Board as registrar and secretary of the College.
2.
An ancillary body known as "dental hygienists" is established consisting of those persons who are registered under this By-law as dental hygienists.
3.
The "practice of dental hygiene" means
 - (a) the cleaning and polishing of teeth;
 - (b) the giving of instructions and demonstrations in oral hygiene and mouth care;
 - (c) the making of radiograms;
 - (d) the topical application of medicaments; and
 - (e) the performance in the oral cavity of any work, service or assistance which is ancillary to the primary performance of a dental procedure by a member of the College and which does not involve the exercise by a dental hygienist of the professional skill or judgment required of a member of the College:under the direct supervision and control of a member of the College who shall assume full responsibility for any work, service, advice or assistance usually undertaken, performed or given by a dental hygienist.

4.

No person shall act as a dental hygienist unless she is registered under this By-law.

5.

(I) There shall be a register of dental hygienists containing the names of persons who are entitled to registration under this By-law.

(II) The register shall be maintained by the registrar-secretary.

6.

An application for registration as a dental hygienist shall be as in Form 1.

7.

The registrar-secretary shall register an applicant who:

(a) is a female person;

(b) is a Canadian citizen or proves to the satisfaction of the Board that she intends to apply for Canadian citizenship when she is qualified to do so;

(c) holds Grade XIII standing as required for admission to an Ontario University offering Dental Hygiene education, or its equivalent;

(d) possesses the aptitude, capacity and character to become and act as a dental hygienist;

(e) has completed the course of study referred to in Section 8;

(f) has passed the examinations prescribed under Section 9; and

(g) pays to the treasurer of the College a registration fee of \$25 for which a certificate of registration will be issued signed by the President and the Registrar-Secretary.

8.

The course of study for dental hygienists shall consist of the course in dental hygiene conducted by a Faculty of Dentistry in Ontario or such other course or courses in dental hygiene as may be approved by the Board as being equivalent in scope to the course conducted by a Faculty of Dentistry in Ontario.

9.

(I) The Board may conduct examinations for candidates seeking registration as dental hygienists.

(II) The registrar-secretary shall conduct or cause to be conducted the examinations referred to in subsection 1.

(III) The Board may accept the examinations given at the conclusion of a course of study referred to in section 8 as the registration examinations for dental hygienists.

10.

(I) Every registered dental hygienist shall pay annually to the treasurer of the College a renewal fee of \$10 on or before the first day of January in each year.

(II) The registrar-secretary shall remove from the register, after ninety days, the name of any dental hygienist who does not pay the renewal fee.

11.

(I) The registrar-secretary shall issue annually a certificate as a dental hygienist to every person whose name appears on the register.

(II) Every dental hygienist employed by a member of the College shall display her certificate of registration and annual licence certificate in a conspicuous place in the office of the member.

12.

All fees are payable to the treasurer of the College.

13.

(I) Where the name of any dental hygienist has been removed from the register under section 10 and that dental hygienist pays a re-registration fee of \$15 the registrar-secretary shall re-register the dental hygienist and thereupon issue a licence certificate.

(II) On or before the first day of December in each year, the registrar-secretary shall notify each dental hygienist that the annual fee is due at the end of the year.

(III) The notice shall be sent by prepaid post addressed to the dental hygienist at her address appearing on the register.

14.

(I) Except as provided by subsection 2 of section 11 and except to a member of the College, a dental hygienist shall not,

(a) by exhibiting, displaying or permitting to be displayed any sign or notice; or

(b) by otherwise advertising;

represent that she is engaged or about to become engaged in the practice of dental hygiene.

(II) Notwithstanding subsection 1, any dental hygienist registered as such under this By-law is entitled to use the designation, Dip. Dent. Hygiene: and to wear a narrow lavender velvet band on her cap.

15.

(I) Where the Board, after a hearing by the Discipline Committee of the College, finds that a dental hygienist,

(a) has been guilty of,

(1) incompetence,

(2) improper or dishonourable conduct in respect of the dental practice of her employer, or

(3) failure to comply with the Act or this By-law; or

(b) has been convicted of a crime that affects her fitness to practise, the Board may revoke or suspend the licence of the dental hygienist and remove her name from the register.

16.

Nothing in this By-law prevents the employment in public health activities under the direct supervision and control of a member of the College of a dental hygienist who is registered under this By-law.

17.

Regulation 74 of Revised Statutes of Ontario, 1960, is revoked.

Action

1. The Act to Amend the Dentistry Act as presented is not completely acceptable and is referred back to the Committee for further revision.

2. The recommendation of the Committee to stagger elections was not approved.
3. The recommendation of the Committee that the term of the President be restricted to one year was not approved.
4. Motion approved.
That the regulations made under the Dentistry Act of Ontario in respect to Dental Hygienists as outlined in Appendix A be approved.
5. The proposal to divide District # 3 was not approved.
6. Report as amended be adopted.

BY-LAW NO. 100
Enacted November 24, 1965

Being a By-law to amend By-law No. 11(4).

Be it enacted and it is hereby enacted a By-law of the Royal College of Dental Surgeons of Ontario as follows:

That By-law No. 11(4) be amended by striking out 1960 and inserting in lieu thereof 1967 in line 1 and by striking out \$75.00 and inserting in lieu thereof \$125.00 in line 4.

REPORT

Annual Meeting — 1966

1.

Following the Annual Meeting in April 1965 the Board directed that a study be made of the Dentistry Act with a view to general revision and amendment.

2.

Reasons for Need to Revise the Act

- (a) Elimination of references to the now obsolete system of "articling".
- (b) Elimination of matters which were only pertinent until the teaching function was transferred to university faculties.
- (c) Adjustment of representation on the board of directors to accommodate current and anticipated increases in the number of dental faculties.
- (d) Bringing penalties prescribed by the Act into line with current purchasing power levels.
- (e) Expansion of the definition of "improper professional conduct" to include "incompetence and gross carelessness.
- (f) Revision of the discipline procedure to accelerate corrective action in the case of improper conduct.

3.

The Dentistry Amendment Act — 1966

The directors submitted proposals for revision to the Government and Legislation Committee prior to September 1, 1965. On September 1, 1965 and on October 31, 1965 the Committee met and prepared a draft of the Amended Dentistry Act. After consulting with our legal counsel the proposed legislation

was submitted to the Fall Meeting of the Board in November 1965. Some alterations were suggested and the legislation was again revised at committee level. The Dentistry Amendment Act, 1966 as it appears in Appendix A was approved by the Board at a Special Meeting on February 12, 1966. This Amended Act was the result of many hundreds of hours spent on research and discussion by members of the Board.

4.
Student Admission to Faculties of Dentistry – Ontario

The method of selecting applicants for the first dental year is receiving consideration by the Committee. The role of aptitude testing and personal interviews as well as academic standing is under review.

5.
R.C.D.S. By-Law No. 100

Order-in-Council No. OC-1039/66 dated March 10th, 1966 approved that the annual registration fee for a member of the College engaged in the practice of dental surgery be \$125.00 effective January 1st, 1967.

6.
R.C.D.S. By-Laws

The Committee recommends that a study of all the By-laws of the College be made with a view to general revision and amendment.

7.
Amendments to the Dentistry Amendment Act – 1966

On April 6th, 1966 the President and the Registrar reviewed with the Minister and other senior officials of the Department of Health the proposed changes in the Dentistry Act. They suggested that the proposed changes with regards to sub-section 10 of Section 23 and Section 29 be deleted otherwise they were very pleased with the Board's proposal.

President Coupland requested that a mail vote of the Board of Directors be taken in order to determine if the Directors agreed that these two deletions be made.

The mail vote was taken on April 7th, 1966 and the Directors unanimously agreed to the deletions.

The Secretary has communicated the wishes of the Directors to the appropriate officials in the Department of Health.

Action

1. Report received and adopted.

THE DENTISTRY AMENDMENT ACT 1966

Remarks

Her Majesty by and with the advice and consent of the Legislative Assembly of the Province of Ontario enacts as follows:

1.

(1) Sub-section (2) of Section 3 of The Dentistry Act is amended by striking out "and with the consent of the Minister of Education" in the third and fourth lines.

(1) Elimination of a reference inappropriate to present circumstances.

2.

(1) Sub-section (2) of Section 4 of The Dentistry Act is amended by striking out "nine" in the first line.

(2) Adjustment of representation on the board of directors to accommodate increases in the number of dental faculties and to substitute area of practice for area of residence as a test of eligibility.

(2) Sub-section (3) of said Section 4 is amended by striking out "at least five" in the first line and inserting in lieu thereof "a majority".

(3) Sub-section (4) of said Section 4 is amended by inserting after the word "district" in line 3 "except for York for which electoral district two members shall be elected"; strike out "resident" in line 3 and insert "practising" in lieu thereof: strike out "a resident of" in line 4 and insert "practising in" in lieu thereof.

(4) Said Section 4 is amended by striking out sub-section (5) and inserting in lieu thereof the following:

"(5) One member shall be elected by and from the Faculty of each university, college or other body in Ontario that is now or hereafter authorized to conduct a course or courses in dentistry and to grant degrees in dentistry and is actively conducting such course or courses in the year in which such choice is made."

(5) Said Section 4 is amended by striking out Paragraph (b) of sub-section (6) and inserting in lieu thereof the following:

"(b) Where the vacancy is in representation of a Faculty of Dentistry, the remaining members of such Faculty shall choose a duly qualified person to fill the vacancy," and by adding to such sub-section the following as Paragraph (c):

"(c) Whenever any candidate dies after the close of nominations for election to the board and before the closing of the polls, the board shall fix other days for the nomination and for the election of candidates."

3.

Sub-section (2) of Section 10 of The Dentistry Act is amended by adding at the end thereof the following:

“(e) in aid of any association the objects of which include improvement of dental health or the making available of better dental services or other benefits to the public or to the dental profession.”

4.

(1) Sub-section (1) of Section 14 of The Dentistry Act is amended by striking out “and fix and determine the period for which every student shall be articled and employed under a duly licensed practitioner” in the second, third and fourth lines.

5.

(1) Section 15 of The Dentistry Act is repealed.

6.

(1) Sub-section (1) of Section 17 of The Dentistry Act is amended by striking out “shall” in the first line and inserting “may” in lieu thereof.

(2) Sub-section (5) of said Section 17 is amended by inserting after “College” in the third line “or at a national dental examining board”.

7.

(1) Section 21 of The Dentistry Act is amended by striking out “his service under articles and” in the sixth and seventh lines.

8.

(1) Sub-section (3) of Section 22 of The Dentistry Act is amended by striking out “\$10” in the fifth line and inserting “\$25” in lieu thereof.

9.

(1) Sub-section (7) of Section 23 of The Dentistry Act is amended by striking out “duly articulated” in the first line and by striking out “clinics” in the second line and inserting in lieu thereof “public hospitals, clinics and faculties of dentistry”.

(2) Sub-section (8) of said Section 23 is amended by striking out in the third and fourth lines “\$100, for the second offence, a fine of \$200, and for every subsequent offence a fine of \$500” and inserting in lieu thereof “not less than \$50 and not more than \$200, for the second offence a fine of not less than \$200 and not more than \$500 and for every subsequent offence a fine of not less than \$500”.

(3) Makes explicit the power of the board to make grants to associations having certain characteristics.

(4) Eliminates an achronistic reference to “articling”.

(5) Eliminates provisions inappropriate to present circumstances.

(6) Makes optional the holding of examinations for candidates for certificates and specifies the acceptability of examinations by a national dental examining board.

(7) Eliminates an achronistic reference to “articling”.

(8) Increases the extra charge for late payment of fees from \$10 to \$25.

(9) (1) Eliminates an achronistic reference.

(2) Provides for increases (with provision for flexibility) in the penalties for illegal practice of dentistry.

10. *Section 24 of The Dentistry Act is repealed*

and the following inserted in lieu thereof:

"24.(1) Where a member of the College has been heretofore or is hereafter convicted in Canada or elsewhere of an indictable offence, which conviction remains unreversed, or has been or is guilty of any infamous, disgraceful or improper conduct in a professional respect, he shall be subject to the disciplinary action and liable to the penalties hereinafter provided, but no such disciplinary action shall be taken or penalty imposed if the conviction is for a political offence committed out of Her Majesty's dominions or for an offence that, though indictable, ought not, either from its nature or from the circumstances under which it was committed, to justify such disciplinary action or the imposition of such penalties. Infamous, disgraceful or improper conduct in a professional respect shall be deemed to include professional incompetence, gross carelessness in diagnosis or treatment, and fraudulent or exorbitant charging of fees.

(2) Where a member has been guilty of infamous, disgraceful or improper conduct in a professional respect, he shall be subject to disciplinary action and liable to the penalties hereinafter provided, notwithstanding that he has been acquitted of a criminal charge in respect of the same matter.

(3) The Board or the executive committee of its own motion may, or, upon the application in writing of four members of the College, the President shall instruct the discipline committee to inquire into any case in which it is alleged that a member of the College has become liable to disciplinary action or imposition of penalties for any of the causes mentioned in sub-section (1)."

11.

The following is enacted as Section 24A:

"24A.(1) The Board may by by-law provide for —

- (a) The establishment of a complaints committee which shall have authority to consider complaints regarding the conduct or actions of a member and to refer any such complaints, in whole or in part, to the discipline committee;

(10) Provides for revision to accommodate a broadening of "infamous, disgraceful or improper conduct" to include "incompetence and gross carelessness".

Other changes in this section are terminological.

(11) Provides for the establishment of a complaints committee.

- (b) The composition and quorum of the complaints committee;

and

- (c) The procedure to be followed by the complaints committee in the conduct of its business.

(2) Notwithstanding sub-section (1) and any by-law passed thereunder, the Board and the executive committee thereof or the President on the application in writing of four members of the College, shall continue to have authority as in this Act provided to direct that an inquiry be made by the discipline committee into any case of alleged infamous, disgraceful or improper conduct in a professional respect on the part of a member of the College.

12.

(1) Sub-section (1) of Section 25 of The Dentistry Act is amended by adding thereto the following: "and exercising the disciplinary functions and imposing the penalties designated by this Act".

(2) Sub-section (10) of Section 25 of The Dentistry Act is amended by striking out "in the County or District in which the member whose conduct is the subject of enquiry resides unless such member and the board agree to the meeting being held" in the second, third, fourth and fifth lines.

(3) Section 25 of The Dentistry Act is amended by deleting sub-sections (17) to (21) inclusive, and inserting in lieu thereof —

"(17) The committee shall —

- (a) inquire into the conduct of any member of the College when so directed by the Board or the executive committee thereof or by the President;
- (b) hold hearings into charges made against members of the College in accordance with the practice and procedure prescribed by this Section and by the By-Laws;
- (c) inquire into and report to the Board upon an application by a former member of the College to have his certificate of licence restored;
- (d) perform such other duties as are assigned to it by the Board.

(12) Revises Section 25 to authorize the discipline committee to impose penalties up to twelve months suspension.

(18) When after a hearing the discipline committee finds that a member of the College is guilty of infamous, disgraceful or improper conduct in a professional respect, it may —

- (a) suspend for a period not exceeding twelve months the certificate of licence of such member;
- (b) impose upon such member a fine not exceeding \$1,000;
- (c) direct that such member be reprimanded and, if deemed warranted, that the fact of such reprimand be recorded on the record of such member;
- (d) direct that the imposition of a penalty be suspended or postponed for such period and upon such terms as it may designate and that, upon compliance with the terms, any penalty imposed be remitted;
- (e) direct that such member pay to the College the costs of and incidental to the inquiry, which may include fees and disbursements for work done or proceedings taken before notice of complaint and the cost of reporting and transcribing evidence.

(19) The costs, including the costs of appeal, if any, shall be taxed on the Supreme Court scale by the Taxing Officer of the Supreme Court at Toronto and shall, as far as practicable, be the same or the like costs as in an action in the Supreme Court. Upon the certificate of the Taxing Officer, execution may issue out of the Supreme Court of Ontario for the collection of such costs by the College as upon a judgment in an action in such court.

(20) Where the complaint is found to be frivolous or vexatious, the discipline committee may direct that such costs as to it seem just be paid to a member of the College whose conduct is the subject of inquiry.

(21) Where the discipline committee is of the opinion that the certificate of licence of a member of the College should be cancelled or should be suspended for a period exceeding twelve months, it shall make a report of the facts and its findings and recommendations thereon to the Board and may therewith transmit a transcript of the evidence taken on its inquiry, and the certificate of licence of such member may be suspended by the discipline committee pending the decision of the Board."

13.

The Dentistry Act is amended by enacting the following as Section 25A:

"25A(1) The powers and duties of the Board in disciplinary matters are —

- (a) to receive and record reports of the discipline committee in respect of cases that have been completely dealt with by the committee and from which no appeal has been taken;
- (b) to receive and consider reports of the discipline committee,
 - (i) in cases in which the committee is of the opinion that the penalty imposed should include suspension or cancellation for more than twelve months of the certificate of licence of the member,
 - (ii) in cases of appeal from the decision of the committee,
 - (iii) in applications for restoration of the certificate of licence of a member,

and to make such findings and orders in respect thereof and impose such penalties as the Board considers proper.

(2) The Board may act upon the report of the discipline committee or may require that it be furnished with a transcript of the evidence taken and may refer the matter back to the committee to take additional evidence.

(3) The Board may impose upon a member of the College any penalty that the discipline committee is authorized to impose or may direct that the certificate of licence of a member be cancelled or suspended for such period as the Board considers proper.

(4) The Board may direct the restoration of the certificate of licence of a member and that such restoration be subject to the payment by the member of such fee, not exceeding the initial registration fee, as the Board specifies.

(5) The Board may require that any member of the College who in the opinion of the Board is performing substandard dental services in general or in some specific branch of dentistry in particular, to present himself for such course or courses of prescribed instruction and such re-examination or re-examinations as to his capabilities as in the opinion of the Board is or are required and may suspend the certificate of licence of such member pending satisfactory demonstration of his competence on such examination or examinations."

(13) States the powers and duties of the board to deal with penalties in excess of twelve months suspension, to deal with appeals from decisions of the discipline committee and to dispose of applications for restoration of the licence to practice.

14.

Section 27 of The Dentistry Act is repealed, and the following inserted in lieu thereof:

"27 (1) Any member of the College aggrieved by any decision or order of the discipline committee may appeal to the Board within thirty days from the date of such decision or order and may further appeal to the Court of Appeal at any time within thirty days from the date of any decision or order of the Board by which he is aggrieved, and the Board or the Court of Appeal, as the case may be, may upon the hearing of such appeal, make such order in the matter and as to the costs of the hearing of the appeal as the Board or the Court of Appeal deems proper.

(2) The practice and procedure upon and in relation to an appeal shall be similar to that provided by the County Courts Act, except that the proceedings and evidence shall be certified by the registrar to the Court of Appeal."

(14) Section 27 is revised to provide a primary appeal from the discipline committee to the board of directors, with a further appeal from a decision of the board to the Court of Appeal.

15.

Section 28 of The Dentistry Act is repealed.

(15) Provides for the deletion of a section, the substance of which is included in new Section 25A.

16.

In the Schedule to The Dentistry Act, Electoral District Number 3 is amended by inserting "Patricia" after "Nipissing" in line 2.

(16) Provides for the inclusion of "Patricia" as part of Electoral District Number 3.

17.

This Act comes in force on the day it receives Royal Assent.

18.

This Act may be cited as "The Dentistry Amendment Act, 1966".

J. H. Payzant.

REPORT

Annual Meeting — 1966

The following is respectfully submitted concerning activities for the period January 1st, 1965 to December 31st, 1965.

1.

INVESTIGATIONS

Illegal Practise of Dentistry

- (a) Complaints concerning unregistered persons taking impressions and supplying dentures were received from four dentists and two Dental Societies. Witnesses were not forthcoming in any case and investigation did not reveal any current activity to warrant search and prosecution. In such cases the continued co-operation of local authorities and dentists was solicited. Arrangements were made for any subsequent complaint coming to the attention of the authorities or dentists to be attended to and reported to this College for appropriate action.
- (b) Complaints of receiving unsatisfactory dentures from illegal sources were made by two individuals during the year. In each case the dentures were not available and had allegedly been returned and money refunded. There was either no corroboration or insufficient evidence to warrant search or laying of charges. In fact in one case a person named as a witness refuted the allegation made.
- (c) Unregistered person performing prophylaxis in dentist's office. Inquiry into this complaint did not reveal any such activity taking place at time of investigation. Witnesses to warrant action under the Dentistry Act concerning any prior such activity were not available.

2.

BY-LAW INFRACTIONS

Inquiries were made and the necessary directives issued by the Registrar to the dentists concerned in the following first instances of complaint:

'telephone number on entrance door (3)'; 'sign on premises other than where practice actually carried on (1)'; 'general distribution of announcement card in mail (1)'; 'advertising for dental work (1)'; 'distribution of professional card with price of dentures noted thereon (1)'; 'use of business card and telephone listing as dental centre by single dentist(1)'; 'office signs (2)'; 'unhygienic premises (2)'.

3.

DIVISION COURT

Four suits were entered into Division Court for collection of 1965 annual registration fees. Cases were processed through various stages and the fees and additional sums prescribed by By-law were received in due course.

4.

GENERAL

A witness or sufficient evidence has not been available to deal with most complaints received. However, as a result of contacts now established, active investigation which is expected to be effective is now underway regarding several cases of illegal practise of dentistry, these being cases of taking impressions and supplying of dentures by unregistered persons.

Action

1. Report received.

*Members: Doctors R. A. Hugill, Chairman; D. Moore, W. J. Spence,
E. Rollaston.*

REPORT

Fall Meeting — 1965

1.

During the year your Insurance Advisers have held several meetings.

Our annual report on the various group plans will be presented in detail at the year end. An interim summary is as follows:

2.

Liability

As always this is an extremely successful plan providing an excellent coverage and protection for a large majority of the active dentists of the provinces of Ontario, Alberta, Saskatchewan, Manitoba and New Brunswick. Because of the reserves built up under our "retention" agreement we have been able to offer the profession 39 months' protection for the cost of 36 months' premium; but the true value of this plan can only be understood by those who have experienced a malpractice or property damage claim, whether justified or not.

3.

All Risk

Claims on our All Risk (Replacement Cost) coverage on office contents have been heavy this year. Those dentists who have had claims expressed great satisfaction at the settlements received which were based on the replacement cost rather than the "cash" or "depreciated" value.

4.

Life

Approximately 675 dentists are enrolled under this plan. Because of the participation we have been able to offer each new graduate a minimum of \$10,000 coverage without medical evidence and each participant a remission of one month's premium on their annual renewal.

5.

Income Protection and Office Overhead

We have, in accordance with our plan to bring all policies to a common due date, extended the coverage, on renewal, to January 1st, giving all participants the benefit of one month's free coverage.

6.

Pensions for Auxiliary Personnel

In view of the implementation of the Canada Pension Plan your Committee is studying the desirability of continuing this plan and will report on their findings later.

7.

The wisdom of placing our plans on a retention basis has been amply proven by the results. We have, even at this early date, been able to build up substantial reserves which have already been reflected in lower premiums and improvements in our plans.

8.

Your Advisers, after serious and prolonged study, passed the following resolutions:

- (a) "That this Committee recommends to the Board of Directors of the R.C.D.S. and the Board of Governors of the O.D.A. that sponsorship of all plans currently sponsored by the R.C.D.S./O.D.A. remain under their joint auspices until such time as the O.D.A. becomes the corporate body of the C.D.A."

and

- (b) "WHEREAS the Royal College of Dental Surgeons of Ontario and the Ontario Dental Association have adopted the "Principles to Guide a Dental Organization in Providing Insurance Coverage for its Membership" as attached hereto:

AND WHEREAS, subsequent to the adoption of the above-mentioned "Principles" and with a view to assisting Mr. Staddon in his purchase of Professional and Industrial Pensions Ltd., the Council of the Canadian Dental Association, by mail vote, adopted the following motion:

'That the Canadian Dental Association agrees to support C.D.A. pension and insurance plans as administered by Professional and Industrial Pensions Limited, with Mr. J. T. Staddon as administrator, for a further period of five years from the date of this motion';

AND WHEREAS we understand Mr. Staddon has now purchased P.I.P.L. and the Canadian Dental Association feel they have assumed a moral obligation to support Mr. Staddon's administration of even those plans which are strictly provincial in character, eg. Physicians Services Incorporated, Ontario Hospital Services Corporation, etc., for the period designated;

AND WHEREAS the sponsorship by the Canadian body of plans which are strictly provincial in character conflicts with paragraph 11 of the aforementioned "Principles";

Therefore, BE IT RESOLVED that this Committee, in an attempt to overcome this difficulty, agrees to sponsor Professional and Industrial Pensions Limited as the administrative agency (collector of premiums) for the group Physicians Services Incorporated Brown Plan and Ontario Hospital Services Commission coverages which P.I.P.L. now administers for Ontario dentists for the remaining portion of that five year period covered by the above-mentioned C.D.A. agreement;

PROVIDED THAT:

1. During this period there shall be no changes made in the above-mentioned plans without the specific approval of this Committee.
2. During this period P.I.P.L. will not promulgate, nor enter into negotiation with intent to promulgate any new or conflicting medical/surgical or hospitalization plans for the dentists of Ontario without the approval of this Committee.

3. At the expiration of this period the Canadian Dental Association will voluntarily relinquish their sponsorship of any plans effecting Ontario dentists which are strictly provincial in character ie. Physicians Services Incorporated, Ontario Hospital Services Corporation, etc., and this sponsorship will be assumed by the appropriate provincial dental body or by such body as may be designated by them.
4. During this interim period, and at the earliest convenient time, the Canadian Dental Association will instruct the Chairman of their Special Advisory Committee on Commercial Insurance to meet with the Chairman of the R.C.D.S./O.D.A. Insurance Advisers in order to prepare an agenda for a meeting of the two committees. This meeting would be under the joint chairmanship of the chairmen of both committees, and the owner of P.I.P.L. and business manager of the R.C.D.S. shall be required to attend all or part of the meeting as requested.
5. That the Chairman of this Committee be the liaison member of the C.D.A. Advisory Committee, representing the R.C.D.S./O.D.A.

AND FURTHER

6. That this agreement becomes null and void if this meeting of the two committees is not held before April 1st, 1966 and annually thereafter."

As our main concern is not with the specific insurance plans involved, but rather with the administration of such plans, it is not necessary for the participants to have a detailed knowledge of insurance and we feel very strongly that, if we are acting solely in the best interests of the dental profession, an acceptable solution can be arrived at.

Action

1. That a meeting be held between the Chairman of the C.D.A. Insurance Committee and the Chairman of our Insurance Advisers to develop an agenda for a joint conference of the R.C.D.S./O.D.A. Insurance Advisers and the C.D.A. Insurance Committee, with the owner of P.I.P.L. and the Secretary of D.S.P.I. prepared to attend at the call of the Chairman, this joint conference to be held before April 1st, 1966, and further

That sponsorship of all insurance plans currently sponsored by the R.C.D.S./O.D.A. remain under their joint sponsorship until such time as the O.D.A. becomes the corporate body of the C.D.A.

2. The Report be received for the consideration of this Board . . . CARRIED
3. The R.C.D.S. Advisory Committee be accorded a special vote of thanks for its report and its work over the past year which is certainly worthy of the highest commendation.

REPORT

Annual Meeting — 1966

1.

Meeting with C.D.A. Insurance Committee

Conscientious efforts to attempt to resolve insurance principle differences with the Canadian Dental Association have been frustrated and little purpose exists in perpetuating such efforts.

2.

Your Committee Recommends That:

- (a) In view of the impact of the Ontario Medical Services Insurance medical plans in Ontario we accept the undertaking given by Dr. P. S. Christie, President of the C.D.A., as contained in his letter of April 4th, 1966, as follows.
 - "1. At the termination of the five year agreement of support given by C.D.A. to Mr. Staddon as administrator of P.I.P.L. "the Canadian Dental Association will voluntarily relinquish their sponsorship of any plans affecting Ontario dentists which are strictly provincial in character, i.e., Physicians Services Incorporated, Ontario Hospital Services Commission, etc."
 - 2. For the remainder of the period of agreement between C.D.A. and P.I.P.L. there shall be no changes made in the above-mentioned plans without the specific approval of the R.C.D.S. Insurance Advisers Committee.
 - 3. For the remainder of the period of agreement between C.D.A. and P.I.P.L., P.I.P.L. will not promulgate nor enter into negotiation with intent to promulgate any new or conflicting medical/surgical or hospitalization plans for the dentists of Ontario without the approval of the R.C.D.S. Insurance Advisers Committee.
- (b) As it has been acknowledged that an "overcollection" of premium was made by Mr. Staddon in 1964, and not refunded to those Ontario dentists involved, and as the C.D.A. Trustees were not aware of this, it is apparent that there is a serious lack of supervision over the activities of Mr. Staddon in his administration of their plans.

We feel we would be remiss in our duties to our profession if we were not to recommend to our Boards that they take immediate steps to ensure that all monies received by Mr. Staddon are correctly accounted for.

We would also bring to your attention the fact that Mr. Staddon, according to his own statement, has had an "interest income" during 1965 of \$11,990. This would appear to mean that he must be retaining a constant average reserve of dentists' monies of approximately \$240,000 which he may invest at will and to his own advantage. We feel this matter should also be investigated with a view to ascertaining whether or not these monies are being collected and remitted in a manner most beneficial to the dental profession.

- (c) Your Committee respectfully requests permission to investigate and inaugurate any health or insurance plans which are in accord with our "Principles" and may be of benefit to the Dental Profession in Ontario.
- (d) We would further recommend that this Board adopts the suggestion of Dr. P. G. Anderson, a trustee of the C.D.A. Pension Assurance Plans, and appoint a well qualified consultant to investigate all phases of the operations of P.I.P.L. and D.S.P.I., and to report on his findings with recommendations as to a solution.

Action

- 1. WHEREAS this Board is deeply concerned over the lack of control exercised by the C.D.A. Executive in regard to the collection, retention, and interim use of monies received by P.I.P.L. from Ontario dentists as premiums for C.D.A. sponsored plans

THEREFORE BE IT RESOLVED THAT the Secretary of the R.C.D.S. write to the C.D.A. expressing those areas of concern and contention and further that those of our Directors who are also Governors of the C.D.A. bring these matters to the attention of the Board of Governors of the C.D.A., and report back to this Board by July 1, 1966 as to what specific steps are, or in the future after the above specified date, will be taken to ensure that all monies received by P.I.P.L. from the Dentists of Ontario are correctly accounted for, and used in a manner most advantageous to the Dental Profession of Ontario

2. WHEREAS there are two organizations, namely the C.D.A. and the R.C.D.S., providing insurance service, and

WHEREAS they are in some important aspects at variance as to the best method of operation

THEREFORE BE IT RESOLVED THAT the R.C.D.S. requests the C.D.A. to join them in hiring an independent consultant body to study the operations of D.S.P.I. and P.I.P.L. in depth. The duties of the consultant, or team of consultants such as the firm of Chartered Accountants — Thorne, Mulholland, Howson & McPherson, be:

- (a) to investigate the systems used by both organizations in the handling of dentists' monies;
- (b) to investigate the economy of operation of both organizations;
- (c) to report on their findings and to suggest to our Boards the most effective method of operation of dental insurance programming and;
- (d) the investigation to be completed and the report rendered to our Board for study not later than October 15, 1966, and further
- (e) that the cost of this investigation and report be jointly born by the C.D.A. and R.C.D.S. organizations.

3. Report adopted.

R.C.D.S./O.D.A. LIAISON COMMITTEE

Members: Doctors A. H. Leckie, Chairman; J. D. Purves, H. M. Jolley, R. Michell, L. E. Hastings, W. W. Philp, G. K. Chapman, F. H. Shepherd.

REPORT

Fall Meeting — 1965

1.

The Woods Gordon Report was completed in January, 1964 and was presented to the Boards of the R.C.D.S. and the O.D.A. Both Boards accepted the report in principle.

At the first meeting of the Liaison Committee a Steering Committee was appointed to direct the preparation of a First Draft Constitution. This Committee consisted of Dr. Shepherd, Dr. Jolley and Dr. Philp.

Dr. D. Gullett was requested to draw up the first draft.

2.

The Woods Gordon Report was then presented to the profession by publishing it in the April 1964 issue of the Journal of the Ontario Dental Association. It was also published in an R.C.D.S. News Letter of June 1964.

During the months of September and October various members of the two Boards, as well as Dr. W. J. Dunn who at that time was Registrar-Secretary of the R.C.D.S. met with members of 13 of our Local Societies to discuss various phases of the report.

A resolution was prepared for presentation to the Local Societies. This resolution was amended by most local societies.

3.

On April 4th, 1965, the First Draft of the new Constitution was presented to the Liaison Committee. The Committee studied it very carefully and made many amendments. It was then prepared in printed form and distributed to each member of the profession in the Province.

Most Local Societies held special meetings and much discussion took place. Many more amendments were suggested.

4.

After careful consideration of all these suggested amendments a Second Draft Constitution was prepared and after consideration by the Liaison Committee it was presented to each Local Society with the request that they consider this Second Draft and appoint a delegate for every 100 members or major portion thereof to attend a constitution convention on October 16th, 1965.

Attending this Convention were official representatives of 37 Local Societies (Appendix A).

Some Societies sent observers to this meeting which was also attended by the Constitution Committee, The Board of the O.D.A., Dr. K. F. Pownall, Registrar-Secretary of the R.C.D.S., and Mr. John Campbell, Legal Counsel.

Dr. Philp acted as Chairman of this meeting and the Constitution Convention was resolved into a Committee of the Whole. Twenty-six resolutions were considered and the meeting lasted from 9:30 a.m. until 7:15 p.m.

From the opinions expressed at this Convention a Third Draft Constitution has been prepared and was presented to the Liaison Committee at a meeting on November 3rd, 1965.

The following resolution was passed:

Whereas it was suggested at the Constitution Convention that the R.C.D.S. collect a licence fee in the amount of \$125.00, and

Whereas it is suggested that the R.C.D.S. make a grant of \$90.00 per capita to the O.D.A. who in turn would make a per capita grant of \$40.00 to the C.D.A. and \$25.00 per member to each local society,

Therefore be it resolved:

That this Committee recommend to the Board of the R.C.D.S. as a suggestion only that such an arrangement be effected in light of existing circumstances.

5.

It is planned that in the event of the Third Draft Constitution being acceptable to the Boards of the R.C.D.S. and the O.D.A. to publish it in the February issue of the Journal of the O.D.A. so that it might be considered at the next meeting of the O.D.A. in May, 1966.

Action

1. The Report be received.
2. That this Board extend its grateful thanks to the Constitution Committee for the diligence with which it pursued its duties in the arduous task of developing a new constitution for the O.D.A.
3. This Board request the Lieutenant-Governor in Council that Section 4 By-law # 11 be amended to read "Effective in respect of the year 1967 and following years the annual registration fee payable by every member of the College engaged in the practice of dental surgery in Ontario shall be \$125.00."

REPORT

Annual Meeting — 1966

THE LIBRARY

1.

The Collection

There were 235 books, and 317 bound periodicals added to the University of Toronto book collection. There were 101 books, and 23 bound periodicals added to the Harry R. Abbott Library. This represents a total addition of 676 bound volumes. Seven new subscriptions have been added to the 132 we now have in our possession. The Library now has 250 journals by subscription, donation and exchange.

There are at the present time, 117 orders outstanding from the University. This includes 23 periodical subscriptions.

This year, the Committee approved acquisition of 17 new scientific journals for use primarily by the expanding Divisions of Dental Research, and Postgraduate Studies. Appendix A.

We gratefully acknowledge donations from: Drs. D'Arcy Atkins, R. G. Ellis, R. D. Hazelton, G. C. Hare, H. A. Hunter, F. G. Kellam, A. W. Lindsay, G. T. Mitton, H. G. Poyton, P. Peloso, R. Teitler, John West, E. C. Veitch and D. G. Woodside.

We particularly acknowledge donations from: Drs. M. Jackson (texts in memory of Mrs. C. H. M. Williams and Dr. W. Evon), N. Levine (texts in memory of Mrs. C. H. M. Williams, Dr. W. Evon, and Dr. S. Golden's wife, Rosalind), G. Stirling (text in memory of Dr. W. Evon), and A. Winnick (texts in memory of Dr. W. Evon and in recognition of the presentation of the Elmer Best Award to Dr. C. H. M. Williams).

We are indebted to the following Libraries in the United States for the donations that they have contributed: Norfolk County Medical Society, Norfolk, Virginia; Science Library, Worcester, Massachusetts; Academy of Medicine, Brooklyn, New York; University of California Biomedical Library; Mount Sinai Hospital of Cleveland; King's Park State Hospital, New York; Falk Library of the Health Professions, University of Pittsburgh; University of Oklahoma Medical Center; Boston University Medical Library; University of Colorado Medical Center; Philadelphia General Hospital Medical Library; Maurice and Laura Falk Library of the Health Professions, Pittsburgh; American Dental Association; Mooney Memorial Library, University of Tennessee; The Academy of Medicine of New Jersey; Danbury Hospital Medical Library, Connecticut; Veteran's Administration Hospital, Coral Gables, Florida; University of Cincinnati; Northwestern University, Chicago.

We express our gratitude to the Royal Society of Medicine in London; The Nippon Dental College in Tokyo, Japan; The School of Dentistry, University of Lund, Malmo, Sweden; The Department of Health, Education and Welfare, Washington; National Research Council, Ottawa; Organization Panamericana

de la Salvo, Mexico; Ontario Cancer Treatment and Research Foundation, Toronto; American Association of Dental Schools; Royal College of Dental Surgeons of Ontario; and The Canadian Dental Association.

The Library acquired 1,135 reprints from the Orthodontic Department. A sub-committee comprising Miss Smith, Dr. Purdy and the chairman was established to study the management of this collection.

2.

The Use of the Library

During the year 1961-62, the Library recorded a total of 14,201 loans. The Faculty accounted for 689, the students for 8,493, and the graduates for 1,149. The reading room recorded 1,600 loans. This year, 20,145 loans were recorded, an increase of 5,344. The Faculty was responsible for 1,461, an increase of 772, the students for 9,677, an increase of 1,184, and the graduates for 3,281, an increase of 2,132. Reading room loans increased by 1,768 to 3,368. The Periodical loans have increased slightly to 2,358. There was an increase in total circulation of 2,643 over last year. Appendix B.

3.

Appropriation

The annual appropriation from the University of Toronto fund was increased from \$2,000 to \$2,300 for the purchase of books and continuations. We no longer receive monthly statements of expenditures and balances from the University.

It was reported at the Library-Museum Committee meeting on March 18, that the balance in the Harry R. Abbott fund was \$650. Appendix C.

4.

Staff

Miss Jenie Johnson, clerical assistant, has already terminated her employment at the Faculty and has been replaced by Miss Marcia Ramsay.

5.

Catalogue System

The Library has issued a complete catalogue of periodicals and serial holdings. This list includes 877 titles in English and foreign languages from 36 countries and is available on request. The rare book section of the Library has been completely catalogued. It contains 398 books including 102 manufacturer's catalogues. This list is to be printed and ready for distribution by late summer. The Library has had in its possession a complete file of staff letters from 1947 to the present date. This includes 3 early issues of 1924. These letters have now been bound to form a permanent record of the Faculty of Dentistry.

A list of the material that we have to offer on the Medical Library Exchange was made out once again this year. A listing of 2,291 periodicals, and 102 books was sent out. We had requests from 87 Libraries throughout the world.

6.

Evening Hours

The Library Committee, at the request of the students, departed significantly from Faculty tradition and policy, to open the Library during the evening hours until 10:00 p.m. throughout the months of March and April, 1965. This repre-

sented the experimental period, and occurred when the students were preparing for and writing their final examinations. The total response was discouraging. This year, neither the undergraduate students nor the graduate students have requested evening hours, and the student council has reported no interest. In addition, expenditures have been scheduled to increase. The committee, therefore, agreed to discontinue this privilege for the present time.

7.

Stack Privileges

Dental students enrolled in the 2nd, 3rd and 4th dental years, have been granted stack privileges at the University of Toronto Library. In the past, the 2nd dental year students have not been eligible.

8.

Library Policy

The Committee established a new policy regarding borrowing privileges, graduate students, damage to Library property and loss of Library material. These rules and regulations are now attached to the Library publication, GUIDE TO THE USE OF THE LIBRARY, and will be issued to each student at the beginning of each academic year. In addition, the students will receive instruction in the use of the Library.

THE MUSEUM

1.

The Collection

The Committee gratefully acknowledges the donation of the following Museum items: Miss Bartindale, momentos from the first Dental Nursing class; anonymous, an infirmary registrar listing student's clinical requirements and records, 1907-1908; Mr. G. L. Court, Director of Finance, University of Toronto, photograph of the At Home Committee of 1897; Mrs. Jackson, momentos and books of her father, Dr. Lundy, graduate of 1905; Dr. W. Wood, a Cameron's Diagnostoset.

The Museum acquired two most valuable items which demand special acknowledgement. The death mask of Horace G. Wells, a dentist, who in 1844 demonstrated the anaesthetic properties of Nitrous Oxide, from an equally famous oral surgeon and author, Dr. Wm. H. Archer, Professor of Oral Surgery and Anaesthesiology, School of Dentistry, University of Pittsburgh, Pittsburgh, Pennsylvania: A gold stick pin on which are mounted three primary teeth of Her Royal Highness Princess Alice, Countess of Athlone, daughter of Prince Leopold, fourth son of Queen Victoria. She was the third member of the Royal House to come to Canada as the wife of a Governor-General, Earl of Athlone, from Dr. L. K. Brooks, Calgary, Alberta.

2.

Appropriations

An ornamental rope barrier, a guest book stand and two metal security cabinets have been purchased from the funds provided by a grant from the Associates of the University of Toronto in New York because of their interest in the Mendel Nevin family. The commission of a bust of Mendel Nevin is being deferred pending instructions from the family.

The routine operation of the Museum is subsidized by a special Museum fund established through the generosity of the Ontario Dental Association. Appendix D.

3.

Staff

The part-time services of two 2nd year dental students, William Wilson and Tim Johnston, were utilized for the numbering, photographing, and cataloguing of Museum items.

4.

Space

The storage area in room 70 was cleaned and reorganized. Six new metal and glass security cabinets were installed and filled with delicate Museum items. Mr. Miles, the Museum technician, constructed additional storage cabinets and working benches for the preparation of displays. Lighting facilities in the Museum were improved

5.

Catalogue System

The catalogue system progressed favourably. Approximately 3,000 items were numbered, photographed and arranged in an organized manner within the new security cabinets in the storage area.

6.

Open House

The permanent HISTORY OF DENTISTRY Museum display was temporarily dismantled and replaced by a R.C.D.C. display commemorating 50 years of progress in military dentistry. The display represented a co-operative effort with the R.C.D.C., Brigadier K. M. Baird, Dr. C. Purdy, and the Faculty of Dentistry participating. The committee is especially grateful to Brigadier K. M. Baird, Director-General of Dental Services to the Canadian Forces, Dr. C. Purdy and the R.C.D.C. for their generous support in the construction of this popular display.

Through the generosity of Dean Ellis, Miss Gallivan, assistant librarian, represented the Faculty of Dentistry at the Medical Library Association Convention in Washington, D.C.

In conclusion, I would like to express my deepest gratitude to the members of the Library Committee for their interest and support throughout the year, to the Library-Museum staff for their continued co-operation, and to Dr. Joseph Bielawski, Dr. Anne Dale, Miss Jean Sharp, Mr. William Wilson, Mr. Tim Johnston and Mr. John Turner for their unselfish contribution to the preparation of the Museum exhibit for Open House.

I respectfully submit this report with the recommendation that the customary grants be continued for the ensuing year.

Action

1. The customary grants to the Library-Museum Committee are to be continued for the ensuing year.
2. Report received.

NATIONAL DENTAL EXAMINING BOARD OF CANADA

Representative: Dr. J. D. Purves

REPORT

Fall Meeting — 1965

1.

The annual meeting of the National Dental Examining Board of Canada was held on June 16, 1965 in Ottawa. Representatives of all provinces and those from the Council on Dental Education of the Canadian Dental Association were present.

2.

The report of the Examiners was received and amended as a result of the large number of failures reported from one school. The final amended report is submitted as Appendix A.

3.

Distribution of applicants by country, city and school is reported as Appendix B.

4.

Once again the problem of acceptability of French translation continues to labor the effectiveness of the examination system. In spite of translators chosen by the Quebec members, considerable difference in opinion as to adequate translation exists. Criticism of ambiguity in some examination papers creates further displeasure.

5.

Dr. Malcolm Taylor did not report upon his study of the examination system but his final report is due to be completed for the annual meeting in 1966. Dr. Geoffrey Mason, Dr. Taylor's delegate, attended the examiners meeting at this annual meeting.

6.

The examination dates create a more difficult problem each year. With schools completing their final year anytime from March to June coupled with the writing, marking and processing in time for the annual meeting, much co-operation is required from all areas. In addition, graduating exercises, religious holidays and the schedules of other board examinations further aggravate the system.

7.

The submitted motion of the R.C.D.S. was acknowledged and a modification of the By-laws created to enable a student who fails in his school examination to have his N.D.E.B. examination results held until he has successfully completed his Faculty requirements.

President: Mrs. Patricia M. Johnson

REPORT

Fall Meeting — 1965

1.

Introduction

The Ontario Dental Hygienists' Association was constituted in November, 1963. Previously, an alumni association represented graduates of the University of Toronto. The growth of Dental Hygiene in Ontario since 1952 created a need for a professional association of dental hygienists.

The officers of the O.D.H.A. are: president, vice-president and programme chairman, secretary, treasurer and membership chairman, and historian and archivist.

The standing committees are: nominating, editorial, constitution and convention. As well, the O.D.H.A. has a delegate to the C.D.H.A. Board of Directors. Also, there are committee members on the C.D.H.A. editorial, constitution and recruitment committees.

2.

Membership and Fees

Active members	77	Fee per year	\$10.00
Associate members	3		\$ 5.00
Junior members	30		\$ 3.00
Honourary members	2		
Total	112		

As a point of interest, there are 182 registered dental hygienists in Ontario.

3.

Objectives

To cultivate and promote the art and science of dental hygiene.

To elevate and sustain the education and the professional character of dental hygienists.

To promote closer communication, unity and social intercourse among its members.

To represent, to safeguard and to advance the common interests of the members of the dental hygiene profession in Ontario.

4.

Programmes

An emergency roster has been established. This is available to dental offices in need of temporary hygienists.

The Sandra Mather Memorial award was established by the Association in 1963. It is in memory of Sandra Mather, an outstanding graduate of the class of 1962,

who passed away in September of that year. This award has a present value of \$50.00, which the Association intends to increase as its growth permits.

A placement registry has been operated by the Association for the past several years, conducted by a volunteer member. However, placement has proved to be too large an undertaking to be efficiently managed in this manner. After some inquiry into the problem, we ask the co-operation of the dental profession in order to establish a permanent agency, similar to the registry for dental assistants.

The O.D.H.A. presents a table clinic at the O.D.A. annual convention and at the Winter Clinic.

A regular schedule of meetings is organized for the members, as published in the O.D.A. Journal. This year, four general meetings and the annual meeting and convention are scheduled. The Association generally has one meeting, held on a Saturday this year, which includes luncheon or dinner in order to encourage our out-of-town members. All sessions consist of a business meeting followed by a programme, usually of a scientific nature. Our 1965 Convention comprised a two day programme coinciding with the O.D.A. convention. The members enthusiastically supported their association's convention programme and functions.

5.

Future Plans

As in the past, one of our primary concerns is to further the cause of dental hygiene. Since the success is largely dependant on the public's awareness of the profession, every effort will continue to be made by our Association to better acquaint the public. To this end, each member will take advantage of opportunities to write or to speak about dental hygiene. The O.D.H.A. Editorial Committee will consider public education one of the committee's major functions. To further create a public image of ourselves, the O.D.H.A. is recommending the adoption of the narrow mauve cap band to all the members.

With the existing and proposed training facilities in the province for dental hygiene, the number of graduates is increasing rapidly. At present, the Toronto-based O.D.H.A. is the only organized society. District associations will be required in the near future. The O.D.H.A. will be ready to assist in the establishment of such component societies.

The members of the Association have expressed an interest in the formation of a volunteer service. This is, at present, under consideration.

The O.D.H.A. has a small balance on hand after all 1965 Convention expenses have been met. Plans are under discussion as to the best way to dispose of these funds. It will probably take the form of a worthy contribution, a material donation such as clinic equipment or a service performed by members.

The O.D.H.A. would like to request the assistance of the Board in several matters affecting dental hygiene.

The future of dental hygiene depends on any further expansion of dental auxiliaries and the O.D.H.A. strongly recommends that any such expansion incorporate dental hygienists. Our association would be glad to participate in any discussions on this subject and would hope that it would be included in the planning of further developments.

It is my understanding that the licence fee for dental hygienists may be increased. May I suggest several requirements of dental hygiene that the R.C.D.S. could perhaps provide, assisted by this proposed fee increase. Dental hygienists need some form of group insurance and it is hoped that the R.C.D.S. might have an insurance program which could include our association. Also, there is a need for refresher courses to be made available to graduate hygienists who are returning to practise after a period of retirement. Thirdly, dental hygienists are interested in and would benefit from postgraduate courses. I would like also to suggest that a copy of the R.C.D.S. Board Proceedings be sent to all dental hygienists.

Dental hygienists are faced with two serious problems. First, there are several cases of dental assistants who are required to perform services to patients beyond their realm of duty. Such services are specified in the By-laws to be the responsibilities of dental hygienists. I would ask the Board that disciplinary action be taken where necessary.

The second problem concerns the licensing of American graduate dental hygienists. Such women, in order to be licensed in Ontario, should be required to write Board examinations and, where necessary, to take practical examinations. At present, no such requirements exist.

The O.D.H.A. is hopeful that the Board will be able to assist and to advise where feasible.

Action

1. Report received.
2. The Secretary was requested to consult with Dean Ellis re the advisability of having refresher and postgraduate courses.
3. The R.C.D.S. Proceedings and List of Members will be mailed to all Dental Hygienists.
4. The admittance of Dental Hygienists into the R.C.D.S. Group Insurance Plan was referred to the Insurance Advisers.
5. The advisability of qualifying exams was referred to the Registration and Licensure Committee.
6. The dental profession was to be advised of the illegality of dental assistants doing work that only a hygienist was legally qualified to do.
7. The Secretary was requested to consult with the Ontario Dental Association re placement service for Hygienists.

REPORT

Fall Meeting — 1965

1.

In 1960, a select committee of the Ontario Dental Nurses and Assistants Association was requested to meet with the Board of Directors of the Royal College of Dental Surgeons to discuss the Education and Certification of dental assistants in the Province of Ontario

A pilot educational course conducted in Toronto in 1960-61 produced sufficient interest for the Royal College of Dental Surgeons to continue the program throughout Ontario under the sponsorship of Local Dental Societies.

The privilege was granted the Ontario Dental Nurses and Assistants Association to establish a Certification programme. With the co-operation of the R.C.D.S. the current programme of Certification was inaugurated.

2.

Qualifications:

Dental assistants who successfully complete an approved educational course and meet the following qualifications may apply to the O.D.N. & A.A. for Certification. They must

1. Be a member in good standing of the O.D.N. & A.A.
2. Have received a diploma from an approved educational course.
3. Have at least six months' experience in a dental office or clinic, or part time equivalent — 840 working hours.

3.

Membership-Service Group

A member with five consecutive years of membership in the O.D.N. & A.A. and eight years' practical experience in dental assisting may acquire the academic portion of the qualifications for Certification without actively attending an educational course.

Applicants in this group will be supplied with text book and printed lectures from an approved educational course and, through home study, may at a specified time write the examination.

4.

Fees

Certification fee is \$25.00 plus O.D.N. & A.A. membership fee. Certified Dental Assistants are requested to pay an annual Certification renewal fee of \$2.00.

Application dates for Certification are open twice yearly — September 15th to October 15th and April 1st to 30th.

5.

Brochure

A Brochure containing all requirements and information pertinent to applying for Certification is available through the C.D.N. & A.A. Certification Committee, 230 St. George Street, Toronto 5, Ontario.

6.

Certified Dental Assistants of the C.D.N. & A.A.

Certified Dental Assistants receive a certificate of Certification, an O.D.N. & A.A. Certified Dental Assistant pin and a blue cap band.

To date there are 650 Certified Dental Assistants in Ontario who proudly wear the Certified Dental Assistant pin and blue cap band.

Although it is not compulsory to become a Certified Dental Assistant the response to the Certification program has been overwhelming. The success of Certification indicates beyond doubt the dedication of the dental assistant to her chosen career.

The contribution a well trained dental assistant can provide the dental profession is obvious. However, the enthusiasm and initiative a dental assistant brings to her career is an intangible quality. This quality, coupled with education and practical experience will produce a combination that will add immeasurably to the success of the dental health team.

The O.D.N. & A.A., aware of the enthusiasm on the part of Certified Dental Assistants for further education, are endeavouring to provide continuing education through association programmes.

On Saturday, March 27th, 1965, the O.D.N. & A.A. presented a Clinic Day for Certified Dental Assistants at the Park Plaza Hotel, Toronto. Subject: Practice Management — Clinician: Dr. Donald S. Moore, Hamilton. The Clinic Day was attended by 110 Certified Dental Assistants from all parts of Ontario. The interest shown for this project was so encouraging that a similar programme is being planned for early in the new year.

7.

Conclusion

The Board of Governors of the O.D.N. & A.A. wish to express their appreciation to the Royal College of Dental Surgeons for their confidence in granting our association the privilege of sponsoring the programme of Certification.

We sincerely trust we are meeting the responsibility and obligation as an association, both to our members and the dental profession whom we serve.

Action

1. Report adopted.
2. The recommendation of Miss Neelin that the certification examination be standardized was referred to the Registration and Licensure Committee.

JOINT MEETING OF THE EXECUTIVE COMMITTEE
OF THE COLLEGE OF PHYSICIANS AND SURGEONS OF ONTARIO
AND THE OFFICERS OF THE ROYAL COLLEGE OF
DENTAL SURGEONS OF ONTARIO.

REPORT

Fall Meeting — 1965

1.

At the invitation of the President of the College of Physicians and Surgeons a meeting was held at 64 Prince Arthur Avenue, Toronto, on October 20th, 1965. The following members of the Executive Committee of the College of Physicians and Surgeons were present: Dr. D. L. Wilson, President; Dr. R. I. Macdonald, Dr. J. V. Riches, Dr. A. R. Turnbull, Dr. E. R. S. Wyatt, Dr. J. C. C. Dawson, Registrar-Secretary, and Dr. J. W. Kucherepa, Assistant Registrar.

Representing the R.C.D.S. were Dr. J. P. Coupland, President; Dr. J. D. Purves, Vice-President; and Dr. K. F. Pownall, Registrar-Secretary.

2.

The purpose of the meeting was to discuss issues raised in the Minister of Health's letter of July 22nd, 1965 which essentially were certain problems surrounding the provision of professional services which might lie within the competence of Members of either College.

3.

When invited to open the discussion the R.C.D.S. President made a statement which contained the following points:

- (a) The R.C.D.S. delegation represented all dentists licenced in Ontario and not only the specialty group of certified Oral Surgeons.
- (b) It is neither the desire or the intention of the dental profession to encroach upon the prerogatives of the medical profession. Within its traditional sphere of responsibility dentistry aspires to an increasingly important role in improving the health status of all segments of the population.
- (c) Evidence exists that some members of the medical profession are unaware of the advances that have been made in dental education, in dental research and in dental treatment services.
- (d) Recent proposed legislation in this province designed to provide Health Care Insurance fails to recognize that the Dentistry Act confers on the licenced dentists authority to render services which may appear on lists of medical services. For example as Bill 136 is drafted (Section 1 (F)) a resident would be "covered" for the treatment of jaw fractures and infections of dental origin, for the management of oral tumours and biopsies, if under the care of a physician but no payment would be made to a dentist even if the patient chose the dentist as being better trained for the required service.

- (e) The dental profession in Ontario has been more than disappointed in the delay in effecting amendments to the Regulations under the Public Hospitals Act that relate to Dental Services.

4.

Following the statement of the R.C.D.S. position a number of related considerations were discussed including:

- (a) The emerging Health-Science Concept for schools of Medicine and Dentistry which has been adopted at the University of Western Ontario.
- (b) The existing and the pending R.C.D.S. regulations in respect to specialty certification.
- (c) The anticipated role of the recently founded Royal College of Dentists of Canada.
- (d) Privileges currently given to dentists who are members of dental staff of teaching hospitals in this province. Lists from the Toronto General Hospital and the Ottawa Civic Hospital were presented.

5.

No major differences of opinion between the two Colleges arose during this discussion. President Wilson gave an assurance of the co-operation of the College of Physicians and Surgeons in attempting to resolve some of the problems which the R.C.D.S. had presented. Further, Dr. Wilson expressed the view that because of the general agreement reached at the meeting there should be no difficulty in complying with the request of the Minister of Health.

6.

After agreeing in principle to the essential role of dentistry in providing health care to the people of Ontario, the President of the College of Physicians and Surgeons suggested that a list be developed containing surgical services which could be carried out by dentists. It was emphasized that the suggested list was not to be considered as final or exhaustive.

Dr. Wilson further suggested that the list be divided into two parts:

Part I — Procedures which a dentist might ordinarily carry out.

Part II — Additional procedures likely to require hospitalization which might be performed by a dentist with the agreement of the Medical Advisory Committee on the recommendation of the Chief of the Surgical Staff of the individual hospital.

7.

At the end of the meeting which is believed to be the first joint meeting of officers of the two Colleges ever held, a wide area of agreement had been achieved. The following resolution was developed and its adoption is recommended.

- 1. That whereas the Dental Surgeon, as licensed by the R.C.D.S.O. plays an essential role in providing health care to the people of Ontario, it is necessary to provide facilities for his collaboration with the Physician and Surgeon for the care of patients both inside and outside of hospital.
- 2. That it is desirable that qualified Dental Surgeons be given the opportunity to carry out in hospital those procedures which lie within their competence.

3. That, subject to the agreement of the Medical Advisory Committee or the recommendation of the Chief of the Surgical Staff of an individual hospital, qualified Dental Surgeons appointed to its Dental Staff might ordinarily carry out such procedures as:
- (i) Surgical removal of teeth, erupted, unerupted or impacted
 - (ii) Alveoloplasty and gingivoplasty
 - (iii) Sulcus deepening and ridge reconstruction
 - (iv) Exposure of tooth for orthodontic treatment
 - (v) Treatment of traumatic injuries to soft tissues within the mouth
 - (vi) Root resection
 - (vii) Incision and drainage of abscess of dental origin
 - (viii) Frenectomy
 - (ix) Closed reduction of fractures of mandible and maxilla
 - (x) Excision of intra-oral cysts
 - (xi) Intra-oral biopsy
 - (xii) Excision of benign intra-oral tumours
 - (xiii) Removal of root or foreign body from maxillary antrum
 - (xiv) Repair and closure of antro-oral fistula
 - (xv) Closed reduction of temporo-mandibular dislocation
 - (xvi) Sialolithotomy
 - (xvii) Excision of ranula
4. That, with the agreement of the Medical Advisory Committee on the recommendation of the Chief of the Surgical Staff of the individual hospital, the list of procedures within the competence of a Dental Surgeon might be expanded to include such additional procedures as:
- (i) Open reductions of fractures of the maxilla
 - (ii) Open reduction of fractures of the mandible
 - (iii) Surgical correction of prognathism or micrognathia
 - (iv) Condylectomy
 - (v) Therapeutic or diagnostic alcohol nerve block
 - (vi) Avulsion of nerve (mental, infra-orbital or inferior dental)
 - (vii) Open reduction of temporo-mandibular dislocation
5. That, where a provincial or national health insurance plan provides a professional fee for a diagnostic or therapeutic procedure which has been agreed upon to lie within the competence of Dental Surgeons, it is proper and desirable that the fee be paid to a qualified Dental Surgeon performing such a procedure, whether it be performed inside or outside of hospital.

Action

1. Report adopted.
2. The President and his committee which met with the Executive Committee of the College of Physicians and Surgeons of Ontario should be greatly complimented for the progress which was accomplished in this meeting.

REPORT

1.

The interval since the 1965 Annual Meeting has seen unprecedented activity in health matters. All sectors of the public, every level of government and, of course, the health professions themselves have exhibited an interest in health problems generally and in health services particularly never before equalled in the nation's history.

"The enjoyment of the highest attainable standard of health is one of the fundamental rights of every human being without distinction of race, religion, political belief, economic or social condition". Canada was one of the early subscribers to this principle as set forth in the preamble to the World Health Organizations' Constitution. Canadians in recent months have seen new machinery set in motion to implement this principle in all ten provinces.

By far the most significant event in the year under review was the offer of the Prime Minister of Canada made in July 1965 to give financial assistance to any province which developed a plan to cover physicians services containing certain conditions. To qualify, the plan must be:

1. Universal (the whole population).
2. Comprehensive coverage (all physicians services).
3. Administered by the province or by a government agency.
4. Portable (transferable from province to province).

Similar official announcements have established that other health services will be provided for as soon as the administrative and other facilities permit. The priorities seem to have been assigned as follows:

1. Hospital Services (This phase is a fait accompli).
2. Physicians Services.
3. Dentists Services.
4. Drugs.

It is interesting to note that the recently adopted Bill 6 of the Ontario Legislature meets most of the important requirements of the "Pearson Formula" as the Canadian Prime Minister's plan is called.

It now seems safe to predict that the federal proposal subject to provincial variations will be the framework within which the health professions must fashion their programmes for closing the enormous gap between proven health measures (preventive and treatment services) and the public needs.

2.

At this crucial time in the early development of the recently awakened public consciousness of oral problems long familiar to the dental profession, it would seem vital to emphasize our traditional precept that prevention is better than cure.

"The more public attention is concentrated on treatment, the more difficult it is to make people believe that dental diseases are largely preventable.

"Dentistry does not measure its progress by the high and continually improving standard of dental therapeutics in Canada. In the opinion of the profession, it is more important to prevent disease than to treat it. Intensive public education will be required before the public will accept this view.

"Most members of the public are so accustomed to the idea of the loss of part of a tooth or even of whole teeth that they are resigned to this eventuality. They think only in terms of facilitating their receipt of treatment services instead of insisting that oral diseases be prevented by all known public and private measures. They will receive with far greater enthusiasm the news of some advancement in prosthetic dentistry than the message that through conscientious effort on the part of the individual the need for this prosthesis can be avoided.

"A programme that concentrates on treatment alone does nothing to decrease the prevalence and incidence of dental caries. The status of dental health measured in terms of the average number of decayed, missing or filled teeth remains unchanged."*

3.

Consistent with its responsibility to bring the best possible dental care to all residents of Ontario, the R.C.D.S. Board has undertaken many studies and, on occasion, has taken action when persuaded that the adopted course was in the best interest of the public. These studies were frequently carried out by special committees. The debt owed to these committees is gratefully acknowledged. Only those involved in professional organizations appreciate the invaluable contribution in time and effort made through these little publicized activities.

4.

A particularly rewarding experience that it is my pleasure to report is the "togetherness" which has been displayed by representatives of the O.D.A. and the R.C.D.S. as the occasions for co-operative action have multiplied. There is every indication that the unreserved effort of the R.C.D.S. to assist the O.D.A. to develop a new Constitution is recognized.

5.

A highlight of this year was the co-operation of the President of the College of Physicians and Surgeons of Ontario, Dr. D. L. Wilson, his executives and their Secretary-Registrar, Dr. J. C. C. Dawson. Any report of my year in office of necessity would contain an expression of thanks for their extreme courtesy to me as your president.

6.

As the scope of R.C.D.S. responsibilities has enlarged to meet contemporary demands so have the duties of the individual directors been increased. I wish to record my personal thanks for the conscientious manner in which each and every member of the Board has carried out his assigned duties.

7.

Finally, it is my great pleasure on behalf of the R.C.D.S. Board to express to Dr. K. F. Pownall unqualified approbation for the superb job he has done as Secretary-Registrar since assuming office in February 1965. Having to follow Dean Wesley J. Dunn in this demanding position was a challenge of the greatest magnitude. The success with which Dr. Pownall has met this challenge is the highest possible tribute to his dedication, competence and courage as well as a great source of satisfaction to the College which relies so much on its chief executive officer to perform important and varied administrative duties.

* May 1965 C.D.A. Transactions, page 82.

Action

Report adopted.

PROPERTY COMMITTEE

Members: Doctors R. C. Honey, Chairman; V. A. Herron, W. J. Spence.

REPORT

Fall Meeting — 1965

1.

As there are no major structural changes or projects contemplated for the forthcoming year, maintenance of the existing building is our only problem.

2.

During the year it was found necessary to remove the large tree from our parking lot at a cost of approximately \$200.

3.

Our Boardroom chairs were re-covered at a cost of \$36 per chair and we believe we have every reason to be satisfied with the quality of the work performed.

4.

The almost gale force winds in last month's storm raised and destroyed the covering on the back porch on the second floor necessitating some emergency work being done.

5.

We would suggest painting those rooms and hallways not redecorated for the last two years, namely the lobby, vestibule, reception office, stairway, basement hallway, and Dr. Mitton's office. Our estimate of the cost involved is \$300.

6.

Trouble may develop in regard to the floor in the coffee room as the under-flooring has shown a tendency to rot in spots. However, this problem will have to be dealt with as it develops and we are hopeful that this may not mean re-laying the complete floor.

7.

Rents to all tenants are being increased by 20% commencing January 1st, 1966 in accordance with the wishes of this Board.

Action

Report adopted.

REPORT

Annual Meeting — 1966

1.

The Property Committee has not had occasion to meet since our last Board Meeting.

2.

Renewal and Maintenance Procedures Completed

- (a) The roof was damaged in February because of ice conditions. This necessitated emergency repairs being made viz. the placing of a metal edge along part of the roof and repair to broken sections of eaves-trough.

(b) Water seepage at the back entrance of the building constituted a hazard necessitating part of the wall being replaced and waterproofed.

(c) The halls and entrance have been painted.

3. **Maintenance Procedures Recommended**

(a) The floor in our 'lunch room' has had to be repaired twice, and is again showing signs of deterioration. Your committee recommends we immediately replace this with a waterproofed concrete flooring, re-laying the present tile if practical.

The maximum cost involved might be \$800 or considerably less if the present tile can be utilized.

4. **Boardroom Table**

As the present table is inadequate the committee requests permission to get estimates on a replacement.

Action

1. Report adopted.

REPORT

Annual Meeting — 1966

1.

Bill 6 — An Act to Amend the Medical Services Insurance Act 1965

The Legislators of the Province, recognizing that certain surgical procedures fall within the academic and legal competence of both the medical and dental trained individual have included dentists in this statute albeit to a limited degree.

Secton 18 of Bill 6 states:

"18. Schedule A to The Medical Services Insurance Act, 1965 is amended by striking out:

Limitations as prescribed by the regulations:

1. Annual health examinations.
2. Well-baby care.
3. Psychotherapy.

in the sixth, seventh, eighth and ninth lines and inserting in lieu thereof the following:

The benefit provided by this Standard Medical Services Insurance Contract to a covered person shall, subject to the limitations prescribed by the regulations, include payment for the surgical procedures that are specified in the regulations that are performed in hospital by a dental surgeon."

The regulations pertinent to this section are:

Number 9.

"The following surgical procedures are specified as benefits under the standard medical services insurance contract, subject to the limitation that such procedures are to be performed in hospital by a dental surgeon who has been appointed to the dental staff of the respective hospital on the recommendation of the chief of the surgical staff and the agreement of the Medical Advisory Committee of the respective hospital:

1. Surgical removal of teeth, erupted, unerupted or impacted.
2. Alveoloplasty and gingivoplasty.
3. Sulcus deepening and ridge construction.
4. Exposure of tooth for orthodontic treatment.
5. Treatment of traumatic injuries to soft tissues within the mouth.
6. Root resection.
7. Incision and drainage of abscess of dental origin.
8. Frenectomy.
9. Closed reduction of fractures of mandible and maxilla.
10. Excision of intra-oral cysts.

11. Intra-oral biopsy.
12. Excision of benign intra-oral tumours.
13. Removal of root or foreign body from maxillary antrum.
14. Repair and closure of antro-oral fistula.
15. Closed reduction of temporo-mandibular dislocation.
16. Sialolithotomy.
17. Excision of ranula.

Number 10.

The following surgical procedures in addition to those specified in section 9, are specified as benefits under the standard medical services insurance contract, subject to the limitation that such procedures are to be performed in hospital by a dental surgeon, whose hospital privileges are such that he is authorized to perform these procedures, and which dental surgeon has been appointed to the dental staff of the respective hospital on the recommendation of the chief of the surgical staff and the agreement of the Medical Advisory Committee of the respective hospital:

1. Open reductions of fractures of the maxilla.
2. Open reduction of fractures of the mandible.
3. Surgical correction of prognathism or micrognathia.
4. Condylectomy.
5. Therapeutic or diagnostic alcohol nerve block.
6. Avulsion of nerve (mental, infra-orbital or inferior dental).
7. Open reduction of temporo-mandibular dislocation."

2.

Status of Fluoridation in Ontario

The Health League of Canada have supplied us with some interesting statistics on the status of fluoridation in Ontario. The total population on central water supplies is 4,500,000. The total population with controlled and naturally fluoridated water is 3,078,859 or approximately 68.4% of the possible total.

In Ontario we have 36 fluoride-adjusted water systems that supply 68 communities for a total of 2,966,638 people. There are 86 communities who have naturally occurring fluoride in water supplies at 0.7 parts per million or more. This serves 112,221 persons.

3.

Sixth Secretaries' Conference

The sixth annual conference of secretaries was held in C.D.A. headquarters, Toronto, from November 29th to December 1, 1965. Dr. Gordon Campbell, the Registrar-Secretary of The Manitoba Dental Association was Chairman.

A broad and comprehensive range of subjects was considered. The conference enables the transmission of first hand information on contemporary dental problems within the various provincial jurisdictions.

4.

Twenty-Six Licentiates Deceased in 1965

The year 1965 witnessed seven fewer deaths among the members of the R.C.D.S. than did 1964 and eighteen fewer than 1963. Whenever possible letters of sympathy to the next of kin were written on behalf of the Board of Directors and Members of the College. A donation is made annually to the Canadian Fund for Dental Education as a memorial tribute to deceased members. The next of kin are notified of this fact through the use of an appropriate memorial card.

5.

Dental Hygienist

The increase on the register of hygienists from 103 in 1964 to 141 in 1965 is indicative of the increasingly important role that hygienists are playing as members of the dental health team.

6.

Payment of Licence Fee for 1966

The vast majority of dentists pay their licence fee on the first notice. However 355 waited until they received the second notice before paying. On February 1st, 130 drafts were issued to those who had still not paid. On February 23rd it was necessary to send out 54 warning letters. On March 3rd, 25 final warnings with penalty notice were sent out. Finally on April 1st, 11 were entered into Division Court for collection.

It would appear that some dentists are careless with their cheques because it was necessary to return 84 cheques because they were unsigned or dated wrongly and 3 cheques were returned N.S.F.

7.

Scrutineers to be Appointed

As the biennial election for the Board of Directors of the Royal College of Dental Surgeons of Ontario will be conducted during the Fall of 1966 it will be necessary at this Annual Meeting for the Board to appoint two scrutineers and an alternate.

8.

Secretary's Remarks

As I complete my first year as Secretary to this Board I would be remiss if I did not thank the Directors of this Board most sincerely for the many kindnesses and considerations that have been extended to me. As your Registrar I have had the opportunity during this past year to represent you on the Senate of the University of Toronto, the Dental Public Health Committee of the Ontario Dental Association, and the Council of the Faculty of Dentistry. At the Faculty of Dentistry I also represent you on the Admissions, Library, Scholarships and Awards, and Research Advisory Committees. In conclusion I would like to express my appreciation to the former Registrar Dean Wesley Dunn and to Mr. Gene Jackson our business manager for their invaluable assistance.

Action

- 1. Motion adopted:
"That Dr. R. S. Woollatt and Mr. C. Rous be appointed Scrutineers (with Dr. R. J. Godfrey as alternate) for the Fall Election for the Board of Directors of the R.C.D.S., for 1966."
- 2. Report received.

REGISTRATION AND LICENSURE COMMITTEE

Members: Doctors J. D. Purves, Chairman; R. Michell, T. H. Wachna

REPORT

Fall Meeting — 1965

1.

The Committee has completed a revision of the specialty certification regulations in Ontario.

2.

The multitude of specialty courses makes it most difficult for the R.C.D.S. to retain an up-to-date accreditation facility. It is recommended that this Board should not give approval of any course in advance. Candidates for these courses should be advised of the following:

- (a) That it is contrary to the policy of the R.C.D.S. to grant prior approval to any course.
- (b) The R.C.D.S. does not maintain a list of accredited courses.
- (c) That unofficial suggestions for suitable institutions providing acceptable or even superior courses can be obtained from experienced specialists, particularly those with university appointments.
- (d) That on completion of the course an examination would possibly and even likely be required. Such an examination could be written, oral or clinical as the requirements might be, by regulations existing at the time their application was received.

3.

The present policy in the acceptance of those without registrable qualifications as internes in hospitals has been reviewed. This committee feels that the present policy should be discontinued and that only qualified applicants be accepted for dental internships.

4.

The results of the Spring Board Examinations appear as Appendix A.

5.

The results of the Fall Board Examinations appear as Appendix B.

6.

The Committee recommends that J. C. Husty having passed a special examination be granted his licence to practice when all remaining requirements have been met.

7.

The Committee recommends that Specialty Certification be granted the following when all remaining requirements have been met:

- (a) Dr. R. B. Hazelton — Orthodontics
- (b) Dr. H. L. Freedman — Periodontics
- (c) Dr. H. R. Bergman — Oral Surgery
- (d) Dr. S. Rosen — Periodontics

8.

The committee recommends that the Board recognize Prosthodontics as a speciality in the Province of Ontario. Requirements for specialization in Prosthodontics will require stated minimum requirements.

9.

The Committee recommends that Dr. P. Chapnick having passed a written examination on Oral Surgery be certified as an Oral Surgeon, when all remaining requirements have been met.

10.

The new regulation with respect to Board Examinations are approved and appear as Appendix C.

Appendix A

Report on Board Examinations — May 1965

(a) The Committee recommends that:

- (1) Anders Bennick, D.D.S. (Copenhagen '59)
- (2) Thomas Robert Connors, D.D.S. (Loma Linda U. '65)
- (3) Moses Monty Keen, D.D.S. (U. of London '49)
- (4) Noel Ernest Malyon, D.D.S. (U. of London '64)
- (5) Louis Harold Simmons, D.D.S. (U. of London '57)
- (6) Kamal Dev Thanik, D.D.S. (U. of Lucknow '56)

having passed the licensing examinations conducted by the Board be granted their Licentiate of Dental Surgery of the Royal College of Dental Surgeons of Ontario when all remaining requirements have been met.

(b) The Committee regrets to report that:

- (1) Ivan Paul Kruys, B.D.S. (U. of Sheffield '62)
- (2) Joseph Adeodat Lauziere, D.D.S. (U. of Montreal '50)
- (3) Geoffrey Lewis Lyne, B.D.S. (U. of London '56)
- (4) Margaret Macauley, B.D.S. (U. of Bristol '63)
- (5) Haji Daud Sulaiman, B.D.S. (U. of Otago '62)
- (6) Ieuan Llewellyn Thomas, B.D.S. (U. of London '53)
- (7) Theodore Gilbert Wilding, B.D.S. (U. of Otago '54)

failed to pass the licensing examinations.

Appendix B

Report on Board Examinations — November, 1965

(a) The Committee recommends that:

- John Grossett, B.D.S. (U. of St. Andrews '61)
Margaret Macauley, B.D.S. (U. of Bristol '63)
Audrey Elizabeth Pretty, B.D.S. (U. of London '64)
Andrew John Sutherland, B.D.S. (U. of Glasgow '53)

having passed the licensing examinations conducted by the Board be granted their Licentiate of Dental Surgery of the Royal College of Dental Surgeons of Ontario when all remaining requirements have been met.

- (b) The Committee regrets to report that:
Edalji Nanabhoy Daver, B.Sc., B.D.S. (U. of London '58)
Barry John Field, B.D.S. (U. of London '58)
Jeffrey Leigh, B.D.S. (U. of Witwatersrand '58)
failed to pass the licensing examinations.

Appendix C

BOARD EXAMINATIONS

All persons desiring to practise dentistry in Ontario must first secure a licence from the Board of Directors of the Royal College of Dental Surgeons of Ontario. To qualify as a candidate for a licence the applicant must present satisfactory evidence of the completion of the requirements in preliminary and professional education on the prescribed form of application and present two character references from responsible individuals.

Applicants must file an application and declaration together with the examination fee of One Hundred dollars (\$100) payable at par Toronto, Canada at least one (1) month in advance of scheduled examination.

To secure a licence to practise dentistry the candidate must:

- (a) Be a Canadian citizen or satisfy this Board of his intention to become a Canadian citizen.
- (b) Pay an examination fee of \$100.00.
- (c) Pass the required examination.
- (d) Pay registration fee of \$100.00.
- (e) Pay licentiate fee for current year.

REGULATIONS GOVERNING BOARD EXAMINATIONS

All candidates for examination must furnish their own patients, instruments and materials. A chair, dental unit, dental engine arm and air rotar will be provided. There will be both clinical and oral examinations.

- (a) Candidates are required to obtain an average of 60% in both oral and clinical subjects. Failure in any part will be interpreted as failure in the entire examination.
- (b) A candidate, following failure of the examination, may be allowed to repeat the examination once upon payment of the regular fee.
- (c) Official results of the examination will be sent to the candidate.
- (d) Temporary licences or permits to practise will not be issued.

CLINICAL EXAMINATION

Operative Dentistry

- (1) Class II amalgam restoration.
- (2) Class I or V amalgam restoration.
- (3) Class III silicate.

Note: Cavity preparation will be marked before the insertion of the restoration.

Radiographic Interpretation

Each candidate will be required to interpret orally full upper and lower radiographs. Radiographs will be supplied by the Board.

Oral Diagnosis

Each candidate will be required to do an oral diagnosis and treatment plan based on presented radiographs and case histories.

Prosthetic Dentistry

Candidates will present a patient or patients presenting at least one edentulous arch and one partially edentulous arch.

- (1) Make accurate impressions and casts of edentulous and semi edentulous arches.
- (2) Take the necessary records of positional relations of the jaws of either a completely edentulous arch or the edentulous and semi edentulous arch.
- (3) Design partial dentures on the casts supplied.

ORAL EXAMINATION

Each candidate will be required to sit for a comprehensive Oral Examination of approximately thirty minutes. This examination may embrace all phases of the theory and practice of dentistry.

Applicants, once they are accepted, are expected to appear on dates and hours as directed by the Registrar of the Royal College of Dental Surgeons of Ontario.

No excuse for absence other than illness can be considered.

A schedule giving the day and hour of each Clinical and Oral examination will be sent or given to each candidate.

Address all communications to Dr. K. F. Pownall, Registrar-Secretary, Royal College of Dental Surgeons of Ontario, 230 St. George Street, Toronto 5, Ontario.

Action

1. The Committee is to reconsider the regulations respecting specialization.
2. The recognition of Prosthodontics as a specialty in the Province of Ontario was referred back to the Committee for further study.
3. Report as amended be adopted.

REPORT

Special Meeting — Feb. 12, 1966

1.

The Committee recommends the approval of the following specialty regulations for Oral Surgery, Orthodontics, Paedodontics, Periodontics, and Public Health.

REGULATIONS FOR CERTIFICATION AS A SPECIALIST IN ORAL SURGERY IN ONTARIO

The branch of dental practice known as Oral Surgery is recognized by the Board of the Royal College of Dental Surgeons of Ontario as a specialty and a dentist, when certified in the said specialty, shall be known as an Oral Surgeon. Candidates for certification must:

- (a) Be a member in good standing of the Royal College of Dental Surgeons of Ontario.
- (b) Have completed at least 12 months in the private or institutional practice of dentistry either prior to or following the course as outlined in (c) below. This may be general practice or practice limited to Oral Surgery.
- (c) Show proof of successful completion of a course consisting of a minimum of thirty-two consecutive months of full-time instruction, of which one university calendar year must be devoted to a university graduate course in the biological sciences as they relate to Oral Surgery and the remaining twenty-four consecutive months spent in a junior and senior internship in a recognized Oral Surgery programme.

Candidates may be required to sit for a written, oral and/or clinical examination for which the fee will be \$125.00.

Upon satisfactory completion of all requirements and upon payment of a registration fee of \$50.00 the Board will register the candidate as an Oral Surgeon and issue the specialty certificate.

REGULATIONS FOR CERTIFICATION AS A SPECIALIST IN ORTHODONTICS IN ONTARIO

The branch of dental practice known as Orthodontics is recognized by the Board of the Royal College of Dental Surgeons of Ontario as a specialty and a dentist, when certified in the said specialty, shall be known as an Orthodontist. Candidates for certification must:

- (a) Be a member in good standing of the Royal College of Dental Surgeons of Ontario.
- (b) Have completed at least 12 months in the private or institutional practice of dentistry either prior to or following the course as outlined in (c) below. This may be general practice or practice limited to Orthodontics.
- (c) Show proof of having obtained a diploma or graduate degree in Orthodontics in a graduate course consisting of a minimum of twenty-four consecutive months of full-time instruction.

Candidates may be required to sit for a written, oral and/or clinical examination for which the fee will be \$125.00.

Upon satisfactory completion of all requirements and upon payment of a registration fee of \$50.00 the Board will register the candidate as an Orthodontist and issue the specialty certificate.

REGULATIONS FOR CERTIFICATION AS A SPECIALIST IN PAEDODONTICS IN ONTARIO

The branch of dental practice known as Paedodontics is recognized by the Board of the Royal College of Dental Surgeons of Ontario as a specialty and a dentist when certified in the said specialty, shall be known as a Paedodontist. Candidates for certification must:

- (a) Be a member in good standing of the Royal College of Dental Surgeons of Ontario.
- (b) Have completed at least 12 months in the private or institutional practice of dentistry either prior to or following the course as outlined in (c) below. This may be general practice or practice limited to Paedodontics.
- (c) Show proof of having obtained a diploma or graduate degree in Paedodontics in a graduate course consisting of a minimum of twenty-four consecutive months of full-time instruction.

Candidates may be required to sit for a written, oral and/or clinical examination for which the fee will be \$125.00.

Upon satisfactory completion of all requirements and upon payment of a registration fee of \$50.00 the Board will register the candidate as a Paedodontist and issue the specialty certificate.

REGULATIONS FOR CERTIFICATION AS A SPECIALIST IN PERIODONTICS IN ONTARIO

The branch of dental practice known as Periodontics is recognized by the Board of the Royal College of Dental Surgeons of Ontario as a specialty and a dentist when certified in the said specialty shall be known as a Periodontist. Candidates for certification must:

- (a) Be a member in good standing of the Royal College of Dental Surgeons of Ontario.
- (b) Have completed at least 12 months in the private or institutional practice of dentistry either prior to or following the course as outlined in (c) below. This may be general practice or practice limited to Periodontics.
- (c) Show proof of having obtained a diploma or graduate degree in Periodontics in a graduate course consisting of a minimum of twenty-four consecutive months of full-time instruction.

Candidates may be required to sit for a written, oral and/or clinical examination for which the fee will be \$125.00.

Upon satisfactory completion of all requirements and upon payment of a registration fee of \$50.00 the Board will register the candidate as a Periodontist and issue the specialty certificate.

REGULATIONS FOR CERTIFICATION AS A SPECIALIST IN DENTAL PUBLIC HEALTH IN ONTARIO

The branch of dental practice known as Dental Public Health is recognized by the Board of the Royal College of Dental Surgeons of Ontario as a specialty and a dentist, when certified in the said specialty, shall be known as a Public Health Dentist.

Candidates for certification must:

- (a) Be a member in good standing of the Royal College of Dental Surgeons of Ontario.
- (b) Show proof of having obtained a diploma or graduate degree in Public Health in a graduate course consisting of a minimum of eight consecutive months from a School of Public Health.
- (c) Subsequent to completing the course outlined in (b) above, have completed at least two years in the service of an approved health agency.

Candidates may be required to sit for a written, oral and/or clinical examination for which the fee will be \$125.00.

Upon satisfactory completion of all requirements and upon payment of a registration fee of \$50.00 the Board will register the candidate as a Public Health Dentist and issue the specialty certificate.

2.

The Committee recommends the establishment of a committee to study the dental interne problem.

3.

The Committee recommends that specialty certification in Orthodontics be granted to Ronald Delia D.D.S. Dip. Ortho. when all remaining requirements have been met.

Action

1. That a dental interne study committee be appointed with Dr. E. J. Rajczak as chairman and members to consist of chiefs of dentistry in all hospitals that presently have dental internes.
2. Report adopted.

REPORT

Annual Meeting — 1966

1.

The Committee recommends the establishment of a scholarship of \$200.00 in the Department of Dental Hygiene at the University of Toronto, the terms to be arranged between the University and the Secretary.

2.

Qualifying examinations for graduates in Dental Hygiene outside of Canada have been arranged through the Liaison Sub-committee in Dental Hygiene. The members of this committee are Dr. Marjorie Jackson and Miss K. McKenzie.

3.

The Committee recommends the change of the By-Laws in respect of Board Examinations — that By-Law No. 9, Section I (1) be changed to read \$125.00 instead of \$100.00.

4.

Because of the inordinate number of candidates without possession of registrable qualifications applying for licensure examinations the committee recommends

- (a) An arrangement be entered into with the Faculty of Dentistry, University of Toronto for candidates to sit for the qualifying examinations presently given to those without registrable qualifications who are seeking admission to the Faculty.
- (b) The N.D.E.B. be approached with the possibility of developing a Science Achievement Test similar to that being given by the American Dental Association.

5.

Applications for Certification

- (a) An application for certification in periodontics was received from Dr. Anders Bennick. The Committee recommends that Anders Bennick, Cand. Odont, M.Sc., Dip Perio (U. of T. '66) having met the requirements for certification in the specialty of periodontics, be granted such certification.
- (b) An application for certification in paedodontics was received from Dr. John C. Duncan. The Committee recommends that John Cecil Duncan, D.D.S. Dip Paedo. (U. of T. '66) having met the requirements for certification in the specialty of paedodontics, be granted such certification.
- (c) An application for certification in paedodontics was received from Dr. Beverly A. Richardson. The Committee recommends that Beverly Arthur Richardson, D.D.S. Dip Paedo (U. of T. '66) having met the requirements for certification in the specialty of paedodontics, be granted such certification.
- (d) An application for certification in Periodontics was received from Dr. Ronald G. Golden. The Committee recommends that Ronald Gerald Golden, D.D.S., Dip Perio. (Columbia Univ. '65) having met the requirements for certification in the specialty of periodontics, be granted such certification.

6.

Since the Spring Board Examinations occur on the 11th, 12th and 13th of May, 1966, it will again be necessary for the Committee to be granted the privilege of acceptance of successful candidates for registration when all remaining requirements have been met.

7.

Yau, Boris Wing-Huen
Zarb, Francis Luis

2. Motion Adopted:

That the following, when they are recommended for the Degree of Doctor of Dental Surgery by the Faculty of Dentistry of the University of Toronto, be registered by the Registrar in the Royal College of Dental Surgeons of Ontario when all remaining requirements have been met:

Bruce, William Ralph
Filion, Richard Leo Joseph
Huang, Mrs. Anita Lai Ching
Humphreys, David Alfred

Kalins, Miss Sarma
Krukowski, Edward Henry
Snikeris, Miss Dace
Wichert, Mrs. Sophie H.

Action:

1. Motion Adopted:

"That the By-laws in respect of Board Examinations (By-law No. 9, Section 1 (a)) be changed to read \$125.00 instead of \$100. and referred to the Government and Legislation Committee."

2. Report adopted.

SCHOOL FOR DENTAL TECHNICIANS COMMITTEE

Members: Dr. J. D. Purves, Chairman; Mr. H. Posen, Mr. W. Wood,
Mr. C. Goodall, Dr. H. Mercer, Dr. E. Downton, Dr. W. MacKay,
Dr. R. L. Twible and Dr. K. F. Pownall.

REPORT

Fall Meeting — 1965

1.

There are at present 258 Registered Dental Technicians in Ontario employing an estimated 772 skilled and semi-skilled people; thirty percent of the employees are female.

2.

To look after normal deaths and retirements the industry requires 30 new recruits a year or 1/30th of its population. From a questionnaire sent to the industry there is an indicated need for an increase of $26\frac{2}{3}\%$. To be specific 48 firms indicated a need for 99 additional staff. Relating this to more general statistics the present population of Ontario is 6,586,000, in 1970 it will be 7,356,000. It is estimated that there will be 2,925 dentists in Ontario in 1970 compared with 2,623 at present. Both of these sets of statistics indicate an increase of 11.5% over present figures. It follows that in the Dental Technician industry there also should be an increase of 11.5% by 1970.

3.

Other jurisdictions offering courses are as follows:

ALBERTA — Institute of Technology course of 1800 hours extended over two academic years. 10% of the time in the first year is devoted to academic subjects of mathematics, english and chemistry with the remainder devoted to the subjects of dental technician theory and practice. In all, 62% of the course is involved with laboratory practice. Entrance Grade XII.

NORTH CAROLINA — Institute of Technology course of 2178 hours extended over two years including a seventh summer quarter between academic years 1 and 2. 9% of the total time is devoted to the academic subjects of mathematics, chemistry, physics, english, and economics with the remainder devoted to dental technicians theory and laboratory practice. 66% of the total time is spent on laboratory work. Entrance Grade XII.

CALIFORNIA — A University Extension Course of approximately 2000 hours extended over two years meeting for four hours each day. This is a theory and laboratory course under the following headings: — Morphology Carving, Gross Anatomy, Gypsum Products, Inlay Crown and Bridgework, Cast Removable Bridgework, Prosthetics, Cuspal Coordination. Entrance — High School Graduation.

Apparently these schools do not have a close relationship with the industry they serve such as Ontario establishes through local Advisory Committees.

4.

The need for training facilities for Dental Technicians is apparent, so the following progress has been made.

Mr. Lloyd, Provincial Institute of Trades and Occupations, Toronto, has been appointed by the Department of Education to make recommendations concerning the establishment of a course. He recommends the establishment of the first

course at or near the Provincial Institute of Trades Building, 37 Dartnell Avenue, Toronto 4. The course should commence in September, 1966, if possible. It should be confined to 20 students with the realization that after re-examination of the Province's needs other classes may be started or the present one expanded in future years. Entrance requirements are to be Grade XII or its equivalent. The course should be of two years (2400 hours) duration with approximately 60% laboratory time. It is understood that if it appears to be necessary this will be expanded to three years. An Advisory Committee consisting of representatives from the Governing Board of Dental Technicians and the Royal College of Dental Surgeons of Ontario should be formed to work out a course of study and other details.

Action

Report received.

REPORT

Annual Meeting — 1966

1.

Mr. C. C. Lloyd of the Technical Trades Branch of the Department of Education will be in charge of a Course in Dental Technology of two years duration to be reviewed during the course as to the possibility of a three year requirement.

2.

Applicants will have Grade XII education or its equivalent and twenty candidates will be accepted per year. This number is to be reviewed in the light of future requirements.

3.

Successful candidates upon completion will then be required to qualify under the regulations of the Governing Board of Dental Technicians in order to become a Registered Dental Technician and hence be allowed to open their own laboratory.

4.

An Advisory Board to Mr. Lloyd will be commissioned upon the recommendations of Mr. Lloyd.

5.

In order to obtain students, a campaign in the schools to acquaint prospective students with the potential of the course is imminent.

6.

Temporary accommodation will be required until final quarters have been constructed.

7.

Mr. Walter Wood has been appointed technician instructor.

8.

The following is the proposed programme of studies.

	1st year	2nd year
Mathematics and Business Practice		3
Language and Communication	3	3
Economics		2
Physics	4	
Chemistry	2	2
Dental Anatomy	4	
Dental Materials	3	
Complete Dentures	6	3
Crown and Bridge, Inlay and Precision Attachments	4	6
Partial Dentures	2	4
Ceramics		3
Castings	2	2
Orthodontics		2
	30 Hrs.	30 Hrs.

40 Weeks

10.

It is recommended that this Committee be dissolved.

Action

1. An Advisory Committee of the School is to report to the R.C.D.S. at the Annual Meetings.
2. Report adopted.

REPORT

Annual Meeting — 1966

1.

The Year 1965

In 1965 we had a surplus of revenue over expenditures of over \$16,000. This means that the College continues to be in a sound financial position, which is very important in these days of constant change.

2.

Note of Appreciation

An annual report omitting recognition of the employees' contribution would be unusual. I wish to bring to your attention the fact that the College has an exceptionally capable and industrious staff. To these fine people I extend my warmest thanks.

3.

Revenues and Expenditures

The Balance Sheet of the Royal College of Dental Surgeons of Ontario, the Welfare Trust Fund and the Harry R. Abbot Memorial Library Fund as well as the statement of the revenue and expenditures of the R.C.D.S. for the calendar year ending December 31st, 1965 are submitted. The books have been audited by Thorne, Mulholland, Howson and McPherson and their report is enclosed.

The Revenue of \$246,211.00 exceeded the amount budgeted by \$8,369.00. On the other hand expenditures of \$229,951.00 were \$4,374.00 less than budgeted even after allowing for capital cost depreciation on our building of \$2,321.00.

The statements reflect the continuing favourable interest earnings made possible because of the utilization of appropriate short term investments.

4.

Securities

A list of the securities held by this College is submitted. A review of the securities shows that the College's position could not be improved by the sale of any of these at current prices.

5.

A Look Ahead

When the re-organizational activities of the R.C.D.S. and the O.D.A. have been completed a study should be made to determine the size and types of reserves that the College should maintain.

6.

Re-Appointment of Auditors

As the firm of Thorne, Mulholland, Howson and McPherson continues to provide exemplary service, it is recommended that this firm be re-appointed auditors for 1966.

Action

1. Report adopted.

AUDITORS' REPORT

To the Directors of the Royal College of Dental Surgeons of Ontario:

In accordance with your instructions and the recommendations adopted by you at your 1960 fall meeting, we have examined the accounts and records of the Royal College of Dental Surgeons of Ontario for the year ended December 31, 1965 and the balance sheet of the College as at that date. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion the accompanying balance sheet presents fairly the financial position of the College as at December 31, 1965, on a basis consistent with that of the preceding year.

Toronto, Canada,
March 7, 1966.

Thorne, Mulholland, Howson & McPherson,
Chartered Accountants.

ROYAL COLLEGE OF DENTAL SURGEONS OF ONTARIO

BALANCE SHEET

December 31, 1965

Consultant: Dr. T. R. Marshall.

REPORT

Annual Meeting — 1966

1.

The year under review has been a busy one as the Workmen's Compensation Board extends its coverage to an increasing number of employee groups. The latest is agricultural employees.

2.

As you are aware, the Ontario Dental Association produced a Fee Schedule for Ontario dentists in September, 1965. This was used as a basis to produce a new Workmen's Compensation Board Schedule which was circulated to every dentist in Ontario in March, 1966, and effective immediately. Your Consultant, working with a committee comprised of Dr. R. Michell of your Board, Dr. Wesley Philp of the Ontario Dental Association, and Dr. Jack Kreutzer of the Faculty of Dentistry, University of Toronto, produced this Schedule in a condensed form to make it suitable to the requirements of the Workmen's Compensation Board. This Board accepted the Schedule without amendment, which is an indication of its desire to co-operate with the profession.

In connection with this new Schedule your Consultant would respectfully request that dentists —

(1) Keep this Schedule for use.

(2) Read carefully the general provisions on the inside of the first cover page.

(3) Note carefully those services that are considered emergency services and which may be undertaken according to accepted practice without authority from the Board.

(4) Note that the fee for examination will be allowed depending on the information value of the report and the latter's usefulness in assessing entitlement to dental service under the Workmen's Compensation Act.

3.

In the 12 month period ending December 31, 1965 there were 965 dentists who had rendered services to beneficiaries under the Workmen's Compensation Act, and they were paid \$140,115. This is an increase of 36 dentists participating and an increased pay out of \$34,509 over 1964.

4.

It is increasingly apparent that dentists should consider that all dental injuries from accidents are covered under the Workmen's Compensation Act. At the present time most employers avail themselves of this accident protection coverage for the employees — (a) because it is obligatory; (b) because of the reasonable cost of protection.

5.

The practitioner who proceeds with dental services needed as a result of an accidental injury without finding out if the injured person is covered by the Workmen's Compensation Act, will not be excused from the terms and conditions of the Act. The thoughtful dentist will, therefore, investigate insurance

coverage in every accident case before proceeding beyond the emergency treatment stage. Medical practitioners do this as a matter of routine.

6.

In the past year there have been many changes at the Board. Re-organization has been going on to increase efficiency in handling the ever-increasing number of claims. For some years your Consultant has been urging a change in processing dental claims. Formerly, well over one hundred assessors were dealing with dental problems which most of them did not understand. Since January 1st of 1966 all dental claims are reviewed by two assessors who, in co-operation with your Consultant, are becoming proficient in this field. The difficult cases and those where the attending dentist has to be contacted, are referred to your Consultant. Perhaps this has grown out of a series of four lectures on dental problems given to employees of the Board by your Consultant during the early months of 1965. In any event, it would seem that dentists with Compensation Board cases are getting better service than ever before. It should be mentioned too that any dentist may telephone the Board at its expense to discuss any dental problem he may have.

7.

Each year it seems necessary that your Consultant point out that the Board insists on control of dental treatment rendered its beneficiaries. Therefore, the dentist should secure authorization of his treatment plan beyond the emergency treatment stage. There are reasons for this —

- (1) The Board pays for the service.
- (2) The beneficiary has continuing entitlement in most instances and if the dental service fails, the Board continues to pay for additional service.
- (3) There are too frequent claims for services for which there is no entitlement.

No. 3 above perhaps needs a little explanation, but it is quite common knowledge that people try to collect as much as they can on insurance. General Provision # 1 on the Fee Schedule is the basis of all entitlement. In effect it states "The object of treatment is to restore as nearly as possible the health and masticatory function existing prior to the accidental injury." This cannot be a hard and fast line and much has to be left to honest professional appraisal by the dentist. Dental treatment plans do not always reflect this honest appraisal when co-related to other information the Workmen's Compensation Board has on file in respect to the accident.

eg. A common accident for those people wearing dentures is to fracture a denture. There are too many occasions when the dentist states the denture is not repairable. Whether the patient puts him up to this in most cases is not known, but such answers as the following have been received from dentists when asked why the denture cannot be repaired —

"I've never seen the denture."

"I've at least tried."

"If I don't get this man a new denture, he will think I did not try."

"I don't want to be the middle man."

"I recommend new dentures."

The Board tries to be quite fair in these fractured denture cases, as it will allow repair and reline or even a rebase if necessary to rehabilitate the denture. Further, if the claimant's denture was inadequate prior to the accident, he may apply this allowance toward a new denture. The allowance is generous.

8.

In reports of past years there have been many matters brought to your attention which, unfortunately, keep recurring. However, the new Schedule has been produced to allow dentists to proceed with treatment along lines of reasonably accepted dental practice of the day. Good service is expected. The general provisions of the Schedule should be read and digested and complied with. The Schedule format is set out to guide dentists in their treatment planning and the fees allowed seem quite satisfactory, as there are very few complaints.

9.

In concluding this report, your Consultant would like to acknowledge continued cordiality with other members of the Board staff. He has made himself available at any time to the Board or members of the profession to discuss dental problems at his office or while on duty at the Board's offices. He is also grateful to the Committee of dentists for their assistance in producing the Fee Schedule. Their suggestions and sound approach has been appreciated. Finally to you gentlemen, my thanks for entrusting to me this opportunity of serving you and the profession.

Action

1. Dr. T. R. Marshall was re-appointed Consultant to the Workmen's Compensation Board.
2. Report received.

Fall Meeting

Ontario Centennial Centre of Science and Technology

The appreciation of the Directors of the R.C.D.S. was extended to Dr. J. H. Johnson and Dr. O. J. Yule for their preliminary efforts in seeing that dentistry would be represented at this Centre. The Board felt that this important project would be better handled by the O.D.A. and referred it to them. A motion was passed that an amount up to \$500 be given to the Committee for travelling expenses to see other similar exhibits in the U.S.A. and gather ideas.

Public Service Clinic

Dean Ellis recommended to the Board the need for a study of the advisability of establishing a public service clinic in conjunction with the Faculty. It would help supply patients for post graduate and undergraduate teaching and for Board examinations. The Board passed a motion that they encourage an application to the Health Services Research Committee of the Department of National Health and Welfare for a grant to enable a study in the City of Toronto for the need of a public dental clinic.

Aptitude Testing for Students Entering the Faculty of Dentistry

The Board of Directors recommended that the C.D.A. adopt and institute a programme of aptitude testing as proposed by the Council on Education of the C.D.A.

R.C.D.S. Admission Scholarship

The scholarship of \$600 was awarded to Mr. F. M. Eggert of Whitby. He achieved an average of 86% in 1st year General Science and 79% in Grade XIII.

James Branston Wilmott Scholarship

The Board makes an annual grant of three hundred dollars to support these two scholarships. The winners for the academic year 1964-65 were, in the first year Mr. W. L. Wilson and in the second year Mr. P. A. Watson.

Canadian Fund for Dental Education

The Board received a letter of appreciation from Mr. K. L. Croft, the Secretary of the Canadian Fund for Dental Education for the memorial grant of \$500 .

Dorinda Tully Estate

Mr. A. J. Scafe, Estates Officer, Canada Trust, Huron and Erie reported the position of the Dorinda Tully Estate for the twelve month period ending July 31, 1965. In comparing this statement with that of July 31, 1964, it may be noted that the total value of the Trust has decreased by approximately \$690. This is due to the present state of the stock market.

Bond and Debentures	\$ 9,965.00
Stocks — Preferred	2,125.00
Common	6,603.12
Cash on Hand	155.40
Total	<u>\$18,848.52</u>

The R.C.D.S. Board, acting as trustees of the Dorinda Tully Estate financially supports the Harry R. Abbott Memorial Library.

Hospital Services Committee Formed

Dean Wesley J. Dunn accepted the Chairmanship of this new Committee. The duties of the Committee are:

To initiate and assist in maintaining a high standard of dental services in hospitals in Ontario.

To advise the Board on matters relating to Hospital Dental Services.

To co-operate with the Hospital Services Committee of the Canadian Dental Association.

Credit Card System Declared Unethical

Over 800 dentists in Toronto received a letter from a Credit Card Company stating that they would pay the accounts of any patient who possessed a valid credit card. The Credit Card Company would collect from the patient at a later date. It was pointed out to the Company that this system would be in contravention of the Code of Ethics of the Canadian Dental Association 1965 which states "The billing agency can make payment to the dentist only on amounts received by the agency."

Brief Presented to Department of Education

The Board approved of the submission of a Joint O.D.A./R.C.D.S. Brief to be presented to the Department of Education. This Brief is concerned with the teaching of dental health in Grades I-VI in elementary schools and is being presented to a committee studying the Aims of Education in Ontario.

R.C.D.S. BRIEF to the Committee on Aging

On July 12, 1965 the Board of the R.C.D.S. presented a Brief to the Legislature's Committee on Aging. The spokesman for the R.C.D.S. was Dean W. J. Dunn. The recommendations were similar to those made to the Senate's Special Committee on Aging by the Canadian Dental Association. It was estimated that basic dental care would be made available to the 21,300 persons receiving old age assistance and another 54,000 eligible for old age security supplementary allowance for between \$720,000 and \$900,000 annually. It was stated that some sort of co-insurance (in which the patient pays part of the bill) would be preferred by the dentists in the case of dentures for older persons or the costs could become so high as to endanger the plan. The College also urged (1) that dental home care programmes for shut-ins be set up locally by the dental profession in co-operation with local health officials (2) that where practicable hospitals and other institutions for the aged establish dental departments for their patients (3) that dentists be represented on any permanent body for the aging set up in Ontario.

Life Membership

Through a clerical error the names of Dr. R. Winn and H. L. Smith were omitted from the list of 1916 registrants appearing in the annual report of the Registration and Licensure Committee which was presented to the Board in April 1965. The Board has granted Life Membership to these men commencing January 1st, 1966.

Change in Hygienist Hat Bands

Mr. A. Read, Secretary of the Faculty of Dentistry, University of Toronto, informed the Board that up to 1965 dental hygiene graduates were issued with two-colour cap bands in garnet and blue, but the faculty council has now approved the adoption of a narrow lavender band instead. This change will bring our hygienists into line with the majority of North American schools.

Annual Meeting

Dentists Requested to Appear Before Discipline Committee

Three dentists appeared before the Committee because of infractions of the By-laws with regards to the illegal distribution of announcement cards and newspaper announcements. They were admonished by the Chairman of the Committee who warned them that with the new changes in the Dentistry Act this offence would merit a fine.

One dentist appeared before the Board charged with infamous, disgraceful or improper conduct in a professional respect in that while under the influence of alcohol or drugs to such an extent as to substantially impair his professional ability undertook to perform services which were part of the practice of dentistry. The Committee decided that the dentist must refrain from the practice of dentistry until such time as he can provide the Committee with the opinion of a competent medical authority, satisfactory to the Committee, that his health has been restored to the extent that he is competent to carry on the practice of dentistry.

One dentist appeared before the Committee because an inordinate number of complaints were lodged against her. The dentist was requested to come to an agreement with her patients and inform the Board in writing that she had fulfilled this arrangement.

Oral Cytology

Dr. E. A. White, Chairman of the Committee, reported that the service was being used at about the same rate as previous years. The Board reaffirmed its motion of last year that the Dental Public Health Committee continue to encourage an increased utilization by the dental profession of this service.

Dental Services in Public General Hospitals in Ontario

Ontario Hospital Services Commission Regulation 523 now provides the necessary legal climate in which dental services in hospitals in Ontario should be able to flourish. Dentists who are involved in formulating hospital by-laws may procure a copy of these regulations by writing to Ontario Hospital Services Commission, 2195 Yonge Street, Toronto, Ontario.

Committee to Study Denture Service in the Province of Ontario

The Committee was formed following receipt of a copy of an unsigned circular letter addressed to all employees of all dental laboratories in Ontario soliciting support to have the Dentistry Act changed to permit the establishment of public denturists. The Dental Laboratorys Association of Ontario and the Governing Board of Dental Technicians have pledged their support of the profession as they also believe that such legislation would not be in the best interest of the public. The Committee has collected considerable information from several sources and also has contacted several key political and governmental people. The general support from the profession and the ethical technicians has been most gratifying to the Committee.

Directors of the Governing Board of Dental Technicians meet with R.C.D.S. Directors.

The Directors of the Governing Board of Dental Technicians were invited to appear at the Annual Meeting of the Directors of the R.C.D.S. The meeting was mutually beneficial.

Motion — WHEREAS recent discussions between the Governing Board of Dental Technicians of Ontario and the Board of the Royal College of Dental Surgeons of Ontario have served to promote greater understanding between these two bodies, and

WHEREAS the problems in the Industry and in the profession are ever-changing,

THEREFORE BE IT RESOLVED THAT this Board approach the Governing Board of Dental Technicians with a view to establishing reciprocal representations between these Boards to take place periodically to review problems of mutual concern.

Provincial Government Bursary Fund

The appreciation of the Board was extended to the Honourable Dr. M. B. Dymond, M.D.C.M. Minister of Health for the success that the bursary fund is achieving in not only assisting worthy students through school but also encouraging dentists to practise outside the larger cities.

Royal College of Dentists of Canada

A message of felicitation was sent to the Royal College of Dentists of Canada on the eve of their first convocation from the Directors and Members of the Royal College of Dental Surgeons of Ontario.

Ontario Council of Health

The Minister of Health requested the profession to submit the names of three dentists for nomination to this important Council. The government is to select one of the three submitted names. In co-operation with the O.D.A. this was done and Dean Wesley J. Dunn was the dentist selected by the government.

REGULATIONS

SIGNS

A member of the Royal College of Dental Surgeons, in connection with his profession:

1. May not display or permit to be displayed any sign other than a sign which in its character, position, size and wording is merely such as may be reasonably required to indicate the location of and entrance to the premises in which a dental practice is being carried on and in which no letters larger than four (4) inches are used.
2. May not display more than two signs in addition to one at or on his entrance door.
 - (a) Not more than one of these may be a suspended sign.
 - (b) Not more than one of these may be an illuminated sign and if illuminated must not be intermittent, daylight, "Neon" or "Neon type" and no colours shall appear in such signs other than white or black.
3. May not display any sign on premises other than those in which his practice is actually carried on.

Notwithstanding the above regulations he may (using only unilluminated letters or figures not larger than two (2) inches:

- (a) Add to his entrance sign, his office hours.
- (b) Add to any sign the words (when an entrance is difficult to find) "Entrance on . . ."

PROFESSIONAL CARDS AND ANNOUNCEMENTS

A member of the Royal College of Dental Surgeons, in connection with his practice:

1. May not permit to appear in any newspaper or other publication, printed or written for distribution or display anything other than his professional card (which may contain at most his name, title or degrees, profession, address, telephone number and office hours) or an announcement of his commencement of practice, change of office location, absence from or return to practice, or the restriction of his practice. The announcement shall not contain any reference to qualifications, procedures or equipment. The space used, for either card or announcement, must not exceed one column (13 ems) in width by two inches in length and must not be in the nature of a display.
2. He may, however, observing the dignity and ethics of the profession, without reference to qualifications, procedures or equipment:
 - (a) Use private professional cards.
 - (b) Issue accounts and receipts.
 - (c) Issue appointment cards.
 - (d) Mail to his patients recall notices.
 - (e) Mail to his patients and acquaintances announcements of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice, provided he is a certified specialist.

SOLICITED ADVERTISING

For the protection of the Profession from solicited advertising, the Board prohibits any member of the Royal College of Dental Surgeons from inserting his professional card in hand-bills, programmes, year books or other printed matter of like character.

TAKING OVER A PRACTICE

When any member of the Royal College of Dental Surgeons takes over the practice or office of another member of the College, either by purchase or otherwise, the member so acquiring the said practice or office shall not after one year from the date of such acquisition use any sign or printed matter which suggests to the public that the retiring member was in any way associated or connected with the said practice or office.

TELEPHONE DIRECTORY LISTINGS

1. No display advertising of any kind.
2. No black face listings in the yellow pages.
3. No specialists' list under separate group headings.
4. Mention of office hours is of no particular value and is usually used only to increase space, therefore to be excluded.
5. Mention of particular facilities or equipment, such as X-rays, gas extractions, etc., not acceptable in either section.
6. Residence listing in yellow pages, as well as in white pages, is acceptable.
7. Designation as specialists may be used in both yellow and white pages, provided the dentist is a specialist certified in and restricted to the designated branch of dentistry.
8. No "By-District" listings in the yellow pages shall be permitted.
9. The name of a clinic, dental centre, partnership or other form of dental group may be listed in the white pages and a list of the members' names may appear thereunder as well as in his/her section in the white pages. Such listings may include the certified members' specialty designations.
10. Should the name of a clinic, dental centre, partnership or other form of dental group be listed in the yellow pages the names of the members may not be listed thereunder but the name of each may be listed in his/her alphabetical section of the yellow pages. Such listings may include the certified members' specialty designations.

R.C.D.S. PRESIDENT'S ADDRESS

Dr. J. P. Coupland

Fall Meeting — 1966

1.

A Century of Change

As we are about to celebrate the Centennial of the formation of the O.D.A. and the enactment of the Dentistry Act soon after, it would seem timely to make an appraisal of some of our current problems.

It can be pointed out that when the R.C.D.S. was established, health care was essentially an individual responsibility. Nowadays the community at large is assuming an ever increasing share of the cost of providing care for those unable, for any reason, to pay for their own health services. This shift of responsibility has created new problems for the R.C.D.S. which by both legislation and tradition is responsible for the best attainable dental health for the people of Ontario.

In the last one hundred years another change has taken place. In 1867 the training of dentists was done by apprenticeship or by dentist supported schools. Now, fortunately, dentistry is a university discipline. Dental education now is a shared responsibility of the University and the profession as represented by the R.C.D.S.

2.

Dental Auxiliaries

It has been pointed out that dental education has become a shared responsibility of the University and the dental profession. It would seem equally logical and predictable that responsibility for the public's dental health in the future will be shared by dental auxiliaries and the dental profession. Let us hope that the auxiliaries will remain under the effective control of our dental education system and our licensing bodies.

A splendid beginning has been made in the establishment of the Dental Hygienist with a Grade XIII admission requirement, an excellent curriculum and well regulated and useful duties to perform. It would be my hope that both the utilization and duties of these auxiliaries will be expanded.

3.

Specialization

As in so many other respects the dental profession in Ontario is fortunate in the harmonious relations which have always been maintained between those who limit their practice to a particular branch of dentistry and those in general practice. It is suggested that limited practice is a desirable concept to perpetuate as opposed to a severely restrictive specialist regulation. Perhaps limitation of practice should be an individual decision but specialist certification should continue to be a statutory responsibility. For example, any dentist has the right to limit his practice to orthodontics, oral surgery, pedodontics, or any other recognized specialty but only recognized (certified) specialists could designate themselves as possessing the qualifications. At the same time the fully qualified specialist should not be put to the indignity of being prevented

from rendering services which he was competent to perform at an earlier stage of his dental training.

In other words, it is my opinion that By-Law #12, Section 6 as it stands is not in the best interest of the public and that it should be amended by the deletion of the sentence, "Every member of the College receiving a licence to practise as a specialist must, as a condition of qualification, limit his practice to that specialty to the exclusion of general practice".

4.

The Canada Assistance Act

(Statement by the Honourable Allan J. MacEachen, Minister of National Health and Welfare)

"For the first time the federal government will share the cost of health services to persons in need. Sharing covers medical and surgical services, nursing, dental and optical care, including dentures and eye glasses, drugs, prosthetic appliances and other health services".

The R.C.D.S. Dental Services Committee has evaluated the significance of this legislation and has collaborated with agencies like the Welfare Council, who also recognize the potential of this legislation.

It is interesting that comparable legislation has been enacted in the U.S.A. whereby health care plans have been introduced under the guise of welfare plans. Reference is made to Title XIX of the Social Security Act (Kerr-Mills Act 1960) Appendix A.

The inability of a segment of the population to pay for dental services has long been a concern of the dental profession. Now an avenue for paying for such services has been offered by the federal government. Acceptance by the provinces who by constitutional authority must administer health matters is a decidedly complex arrangement but one which is likely to eventuate.

5.

Improper Emphasis on Restorative Procedures

It is difficult to escape the conclusion that many of the problems which have baffled the R.C.D.S. Board in recent years derive from the fact that certain dentists are too preoccupied with available restorative techniques and materials to apply dentistry's traditional concept that prevention is better than cure. If, for example, an extensive rehabilitation or restorative program were deferred until control of caries or periodontal disease had been surely demonstrated fewer disappointing results and complaints would arise.

In spite of ostensible biological training, it would seem that some dentists are essentially technicians and not all can claim to be clinicians. Efforts at both the undergraduate and graduate level to overcome this attitude should be continued.

6.

Life Membership

Maintaining an accurate register of its members is a prime duty of a licensing body. Payment of a licence fee annually is the mechanism which provides the regulating authority with an up-to-date list of personnel under its jurisdiction. The policy of automatically granting an individual a licence with no requisite to apply for renewal deprives the R.C.D.S. of this facility.

While there are arguments with strong emotional appeal for continuing the practice, it can be questioned whether a statutory body as distinct from a voluntary professional association should be influenced by sentimental considerations. It is suggested that on retirement from active practice a member of the College in good standing who has been on the register for 49 or more years be granted a Life Membership certificate.

The foregoing observations are personal comments which in several instances are departures from present policy. Where such is the case, it is my hope that future Boards will review policies which, in my view, have become outdated.

Action:

Dr. H. M. Jolley, on behalf of the Directors, expressed their sincere appreciation to Dr. Coupland for his efforts in the President's chair during the last two years.

CANADIAN DENTAL ASSOCIATION

Representatives: Doctors J. P. Coupland, W. G. Bruce, J. D. Purves,
E. T. Guest, O. J. Yule

REPORT

Fall Meeting — 1966

1.

Annual Meeting

The Annual Meeting of the C.D.A. Board of Governors was held in the Nova Scotian Hotel in Halifax, June 8th - 11th, 1966.

2.

New Format

President Phillip S. Christie ably presided over the sessions. A previously approved and considerably changed format for conduct of the meeting was employed for the first time

3.

Reports

Reports on the year's activities by the President and Executive Council, the Treasurer, the Bureaux, the Councils and Committees and the Section can be found in the Published C.D.A. Transactions. Only a few highlights considered of interest to R.C.D.S. Licentiates are selected for this report.

4.

Transfer of Corporate Membership

Notice was given and accepted that, effective May, 1967, the corporate C.D.A. membership for Ontario will be transferred from the Royal College of Dental Surgeons to The Ontario Dental Association.

5.

1967 Joint C.D.A. - O.D.A. Convention

The members of the dental profession across Canada will join The Ontario Dental Association in celebrating its 100th anniversary in Toronto in May, 1967. The convention chairman, Dean R. G. Ellis, reports special arrangements for this momentous occasion.

6.

Treasurer's Report

The announcement that commencing in June, 1966, the College of Dental Surgeons of the Province of Quebec would increase its per capita grant from \$25 to \$40 was most welcome.

In spite of this additional revenue the financial position of the C.D.A. is far from secure. As with individuals, operating costs continue to rise. Several worthwhile activities have been necessarily curtailed. If the services rendered by the C.D.A. to the profession are to be maintained, much less expanded, sources of additional revenue must be found.

7.

The Royal College of Dentists of Canada

The following officers were elected in September, 1965, President, Dr. Frank Smith, Vancouver; Vice-President, Dr. C. H. M. Williams, Toronto; Registrar, Dr. Albert A. Antoni, Grand Bahamas; Secretary, Dr. John Speck, Toronto.

The first Convocation of the Royal College was held in Toronto on May 14th, 1966. Fellowships were conferred on 2 Honorary and about 65 charter members by Hon. Earl Rowe, Lieutenant Governor of Ontario. Examination for the specialists will be held in December, 1966. It is emphasized that these are preliminary requests and that a considerable time must elapse before the college can function as it was designed to operate.

8.

Aptitude Testing Programme

After intensive study an aptitude testing programme, under the direction of the C.D.A. Council on Education, has been established at C.D.A. Headquarters through a refundable grant from the Association. It is anticipated that the admissions committees of the dental schools across Canada will use this facility to assist in selection of the best possible recruits for the dental profession.

9.

Funds Available for Dental Research Increase

In the year under review \$625,000 was expended on Dental Research in Canada. This amount is almost double that spent in 1964, and is about eight times that of 1954.

The retiring chairman, K. J. Paynter, was thanked and commended for his outstanding contribution to the remarkable record of the Council on Research.

10.

New Sections Approved

Approval was given the applications of the Canadian Academy of Restorative Dentistry and the Canadian Academy of Endodontics to become sections of the C.D.A.

11.

Endodontics Recognized as a Specialty by the C.D.A.

Endodontics became the sixth specialty group to be recognized, the others being Orthodontics, Oral Surgery, Periodontics, Prosthodontics and Paedodontics.

12.

Auxiliary Services

The interest and lively discussion generated by the report of the Auxiliary Services Committee indicated the divergency that exists among the members of the dental profession on the question of the expansion and utilization of auxiliary personnel.

13.

Officers Elected

P. S. Christie, Halifax	<i>Past President</i>
J. P. Coupland, Ottawa	<i>President</i>
W. P. Munsie, Vancouver	<i>President-Elect</i>

Executive Council W. G. Bruce, Kincardine
H. R. MacLean, Edmonton
H. Brouillet, Montreal
Owen J. Yule, Toronto

14.

Commercial Insurance Plans

The appointment of the Chairman of the R.C.D.S. Insurance Advisory Committee, Dr. Russell Hugill, to the C.D.A. Special Advisory Committee on Commercial Insurance was confirmed. The resignations of Dr. David Way, London and Dr. D. C. McKechnie, Edmonton were announced with great regret.

Action:

1. Report received.

COMMITTEE TO STUDY DENTURE SERVICE IN THE PROVINCE OF ONTARIO

Members: Doctors H. M. Jolley, Chairman; M. G. Boyes, M. E. Lucyk, W. S. MacKenzie, J. A. Sherman, W. J. Spence, J. H. Johnson, Co-ordinator.

REPORT

Fall Meeting — 1966

1.
The Committee has met twice since the 1966 annual meeting of the Board.
2.
Acting on a suggestion originating in this Board the services of a dentist who could devote a sufficient amount of time to obtain, collate and digest pertinent material were sought and obtained. Dr. J. H. Johnson agreed to accept the assignment and has amply proven the wisdom of the suggestion and the selection.
3.
To this point most of the activity of the Committee has concerned itself with obtaining background information, studying the experiences of others and seeking out material which might be of value in attaining our ends. The Co-ordinator (Dr. Johnson) has been in communication with many organizations in Canada and the U.S.A.; he has obtained transcripts, original articles, personal communications and other material pertinent to the efforts of mechanics to obtain legislation permitting them to deal directly with the public and the methods employed to oppose them. All of this material has been summarized and the comments pro and con are being set out in detail so that reasonable rebuttals may be available to counter anticipated arguments.
4.
A list is being prepared on which will be shown the name of every member of the Legislature for every riding in Ontario. Each name will be coupled with that of a dentist who can be relied upon to make useful and responsible representations to the Member in support of our stand in opposition to any suggestions from Dental Mechanics for legislation unacceptable to the profession. To this end a summary of pertinent material will be prepared so that the responsible individuals will be adequately and properly briefed to make their presentations. Wherever possible it is hoped that this briefing will be carried out orally rather than have it committed to print.
5.
The Brief from the Board to the Committee on the Healing Arts will largely support a continuance of existing patterns of practice and legislation. It is hoped that it will be possible to include in the supporting material positive statements which will serve to counter the anticipated arguments of the Mechanics.
6.
The Committee in its search for appropriate material to present dentistry's arguments for maintenance of existing modes and regulations viewed a film prepared by the A.D.A. entitled "Bootleg Dentistry". The consensus of the Committee was that this film is not appropriate for our purposes.

7.

It was agreed to recommend to the Boards of the O.D.A. and R.C.D.S. that a study be made of the possibility of establishing denture clinics.

In this connection several thoughts were expressed:

That a need exists to make provision for people on marginal incomes to obtain denture services at modest cost (lower than average fee in private offices).

That the decision should be made as to whether or not a means test should be employed in accepting patients for denture service.

That existing hospital dental departments out-patient facilities be utilized for this purpose or that they be established in areas of the Province where they do not exist.

That some consideration be given to the suggestion that staffing hospital clinics might be assisted by insisting on a period of internship for dental graduates as a prerequisite for licensing.

8.

It was recommended that Drs. C. Moses and W. Woods be requested to serve on the Committee.

Drs. Boyes and Sherman indicated a desire to be permitted to resign from the Committee.

9.

Sub-Committees formed

It was felt that in order to ensure purposeful activity of each of the members of the Committee specific areas of interest should be assigned to them. For this purpose four areas of interest were designated and sub-committees formed to investigate their possibilities, suggest modes of action, outline plans and indicate possible financial needs.

The four sub-committees are:

- (1) Steering Committee to assist with the Brief to the Committee on the Healing Arts — Drs. Johnson and Jolley.
- (2) Political Action — Drs. Lucyk, MacKenzie and Johnson.
- (3) Public Relations — Drs. Spence, Boyes and Johnson.
- (4) Denture Clinics — Drs. Moses, Woods and Johnson.

10.

The budget for the work of this committee is \$750.00.

Action:

1. Report adopted.

COMPLAINTS COMMITTEE

Members: Doctors R. C. Honey and R. Michell

REPORT

Fall Meeting — 1966

1.

The newly established Complaints Committee has held two meetings and the results of the committee's work appear to be very successful.

Subjects dealt with included:

1. Blanket distribution of announcement cards,
2. Improper use of word "clinic",
3. Improper use of signs,
4. Poor quality of dental service rendered,
5. Disagreement between dentist and dental technician.

2.

It has been brought to the committee's attention that some dentists are entering claims to insurance companies on behalf of patients that are almost fraudulent in nature. The committee recommends that the profession be warned that action will be taken against dentists who submit fraudulent claims.

Action:

1. Report adopted.

DENTAL SERVICES COMMITTEE

Members: Doctors H.M. Jolley, Chairman; R. H. Finlayson, W. S. MacKenzie, D. B. McAdam, E. Rajczak, J. Sim, and A. R. Kaukinen, O.D.A. Representative

REPORT

Fall Meeting — 1966

The Committee has held two meetings since the 1966 annual meeting of the Board, one in May and the second in September. The May meeting was attended by all the Committee members except Drs. Kaukinen and Sim. In addition to the Committee members, the Secretary-Treasurer and the Business Manager, Drs. J. B. Taylor, M. G. Boyes, and W. J. Spence were present representing the O.D.A. and Dr. J. A. Pedler was present by special invitation. All the members of the Committee as well as the Secretary-Treasurer and the Business Manager were present for the September meeting.

1.

City of Toronto — Metropolitan Toronto — Welfare Plan

In May the Secretary reported that he had been requested to have the R.C.D.S. submit a proposal to the City of Toronto for the provision by the profession of dental services for City Welfare cases in a manner similar to that being carried out for special categories of Provincial cases — but to include provision and repair of dentures. Approximately 20,000 individuals would be involved.

A sub-committee was formed and authorized to enter into preliminary discussions with the City of Toronto Welfare Department with a view to the establishment of a plan for the provision of dental services to welfare recipients similar to the plan now operated for the Provincial Department of Public Welfare plus the provision of partial or complete dentures when required to restore masticatory function or to improve appearances to assist in rehabilitation.

The Committee was instructed to negotiate such a contract on the basis of a payment by the Welfare Department of \$1.25 per month per eligible beneficiary, plus a flat rate of \$35.00 per denture and that if such a contract were obtained and approved by the Board it could be entered into on an annual basis.

Subsequently, the Secretary was informed that, for a number of reasons but especially because of the changed situation in Welfare matters that would result from the implementation of the Canada Assistance Act, a submission be made only on the basis of the limited benefits available under the Provincial Plan. The Committee authorized such a presentation as well as consideration of an alternative plan which would include provision of dentures.

Further talks with officials ensued and finally a brief (Appendix A) was prepared and submitted to the City of Toronto Committee on Public Welfare, Housing, Fire and Legislation. In 1967 all Metropolitan area Welfare Departments are to be amalgamated under one jurisdiction. The City of Toronto Committee in light of this development and the imminence of Municipal elections suggested that this presentation therefore be made to the Metropolitan Welfare and Housing Committee. A delegation consisting of the Chairman of the Dental Services Committee, the Secretary and the Business Manager met with the Metropolitan Welfare and Housing Committee and made its presentation (Appendix B).

2. **Denture Services**

Submission to City of Toronto Committee on Public Welfare, Housing, Fire and Legislation, Regarding Denture Services for Welfare Recipients

On May 12th, 1966, a brief (Appendix C) was prepared and presented to the aforementioned committee by a committee consisting of the Registrar-Secretary of the R.C.D.S. and the Dental Surgeons in Chief of both the Toronto General Hospital and the Toronto Western Hospital. The Dental Surgeon in Chief of the Toronto General Hospital attended the May meeting of the Dental Services Committee and discussed the contents of the brief as well as the background and circumstances surrounding its preparation and presentation. The information given was of great assistance to the Committee in its deliberations.

3.

Welfare Plan

The Welfare Plan is being administered and applied in what has come to be a routine way. No new significantly useful statistics have emerged as yet on such matters as utilization, and incidence of dental disease since the inclusion of parents in the Plan. Financially no difficulties are being experienced since the increase to ninety cents per capita per month was instituted. Operators are now being reimbursed at the rate of 90% of the O.D.A. Fee Schedule. Some further expansion of beneficiaries has been suggested but in all probability nothing will be done until the Canada Assistance Plan is in operation.

4.

Comprehensive Plan for Welfare Recipients

At the suggestion of the President of the Board, after his consultation with the Deputy Minister of Health, the Committee concerned itself with the preparation of a comprehensive Plan for Dental Care for Welfare Recipients. Four members of the Committee were assigned specific areas of dental service and asked to prepare an outline of the services to be rendered and related matters in those particular spheres. Their material was used as working guides in the deliberations of the Committee. In some areas the proffered material was of such a comprehensive and involved nature and the problems they were intended to resolve so complex, it was decided to accept the proffered material and keep it available as a guide for the personnel who will be charged with administering the Plan when it is operative.

The working papers were prepared by Drs. Sim, MacKenzie, Finlayson, and Rajczak.

The recommended comprehensive Dental Care Program for Welfare Recipients appears as Appendix D.

Consideration was also given to the extension of certain aspects of this program to the general population. Although this goes beyond the terms of reference of this Committee it was decided to bring these recommendations to the attention of the Board for consideration.

5.

Denture Services for Marginal Income Groups

There was not sufficient time available for a detailed study of this important subject. It was therefore decided to refer the matter to the Committee to Study Denture Service in Ontario.

Submission to:

**The City of Toronto Committee on Public Welfare,
Housing, Fire & Legislation**

September 29th, 1966 — 2:30 p.m.

Mr. Chairman, Ladies and Gentlemen:

We thank you for giving us the opportunity of appearing before you to follow-up on our previous submission of last May.

As a result of our discussion at that time, and talks held subsequently with the Commissioner of Public Welfare, we would like to submit the following plan for the provision of dental care to the beneficiaries of Welfare Assistance, for your consideration:

We recommend that the City of Toronto enter into an agreement with us to provide those basic dental services as are now available to beneficiaries under the Mothers' and Dependent Fathers' Allowances Act of the Province of Ontario; namely, oral examinations, extractions, fillings, necessary radiographs, and prophylaxes, but not to include prosthodontic or orthodontic care.

We are agreeable to entering into such a contract on exactly the same basis as the agreement which presently exists between ourselves and the Province of Ontario, as represented by the Minister of Public Welfare. This agreement has been in effect for over eight years and we have been commended on the excellence of the service provided.

The type of dental service, conspicuous by its absence in our submission, is that of denture service. This is omitted until such time as provincial legislation in respect to The Canada Assistance Plan is enacted.

In the light of this, we believe the subject of denture service should be delayed until the province enacts the necessary enabling legislation. In the meantime, however, we believe the plan we have suggested is a practical plan aimed at improving the dental health — and thereby the over all health — of those persons presently receiving welfare assistance.

Dental Care for welfare assistance recipients, and people on marginal incomes

The Welfare and Housing Committee submits the appended communication (September 20, 1966) received from the City Clerk of Toronto, viz.:

"On September 29, 1966, the Committee on Public Welfare, Housing, Fire and Legislation had before it the attached brief submitted on behalf of the Royal College of Dental Surgeons, by Dr. K. F. Pownall, Registrar-Secretary, Dr. H. M. Jolley, Chairman of the Dental Services Committee, and Mr. W. E. Jackson, Business Manager, recommending that the City of Toronto enter into an agreement with the College for the provision of basic dental services to recipients of welfare assistance. It was advised that this presentation arose out of consideration of a previous submission made in May, 1966, and on which the Committee took action as in the attached extract from its Report No. 10, adopted by City Council on May 25, 1966, as follows:

'Your Committee recommends that the foregoing brief, with any additions thereto deemed advisable by the Commissioner of Public Welfare, be approved and forwarded to the Minister of Public Welfare, the Ontario Municipal Association and the Association of Ontario Mayors and Reeves for consideration and endorsement with the resolution previously submitted to them.

Your Committee also recommends that the foregoing brief be referred to the Mayor's 'War on Poverty' Committee for study in so far as it relates to low-income families not in receipt of welfare assistance.

Your Committee also recommends that the foregoing brief be forwarded to the Minister of National Health and Welfare with a request for clarification of the intent of the new Canada Assistance Plan, with respect to the marginal income group, in view of the change in thinking, under this Plan, that assistance granted will be determined on the basis of an assessment of a person's basic requirements as well as income, rather than on the basis of income only.'

"The Committee decided to forward both of these submissions to the Metropolitan Welfare and Housing Committee for consideration of the establishment of a policy for the provision of such dental services. The Committee also decided to request that the representatives of the Royal College of Dental Surgeons mentioned above be invited to attend the meeting when the matter is considered.

"The Committee further decided to forward copies of the brief proposing the dental service agreement to the Minister of National Health and Welfare and the Minister of Public Welfare (Ontario) with the request that this be given consideration in their forthcoming discussion of the regulations under the Canada Assistance Plan, and also that they give consideration to a clarification of the 'aims and objectives' of the Act, as presented to the Committee in the letter and attachment from the Minister of National Health and Welfare to the City Clerk, as to whether this, on the basis of need, would include the marginal income group."

Dr. Kenneth F. Pownall, D.D.S., Registrar-Secretary, Dr. H. M. Jolley, Chairman of the Dental Services Committee, and Mr. W. E. Jackson, Business Manager, of The Royal College of Dental Surgeons of Ontario, appeared before the Welfare and Housing Committee, and submitted the same brief as shown in Appendix A which was amended only to provide that the Metropolitan Corporation, rather than the City of Toronto, be requested to give consideration to the plan embodied therein.

The Welfare and Housing Committee decided to approve, in principle, the aforementioned Brief, but is of the opinion that the provision of such services should be extended to cover all persons and families on marginal incomes, possibly such persons and families being those who by reason of their income are exempt from payment of Income Tax; and recommends that the foregoing resolution be forwarded to the Minister of Public Welfare for the Province of Ontario, and also to the Ontario Municipal Association and Association of Ontario Mayors and Reeves for their consideration and endorsement.

Submission to: **The City of Toronto Committee on Public Welfare, Housing, Fire and Legislation**

May 12, 1966, 2:15 p.m.

Mr. Chairman and members of the committee,

We are here with the intention of making some suggestions to improve the dental health services available to those receiving public welfare assistance. The views we shall express are entirely those which we have gained as chiefs of dentistry in our respective hospitals.

There is a constant heavy demand for dental care from persons who report that they are unable to afford the fees of private dental practice. Because of limitations of physical facilities and personnel the Toronto General Hospital and the Toronto Western Hospital are forced to restrict the provision of dental treatment to those patients who are already under the care of the hospital in some other area, and for whom dental care is considered necessary or desirable as part of total-patient care. Patients who present as emergencies for the relief of pain or for the control of haemorrhage or infection of dental origin are, however, seen and treated as necessary, irrespective of whether they are hospital patients or not.

At the above-named hospital departments of dentistry, because of the restriction described, many patients each day are told they cannot be accepted for treatment. The distress of these people is increased when we report that we know of no other source of treatment.

Our first concern therefore is for the care of welfare recipients who are not eligible in the hospital dental clinics. There are two immediate problems.

(a) Welfare patients in need of complete dentures but who are ineligible for acceptance at a hospital department of dentistry.

The fee presently provided by the Welfare Department for complete upper and lower dentures is \$60.00. This amount is less than the dental laboratory charges which are standard in this area. Any dental practitioner undertaking this service would therefore not cover his out of pocket expenses and would have to contribute at no cost his own time and the overhead expenses of his practice for approximately the three hours of chairside time employed. We would suggest that the fee for dentures when made for welfare patients by dental practitioners should be increased to a level at which it is reasonable to expect dental practitioners to provide some of this service.

(b) Welfare patients in need of other forms of dental treatment, including partial dentures, but who are ineligible for acceptance at a hospital department of dentistry.

Under present conditions the only way in which these patients could receive treatment would be in the private offices of dental practitioners with the cost being borne by the City Welfare Department according to an agreed scale of fees.

While fully aware that in dealing with public funds it is necessary to ensure that they are spent wisely to provide the greatest good for the largest number, it is evident that the present provision of nothing more than extractions and complete dentures does not meet the need. We also appreciate the difficulty of

assuring that other forms of dental treatment do not run to expensive programmes that could be hard to restrict. Nevertheless we believe that if certain principles are adhered to a great deal more could be done at reasonable expense. Dental treatment at public expense for patients receiving welfare assistance should be directed towards:

- (a) the relief of pain and distress,
- (b) the arrest of actively progressing dental disease,
- (c) the restoration of a reasonable degree of masticatory function,
- (d) the replacement of teeth as part of rehabilitation for employment.

If these principles were applied no person need suffer deterioration in dental health and therefore possibly in general health, as a direct consequence of being in receipt of assistance.

The criteria for "restoration of a reasonable degree of masticatory function" could easily be assessed on a simple system related to the percentage of full function present. In this way no partial dentures would be provided which made only a small contribution to function.

Our second concern is related to the restrictions imposed by the present regulations upon the provision of dental care for the welfare patient who is eligible in our hospital clinics. All forms of dental treatment are provided for these patients without charge except for the provision of artificial dentures. The current regulations allow the Welfare Department to pay the presently inadequate fee for complete dentures but no allowance is made for the provision of partial dentures.

Those patients who have some sound teeth but not enough for efficient mastication are precluded from the benefits of artificial teeth. To suggest that these remaining sound teeth should be extracted to render the patient toothless and therefore a candidate for complete dentures at the City's expense is barbaric. To remove any healthy organs from a patient on the grounds of financial expediency is to be guilty of unjustifiable mutilation of unfortunate people who are nevertheless still entitled to be treated with respect for human dignity. Remaining sound natural teeth frequently serve to support and stabilize a denture, helping to restore efficient function.

Alternatively, a patient may have an adequate number of natural teeth for efficient mastication but teeth may be missing from the front of the mouth. This unsightly condition may deter potential employers. The replacement of these teeth by a partial denture should surely be viewed as one essential element in rehabilitation, enabling the patient to seek work as a salesman, a waitress or in some capacity where he comes into contact with the public.

We would therefore make the following recommendations for your consideration:

(1) That an appropriate scale of fees should be negotiated with the dental profession to enable welfare recipients ineligible for hospital dental treatment to be provided with essential dental care by private dental practitioners in order to:

- (a) relieve distress,
- (b) arrest progressive dental disease,

- (c) restore reasonable masticatory function,
- (d) rehabilitate for employment.

(2) That for welfare recipients treated within the hospital dental clinics, the City Welfare Department should be able to authorize payment for complete and partial dentures.

We appreciate the opportunity to acquaint the Welfare Committee with the inadequacy of dental health services available to the recipients of public welfare assistance. We are happy to offer our services in any capacity which may lead to an improvement in the situation.

Dr. K. F. Pownall, Registrar-Secretary,
Royal College of Dental Surgeons of Ontario.

Dr. J. A. Pedler, Dental Surgeon-in-Chief,
Toronto General Hospital.

Dr. C. H. M. Williams, Dental Surgeon-in-Chief,
Toronto Western Hospital.

Recommendations for extending Provincial Dental Care Programs

PREAMBLE

At present the Ontario Dental Welfare Plan gives coverage to the following beneficiaries:

- (1) a beneficiary or recipient on whose behalf or to whom
 - (a) an allowance is paid under The Mothers' and Dependent Fathers' Allowances Act, or
 - (b) assistance is paid under Ontario Regulation 22/63 as made under The General Welfare Assistance Act.

This program provides the following minimal benefits:

1. Caries examination, augmented by bitewing radiographs.
2. Emergency care, consisting mainly of the removal of offending teeth.
3. Prophylaxis.
4. Plastic restorations (silver amalgam and silicate cement) to restore manageable caries lesions.

IT IS RECOMMENDED THAT these benefits be expanded, by stages, as follows:

Step I

To improve the preventive aspect of the program these benefits should be expanded to include:

1. Complete examination for each new patient in the program.
Note: Full mouth x-ray survey not permitted without prior approval.
2. Cleaning of teeth, and the topical application of fluoride-phosphate solutions.
3. Conservative periodontal treatment including supra and sub-gingival scaling and packing.
4. Nutritional counselling.
5. Oral hygiene instruction including provision of a toothbrush and a therapeutic dentifrice.
6. Biopsy and cytological examination of suspected pathological lesions.
7. Removal of teeth and pathological processes.
8. Plastic restorations (silver amalgam and silicate cement) for manageable carious lesions.
9. Emergency care of fractured teeth.
10. Endodontic treatment for single rooted teeth.
11. On a recall basis the following procedures are authorized:
 - (a) re-examination of the hard and soft tissues,
 - (b) posterior bitewing radiographs,

- (c) topical application of fluoride solutions,
- (d) polishing and scaling of the teeth, and
- (e) a review of the oral hygiene.

12. In addition, where indicated, the program should provide for the restoration and replacement of teeth for aesthetic and functional reasons, simple orthodontic appliances, and special surgical procedures.

In item 12 approval is necessary. Authorization for this service will only be approved when the request is substantiated by a complete history and x-rays.

Step II

The Committee recommends that a comprehensive Preventive Dental Health program be initiated beginning with pre-school children (no later than their third birthday) regardless of economic circumstances and proceeding on an incremental basis.

It is recommended that this plan include: an extensive dental health education program. In this program the Ontario Government through the Department of Public Health could:

1. distribute appropriate literature to the people of the province,
2. require fluoridation of the public water supply throughout the province,
3. provide dental health kits (toothbrushes and therapeutic dentifrices) throughout the elementary and secondary school systems,
4. devise pilot programs to determine:
 - (a) the present extent of dental disease,
 - (b) evaluate the effect of the planned preventive program, and
 - (c) assess the demand for service and the dental profession's ability to provide such service.

In addition, this program would provide for initial oral examination, including posterior bitewing radiographs, prophylaxis, the topical application of fluoride plus instruction in oral hygiene procedures.

This preventive care would then be supplemented by maintenance care examination at regular (6 month) intervals.

We believe this will provide maximum benefit, at minimal cost, and would obviate the need for much needless reparative treatment.

Action:

1. Report adopted.

DISCIPLINE COMMITTEE

Members: Doctors W. G. Bruce, Chairman; J. D. Purves, A. B. Sutherland, H. M. Jolley and E. J. Rajczak

REPORT

Fall Meeting — 1966

1.

The recent amendments to the Dentistry Act have considerably facilitated the function of the Discipline Committee.

The newly instituted Complaints Committee will be a useful instrument to review complaints in order to assist the Registrar-Secretary in determining those situations of a minor nature which can be resolved without convening this committee.

2.

The Discipline Committee has met on three occasions since the Annual Board Meeting in April. Several minor complaints were disposed of satisfactorily. It was necessary to convene formal hearings for two members of the College.

On June 29, 1966, Dr. J. H. Zemell of Toronto was charged with infamous, disgraceful or improper conduct in a professional respect in that he prescribed drugs otherwise than properly in relation to and as incidental to the practice of his profession as a member of The Royal College of Dental Surgeons of Ontario. After due consideration the Board approved the recommendation of the Committee that the licence of Dr. Zemell be suspended for a period of six months and that the costs of the hearing be assessed to the defendant.

A formal hearing held on November 19, 1966, heard defence in a charge of improper conduct in a professional respect against Dr. A. M. Blair of Alliston. Dr. Blair was found to be guilty as charged. A reprimand was recorded and costs of the hearing were assessed against the defendant. Dr. Blair consented to provide a document in which he will agree to make no public defamatory remarks against the profession or any dentist individually or collectively.

3.

Three further cases remain unresolved by the Committee, awaiting further evidence and clarification.

Action:

1. Report adopted.

DRUG COMMITTEE

Members: Doctors K. W. Davey, Chairman; E. Sonley, Secretary; P. E. Currie, L. Frost, M. F. Grapko, F. N. Hughes, J. Kreutzer, J. Purves, E. A. Sellers, A. O. C. Smith, J. E. Speck, A. W. S. Wood, and Mr. P. W. Bell.

REPORT

Fall Meeting — 1966

1.

The report of the Drug Committee presented in April, 1966, contained four recommendations. As indicated in the "Proceedings of the Royal College of Dental Surgeons of Ontario", the Board took action on two of the four recommendations.

- (1) "That clinics and extramural lectures on the use and abuse of drugs be encouraged."
- (2) "The Board favours recommendation No. 2." This stated "that an article be published by the R.C.D.S. written in general terms supporting the intelligent use of drugs where indicated, but primarily outlining the hazards and the complications involved following drug administration."

2.

The Drug Committee has not had a formal meeting since the summer and for that reason no extensive report is available at this time. The progress up to date with respect to the two recommendations that the Board favours is as follows:

- (1) Dr. J. Kreutzer, the representative from the Faculty of Dentistry on the Drug Committee, has informed the Dean about the Board's opinion with respect to clinics and extramural lectures on the use and abuse of drugs.
- (2) The pamphlet in question has not been completed. This is to be a composite production with all members of the sub-committee contributing material. The opinions of the various members of the committee will be collected, edited and written by one individual. All members of the Committee have been asked for their opinions and contributions to this article.

Action:

1. Report received.

2. Motion approved:

"That a copy of the pamphlet entitled *Dental Prescriber's Guide* prepared by the Canadian Pharmaceutical Association be sent to each member of the Drug Committee for evaluation as to its suitability for mailing to each member of the dental profession, and that, subject to concurrence of the members of this committee, such distribution be approved."

**FINANCE
COMMITTEE**

Members: Doctors R. Michell, Chairman; R. C. Honey and H. M. Jolley

REPORT

Fall Meeting — 1966

1.

General Comments

The financial structure of the Royal College of Dental Surgeons of Ontario has been carefully appraised. Needless to say, the preparation of a budget for 1967 has been difficult because of the organizational changes contemplated for 1967. The anticipated revenue shows an increase over last year. This is due mainly to the increase in licence fee from \$75.00 to \$125.00. Expenditures, with the exception of the grant to the O.D.A., are based on previous experience.

2.

Revenue — January - October, 1966

Revenue to date exceeds the budget figure. It is the College's policy to be conservative in budgeting for revenue and liberal in budgeting for expenditures. It should be noted, however, that the College has already received nearly \$10,000 in interest on short term certificates. Our business manager, Mr. W. E. Jackson, deserves great credit for his acumen in this matter. Revenue from licensing and registration is higher than anticipated.

Action:

1. Report adopted.
2. The Budget for 1967 was adopted.
3. Motions approved — "That the Chairman of the Finance Committee confer with a representative which the O.D.A. be requested to appoint in respect to financial and administrative arrangements and that the O.D.A. and R.C.D.S. Presidents be ex-officio members."

— "That a grant of \$150 be made to the University of Western Ontario Faculty of Dentistry to assist in defraying the cost of an undergraduate publication."

— "That the R.C.D.S. grant the Faculty of Dentistry, University of Western Ontario the sum of \$600 for the establishment of a Centennial Admission Scholarship(s) in that Faculty."

GOVERNMENT AND LEGISLATION COMMITTEE

*Members: Doctors R. C. Honey, Chairman; H. M. Jolley,
and A. B. Sutherland*

REPORT

Fall Meeting — 1966

1.

The Dentistry Amendment Act 1966 was given third reading on June 28, 1966 and was given Royal Assent on July 8, 1966.

2.

Select Committee on Company Law

Mr. A. F. Lawrence, Q.C., M.P.P., Chairman of the Select Committee on Company Law (a Committee appointed by the Provincial Government) requested that the College state its position respecting Incorporation. The Government and Legislation Committee supports the view that Incorporation of dental practices will not improve the highly ethical standard of dental health care for the people of this province. However, they do feel that dentists should be afforded the same tax advantages that Incorporation permits.

3.

Mentally-ill, drug-addicted and alcoholic licentiates require protective control by the College because the College is firstly obligated to protect the general public. This has also been a serious problem for the College of Physicians and Surgeons of Ontario. They have reviewed their By-Laws relating to this problem and they feel their existing legislation is inadequate. However, to date they have not replaced it with more appropriate legislation.

4.

Retraining the Incompetent

The Committee is of the opinion that when a licentiate has been found incompetent and has had his licence suspended, a program of re-training and re-examination should be instituted by the Board.

5.

By-Laws — Royal College of Dental Surgeons of Ontario

These By-Laws as revised and amended to date are presented herewith for perusal and study to the end that final revision may be completed.

Action:

1. Report approved.

2. The Committee was requested to re-submit the By-Laws or appropriate amendments of them at the next meeting of the Board and to consider the areas of concern identified by individual members of the Board.

HOSPITAL SERVICES COMMITTEE

Members: Doctors Wesley J. Dunn, Chairman; N. F. Anderson, D. P. Cunningham, F. J. Clumpus, C. E. Woods; Dr. D. M. Wallace, Honorary Consultant

REPORT

Fall Meeting — 1966

1.
The inaugural meeting of the Hospital Services Committee was held at R.C.D.S. Headquarters on September 16, 1966.

All members were present.

2.
The following Terms of Reference, as outlined by the Board, were approved as the foundation upon which the work of the committee could be built:

To initiate and assist in maintaining a high standard of dental services in hospitals in Ontario.

To advise the Board on matters relating to Hospital Dental Services.

To cooperate with the Hospital Services Committee of the Canadian Dental Association.

3.
The committee reviewed, very briefly, the historical development of Dentistry's efforts to develop a statutory and regulatory environment appropriate to high standards of hospital dental services. As late as 1957 there were no legal provisions for dental services in the public general hospitals of Ontario. Through the efforts of the Board of Directors of the Royal College of Dental Surgeons of Ontario, the Public Hospitals Act was amended in 1959 to permit hospital trustees, if they chose, to enact By-Laws for the creation and regulation of dental services in hospitals. This Act also provided that Class A hospitals, in their teaching capacity, provide for students of dentistry in a manner similar to that for students of medicine. Many Ontario hospitals, however, have not availed themselves of the benefits which could accrue from acting on this permissive legislation. Also, the General Regulations enacted pursuant to the Public Hospitals Act were grossly inadequate. Finally, after many years of effort by the profession, in March, 1966, Regulation 523 received the approval of the Lieutenant-Governor in Council. This regulation provides Dentistry, in Ontario, with a satisfactory regulatory base upon which individual hospital by-laws can be amended or created. All hospitals should now enact Dental By-Laws that are in concert with the Statute and the Regulations. Hospital practice is not a right accorded by a licence to practise dentistry but rather a privilege offered by the hospital to a practitioner who merits such a privilege. The committee believed that too many dentists took this privilege for granted and were not adequately prepared for the requirements of hospital practice.

4.
The committee identified the following functions of a department of dentistry in a hospital:

- (1) To provide a facility whereby dental care can be provided to people with medical problems which would make their treatment in the private dental office either inadvisable or injudicious.
- (2) To enable supportive dental care to short term hospital patients or complete dental care to long term patients.
- (3) To permit the establishment of an out-patient service to assist in meeting the dental treatment needs of people on marginal incomes.
- (4) To enable the provision of dental care under general anaesthesia.
- (5) To provide a teaching facility whereby dental students, both undergraduate and post-graduate, may obtain knowledge of hospital procedures and hence gain experience in the examination and treatment of hospitalized patients.
- (6) To permit participation by dentists in services in which the team approach to treatment is recognized as being the most beneficial to the patient such as cleft palate, traumatic injuries, and prostheses required as a result of oral and/or facial cancer.
- (7) To provide a teaching facility whereby nurses and other health workers might receive instruction in dental health procedures.

5.

Prior to the meeting of the Committee a questionnaire (Appendix A) in respect of hospital dental services was sent to each dental society in Ontario. A summary of the results is attached as Appendix B. The inescapable conclusion is that dental services in Ontario's public general hospitals, generally speaking, are such that there is little for which either the profession or the hospitals should be proud.

6.

For the proposed meeting of the Committee in January, 1967 several activities have been initiated:

- (a) the chairman will prepare a first draft of model by-laws for dental services in Ontario general hospitals,
- (b) a sub-committee of Drs. Cunningham and Woods will prepare a position paper on "methods of assuring quality of dental services in hospital practice,"
- (c) a sub-committee of Drs. Anderson and Clumpus will prepare a position paper on "procedures for appointments to the dental staff of a hospital and the privileges that should be assigned,"
- (d) each member of the committee will bring to the meeting an assortment of dental charts used in Ontario general hospitals in the hope that some standardized chart may be recommended,
- (e) the Secretary will propose ways in which the R.C.D.S. and the O.D.A. might assist in stimulating, among members of the profession, an interest in hospital dentistry.

7.

The committee expressed the view that hospital employees such as food handlers and orderlies, as a portion of their required physical examination, should receive an oral examination by a member of the staff of the hospital's Department of Dentistry.

8.

The committee believes that the voluntary manning of hospital dental departments to care for the needs of the indigent or marginal income groups is a poor second best to the appointment of permanent staff.

9.

The committee recognized the duality, in hospital practice, of the specialty of oral surgery. In a departmentalized hospital, oral surgery, while an integral part of the Department of Dentistry, must, if its members hope to utilize the general operating rooms of the hospital, have a formal relationship with the Department of Surgery.

10.

Dr. D. M. Wallace graciously accepted the committee's invitation to act as an Honorary Consultant. He will also serve as an effective liaison between the committee and the Hospital Services Committee of the Canadian Dental Association.

Appendix A

QUESTIONNAIRE ON HOSPITAL DENTAL SERVICES

1. Name of Society
2. President of Society
3. Secretary of Society
4. Does your Society have a Hospital Dental Services (or similarly-named) Committee?
5. If the answer to #4 is "yes" what are the main functions of your committee? Who is its Chairman?
6. Name the hospitals within the geographic jurisdiction of your society which have dental departments.
7. If possible, obtain a copy of the dental by-laws of the hospital(s) named in #6 and return with this questionnaire.
8. Name the hospitals within the geographic jurisdiction of your society sufficiently large to have a dental department but which do not have one.
9. What is your opinion of the attitude and interest of dentists generally in your Society to hospital practice?
 - (a) Very Interested
 - (b) Interested
 - (c) Disinterested
 - (d) No opinion
10. Why do dentists in your area use hospital facilities?
11. Why do dentists in your area *not* use hospital facilities?
12. Please offer any other observations and comments you feel may be helpful to the R.C.D.S. Hospital Services Committee.

SUMMARY OF REPLIES TO QUESTIONNAIRE ON HOSPITAL DENTAL SERVICES

1. Number of questionnaires distributed = 40
Number of replies received = 27
2. Number of societies with Hospital Services Committees = 6
Number of societies without Hospital Services Committees = 21
3. The main functions of the local Hospital Services Committee are
 - (a) Liaison between Dentists and hospitals. (4)
 - (b) Liaison with C.D.A. Hospital Services Committee (1)
 - (c) Develop Services (2)
4. Number of hospitals with "dental departments" = 39
(probably "dental services" would be more accurate).
5. Number of hospitals sufficiently large but without a dental department = 43
6. Attitude and interest of dentists in respect to hospital practice:

Very interested	= 5
Interested	= 20
Disinterested	= 1
No Opinion	= 1
7. Dentists use hospital facilities mainly for:

General anaesthesia	= 16
Nervous, retarded, difficult or ill patients	= 10
Complete extraction	= 8
8. Dentists do not, in the main, use hospital facilities because

Lack of adequate facilities	= 13
Hospital not cooperative	= 7
No desire	= 5
High office overhead	= 4
Unfamiliar with hospital routine	= 3
9. Suggestions offered to committee by respondents:
 - (a) Guide as to cost of setting up a dental department be prepared.
 - (b) Give direction to local societies on policy regarding treatment of indigent patients.
 - (c) A knowledgeable Chief of Dentistry to coordinate and organize dental departments.
 - (d) Members of dental profession should properly prepare themselves to undertake the procedures and responsibilities of patient care and management within the hospital environment before asking for privileges in a hospital — to the extent of taking post-graduate training if necessary.
 - (e) Considerable work to be done in area of public relations between the professions of medicine and dentistry.

(f) Too much emphasis on oral surgery in hospital.

(g) Study on the management of the pattern of practice of dentists who have hospital appointments.

(h) Department of Dentistry headed by general practitioner.

(i) Representation on Medical Advisory Board.

Action:

1. Report adopted.

2. Motion approved — That the Board invite the Ontario Society of Oral Surgeons to name a representative to the R.C.D.S. Hospital Services Committee.

R.C.D.S./O.D.A. INSURANCE ADVISERS

Members: Doctors R. A. Hugill, Chairman; D. Moore, E. Rollaston, W. J. Spence.

REPORT

Fall Meeting — 1966

1.

Interim Progress Report on R.C.D.S. Insurance Policies

Our plans have been extremely successful.

- | | |
|------------------------------------|---|
| Liability | — over 75% of practising dentists in Ontario, Alberta, Saskatchewan, Manitoba and New Brunswick enrolled. |
| All Risk | — 345 dentists have obtained coverage. |
| Life | — 615 dentists insured, 3 deaths to date for a total in claims of \$60,000 paid out. |
| Income | — 1,700 policies in force. |
| Protection
& Office
Overhead | A surplus of \$50,000 to date — \$22,000 distributed last year as one month's free coverage. A 5% reduction of premium being given this year. |

2.

Action on R.C.D.S. Special Resolutions 1 and 2

Special Resolution #1:

Whereas this Board is deeply concerned over the lack of control exercised by the Canadian Dental Association Executive in regard to the collection, retention, and interim use of moneys received by Professional and Industrial Pensions Ltd. from Ontario dentists as premiums for Canadian Dental Association — sponsored plans; therefore be it

Resolved that the Secretary of the Royal College of Dental Surgeons write to the Canadian Dental Association expressing these areas of concern and further, That those of our Directors who are also Governors of the Canadian Dental Association bring this matter to the attention of the Board of Governors of the Canadian Dental Association, and report back to this Board by July 1, 1966, as to what safeguards have been or will be established in order to ensure that all moneys received by P.I.P.L. from the dentists of Ontario are correctly accounted for, and used in a manner most advantageous to the dental profession of Ontario.

Special Resolution #2:

Whereas our two dental organizations, namely the Canadian Dental Association and the Royal College of Dental Surgeons, sponsor insurance plans in Ontario, and,

Whereas they are in some important aspects at variance as to the best method of operation, therefore be it

Resolved that the R.C.D.S. request the C.D.A. to join them in hiring an independent consultant body to study the operation of Canadian Dental Service Plans Inc. and Professional and Industrial Pensions Ltd. in depth. The duties of the consultants (such as the firm of chartered accountants of Thorne, Mulholland, Howson and McPherson) could be to:

- (a) Investigate the systems used by both organizations in the handling of dentists' moneys;
- (b) Investigate the economy of operation of both organizations;
- (c) Report on their findings and suggest to our Boards the most effective method of programming dental insurance and;
- (d) The investigation to be completed and the report rendered to our Board for study not later than October 15, 1966, and further
- (e) That the cost of this investigation and report be borne jointly by the C.D.A. and the R.C.D.S.

These resolutions were submitted by the R.C.D.S./O.D.A. Insurance Committee for consideration and action by the C.D.A. Board of Governors.

In recognition and in response to these two special resolutions, the C.D.A. Board of Governors adopted the following resolutions:

- (a) "That the duties and responsibilities of the trustees as laid down in the declaration of trust between the Canadian Dental Association and Professional and Industrial Pensions Limited dated February 14, 1952, be now assumed by the C.D.A. Special Advisory Committee on Commercial Insurance, and further —

That, in order to fulfil these duties and responsibilities, two members of the advisory committee be appointed by the Executive Council to act as liaison between Professional and Industrial Pensions Limited and the advisory committee, and further —

That the advisory committee, through these liaison members, and with the advice of consultants when indicated, take whatever steps are necessary to assure participating members of the association that their interests are being properly and efficiently served, and further —

That the annual report of the advisory committee to the Executive Council include information on the above-mentioned matters."

- (b) "Whereas there continues to be a difference of opinion in respect of appropriate principles which should guide the Association in its relationship to commercial insurance plans, therefore be it

Resolved that the Advisory Committee on Commercial Insurance Plans be requested to prepare a policy statement enunciating principles upon which the Association's participation in insurance plans for its members is or should be based, and

That, without in any way limiting the deliberations of the committee, the committee be requested to include, within the statement to be prepared, guide lines vis-à-vis (a) group plans and individual plans, and (b) C.D.A. relationship to insurance carriers, brokers of records, and collectors of premiums."

The Chairman of the R.C.D.S./O.D.A. Insurance Committee acting also as a liaison representative on the C.D.A. Insurance Committee prepared, with the assistance of the insurance committee, two briefs for presentation at the C.D.A. Insurance Meeting.

3.
The C.D.A. Insurance Committee in response to these two briefs passed the following motions and recommendations on November 1st, 1966:

(a) Audit of P.I.P.L.

Motion — That an audit of Professional and Industrial Pensions Limited be carried out to the satisfaction of the trustees in accordance with Article 3 paragraph 2 of the Trust Agreement.

Motion — That auditors be requested to verify that all funds paid to Professional and Industrial Pensions Limited by dentists are transferred to the proper insurance or trust firm at the proper time and in the manner and amount designated;

That unearned premiums due to the death of the insured, or other, are returned to the insured or his estate;

That all such moneys are correctly accounted for and that all refunds or rebates due to dentists are duly made;

That proper safeguards of Professional and Industrial Pensions Limited and its employees in respect to bonding are being employed; and

That funds on deposit with Professional and Industrial Pensions Limited until such time as they are transferred to the trust fund or insurance company are being adequately safeguarded.

Motion — That the firm of Thorne, Mulholland, Howson and McPherson be appointed as auditors in accordance with the previous motion.

(b) Survey of Insurance Operations

It was agreed that a meeting of C.D.A. and R.C.D.S. Insurance Committees should be held at C.D.A. headquarters at 2 p.m. January 6th, 1967, to determine terms of reference for a projected survey of insurance programs. The C.D.A. committee plans to meet at 9 a.m. of the same day to co-ordinate its suggestions. The Secretary was asked to compose a list of possible agencies to conduct the survey.

Action:

1. Report adopted.
2. The O.D.A. is to assume full responsibility for the administration of all insurance plans for Ontario dentists which are now sponsored on a joint basis, effective March 1st, 1967.

NATIONAL DENTAL EXAMINING BOARD OF CANADA

Representative: Doctor J. D. Purves

REPORT

Fall Meeting — 1966

1.

The Annual Meeting of the National Dental Examining Board of Canada was held in Ottawa, June 22, 1966.

2.

The President, Dr. Racey, made three recommendations in his report:

(a) that Council consider a change to an objective-type examination

(b) that the secretariate be expanded

(c) that closer liaison be promoted between the Board and the Faculties of Dentistry to further the aims of dental education.

3.

The Secretary reported that one hundred and ninety-seven candidates took the examination; of these five failed to meet their faculty graduation requirements. Thirty-seven candidates wrote the Fall 1965 examinations; thirty of these were successful. Appendices A and B present a breakdown of candidates by school and province.

4.

The Committee of Examiners reported one hundred and twenty-two successful candidates out of one hundred and ninety-seven. Of the seventy-five unsuccessful candidates twenty-three failed completely and fifty-two were eligible to write supplementals. In view of the 38% failure rating in Orthodontics, Preventive Dentistry, and Paedodontics the marks were rescaled to a more realistic picture.

5.

Dr. Malcolm Taylor presented an interim report on his study and evaluation of the examining methods employed by the N.D.E.B. and his recommendations for upgrading these methods.

6.

Difficulties which continue to tax the ingenuity of the Board are: the number of candidates, translation problems, time in collating the examination results and the ever-present geographical size of this country.

Appendix A

BREAKDOWN OF CANDIDATES ACCORDING TO CENTRES, FACULTIES AND PROVINCES

Action:

1. Report received.

ONTARIO DENTAL HYGIENISTS' ASSOCIATION

President: Mrs. Patricia Johnson

REPORT

Fall Meeting — 1966

1.

Dental Hygienist Placement Service

With the co-operation and generous assistance of the R.C.D.S. and O.D.A., this service was initiated in time to place the 1966 graduates of the University of Toronto course in Dental Hygiene. I conduct the placement service from my home on a permanent basis; i.e., it is separate from my position and functions as O.D.H.A. President. The O.D.A. Journal publishes an announcement in each issue, giving my name, address and telephone number. The O.D.H.A. newsletters also contain information regarding the service. Since last spring, when the dental profession was first notified of the service, I have received inquiries from 77 dentists and 60 dental hygienists, graduates of 1966 and earlier. These requests are not only from this province but also from the others. The number of inquiries received from both dentists and hygienists after the placement of the graduates rather surprised me and clearly indicates the need for such an agency.

These placement service files provide yet again another illustration of a problem affecting the dental profession. Dentists who practise outside Toronto find it very difficult to find a dental hygienist. In the number of placements completed, I have yet to find a hygienist to take a position north of Toronto. The existence of a placement service now ensures that a hygienist, who is available for employment in a region other than Toronto, can be quickly put in contact with an interested dentist in the desired area. Still, there are too few dental hygienists who can fill this need. Several steps have been taken in an effort to ease the shortage of hygienists in some regions. I would appreciate any suggestions the Board might care to offer.

2.

Newsletters

The O.D.H.A. has published two newsletters in the past year and these have been mailed to all licensed dental hygienists in Ontario. These provide an important link between dental hygienists but, in future, will probably be available only to members. As part of our program for continuing education we hope to encourage members to submit articles of a scientific nature for publication.

3.

Awards

At the O.D.H.A. Annual Meeting in May, the Sandra Mather Memorial Award was reviewed. This award, established in 1963, had a value of \$50.00 and it was agreed to raise the value to \$100.00. The Association also voted to establish a second award, to be made available to a dental hygiene student at the University of Toronto. This award also has a value of \$100.00. We asked the advice of the Scholarships and Awards Committee of the Faculty of Dentistry as to the best application for this award. A final decision will be made at the O.D.H.A. November general meeting.

4.

Mount Sinai Volunteer Service

The O.D.H.A. was asked by the dental staff of Mount Sinai Hospital to provide a volunteer for the clinic one-half day a week. Members approved of this opportunity to involve themselves in a volunteer service. The committee appointed to handle this is presently setting up a duty roster.

5.

Report

The O.D.H.A. submitted a response to the Committee on the Healing Arts.

6.

Terms of Employment

A fairly common problem has been brought to the attention of this Association's executive on several occasions. Misunderstanding can arise when an employee does not fully comprehend or perhaps even know of the existence of certain policies of routine and employment in use in a particular office. Very often, this is due to the employee not clarifying these details prior to commencing work. Frank discussion between the employer and employee can often alleviate and, in most cases, erase entirely any ill feeling that might have arisen from such misunderstanding, and even prevent loss of staff. However, if such details were discussed before employment ensued, then disruption both of office morale and of proficiency of service to the public need not occur. There are certain basic terms of employment that any dentist and dental hygienist should consider; unfortunately, some either are not familiar with these terms or are not aware of their importance in guaranteeing good office relationships and a smoothly running practice. I suggest that dentists and hygienists be informed of such items as unemployment insurance, workmen's compensation, liability (malpractice) insurance, sick leave, holiday schedule and pay, severance pay, notice of termination of employment, etc. and the application of same.

Several dentists have taken the time to assemble for a permanent record, policies they want their staff to be familiar with — duties of various personnel, particular office routine, uniforms, all the above-mentioned items and other details which they deem important. These records are of great assistance when integrating new personnel into an office.

As previously mentioned, misunderstandings caused by the above reasons occur rather frequently and it would be in the best interests of all concerned, if a little education on the subject were provided.

Action:

1. Report received.
2. Registration and Licensure Committee will study the licensing and education of dental hygienists.
3. Dental Services Committee is to devise a model set of "terms of employment" for a dentist employing a dental hygienist.

ONTARIO DENTAL NURSES AND ASSISTANTS ASSOCIATION

Chairman: Miss Elizabeth Neelin

REPORT

Fall Meeting — 1966

1.

Certified Dental Assistants

From the inauguration of the Certification Program in 1961 to the present, 774 dental assistants who successfully completed an approved educational course applied to the Ontario Dental Nurses and Assistants Association and received Certification.

Certification continues to be a highly desirable designation for dental assistants. With the continuing evening courses in the province and the day school courses in Toronto we expect a large number of applications for Certification again in 1967.

2.

Certification Committee

The Certification Committee receives many enquiries from assistants who are interested in a correspondence course. Many of these assistants are in areas quite inaccessible to an evening educational program. The only correspondence course available is the 8 and 5 year Membership-Service requirement (eight years in dental assisting plus five consecutive years membership in the association).

3.

Continuing Education

Dr. E. C. Purdy, Faculty of Dentistry, University of Toronto will be guest Clinician in a series of five Clinic Days to be presented to Certified Dental Assistants in the province. The associations will be grouped into districts and Dr. Purdy will present a full day Clinic to each group. The project will begin early in 1967 to conclude prior to the Convention in May.

4.

National Certification

Committee: Canadian Dental Association - Auxiliary Services.

Sub-Committee: Dental Assisting — Certifying Board Structure, Administration and Pre-Requisites for a National Certifying Program.

Chairman: Dr. M. Nacht, Vancouver, B.C.

The Certification Committee has received correspondence from Miss M. Kauffman, Instructor, Vancouver Vocational Institute, (member of the committee), relating the progress the above committee has made regarding a National Certification program.

5.

Proposed Certifying Board Structure and Administration

- (a) One Executive Member of the Canadian Dental Nurses and Assistants Association.

One Member-at-Large from the Canadian Dental Nurses and Assistants Association.

One Director of a formal training program — member of the Canadian Dental Nurses and Assistants Association.

One Member appointed by the Canadian Dental Association, preferably from the National Dental Examining Board.

One Member of the Council on Education of the Canadian Dental Association.

- (b) The Chairman will be an ex-officio member of the Council on Education of the Canadian Dental Nurses and Assistants Association.

6.

Functions of the Certifying Board

In brief . . .

The Certifying Board will be responsible for preparing and assessing examinations.

Certificates will be issued by the Board stating the type of training program undertaken by the successful candidate.

Establishment of a continuous program for annual certificate renewal.
Report annually to the Canadian Dental Association Council on Dental Education.

7.

Requirements and Eligibility

The Certifying Board will establish requirements for candidates for examination. The following requirements are recommended —

- (1) employment in an ethical dental office for 6 - 12 months prior to writing national certification
- (2) the minimum age limit should be 19 - 20 years
- (3) all candidates must have successfully completed any one of the following training programs
 - (a) formal day school training program
 - (b) evening extension program plus specifics
 - (c) correspondence of formal day school training program with 2 months in training

Minimum requirement for Certification is 104 hours of extension study work, plus employment experience of 2 additional years. (This includes night school theory courses and certification correspondence courses.)

The 104 hour extension study course will be accepted as a minimum requirement up to January, 1972 to enable dental assistants now employed to enrol in the 104 hour extension course.

Formal educational requirements for Certification shall be gradually increased and extended. There should be a progression next to the 1 year accredited formal training courses which are now being offered by Vocational and Technical Schools.

It is suggested that, as of January 1st, 1972, only those candidates who have completed a minimum of one year in an accredited day school training program will be eligible for Certification.

8.

Summary

The complete report is detailed regarding curriculum for formal training programs, organization of the Certifying Board, Instructors for the courses, etc.

The suggested time for inauguration of the National program is September, 1967.

The Committee structure consists of, three dentists from Vancouver, the Instructor of Dental Assisting, Vancouver Vocational Institute, the President of the Canadian Dental Nurses and Assistants Association, Saskatoon, Saskatchewan. The National Committee has asked that the Chairman of the Ontario Certification Committee be the Eastern representative on the committee.

9.

Conclusion

The Certification Committee would appreciate the advice of the Board of Directors regarding:

- (a) The appointment of the Ontario Certification Chairman to the National Committee.
- (b) The Ontario Certification program in relation to the proposed National program.
- (c) Granting new Certifications to dental assistants in 1967.

Action:

1. Report received.
2. Registration and Licensure Committee was requested to study the desirability and feasibility of attempting to establish courses in dental assisting within the program of the Ontario Colleges of Applied Arts and Technology.

PROPERTY COMMITTEE

Members: Doctors R. C. Honey, Chairman; V. A. Herron and
W. J. Spence.

REPORT

Fall Meeting — 1966

1.
The Committee met at Headquarters on October 15, 1966. Following a review of the terms of reference of the Committee, an examination of existing insurance coverage was made.

Our coverage is on an All Risk (Replacement Cost) basis as follows:

Building	\$ 65,600
Equipment	\$ 32,000
Premises Liability	\$300,000

Premiums have been paid up to July, 1968.

2.
The rental schedule was reviewed and, as the rates were increased by 20% in 1966, it was agreed that the present rent structure should remain unchanged throughout 1967. Our tenants, the Academy, O.D.A. and D.S.P.I. provide the present rental income of \$5,640.

3.
Due to the imminent increase in Board membership it is necessary to consider a larger boardroom table as well as additional seating arrangements. A scale model of a proposed type of table was examined by the Committee and we recommend its purchase from Grand and Toy Co. at a cost of \$749.70. The Committee also recommends the purchase of two appropriate chairs.

4.
In view of the more extensive use of the Boardroom throughout the summer months the matter of air-conditioning was discussed and approved. The Business Manager was requested to obtain costs of installation in addition to that of the Carrier Co. — the total costs not to exceed \$3,000.

5.
A detailed inspection of the building and property was carried out and the following recommendations are presented herewith:

- (a) That the caretaker's apartment, Academy Room, basement laundry room, main floor stenographer's office and the eavestrough at the front of the building be painted.
- (b) That the bathroom facilities in the caretaker's apartment, viz. wash basin, bathtub, toilet, and medicine cabinet, be replaced with new fixtures at a cost to be determined.
- (c) That the Secretary convey the highest commendation of the Committee to Mrs. Bachmann for the excellent standard of cleanliness and neatness being maintained throughout the building.

The parking lot, driveways, and the exterior of the building were found to be in good condition.

6.
The Budget of 1967 is presented herewith for the Board's approval.

	1966	1967
Revenue	\$5,640	\$5,420
Expenditures		
Caretaking	\$1,000	\$1,000
Equipment	200	200
Maintenance	2,000	3,000
Renovations	1,000	1,000
Taxes	1,900	2,100
	<u>\$6,100</u>	<u>\$7,300</u>

7.
The Committee discussed the feasibility of setting up facilities for the examination of patients by referees. Such can be done but we feel should have Board direction before proceeding further.

Action:

1. Report adopted.
2. Further study is to be given to a facility in R.C.D.S. headquarters for examining patients with a complaint.

REGISTRAR-SECRETARY

Dr. Kenneth F. Pownall

REPORT

Fall Meeting — 1966

1.

Medicare

The Honourable Mr. A. J. MacEachen, Minister of National Health and Welfare, stated at a meeting of the Academy of Dentistry, Hamilton, this year that "Denticare Legislation" could be expected by 1980.

The Honourable Dr. M. B. Dymond, Minister of Health for the Province of Ontario, in a speech to the Academy of Dentistry, Toronto, on October 25th, 1966, stated that it is a political fact of life that eventually the people of Ontario want a total health care insurance plan.

Dr. Dymond further stated that although O.M.S.I.P. was suffering growing pains he had no doubt of its ultimate success. He commented that the Ontario Plan was in harmony with the federal medical services insurance plan grant structure in every respect with one exception; the compulsory clause in the federal bill was not in the provincial act and further, Ontario did not anticipate making the provincial act compulsory.

In August the College brought to the attention of the C.D.A. the fact that the federal medicare bill (C-227) contained discriminatory provisions which in effect would guarantee payment when insured services were rendered by physicians but would deny compensation when identical services are performed by dentists. The definition section of the Bill stated that insured services meant "all services rendered by medical practitioners that are medically required." This College co-operated in every way possible to assist the C.D.A. in its endeavours to have this feature of the Bill changed.

2.

Committee on the Healing Arts

The College's response to the Questionnaire has been forwarded to the Committee and we have been complimented for our presentation. Our Brief to this Committee is in the process of preparation.

3.

Death of the Secretary of the Governing Board of Dental Technicians

It is with sincere regret that I report the death of Mr. Charles Goodall. The sympathy of this College has been extended to his family.

4.

Mediations Committee

The work of the mediations committees of the component dental societies across the province continues in a very efficient fashion. This is an important public relations service that the profession provides.

5.

Provincial Government Bursary Plan

This plan grants a dental student the sum of \$1,000 a year, providing he agrees to practise in one of over twenty selected communities. As your representative

to this Committee I would like to report that this plan has been very successful and at present nineteen dentists are practicing in Ontario under this plan.

6.

Royal College of Dentists of Canada

The Secretary of the College reports that progress is being made in the preparation of Part I examinations. Some confusion exists as to the relationship that the College should have with the specialization committees of the various provinces. It would be beneficial for the future planning of both the Royal Colleges if a common policy could be devised on this subject.

7.

The Presidency

Being President of the Royal College of Dental Surgeons of Ontario is a very onerous task particularly in these days of rapid change. As the person who has worked closest with our President, Dr. J. P. Coupland, for the past two years, I would like to express my appreciation. With few exceptions he has attended every Committee meeting in 1965 and 1966. This has meant a tremendous sacrifice in time and effort on his part. No matter how complex the problem or how rapidly I needed an answer to a question Dr. Coupland was always able to come up with the solution. To mention just one example, I can say, without fear of contradiction, that the successful negotiations which this College held with the medical profession with regard to oral surgical procedures were largely due to his efforts.

Action:

1. Report received.

REGISTRATION AND LICENSURE COMMITTEE

Members: Doctors J. D. Purves, Chairman; R. Michell,
T. H. Wachna

REPORT

Special Meeting — August, 1966

1.
The following candidates have met the requirements for specialty certification.
 - (a) Dr. Maurice Edward Sera, D.D.S., Dip. Ortho (U of T '66) having met the requirements for certification in the specialty of orthodontics, was granted such certification.
 - (b) Dr. Harvey Irwin Taub, D.D.S., Dip Perio (Boston Univ. School of Graduate Dentistry '66) having met the requirements for certification in the specialty of periodontics, was granted such certification.
 - (c) Dr. Ewart Dudley MacKay, D.D.S., Dip Ortho (U of T '66) having met the requirements for certification in the specialty of orthodontics, was granted such certification.

Action:

Report adopted.

REPORT

Fall Meeting — 1966

1.
The Committee recommends that the following Dental Hygienists, having passed the qualifying examination, be licensed when all remaining requirements have been met:

Mrs. Rosalie Margaret Field
Miss Cathleen Margaret Clark
Mrs. Jean Ann (Saporito) de Blois
Miss Patricia Jean Long
Miss Judith Ann Girdlestone
2.
Since he has failed to meet the necessary requirements for certification in Paedodontics, it is recommended that the request of Dr. M. Suntok for certification in this specialty be denied.
3.
The results of the Spring Board Examinations appear as Appendix A.
4.
The results of the Fall Board Examinations appear as Appendix B.

5.

Registration of Foreign Graduates

It is recommended that graduates from the State University of Ireland as well as the University of Dublin be included with graduates of the United Kingdom, Australia, New Zealand and South African dental schools as possessing suitable qualifications to sit for our Board Examinations.

It is further recommended that the training of graduates of unaccredited foreign Dental Schools be governed by the space available in the Ontario Dental Schools. A resume and study of the experience of the past several years is submitted as Appendix C, University of Toronto Summary.

6.

Applications for Certification

- (a) An application for certification in orthodontics was received from Dr. Verdun Palmer Gilbert. The Committee recommends that Verdun Palmer Gilbert, D.D.S., Dip. Ortho (U of T '66) having met the requirements for certification in the specialty of orthodontics, be granted such certification.
- (b) An application for certification in orthodontics was received from Dr. A. T. Storey. The Committee recommends that Arthur Thomas Storey, D.D.S., MS (U of Michigan '60) having met the requirements for certification in the specialty of orthodontics, be granted such certification.

Action:

- 1. Report adopted.
- 2. The Board is generally sympathetic to a specialty of restorative dentistry and would be prepared to act on the recommendation of the Registration and Licensure Committee at its next meeting.
- 3. Motion approved:
That with regard to Dr. Malcolm Gibson, By-Law 9(1)(a) be waived and that Dr. Gibson be licensed to practise in Ontario.

Report on Board Examinations — May 1966

(a) The Committee recommends that:

- Robert Blake Biesenthal, D.D.S. (U. of Tennessee '65)
- Freda Catherine Ellis, B.D.S. (U. of Leeds '60)
- Diane Rosemarie Mossanen, B.D.S. (U. of Leeds '64)
- Mieczyslaw Stanislaw Swiatkowski, B.D.S. (U. of Ireland '55)
- Ivika Tamm, B.D.S. (U. of London '57)

having passed the licensing examinations conducted by the Board, be granted their Licentiate of Dental Surgery of the Royal College of Dental Surgeons of Ontario when all remaining requirements have been met.

(b) The Committee regrets to report that:

- Monir Naguib Attalla, B.D.S. (U. of Alexandria '59)
- Walter Woolf Bloch, B.D.S. (U. of Durham '56)
- Edalji Nanabhoy Daver, B.D.S. (U. of London '58)
- Marcel Ladenheim, B.D.S. (U. of Manchester '63)
- Lachlan Bannatyne Lewis, B.D.S. (U. of Melbourne '64)
- Theodore William Maves, D.D.S. (Western Reserve School of Dentistry '41)
- David Richard Minchom, B.D.S. (U. of London '59)

failed to pass the licensing examinations.

Appendix B

Report on Board Examination — November 1966

(a) The Committee recommends that:

- Edward Anderson, B.D.S. (U. of St. Andrews '62)
- Shirley Ann Birch, B.D.S. (U. of Sydney '56)
- Verdun Palmer Gilbert, D.D.S. (U. of McGill '51)
- Lachlan Bannatyne Lewis, B.D.S. (U. of Melbourne '64)
- Allan Henry Solomon, B.D.S. (U. of Witwatersrand '53)

having passed the licensing examination conducted by the Board, be granted their Licentiate of Dental Surgery of the Royal College of Dental Surgeons of Ontario when all remaining requirements have been met.

(b) The Committee regrets to report that:

- John Lennox Ablack, D.D.S. (U. of McGill '47)
- Talib Ahmed Najjar, B.D.S. (Baghdad '60, Ph.D. McGill '67)

failed to pass the licensing examinations.

Foreign graduate dentists may apply for admission to the course in Dentistry at advanced levels, on the following basis:

to Fourth (Final) Year: Holders of B. D. S. degree from Britain, Australia, New Zealand, South Africa and other overseas graduates who have completed acceptable postgraduate courses in Canada or the United States.

to Third Year: Holders of L.D.S. licentiate from Britain; holders of B.D.S. degree from Commonwealth countries other than above.

to Second Year: Holders of University Degree in Dentistry from any other countries.

Entrance to Fourth and Third Years is direct, based on academic record. Entrance to Second Year is through qualifying examinations.

Applications and admissions for last three years are shown in the following lists (country is that of university, not necessarily of birth).

Fourth Year

1964 Twenty-two applicants from Australia, Britain, Malta, Ireland, New Zealand.

Six offered admission.

1965 Twenty-five applicants from Australia, Britain, Ireland, New Zealand.

Ten offered admission.

1966 Twenty-six applicants from Australia, Britain, India, Ireland, Korea, South Africa.

Eleven offered admission.

The 1966 admittees are still in attendance; earlier ones — and, in fact, all admitted at this level for the past several years — completed the course without trouble.

Third Year

1964 Seven applicants from Britain, India, Malta.

Five offered admission.

1965 Fifteen applicants from Britain, China, India, Ireland

Six offered admission.

1966 Thirteen applicants from Britain, India.

None admitted (complete lack of space).

Of the 1964 and 1965 admittees, one has failed and two have had to write supplementals. Over the last several years failures have been very rare, but a few have proved marginal students.

Second Year

- 1964 Twelve applicants eligible to write qualifying exams — from Brazil, Cuba, Egypt, Germany, Greece, Haiti, Iran, Roumania, Turkey, U.S.S.R. and Yugoslavia.
Four wrote the exams (others did not appear) and three were admitted — from Brazil, U.S.S.R. and Yugoslavia.
- 1965 Sixteen applicants eligible to write qualifying exams — from Albania, Cuba, Egypt, Germany, Greece, Hungary, Korea, Lebanon, Philippines, Taiwan, Turkey.
Nine wrote the exams (others did not appear) and four were admitted — from Hungary, Lebanon and Turkey.
- 1966 Sixteen applicants eligible to write qualifying exams — from Argentina, Egypt, France, Greece, Indonesia, Iran, Korea, Philippines, Poland, Taiwan, Turkey.
Eight wrote the exams (others did not appear) and five were admitted — from Egypt, Greece and Indonesia.

Most of the above admittees are still in attendance, but our records of foreign graduates admitted to the Second Year in the ten years 1955-64 show —

11	were good-to-excellent students
7	were satisfactory
12	were poor (had some failures)
6	failed out or withdrew
36	

MEMORANDUM RESPECTING ADMISSION OF GRADUATES FROM EUROPEAN DENTAL SCHOOLS TO THE FACULTY OF DENTISTRY, UNIVERSITY OF TORONTO

1.
The sole authority for the issue of a licence to practise dentistry in the Province of Ontario is by statute (The Dentistry Act) vested in the Royal College of Dental Surgeons of Ontario. The present address of the College is 230 St. George Street, Toronto 5, and application should be made there for any information regarding the licence.
2.
The function of the Faculty of Dentistry of the University of Toronto is to prepare students for admission to the degree of Doctor of Dental Surgery.
3.
At the outset, it should be stressed that the pattern of dental education in Europe differs materially from that on this Continent.
4.
With this difference in mind committees of the Council of the Faculty of Dentistry and the Council itself have devoted many hours during the past ten years to the study of the requirements necessary to prepare the dentist graduated from a European university for graduation from this Faculty.

5.

Recently the number of graduates of European universities seeking admission with advanced standing to the Faculty has been eight to ten times the number of places which could be made available in the regular undergraduate classes. The limited facilities of this Faculty have necessitated a restriction on the number of candidates (both regular Canadian and all others) being admitted in any one year.

6.

The candidates for admission to advanced standing present a wide variety of academic credentials from universities all over Europe. In an endeavour to assist the Committee on Admissions in the selection of candidates from the many applicants for the few available places, a Qualifying Examination is held. This Qualifying Examination must be written by all graduates of European dental schools who wish to apply for admission. It comprises four written papers on subjects basic to courses in dentistry. A synopsis of the field covered by the examination in each of these courses is sent to the prospective candidates well in advance of the time of the examination.

7.

Candidates from among those taking the Qualifying Examination are selected for admission to the Second Dental Year on the basis of

- (a) academic credentials and other details submitted relating to their curriculum vitae,
- (b) the results obtained in the Qualifying Examination.

8.

Provision is made for promotion of those exceptional graduates of European dental schools who, in competition with the regular Canadian undergraduate, demonstrate superior knowledge and skill. Upon successful completion of the Second Dental Year, these special students may be promoted directly to the Fourth Dental Year — thus requiring only two instead of three years to obtain the degree.

9.

Our experience leads us to the conclusion that the present practice is equitable. It provides as rapid a programme of re-orientation as the average graduate of a European dental school can assimilate and yet it provides for the candidate with more than average ability.

10.

We believe that the educational programme which has been developed in the Faculty of Dentistry, University of Toronto, for the dental graduates from European universities is founded upon a realistic appreciation of this complex problem.

WORKSHOP ON PREVENTIVE DENTISTRY

Representative: Dr. J. D. Purves

REPORT

Fall Meeting — 1966

Recommendations Based on the Report of the Workshop on Preventive Dentistry Sponsored by the U.S. Army Dental Corps, The University of Missouri in Kansas City, and The Proctor and Gamble Company.

The following recommendations are based on such preventive practices as caries control, preventive orthodontics, preventive periodontics; disease prevention in operative, prosthetic and surgical procedures in their broadest context; and are considered from the standpoint of both dentist and patient.

1.

Continuing Education

The undergraduate course in Preventive Dentistry at the University of Toronto is regarded as a symbol of excellence on this continent. To bridge the gap, however, between theory and practice, it is recommended that workshops, post-graduate courses, lectures and clinics with clinical demonstrations be instituted for the practising dentist. These programs could also be made available to hygienists and other allied personnel involved in preventive dentistry education in schools and institutions, etc.

2.

Revision of Dental Fee Schedules

Dental fee schedules give little recognition to preventive aspects of dentistry. It is therefore recommended that these schedules be revised to incorporate reasonable fees for preventive services rendered, as an incentive for their increased use in dental practice.

3.

Publicity and Public Education

It is recommended that public dental health programs be strongly supported at a provincial level by the Ontario Dental Association and nationally by the Canadian Dental Association; and that such programs utilize extensively all media of communication to direct public attention to the preventive aspects of dentistry and its desirability.

4.

Expansion of Licensing Examinations

It is recommended that the Board expand the present licensing examinations to include questions on current preventive practices.

5.

Establishment of Grants, Scholarships, Etc.

It is recommended that commerce and industry be canvassed for funds to establish grants, scholarships, and prizes at both undergraduate and post graduate levels in order to stimulate interest and promote research in preventive dentistry.

6.

University of Western Ontario

It is recommended that the Faculty of Dentistry at the University of Western Ontario be encouraged to develop a strong Department of Preventive Dentistry.

7.

Ontario Dental Association

It is recommended that the Board apprise the Ontario Dental Association of its concern in this matter and of the need for a full preventive program in this province.

Action:

1. Report received.

ADDITIONAL ITEMS

Special Meeting, August 1966

Committee on the Healing Arts

The Committee on the Healing Arts has been appointed under an Order-in-Council, approved by His Honour the Lieutenant Governor of Ontario, dated July 14th, 1966, and pursuant to The Public Inquiries Act. It will inquire into and report upon all matters relating to the education and regulations relevant to the practice of the Healing Arts (professions and occupations in the health fields).

In its inquiries the Committee will consider such matters as:

- entrance requirements, education, instruction and training for the practice of all the Healing Arts in Ontario.
- constitution, powers, duties, and regulation of any educational, licensing or disciplinary body having any relation to the Healing Arts.
- appropriate methods for the supervision, control, regulation, and discipline of all those practising or professing to practise any of the Healing Arts in Ontario.
- existing or possible methods of examining, licensing or otherwise authorizing the carrying on by individuals of the practice of any methods relating to the Healing Arts, the standards prescribed and followed or proper to be established and followed.
- the merits of the services and practice of all the disciplines associated with the Healing Arts.
- the existing laws of Ontario in relation to the foregoing and their practical operation on any related matters.

The Board approved a motion that three members of the College be appointed to guide and assist the Secretary in the preparation of a Brief to the Committee on the Healing Arts.

1967 Convention

A motion was approved that the R.C.D.S. in conjunction with the O.D.A. host the C.D.A. Board of Governors and other appropriate guests on the occasion of the Centennial Convention of the C.D.A./O.D.A. in May 1967 and that Dr. J. D. Purves be allocated funds for this purpose.

Fall Meeting

Historical Marker

The Board considered a proposal that a historical marker be erected, marking the site of the first Dental School in Ontario.

Incorporation

A motion was approved that the Board establish a committee to study in depth the question of incorporation of a dental practice and report on this question at the next meeting of the Board.

Meeting with Governing Board of Dental Technicians

A meeting was held with the Governing Board of Dental Technicians at which the following topics were discussed:

- (1) Bootleg dentistry
- (2) School for Dental Technicians
- (3) Unethical practice of referring patients to laboratories
- (4) Lack of communication between the profession and the dental technicians

As a result of this meeting, the President has transmitted a letter to all licensees emphasizing the following points:

- (a) the legal requirement of providing a full and complete prescription with all cases sent to a laboratory.
- (b) the unacceptability of patients being referred directly to a dental laboratory, and
- (c) the need for dentists to recognize their financial obligations to technicians who have rendered services for them.

REGULATIONS

SIGNS

A member of the Royal College of Dental Surgeons, in connection with his profession:

1. May not display or permit to be displayed any sign other than a sign which in its character, position, size and wording is merely such as may be reasonably required to indicate the location of and entrance to the premises in which a dental practice is being carried on and in which no letters larger than four (4) inches are used.
2. May not display more than two signs in addition to one at or on his entrance door.
 - (a) Not more than one of these may be a suspended sign.
 - (b) Not more than one of these may be an illuminated sign and if illuminated must not be intermittent, daylight, "Neon" or "Neon type" and no colours shall appear in such signs other than white or black.
3. May not display any sign on premises other than those in which his practice is actually carried on.

Notwithstanding the above regulations he may (using only unilluminated letters or figures not larger than two (2) inches:

- (a) Add to his entrance sign, his office hours.
- (b) Add to any sign the words (when an entrance is difficult to find) "Entrance on . . ."

PROFESSIONAL CARDS AND ANNOUNCEMENTS

A member of the Royal College of Dental Surgeons, in connection with his practice:

1. May not permit to appear in any newspaper or other publication, printed or written for distribution or display anything other than his professional card (which may contain at most his name, title or degrees, profession, address, telephone number and office hours) or an announcement of his commencement of practice, change of office location, absence from or return to practice, or the restriction of his practice. The announcement shall not contain any reference to qualifications, procedures or equipment. The space used, for either card or announcement, must not exceed one column (13 ems) in width by two inches in length and must not be in the nature of a display.
2. He may, however, observing the dignity and ethics of the profession, without reference to qualifications, procedures or equipment:
 - (a) Use private professional cards.
 - (b) Issue accounts and receipts.
 - (c) Issue appointment cards.
 - (d) Mail to his patients recall notices.
 - (e) Mail to his patients and acquaintances announcements of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice, provided he is a certified specialist.

SOLICITED ADVERTISING

For the protection of the Profession from solicited advertising, the Board prohibits any member of the Royal College of Dental Surgeons from inserting his professional card in hand-bills, programmes, year books or other printed matter of like character.

TAKING OVER A PRACTICE

When any member of the Royal College of Dental Surgeons takes over the practice or office of another member of the College, either by purchase or otherwise, the member so acquiring the said practice or office shall not after one year from the date of such acquisition use any sign or printed matter which suggests to the public that the retiring member was in any way associated or connected with the said practice or office.

TELEPHONE DIRECTORY LISTINGS

1. No display advertising of any kind.
2. No black face listings in the yellow pages.
3. No specialists' list under separate group headings.
4. Mention of office hours is of no particular value and is usually used only to increase space, therefore to be excluded.
5. Mention of particular facilities or equipment, such as X-rays, gas extractions, etc., not acceptable in either section.
6. Residence listing in yellow pages, as well as in white pages, is acceptable.
7. Designation as specialists may be used in both yellow and white pages, provided the dentist is a specialist certified in and restricted to the designated branch of dentistry.
8. No "By-District" listings in the yellow pages shall be permitted.
9. The name of a clinic, dental centre, partnership or other form of dental group may be listed in the white pages and a list of the members' names may appear thereunder as well as in his/her section in the white pages. Such listings may include the certified members' specialty designations.
10. Should the name of a clinic, dental centre, partnership or other form of dental group be listed in the yellow pages the names of the members may not be listed thereunder but the name of each may be listed in his/her alphabetical section of the yellow pages. Such listings may include the certified members' specialty designations.
